Senate Agenda 1/14
Associated Students UCSB 76th Senate
Senate Voting Tracker

Zoom Link

Minutes/Actions recorded by: Sydney Arbolado, Summer Tucker, Liliana Dritz, Melina Magno.
CALL TO ORDER by Enri Lala, Internal Vice President **at PM.**
This meeting was called to order at 6:34PM in the Flying room A by IVP Lala.

A) MEETING BUSINESS

"Before we begin, we call for students to acknowledge that the lands that the University of California locations were built upon were expropriated & founded upon exclusions and erasures of Indigenous people's human rights throughout California. UCSB is built on Chumash Land, specifically that of the non-federally recognized Barbareno tribe. As an association that pushes the student bodies' voices to the forefront, we should aim to make strides past just acknowledgment to those who continue to fight for their right to be recognized & respected as the original stewards of this land. I ask you all to dedicate time & care to personal education & to advocate for justice alongside Indigenous peoples."

A-1) Roll Call

Amna Chaudhry	✅ Present, ☀️ Early	Off-Campus Senator
Caleb Claro	⛔ Absent	College of Letters & Sciences Senator
Alec GeoSimonian	✅ Present, ☀️ Early	College of Creative Studies Senator
Mia Gutierrez	⛔ Absent	On-Campus Senator
Neo Harter	✅ Present, ☀️ Early	Off-Campus Senator
Xander Hepburn	✅ Present, ☀️ Early	Transfer Senator
Yuchang Jiang	✅ Present, ☀️ Early	International Senator

Melanie Jones	✅ Present, ☀️ Early	College of Letters & Sciences Senator
Noah Luken	✅ Present, ☀️ Early	Off-Campus Senator
Victoria Ly	✅ Present, ⚫ Late	Off-Campus Senator
Qhawe Manala	✅ Present, ☀️ Early	International Senator
Vanessa Manakova	👍 Excused	Off-Campus Senator
Nadine Malhis	✅ Present, ☀️ Early	On-Campus Senator
Olabisi Ola-Olaitan	✅ Present, ☀️ Early	University-Owned Off-Campus Senator
Keizo Ono	✅ Present, ☀️ Early	Off-Campus Senator
Romi Riss	✅ Present, ☀️ Early	Off-Campus Senator
Erica Sherkin	✅ Present, ⚫ Late	Off-Campus Senator
Evan Sussman	✅ Present, ☀️ Early	Off-Campus Senator
Sohan Sunderrajan	⛔ Absent	College of Letters & Sciences Senator
Mira Than	✅ Present, ☀️ Early	Off-Campus Senator
CJ Toledo	⛔ Absent	College of Letters & Sciences Senator
Jasmine Wang	✅ Present, ☀️ Early	On-Campus Senator
Eeman Wahidullah	✅ Present, ☀️ Early	Off-Campus Senator

A-2) Excused Absences

Motion to excuse Senator Malhis at 8pm for the duration of the meeting
Wang - Wahidullah
Call to question - Ono
This motion passed at 6:36PM.

Motion to excuse Senator Ly until 8pm
Sussman - Ono
Call to question - Wahidullah
This motion passed at 6:26PM

Motion to excuse Senator Wang from 8:20pm to 9:50pm
Malhis - Chaudhry
Call to question - Wahidullah
This motion passed at 6:36PM.

Motion to excuse Senator Sherkin until 7pm
Sussman - Ono
Call to question - GeoSimonian
This motion passed at 6:37PM

Motion to excuse Senator Ola- Olaitan at 9:45pm for the duration of the meeting
Wahidullah - Ono
Call to question - Chaudhry
This motion passed at 6:37PM.

Motion to excuse Senator Manakova for the duration of the meeting due to health issues.
Jiang - Chaudhry
Call to question - Ono
This motion passed at 6:37PM

A-3) Acceptance of Proxies

B) External Reports

B-1) Chancellor's Representative-

Suzanne Perkin (8:19PM)

- Thank you so much for listening
- Assistant Vice Chancellor for Student Life position
- Normally I just like to listen and observe, but there are a few things on my list today that I feel like would be good to share with you all
- Our student affairs exec group met with the chancellor today and he had
- Really positive things to say about your leadership and senate and every student rep from AS so far
- High praise coming from a chancellor
- Done such an awesome job being professional and respectful
- Appropriate with him, and that's not always the case every year

- Just really want to commend you and appreciate you
- Wanted to give a little of an update, your president Le Anh, with support of Miles
- They are running in collab with their committee the search for a new AS exec director
- That has kicked off, applications are in, will be reviewing them soon
- Some point later in quarter, they'll give you an update
- The other thing I wanted to clarify is about international travel for organizations
- The decision making on that comes to me
- If you have a group that comes to ask who to reach out, they can email me directly
- I have a few questions that I ask all of them, want to look at their travel plans
- One of the main factors is if there are travel advisories in the country they are going to
- If there are, I'm probably going to have to deny the travel
- It's not that they can't go, it's not that they aren't eligible to apply for campus funding for it
- It's that they're not eligible for campus funding for it
- That's on them, they're taking that risk
- To receive any form of your money, they can't travel to a country with travel advisors
- The final thing I wanted to briefly chat about was save student services initiative that's being put forward through the campus elections commission
- This was the brain child of a work group in student affairs
- That work group has been meeting for over a year to discuss how student affairs are the stewards of student fee money
- Student fee money funds a number of our departments and services that you all benefit from
- We want to make sure that money is being spent appropriately
- One of the things that came out of that group is that student fee money has really lagged because those student fees passed 1 or 2 decades ago
- The buying power has reduced and the services have retracted
- The idea was let's put something forth
- This is the problem and give students the option of if they would want to vote on it
- What we know is that none of us like new fees, what we know is that that money doesn't come from the air
- It comes from students one way or the other
- Either the regents raise your tuition and then we can fund some of these services
- Or we give students agency and decision making power to decide what they want to support
- When they want to support it
- Through a process where you vote on your fees
- That's what all the UC campuses have opted for
- All campuses have AS student fee vote process so students can support programs they want to support

- Right now, the petition out there is simply to put this on the ballot
- What they'd be voting on is whether they'd say yes or no to an inflationary increase that would up
- There's 18 fees that have lagged that have had no cost of living adjustment or increase in the past one or two decades
- If they wanted to catch those up to today's dollars
- And then moving forward have something that attaches to it
- By signing a petition, no one's saying yes or no, they're just saying
- Yes I would like the opportunity for students to vote on this in the spring election
- When it comes to spring election, all of those 18 fees will be voted on individually
- All of those 18 fees will be voted on individually
- You'll have opportunity to pick and choose what you want to support
- I really don't want people to see this as an ask from student affairs
- We don't have a stake in this
- These are your services
- We're trying to present the problem
- Here are your options, is this something you want to vote on, and if you do,
- What is it out of those 18 things so you don't continue to lose services
- You've seen folks out around campus collecting signatures
- It is an electronic petition
- If students ask you about it, which they might, I wanted to give some background
- I thought it was important to give background

Sussman
- Not only are student wide fees being on the ballot for increase, as well as tuition is going to be increasing UC wide
- Is there any way AS can help mitigate those costs, going to be thousands of dollars some years from now?
- 5% increase and 5% deduction from financial aid
- Is there a certain amount of signatures that have already been acquired?

Perkin
- Is there anything you can do
- I think what you can do is demand some accountability for these fees
- This is something we're already discussing
- At some point, anyone who might be interested, we are trying to figure out if departments and services
- We're trying to figure out, is there a way which departments and services who use these fees say this is how we spent your money
- How do you want us to spend it next year, if there were going to be inflationary increases, how can those be divided up
- That's something that's kind of in the works
- The other thing I would say is to look at your AS fees
- Which is fantastic, gives you money to spend
- Are those dollars getting spent or accumulating

- Student money is supposed to be spent, if you don't give that service it's not okay
- Having some accountability there
- The graduate student association once they looked at their fees, said they are overfunded and paused one of their fees
- Once they looked at their fees, they're overfunded
- They wrote to chancellor, about their bus pass fee
- Have enough funding to support the next 4 years too
- They asked to pause it for 4 years and chancellor at the time approved that
- All fees go up for reaffirmation
- Just because they are voted in once, doesn't mean they are
- All AS fees come up for reaffirmation every 2 years, so you get a chance to re vote on them, and all campus elections fees come up for reaffirmation every four years.
- Not making a decision for all future students for ever and ever
- Think about what's important and what you want to vote yes or no
- The second one is how many signatures have been collected
- Were close to 600 student services fee, reef is 400-450 at this point
- The reef is a program through MSI
- They do hands on learning, touch tanks
- They are going out for a fee to support their program but that is separate from save student services initiative
- That's independent and separate

Lala
- That's a separate fee from student services?
- Is it about 3500?

Perkin
- Correct
- 3,500 signatures to collect to make the ballot

Lala
- Why are they separate?

Perkin
- Reef doesn't have currency, trying to go up for something brand new
- These 18 departments already have fees
- Their fees are so old that they've lagged

Ono
- Thank you for coming in
- If there was a 100% approval for save student services
- What's the cumulative increase in cost for student

Perkin

- If it makes the ballot and students vote yes and improve the increases
- It would add about 40$ per quarter for students
- Return to aid is attached to these fees
- So all of that money which is about 25% of fee charge goes to financial aid which goes back to
- Which financial aid gives back to students
- All of these fee increases would be covered through students through return to aid model

Ono
- Is there a contingency these departments have if the ballot doesn't go through
- Or some of them just don't make it

Perkin
- There's not right now
- If let's say there are not enough signatures, then we have to reassess
- Is it that students don't want these services, or was it too big of an ask?
- Need to think about that and analyze it
- See what maybe we put forth the next year
- Continued conversation
- What we know is the budget's not getting any better
- Not that they go away
- They would stay at their current level
- Every year things get more expensive and the buying power reduces
- There is a $3 fee for the childcare center that all undergrads and grads pay
- And that used to provide money for children's center to pay all 100 undergrads that they pay for entire year
- Now it doesn't cover a quarter, it was passed in 2005
- They're struggling, need to pay 100 undergrads and this is the fee that we have

Lala
- I think some of the specifics matter here
- I went through this with student services online
- Did the math very rudimentary
- 177.10 is that per year?

Perkin
- You don't want to add up the total in the far column
- Currently what you pay plus increase
- Need to add up the second column, the inflationary increase
- On top of that 40$, would be return to aid portion
- Return to aid is just in the way that the campus collects it
- It is a separate item
- Probably notice if you look at petition there there's multiple columns
- First column is what you are paying to the department

- Not including return to aid
- Second column is what the inflationary increase would be to bring it up to today's dollars
- There's the additional return ot aid that would need to be paid and administrative assessment
- The administrative assessment goes back to campus
- Goes back to campus to support the administration of these fees
- Total column on the end is what the total fee collected would be

Lala
- Total is for those 18
- Could you tell me what the exact figures are per quarter?
- Does that remain the case even in summer?

Perkin
- Summer is smaller because not all fees are collected in summer and for some the amount is less
- If they all passed, the amount of inflationary increase would be about 40$ per quarter per student
- Then there's return to aid on top of that
- That's money that goes directly back to students
- In the summer, there are probably out of the 18, probably about 10 that collect the
- Some of them collect whole fee amount
- Some of them don't

Lala
- Does 40$ include admin assessment?

Perkin
- No that's just the inflationary increase

Lala
- For the childcare fee specifically, you'd say that same fee would cover a year and a quarter
- This is important because somewhat difficult for nonfinancial brains to understand
- Is it not the case that the childcare fee has a significant rollover, to an amount of 6 figures?

Perkin
- I think you are thinking of the childcare grant fee
- This one specifically goes to childcare center
- There's one on west campus and one on SRB
- The department pays staff salaries and student staff salaries
- They're accepting tuition from parents

- Their $3 childcare fee has funded the 100 TAs they hire
- Now only funds it for less than a quarter
- If I could wave a magic wand and simplify fees on this campus
- It is so complex for so many reasons

Sherkin

- IVP Lala just to answer that, we do have rollover for the one that you're talking about, talked to Micheal
- It's about 225k and I'm trying to work on that and if anyones interested let me know
- Full transparency, I saw this ad for this petition in the rec center and after doing some research
- After doing brief research, this conversation isn't up to date
- Not every student is in this seat
- Concerned that students will just think our fees are going up and not understand nuance
- What would happen if this wasn't adjusted for inflation
- Conversation
- Obvious that this needs to happen because of deficits
- If you have any insights to how we could bring this forward to students, yes your fees are going up but not in the traditional way

Perkin

- You can't just send an email with a QR code and an email
- It's confusing, complicated initiative
- We have to be out there talking to students, and have individual conversations with students
- We've been trying to get in front of every student group that will let us come in
- There's a student affairs student cabinet that I met with
- The chancellor has a student cabinet that we are going to talk to
- Met with SBACK?
- We have spoken to graduate student association
- I'm here tonight
- If you have a group that you'd like us to come present to,
- A club, organization, please let us know, we will do it
- I totally agree with you, it takes conversation for sure
- That's where I feel like you could all be advocates
- Some students will see this and be like what and others
- Trying to avoid students being like don't raise our fees by 40$
- We don't know if all of those increases will pass
- Not fair to say if this goes on it's 40$, only if they all pass
- That's a little bit of a tricky conversation
- It's a lot to explain, 5 columns
- If this does make the ballot, committed to doing quite a bit more informational campaigning

- Right now we are trying to not overwhelm students too much and get the concept of what is inflationary lag and why is this important
- And why is this important
- Happy to come talk to any group you'd like

Harter

- Speaking from the student perspective, my question is going to sound hostile
- Speaking from the student perspective, most students think administrators like yourself get paid way more money than you guys should
- I don't necessarily believe that myself
- It's a known fact, particularly the chancellor
- I'm wondering, what is the process like of reducing your pay and the chancellors pay to something like this?
- As opposed to asking students to continuously pay more money
- While they also hold the belief of the chancellor having a new house, what is that process like
- Can you enlighten me to the process of that?

Perkin

- Staff salaries are set by both the university of california and the campus
- All staff jobs are classified and graded into pay grades and so if you have a job that is grade 21 there is a salary range for that
- If you have a job that's grade 21 there's a salary range for that
- That salary range is determined based on market value
- What would a person who worked in private industry or college be paid for similar work?
- Because that's how you recruit talent
- People can make 4x as much in private industry rather than here
- Based on market value and demand
- How hard is it to get someone to fill the position
- Those salary scales are based on a whole bunch of information
- There's not a mechanism for the chancellor to make 500k less then there would be no one willing to be the chancellor
- If the chancellor made 500k less, there'd be no one willing to be chancellor
- When you think about it to, the money for staff salaries is a whole different budget item than student services
- Not a one for one, if they reduce that, all money would go to student services
- Here at UCSB there is the cost of living in SB that is quite high
- I don't know if your fellow staff members of AS would be too excited
- Where I get back to is the student agency on these fees
- If we didn't have this process, administrators would be making the decision for you
- You don't want us to be diving these things
- You want to be able to say on your ballot, I love CLAS, I love recreation, I want to support xyz

Harter

- People come up to me all the time and ask stuff like that
- Why do you guys get paid so much so I just wanted to thank you for clarifying that for me so that we are all equipped to explain that to everyone else
- Thank you for clarifying that to me so I'm equipped with the tools

Luken

- Is there any way we can explore
- To have included in the fee language a cost of adjustment so that it automatically increases
- So that year by year it increases and we don't have to go through this process

Perkin

- It already exists and applies to a few of your fees
- Your AS fees have a cost of living adjustment, some of them
- However, the way its set up is a 5 year lag
- The fee is an amount and then it lags for 5 years, inflationary catch up, then 5 years
- Campus election fees, CLAS and CAPS have it
- Attaching the COLA to their fees
- Want to do it annually instead of 5 year lag
- What we have found from the lag is that it's really hurting departments and services
- 5 year lag is big sometimes

Sussman

- If inflation were to decrease on an annual year, fees would decrease?

Perkin

- They would decrease, that's how it's set up
- We had some years where there was no inflation

Geosimonian

- This is somewhat semantic but I think it's important we clarify
- Important that we clarify exactly what you meant
- You said earlier you wouldn't approve travel to anywhere with an advisory
- There are countries like UK and France that are generally safe to visit
- That have level 2 travel advisories

Perkin

- Level 2 is a fine line
- Look at factors like who are they going with
- Level 3 or 4 is not going to be approved

Geosimonian
- Understandable

Ly
- I was going to ask if there is a mechanism for students to decrease student fees
- Affirmations or increase, never a decrease or do you still want this department here?
- It gives students a choice but eliminates one half of a choice

Perkin
- The reaffirmation process is meant to be that process
- We are the only UC campus that does reaffirmations
- Every other campus, once it's voted, exists in perpetuity
- Thank you to students 30 years who said they didn't think it was fair, they created the reaffirmation process
- Help students understand that fees are on the ballot too
- You get students who don't know any senators or presidents, but there's like hundreds of dollars of fees on there
- There's like hundreds of fees on there that they should be giving their input on
- You saw what happened trying to get 20% of students to vote
- Tons of fees on there last year
- Could hardly get 20% of students to vote
- More education this year
- We are dropping hints because we want voter turnout to speak

Ly
- Just to clarify, if a department doesn't get reaffirmed, that eliminates their fee

Perkin
- It does

Lala
- In the 3600 figure that needs to be gathered, grads or undergrads?

Perkin
- That's only undergrads
- We have to get 450 additional graduate students
- 15% of grad student needed

Lala
- So those are tied together, we either pay this or not and they're separate fees

Perkin
- Half of the 18 fees include grad students
- If the graduates approve it, it will go on their ballot that includes them

- You'll see in petition those are the ones that include graduate students

Lala
- For the childcare grant, I think it matters for its own purposes but also as an example of the other one
- It matters both for its own purposes
- Whether the rollover from childcare grants will be used to fund childcare center for at least a year or two
- You mentioned that there is a possibility
- Seems like that might also be an available option here as well
- If all else is still functioning, we can pause it
- Is that an option?

Perkin
- Yes absolutely
- In terms of transferring to childcare center, can't do that because ballot language is considered a contract
- Ballot language said 'this many to create a grant program for childcare'
- That's really different than the $3
- Which said do you want to pay 3$ a year to employ
- You can't transfer it over
- You absolutely can say we have 200k, maybe we shouldn't charge students on this
- You could put it on pause
- The mechanism to put it on pause is chancellor approval
- You could decide that as a senate
- The chancellor is going to say yes because the fewer fees the better
- Particularly if you could still fund the service without having to charge students even more

Lala
- The childcare grant already distributes funds elsewhere
- That's great to know

Harter
- Is it the case that when students do decide the fee through their own agency
- Is it the case that there's essentially a confirmation that tuition will not be raised?

Perkin
- Such a good question
- It's not tied to that
- Different process
- Regents determine tuition
- Somebody that they approved the 5% increase but its for the incoming cohort
- You will not be affected by that, still bound by cohort you came in with

- We have cohort based tuition
- The student fee piece what it really does is if you vote yes to a fee, the idea behind student lock in fees,
- What it really does is if you vote yes to a fee, idea behind lock in fees is that you're funding things the state wouldn't fund anyway
- It was always meant or intended to be extras
- They see rec cen as extra so that's why
- That's why students voted to pay to build a rec center, now you pay rec feese
- I think we've gotten to the point now where student lock in fees are funding things the state used to pay for but the state continues to pay back money
- The state continues to pull back money
- Nature of the reality
- Not tied back to what regents decide for tuition
- Although they do look back at campus fees

Harter
- So previously it was almost like a dichotomy, we either choose to increase fees ourselves or this process

Perkin
- Let's say all these fees go up for reaffirmation, and you vote them all down
- Now there is no funding for CAPS, DSP, CLAS, nothing
- Nothing
- That would be really big problem
- Chancellor would have to go to the regents and say that we have lost 40 million in funding
- Bc the students voted it down
- No way they'll let you have none of these services
- They would probably be we can give you this little pool of money(not 40 million)
- It would be the chancellor's office that determine how it gets split up

Manala
- In terms of those stagnant amounts
- Is there a way of creating a process autonomous process where by past certain thresholds those monies get automatically relocated or recollected
- Or does that always have to be a manual decision
- Do we have to always decide or speak on recollecting funds
- Can stagnant funds come back into the pool of available
- Unused funds

Perkin
- Really you shouldn't have any rollover funds
- In a perfect world, that wouldn't happen because of nature of what's supposed to happen
- We know what happens

- Department can't hire someone, person who runs program leaves and can't run it
- That money really cannot be reallocated without a vote because the ballot language is a contract between the students and department
- Because the ballot language is contract
- One of challenges of lock in fees
- Do have some money sitting out there that we cannot reallocate because of these contracts
- At least in student affairs cannot reallocate
- You all in AS have a little bit of leeway, that your fees are more general, like your membership fee
- Departments don't have that ability to do so

B-2) UCPD Representative-

Chief Bly? I think

- Good evening respective Senators of UC Santa Barbara Associated Students. I'm here to listen to the report out regarding the planning approval and financial approval for the bike path over near the ILP, which has been a topic of discussion over the last several months, including multiple Associated Student Senate meetings last quarter. I just wanted tof normally thank the Senate and formally thank the Associated Students Bike Committee, the Chancellor's office, and capital planning at UC Santa Barbara. When the community safety plan was launched several years ago, this is exactly the collaboration and holistic approach to public safety that the University of California had in mind to address ongoing public safety issues on campus. This was a very collaborative effort and I wanted to formally thank Senators and other organizations for their participation. Just some data to date, not much has changed since the fall quarter regarding the bicycle education enforcement data that I had previously shared, much to do with the winter break that we all had. To date, we still have about 1590 warnings that UCPD has provided to community members out in the areas of ILP, elsewhere on campus, but mostly specifically to ILP and the SSMS area of campus. So 1590 warnings and 10 citations. I'm open to answer any questions that the Senate might have for UCPD or myself, but again, I just wanted to formally thank the Senate, our Associated Students Bike Committee and those other respectful organizations on campus.

Wahidullah

- Thank you for coming here and attending today. Your consistent work has been highly appreciated as well. One particular question for additional information that the senate would like to know. Since particular funding has been approved, do you have feedback you can give to the senate on what your next step going forward is when it comes to programming and how this will be looking for the

UCPD for next steps? Like how you might be restructuring your programs from the fall quarter.

Bly

- Similar to fall quarter, we are going to continue with education and enforcement campaigns. We have this interim time frame prior to the completion of the iLP bike path where we will still need to mitigate unwanted risk of biker pedestrian interaction. It will continue to be a balanced approach and our officers will have discretion to issue citations, and as a reminder those citations are adjudicated interimly in the university through an online course or $40 administrative fee versus going down to traffic court at Santa Barbara superior court. We are still focused though on the education aspect and providing warnings as well. One of the things we talk about internally is bicycle safety at night especially with daylight savings. We are starting to have the sunset later now which is nice in my opinion. Bicycling on campus or in Isla Vista at night can be dangerous. It is California law that all bikes have a forward facing light and a rear reflector light. We have talked about rewarding good behavior as well so I recently authorized purchased of hundreds of bicycle lights to be handed out by UCPD personnel, while we are doing this type of education and enforcement work on campus. That would build up to the February 17 plan community outreach event collaborating with CHP and SBSO at Pardall Center. Those are some of the things we have in mind to mitigate on campus risk prior to the completion of the ILP bike path.

Senator sherkin arrives at 6:44PM

Sussman

- One of the items on the agenda is a student safety temporary committee, which we discussed forming. For the public and other senators can you explain what the initiative and goal is?

Chief Bly

- Thank you for bringing that up. Going back to the community safety plan, collaborative holistic approaches to safety at UCSB. Personally, I think it's very important for students to have a direct voice and connection to UCPD when some of these public safety topics come up. UCPD is committed to participating in those bike subcommittee meetings on a weekly basis, whether it's myself or one of my subject matter experts that can fill in and get the opinion from the subcommittee on what we are looking to do in our public safety strategies at UCSB. Obviously there were a number of concerns of the community this past fall. This past fall, we had a number of concerning assaults that occurred. Immigration enforcement continues to be a topic of concern and discussion on our campus, as well as a number of other items, so it's just an opportunity for that subcommittee to have direct contact with UCPD, and then for the subcommittee to be able to report out directly to the Chancellor's advisory group that was receiving form. We're very

excited and thankful for the opportunity to participate as a de facto member of that subcommittee.

Unanimous consent to move into item D public forum 6:46PM

B-3) GSA Representative-
B-4) University Center Governance Board Representative-
B-5) IVCSD Representative-

C) New Business

Motion to amend the agenda and add A Resolution Condemning the Santa Barbara County Board of Supervisors' Decision to Approve the "Deltopia Noise Ordinance"
Luken - GeoSimonian
Call to question: Ono
This motion has passed

A Resolution Condemning the County Board of Supervisors' Decision to Approve th...
Luken - Hepburn

Luken
- This resolution was drafted after the decision yesterday, the decision being to impose the noise ordinance that could be implemented on the weekend of deltopia, or whenever the sheriff's sheriff's office believes that del topia will happen. And so this resolution is to take an official position for the association regarding our stance on the County Board of Supervisors approval of that noise ordinance.

Hepburn
- Very simple, you can read it
- Says the majority of student body doesn't want it to be canceled
- So we take a position

Luken
- Similar to the safety committee resolution it seems that a response to
- It seems that a response is, a quick and timely one , passing this tonight would be a smart move politically

Lala
- Perhaps this in the safety committee being considered in the same meeting might draw the Board of Supervisors attention to the other safety needs on this campus, such as the ability to walk home safely without being assaulted, and not just one party here

Sussman

- Point of information
- Is the senate allowed to speak on association's behalf or is that only the president

Lala

- That's almost a question that goes beyond legal code. You're taking your position as a legislative arm of the association. That doesn't necessarily mean you speak for every single member of it, but you're able to sign contracts on behalf of the associations. It's the same kind of authority

A Resolution Establishing the Student Safety Senate Temporary Committee
Sussman-Riss-Ono

Sussman

- So this is a very brief resolution worked on it with senators recent Ono over the weekend or this past week, this was in partnership with UCPD to establish a temporary committee that would be held under the Senate, which would hear from UCPD on a bi weekly basis on areas of bike theft, lagoon safety, assaults on campus, all pressing things that we have heard about in Senate, but it's a more mutual relationship that can lead to better safety experiences on campus, including, you know, video and camera technology as well.
- This would be chaired by Senators Riss all vice chair it, and Senator Ono would be one of the Senate Senate representatives. There are two more Senate representatives, and of course, anyone else is welcome to a member. And all of the all of the entities which are listed in here, the EVLPA office, CoC, UCPD and the other BCUs, they've been in communication with us and are in support of this effort to make our campus a little bit safer with some extra Senate oversight,

Riss

- I just want to say that I think we've, like a lot of students, been criticizing, you know, what are they going to do about this situation and this about campus safety and like, it's sad that ultimately the responsibility falls on student senators to kind of push that process along. But I do think that we should do that with as much urgency as we can. So I would encourage any questions, but also support from the Senate

Ono

- We have covered everything but it is important to continue having a good relationship with ucpd
- Please consider this and it could turn out very well

Sussman

- The membership is listed at the bottom. There are three senators, Chair, Vice Chair. The senators are upon self appointment. So if you're interested, contact the chair. Then there's two BCU representatives. The recommended bcus are COsweb and Take Back the Night. And those are voting members. And then there's up to three student members. Those are just to get student input and feedback, and then the UCPD representativ

Riss

- also the office of the external vice and president of local affairs, as well as the cowsweb. And take back that, I have all been included in the conversation about this, and are all willing and excited to send representatives.

Sherkin

- Congrats
- I have three questions
- What was the rationale for 3 student representatives, could there be more?

Sussman

- I mean, the reasoning is because the Chancellor's Advisory Committee, which is going to be soon established, if it hasn't already, those are all non as members, and those this, this temporary committee is to report to them, and we're not limiting students from coming in and, you know, giving feedback. It's simply just voting membership to keep voting membership to, you know, an agreeable amount.

Sherkin

- we have a really strong relationship with UCPD, and I know our relationship with the patrol is especially important given the decision that happened yesterday. I
- 'm just wondering, is there any chance, like y'all would get them in these conversations, or is it more productive to have the UCP focus committee?

Riss

- I think it would be a wonderful idea to get them involved. I personally have not reached out, so I can't advise as to whether or not they'd be agreeable to that. But I, I do like, actually really agree with that suggestion. I think that's something that the committee would definitely like actively do.

Sherkin

- One more question for the lagoon project that you guys went to the coastal mission for, did really good work. Obviously, I think I know the answer. But would this committee continue that work?

Wahidullah

- I think this is great
- This is a great committee

- I think that if you need any assistance contact me
- Can you guys provide additional details on committee and pilot programs
- Within this temporary committee in collaboration with ucpd for example safety

Riss

- So far, we've been considering continue the legume safety projects as well, as well as considering video monitoring and other ways to make the campus more like technologically equipped to deal with safety and also, thank you for like your offer of support. I appreciate that.

Sussman

- Yeah, so when I met with Chief over winter break to discuss this committee, he really recommended focusing on, you know, the digital security aspect, meaning cameras and technology on campus, because, frighteningly, our campus is very much lacking in those areas. So that would look like, you know, security and monitoring around bike areas where bike theft is a very common crime on campus. You see stolen bikes is what we're called, unfortunately, lagoon area as well, monitoring and cameras in that area as well. So it's one of the initial first phases of this project, but holistically, we're focused on a safer campus for all. So whether that's lighting or, you know, implementing more safety guards or security guards or what are they called, CSOs, test court students at night, that's kind of what this is. And bi weekly, sorry, bi weekly, UCPD will be coming to us to give us recommendations. So that's kind of what the intent of this is.

Harter

- I'm definitely ready to support this
- My question is that why doesn't just advocacy committee do this?

Riss

- I think the reason that we wanted to establish a temporary committee on this now that solely focuses on campus safety is in light of the recent incidents and also the expressed interest from UCPD. So I think it would just allow for a closer relationship with UCPD and a group of students whose sole commitment is campus safety, so that we can, like, effectively and urgently create a report recommending something to the chancellor?

Sussman

- Yeah, I think this kind of goes back to the thing that I said at the very beginning of the year, is that we can't be everything to everyone all at once, as much as advocacy, Advocacy Committee, you know, as you said, it's in their right to do so, they also have a million things to focus on, whether that's the part all light tunnel, or representing marginalized bcus, or figuring out, you know, just campus representation.
- There's a lot to be there, to be there. So the goal was to have a specific group of students who were, you know, engaged in, rolled about this process to make our campuses a safer place, so that way we can meet on a bi weekly basis with the

UCPD as chief. I said it was their idea to have this committee installed in the first place.

Luken

- I really love the idea of trying to make our campus safer. I'm horribly scared, shocked and frightened at the idea of starting to like monitor students with cameras on campus and monitor bike spaces, not because of that idea that, Oh, you can see if someone stole the bike and try to get them, that's fine, but of what having cameras on campus means as a student, as someone who doesn't engage in criminal activity that's horrifying.
- I don't think that I would want to be and that the students that I represent want to be monitored in their day to day life. And I would urge the committee, if this gets created, against pursuing initiatives like that, especially given modern technological advancements and how they've been misused for monitoring in other capacities across the nation and across the world.

Sussman

- I need to clarify that. Just to clarify over winter break, this came up with cheap white and I expressed those exact same concerns. I said, What about the students who just go to the lagoon to have a smoke break? And sorry, it's that's the truth, you know. And that concern was well received. And the idea is not to record and monitor students every single move. Rather, if there's motion activated, you know, sensory in the lagoon area, like 2am and if the camera depicts that it's a person following another person, that's the general idea, right? And the UCPD is already committed that if cameras were installed, they would not use petty crimes at all like that. That's out of question, out of sight, out of mind. Since we have media here, since the rest of the senators are here, it's a very valid concern, which I share. But UCP is already committed to the Senate via that way that they will not use cameras to track for use, and use petty crimes against students.

Lala

- One thing that was mentioned is raising the question of how would you want this committee to respond to ucpd
- We would like ucpd to report to this committee
- Something worth considering
- Your retelling of the cameras is accurate
- This seems like the exact thing you would want on writing somewhere

Hepburn

- What about this directly allows us for cameras or is it just ideas

Luken

- Nothing

Motion to suspend standing rule B4 for the duration of the meeting

A Bill to Delegate Senate Social Media Responsibility to the Outreach Committee
Luken-Harter

Luken
- Thai bill is pretty straight forward and doesn't change anything except add responsibilities to outreach committee
- Everything else remains unchanged
- Makes a lot of sense
- Would love to hear your thoughts

Oseionou
- Hey guys. I delegate the account, the Senate account for all of you. 22 all 23 now, right, cool, yeah. Very soon our graphic. We have all the people who completed their forms. We have their graphics done. We also already have our plans for our Senate campaign this quarter, it's going to engage a lot more with committees like chairs, co chairs and basically getting students to understand and be educated on as and student Government. This bill in particular, I don't think this is something that should certainly be passed, mainly because, like, it doesn't necessarily make sense to have two two separate departments delegating the same account. And also, I mean, I don't know, am I? Am I kicked off that now I'm not kicked. You guys know that, so I just think it does to make a piece of legislation to govern my role for me when you could just speak to me instead. Also I would for Liaison Committee to actually be on this set of outreach.

Lala
- What do u mean on this bill

Oseinou
- The wording

Luken

- Thank you for sharing your thoughts. I want to clarify. This doesn't interfere with your role at all. It just adds senators, elected representatives to access the account that you know is supposed to show the work that they're doing right, which I think would be helpful, because we interact like we as the chairs of outreach committee, and the outreach committee interacts with the Senate as well as the student body much more than than you do, due to the nature of our role. And then, yeah, it keeps everything the same as is. And sounds like you have some great ideas for social media coming up. I think it will just promote collaboration and promote increased outreach, which, again, is the role of the outreach committee.

Oseinou

- I am literally safeguarding your guys' whole perception to the whole school and administration of when she was here, Susan, like every all those people are looking at that account and do frame their very highest opinions on what is being put on there. It's more of this is being given to the executive role, and not a senator, because we have second pro temp delegating the Senate side of assoc, USB Senate as its role, of Senate, hers, and then standing committees. So standing committees all get a chance on the thing, but Senator graphics, they're just graphics. They're not, they're nothing more. The things I want to do are more than what the account is supposed to be as of now. But I think just putting another person on account like this is such a big risk to your guys' whole institution.

Riss

- First, I wanted to thank you. I think you've been doing an amazing job this year. And also, I would like to thank you for showing up. You're at, like, countless meetings. I don't know if you guys have noticed, but he is always here, so he does know us as a Senate, even if we don't get to talk as much as we'd like to. I wanted to ask you, maybe, for the senators concerned, or like the purpose of the bill, that the Senate should have more control over the image, in what ways have you gone about trying to make that more accessible, or trying to get our feedback? Because I know that there have been a lot of efforts on your part. So I just thought it would

Oseinou

- . We have two forms now, actually, we had your introduction forms. You guys gave me quorum by September. And we called it your spotlight, your spotlight of vision. And you guys gave me quorum on that form either. But that is, what is. That is literally the only way for me to do any fucking more than to just the forms. Just do the forms. If you guys want to be there, it doesn't make sense to me that I have to be here because you guys aren't coming to me. Or second, pro tempt on stuff you guys want to do.

Jones

- Do any of the senators, like, feel that they've sent things in or requested to be highlighted on the social media and got denied, or, like, didn't get proper

representation? And like, if so, could you speak on it? And like, maybe why that was, like, not uploaded. You know who you reached out to, but that was like,

Luken

- I have, as well as Senator Hartor. We've sent a couple videos in that. Think of videos that didn't get posted, which is fine, or didn't get posted in the format that we had wished, which is fine. And I think it was something relating to the Save del Toby campaign of the pumpkin patch. I think you bring up a great point that you're not able to do your job as effectively as you would like to when people don't respond. Thankfully, we as senators have access every week to and have more frequent communication with other senators, which will make it easier for us to give this bill passes, you know, promote all that on social media. So I think you actually make a really great point for the bill and saying that, and I appreciate you pointing that out, and I would like to work with you through the passing of this bill to improve the Senate's social media presence.

Oseinou

- That doesn't make any sense to me. It just really, it won't help. The collaboration won't help. There hasn't been a collaboration already, and there's just, I don't think this account is about you guys individually or your committees. That's only a part of the account. You got, your graphics, your little graphics I made, those are the best, the only part that is so functional that you guys should be making me come up here for this. Anything else, any other videos like the video is not being submitted. They weren't, they didn't qualify. I delegate the account, so I don't think they qualify for a post or a story or whatnot. Taking me a year to finally reform relations with public affairs. UCSB, Instagram, those people. Emily Savage, very cool, very difficult to work with. It would be very detrimental to the Senate's outlook, especially this one, and for the past, able to have a senator on the account delegating it like I don't, I don't, I don't think you guys are understanding we are basically like public servants being a news a news source for BCU and for want to look at as. But this isn't like Oh, we are shouting out an event or any of that. I will start posting your guys' bills. I wait, usually a quarter before I start, because you guys aren't always consistent WITH YOUR BILLS

Wang arrives

Lala

- Those were posted right

Oseinou

- One wasn't posted because we already had it something about it

Jiang

- yeah, I have two quick points, and I want to start with a little anecdote. I don't know if you guys know that five years ago, or actually longer than that, seven

years ago, the finance committee chair is not supposed to be limited to senators. It was made on the change that they delegate, that it has to be a senator that they made a resolution, made a bill to do that. And I will, just got to say, I feel like this kind of action, in terms of building revolution. To me, by nature, the same with that that I both do not approve in terms of that, if we are speak of ideals that we're representing as much student as we want, that we're trying to get as much of democratic perspective from as many students as we want, it's always, at least in my principle, kind of wrong, in my opinion, to, like, limit it, like student perspective, that is not participating as senators or as officials, like in the legislative branch or other kind of branch, exactly whatever I just think, to me, I don't think it's justified, especially when you think about public image. And public representation is an actual job that people actually pay to, like, study, learn and actually get it done. Like, it's not something you were like, Oh, I could get on social media. I can just post whatever I want, and that kind of thing, which I doubt is the intention behind this bill, but I'm just saying that with increasing amount of people handling on a single account, not only because there's going to be, like, problem with like, delegation of like, Oh, who's going to do this? Who's going to do that kind of situation? Going on, which just increased the cost of communication. But also it's just professional people doing professional stuff, you know, like, he has a past experience of the whole year, like handling this, he mentioned, like, people that he knows, and everything right? And it's like, to be honest, I blame myself. I filled out the form, I mean, but I didn't really like handling the time of appointment, or doing interviews and everything, which I blame myself. I feel like he has done his job. He has tried to communicate with us, and it's us actually failing on his job. It's actually not on him. So technically, I just, personally, I don't really support this, but that's just my opinion.

Harter

- so the facts of the matter, very simply put, is that we are the Outreach Committee. It is our job to represent the Senate to the student body. Yeah, it's literally our job. Legal code tells us that we need to be doing this. We cannot do it as effectively if we haven't. We do not have access to our social media account that literally has the Senate's name on it. It is our job to do this. We are asking your permission to more effectively do our job. And I will go as far as to say that if there's an issue with multiple people being on this account, the solution should be to remove or send us ability to use the account. We are senators. It is our job to use it. It was literally in the outreach committee. It's literally in the code to do this.

Sussman

- Think there's a larger concern down the road if there are outreach chairs who do a lesser job than current chairs
- I think there can be a way to navigate this where senators who post a video and tag the account can be reposted by the as ucsb senate account
- I don't necessary se a need to have a password
- I think you're right it is in the hands of outreach committee
- I see a security and PR concern much further down the line

- I see a pr concern much further down the line
- I think there's a way to navigate it without taking the password as is

Harter

-
- I agree with you and everything you said applies to anyone that can be in Oseinou's positions
- Anyone can be in a serious position in the future and couldn't handle the position
- That is by definition who we are
- Another way of phrasing their argument is saying I'm not going to trust what the students want in the future
- Therefore i'm going to pre text their choices by disallowing them to allow their own senators
- By disallowing their own senators to do the job they were given
- Its our jOB were asking to do our job i dont think this is a political statement at all
- We are asking for access to do our job it is very simple
- The solution is not to remove the people that should have access to it already
- The system as it is is messed up
- It needs to be approved so we have access to do our job
- The system is messed up currently and that is the truth

Oseinou

- . It's not outreach's job to do Senate social media. That's why you guys are putting reduced social media on the bill. So they need to do your job. It's not your job to do that. The liaison committee actually does a lot more of the work that you're supposed to do in regards to the account. I really don't understand why you guys aren't talking to yourselves and asking yourselves, how do you guys all together want to support your own image.
- The point of this position, and obviously our ancestors are, did it on purpose. There's a reason. Is because no one is catching up with your guys' BS all day. That is why the second pro tem comes to me and tells me what you guys are supposed to be doing. Luckily, I already came and I always go, um, I don't understand what this whole issue is with the whole accounts, but y'all have your own accounts. Committees. Have your own accounts that can make your account. So come on. Y'all like, I don't want to be here.

Lueken

- Can we motion to extend the debate time on the item

Hepburn

- What was said is that it's ridiculous to make legislation telling Oseniou how to do his job. What else would say to do his job? I think, of course, legislation should be done. He was saying having two groups doing the same job. I believe the Senate account is not as good as it should be, perhaps partially because of us, but also there are 536 followers on it, a small, small fraction of the student body. And yet he says he represents the image of the entire student body, or he represents our

image, the whole student body. Barely anyone's following this account. There have been less than 20 posts this entire school year. Less than 20 posts. We need more. We need daily posts, and that is the job of the outreach committee. Lastly, he said, it's taken a year to repair relations with the Public Affairs Committee. How could it take an entire year? I don't know the details, but I believe more of us being more involved would repair the relationship. I don't even know the details of what needs to be repaired, but I think it is urgent to allow the outreach committee the most crucial tool of outreach, which is online, social media, and communication.

Sherkin

- I appreciate this discussion, and I just want to bring up a point. I, you know, I see both sides of this. I'm just a little bit concerned, just because, like, this is your job. And I just, I feel, and this is, this isn't any disrespect to the authors, absolutely, but I feel a little bit uneasy that we're kind of taking something that you do and you work in, and we're kind of mass handling it and not, I mean, I don't really know the extension of, like, the communications that were had, and so I'm just That puts me a little bit on ease, and I feel like it's a little bit, I hate to use word, but it's a little bit disrespectful. And yeah, so I apologize.

Jones

- Was there any communication with Osinou or Rose regarding this legislation and the plans that were made? Any discussion with them at all, or like myself actually, who's under legal code, with the social media aspect as well, personally, no, but with them regarding that,

Luken

- I've spoken to Oseinou.. I haven't spoken to you, Rose, I apologize for that when from that's when I'm sorry. I'm tripping. My bad. I feel bad when I apologize. I've not spoken to Rose. I've spoken several times about having access, collaborating, being able to work with them, to, you know, increase Senate's presence to a lot of no's, a lot of the same kind of energy and just negativity. And I didn't want it to become as heated as it does, but I feel like I appreciate you Senator Sherkin, bringing it up.
- To be clear, this bill does not take away any of the media coordinators responsibilities. It only serves to give the outreach committee the capacity to access and use the Senate account. Again, it's clarified in the bill for all senators and their projects, initiatives and campaigns and again, I didn't want it to get to this point, but Oseniou, you've done a horrible job of improving our image. We have 536 followers. I think the 200 follower increase came from our work as outreach committee, and it's I don't really appreciate you coming here and telling us that we can be trusted with our own with our own image online, that feels a little bit inappropriate, and I sense the contempt, and I feel that the contempt is felt around the room and how you're talking to us, and I would just appreciate a degree of respect that I've tried to show you in response, or in response to us, and for everyone to understand, you know, the purpose of this bill, and not speak of it as if it's, you know, taking something away or trying to be disrespectful, but to

recognize it as a genuine attempt to boost outreaches capacity in the Senate's ability to advertise.

Lala

- standing rules as they currently exist, do not allow senators to speak on the intentions or otherwise disrespectfully of fellow senators, but also those who come to this body, either as appointed members elsewhere in the association or as individual students. We owe them our respect as individual elected office holders and that kind of language, especially in the same sentence as requesting respect from that person does not fit is not the fitting of his body. I will, I will grant you a chance, and I really hope you take it to apologize for the way that was framed in general, but especially as if we want to get into statistics, both the Senate and the IVP pages, which are run by us and his colleague rose have increased by 25% since last year, since he was given the ability to do his job and without the burdens of the past year. So in pursuit of forgetting individual positions or legislation on the floor, for the sake of the decency and the perception of the Senate, I would highly appreciate it if you could apologize for the way that that was fine.
-

Luken

- I apologize for the disrespect that came across in my response

Holly

- Yeah, absolutely. Thank you, Enri and everyone. So I want to offer you all a different perspective. You're welcome to take or leave my opinion, of course, but really, there doesn't have to be an either or situation with outreach and social media coordination, and really, who is responsible for all of that, between the vice office and between the outreach committee? I mean, as senators, obviously, of course, your primary function is going to be legislative, right? So you're writing legislation, you're analyzing policy, you're bringing issues to the student body. You're bringing those issues to the Senate. Primarily your function as the outreach committee is to collect data in order to make those assessments right. So you're collecting data in order to inform your policy decisions. You share that with the Senate at large. And so what the ivps office, where that there's a relationship with that is they have a huge responsibility in the internal affairs of the association, so it's not as if they don't exist with each other. Like, of course, the outreach committee is going to want to use social media. Of course, the IVP is also going to give you all a really big opportunity here to build a more robust working relationship, like we hope as advisors, that you take these opportunities to network with each other, to learn skills from each other. You know, maybe there are staff in the Office of the IVP that get to be more specialized and focused, and you all get to be specialized and focused and writing legislation, conducting research, right? There's policy analysts that are also on the outreach committee, so it's not really limited specifically to social media. So really, I think there's an opportunity. I know that feelings are probably running pretty high right now, but I think there's an opportunity to explore a legislative middle ground right that

maybe the social media responsibility can have a liaison position within the outreach committee, so that whoever holds the position and is really focused on marketing and outreach can focus on that specifically, but can utilize the information that you all have gained through your outreach initiatives in order to inform that social media that you know you all can collectively decide together as a committee, what you know the approach is going to be. But really, what I'm hearing from you all is that it seems as though the perspective is really like it has to be in the hands of one person or the other, but really, and I mean even among staff, right? Like I talk with other staff about internal communication and external communication, but we have a team that works to develop newsletters. I tell people, I'm not an artistic person, I'm not a social media person, but I do a lot of policy research so I can inform that and that helps support our internal comms work group. So that could be something that could be mirrored within these different groups, right? Because the office of the IVP is always going to be interested and invested in internal affairs and outreach with the university at large and administrators and the community and all that that's never going to change. The same is going to be for the outreach committee. You all are going to want to be involved in putting the Senate's image and initiatives and assessing the student body. Those are always going to happen. I'm just encouraging that those could happen in conjunction with one another and not separate from each other. Because really, I mean, it's, it's corny, but, like, we don't have to duplicate services. We can work better as a team. So I want to encourage you all that there are other options than just saying social media management for the Senate belongs in the office of the IVP or it belongs in the outreach committee. I don't think that that's the only option that can be explored here, and I think that there's an opportunity for you all to use your individual strengths and combine those into a really effective social media strategy, but that's just my opinion. I'm more than happy to talk through specific legislative amendments. I'm happy to meet with you all individually, but I just want to offer that perspective, that it really doesn't need to be one or the other. It really can be more strengthened when there are more resources put towards it. And that's all, Marissa, I saw your hand up if you wanted to go next, but thank you all for the floor.

Marissa

- So thank you for chiming in, Holly. I just want to share with you all, when I see things heating up, I will intervene. Holly will intervene, but your IVP did a phenomenal job there. When we can feel the tensions, I've made a promise to you all that we will step in. And things were getting heated there, so know that when there are moments like this, there are expectations of your behavior with each other, and we're going to hold you to those. And also this, to me, sounds like maybe there's a mediation that needs to happen, and a resolution did not happen between two two groups, and that could have been solved by having somebody come in and facilitate the conversation, rather than having to go to legislation. So consider that an opportunity to also use the ombuds, or use RJ, or come to your advisors and ask to help facilitate a conversation to come to an agreed upon resolution that would have saved a lot of us a lot of time right now. Thank you.

Geosimmons

- I just wanted to add as a as a point on this, regardless of whether or not this specific, this specific resolution is the way of resolving this, I do think it makes sense, from a purely logical standpoint, that authority over the Senate's Instagram account should be, should originate in the ham in the hands of the Senate, as opposed to the internal vice president, which is a separate position elected separately, which has autonomy from the Senate as a body. I don't know if that means this is necessarily the way to do it. And it could be, we could have a system where we delegate the Senate, delegate its authority to the ivps office or something like that. But I think on paper, authority over the Senate's the Senate's image online, should originate with the Senate, and they should have we should have the right to decide

Lala

- To make clear the ivp does not run that account

Geosimmons

- But it is the office of the IVP right

Lala

Sussman

- We have 5 or 6 more items to go through
- Best thing is to table and rework it, more communication between parties
- There needs to be more work and this is not pressing and we have a lot more to do tonight
- It’s not pressing

***Motion to indefinitely tab*le A Bill to Delegate Senate Social Media Responsibility to the Outreach Committee**
Sussman - ono
Call to question: Geosimmons
Call to question rescinded

Luken

- I would like to discuss what people would like to see changed

Sussman

- There needs to be communication between us. And now I asked this. I asked this in outreach committee, which was said yes, and I anticipated that this was also with the second president, pro temp. I shouldn't have assumed, because we all know this thing about assumptions. But there needs to be clear communication and guidelines as to how this is a shared responsibility, not going in the power it's not a power balance issue right now. This is what breaks sentence apart, which is people get caught up in power imbalances. And one power here, one power there. This is just simply about, you know, social media presence, which is at the end of

the day, it's Instagram. People scroll on reels and forget. But besides the point, there needs to be communication and clear expectations that should be communicated with staff about not only how we want to be perceived as a Senate, but how the professionals, you know, within marketing and PR, how they see this as well. This is, again, not needed to be passed tonight. It just needs to be communicated and reworked and rethought. That's all. That's what I'd like to see.

Luken

- I apologize to Senator Jones, I genuinely did not know that you were involved, or that your office was involved in the social medias, so I would have liked to work with you had I known that I had worked with the media coordinator, tried to work collaboratively, collaboratively throughout the fall quarter, to little success. And so this bill was not an attempt to change anything about the media coordinators role, but to add to our reach role, to ensure that outreach could also do that. So in my mind, it has that dual balance, and it has that balance. So what I'm asking for in this motion, in this discussion, is for someone to clarify exactly what they think needs to be adjusted. Because I literally don't know, because as far as I'm concerned, like my intent of the bill I think covers those issues that you raised. So I would like to know more senators.

Jones

- I think Holly's idea about having a liaison on the outreach committee for this purpose is a good idea. And if you need that to be me being that it's under my legal code, I'm very much willing to come to outreach committees or like making a bill that establishes that the second Protemp should be on the average committee to fulfill this role if necessary. So that's like, because I'm under the IPP office as well as second pro temp, not just a senator. I'm already working with those and rose in the first place, and it makes it a lot easier. In my mind, I don't know if that's an option you guys would be willing to explore or discuss further off the Senate floor, just to answer your question

D) PUBLIC FORUM
[1:30]

1. Micah Littlepage (MTP) Mobillity Transport Program Budget Request

(6:46PM)

- Hello senators, my name is Micah Littlepage and I'm here representing the Veteran Resource Center, the Student Veterans of America as well as the Mobility Transportation Program. You should have all received an email from me today that has a presentation attached if you want to look at it. We are going to briefly

summarize it. For those that don't know, the mobility transportation program, the little carts driving around campus was established in 2022, and serves students with temporary and permanent mobility challenges, so we serve those who are visually impaired to handicap or facing broken arms, legs, or anything. So our program's main objectives are to enhance accessibility to campus, ensure student retention by making sure an injury does not prevent a student from going to class, increase student employment, specifically for the UCSB veteran and military affiliated community, as well as increase increase sustainability on campus, all of our vehicles are zero emission, so it is a very clean way to get around. Our demand has increased very rapidly since the launch of our program. There has been an over 185x increase in the amount of riders using our service. And in the last quarter, fall 2025 we provided over 2000 rides to 180 different students, and that is on slide four, for reference. Just our rides from fall quarter have already surpassed the total number of rides from 2023 and we are expected to surpass the amount of rides from last year as well, which we had over 5500. We are here though because while our pilot funding that was generously provided but eh Student Fee Advisory Committee, that funding is expected to run out through the end of the school year, effectively leaving us with no way to pay our student drivers, our program director, and the fees associated with maintaining and driving the carts. We are here hoping to find a collaborative solution, open to any possibilities. We want to secure a permanent source of funding because it is not an understatement to say rely on this program to get their degrees. It really is a matter of equal opportunity and accessibility, just to ensure that every student doesn't have to be limited by their mobility. I'll be back for questions but we're going to hear from drivers on their experience.

Audrey Perron

- Hi, my name is Audrey Perron and I am a current driver with the Mobility Transport Program. I have been working here since spring 2024, so coming up on two years with the program, and I just wanted to touch on the community that this program has provided me. I am an out of state student as well as a military dependent so personally, this job has connected me with both the military and dependent community as well as a community here at UCSB, and has also provided me with a stable source of income as a student who is currently paying my own way through school, as well as my rent and groceries and all other fees and stuff. I also feel as though I serve as a mentor to our riders, specifically first year students and transfers because they ask me questions about involvement and classes to take, and just in the community in general. I also wanted to touch on our current restrictions with budget cuts that we have received in the past year. So this year we've had to cut down all the admin shifts and three of the drivers' shifts during the busiest days, Monday through Thursday, which has impacted what we are able to do with the program and the amount of riders we are able to accommodate. We do our best to ensure all riders get to their classes on time but this is particularly hard when we only have one or two drivers on

shift. We are currently relying on our program manager to help cover those shifts, but she is not always able to help us. Even during peak hours when we use 6 seater carts, we have to make multiple trips to make sure riders get to campus on time. Not having enough drivers also puts stress on riders who rely on this program, both with temporary and permanent disabilities. They want to make sure to get to class on time for midterms, finals, and classes that require in person attendance. We are seeing some future problems riders could face if this program isn't provided in future. There are a lot of students who choose to ride their knee scooters or crutches on campus. This poses some risks, the campus is kind of hilly, different terrain. Many riders who do have to get surgery, the only way they are able to get to class is through our service. The only way they're able to get to class without pain is through our service, without that they said they wouldn't go to class or have to take a quarter off which would limit their access to education. Our program used to have a van that would service Goleta and the surrounding area, but as of right now, we're not able to do that and we only serve a 1.5 mile radius.

Amber Andish

- Hi, I'm Amber. I just wanted to say thank you for taking time to hear us out today. This is something that's super important to me and a lot of people in the Isla Vista community. I started as a driver in spring of 2025 and I'm also military dependent. This job has connected me with the military community and countless riders. Going into the job, I was shocked at the amount of riders we had already. I never realized how many people on campus struggle with mobility transport. I know that so many students rely on the service to get to class on time efficiently, and that no one had to stress about missing important parts of class or anything like that. And honestly, we did have enough drivers to make sure that everyone was getting to class on time, and it was really great. Everything was going super smoothly. We've had severe budget cuts, reduced us to only 1-2 drivers working at a time and honestly it isn't enough to fit the demand of the job especially as demand has increased in the past year and as more people find out about the program and we gain visibility. A couple shifts ago I had to call Audrey about 10 times in the span of 15 mins and we had to organize who would get who. On our busiest times, we would get about 15 riders in the span of 5 minutes. It is hard to get everyone efficiently and safely with 1-2 drivers at a time. Now drivers are scrambling to delegate rides, so that people can get where they need to be one time. And honestly, it's just negatively impacting the reliability of our service. Also, it's just that no one really expects to get injured, so it's super hard to empathize when it happens, until it happens to you, especially like with how our bike paths are like, it really is so easy just get into a bike accident and all of a sudden you're like, Okay, how am I supposed to get to class? But I just want to emphasize that despite these injuries, these students still deserve to attend their classes and stay on top of their academics. Some of my riders, they've talked to me about how their professors, just like, aren't accommodating to their situations at all, whether you just by denying extensions or not excusing absences, and then

this is causing students to just miss out on participation points and important lecture content. One person specifically said, like, another professor was like, Oh, I do permit one excused absence a quarter, but like with these types of injuries, like one excuse absence just isn't enough to make up for it. We serve quite a few visually impaired and permanently wheelchair bound students. One of them lives all the way in six, seven block, and he's visually impaired and so I think our service ensures that students get equal opportunity to campus safely and get their degree.

Miach Littlepage

- To emphasize what they said, UCSB is an amazing school and we don't want to see students drop out because of an injury, something out of control. We are looking forward to working with you guys collaboratively.

Malhis

- I'm on slide 15 which is your high level budget overview. Can you go over how all of these numbers have been determined, like student compensation or staff compensation, I assume that's the salary for the entire staff? Can you go over how the hours are determined and the miscellaneous and what is going to be spent on specifically?

Littlepage

- Yeah, we can just go line by line. Staff compensation includes salary plus benefits. Santa Barbara is an expensive place to live and we want to ensure our program manager is focused on doing her job fully and effectively. Student compensation, last quarter we had a high of 17 student drivers but unfortunately due to budget cutbacks we have 11 drivers. They're obviously paid minimum wage, and they are mostly through work study and normal students, so that is estimating an average of what it'll be to pay all salaries at the end of the year. Vehicle service fees, so the Transportation Department does charge us a parking fee even though we just park outside the VRC. It costs about $400 per month for vehicle maintenance, charging, parking and insurance. Those are all things we have to pay for as well. Miscellaneous includes the cell phones for drivers to communicate with each other. Certain supplies we use, we buy banners and try to do promotional materials. And then data is the tracking software that we use to organize all the rides because they have a specific software they use, and there is a cart tracking software that we have to pay for. That is the full breakdown, but if you want more specific levels I can give it to you.

Malhis

- If we are going to fund this, a more detailed spreadsheet with links to resources would be great. I could work with you guys outside of senate floor so that we forward it to the senate floor and can actually pass the money. I did want to ask though, Associated Students, we operate on undergraduate student fees. I noticed on one of your slides you showed your rider demographics, showing that you

serve undergrads, postgrads, faculty, and staff, and that doesn't fall under our mission statement so how would you guys make sure that the money is allocated to undergrads specifically?

Littlepage

- On the pie chart, it shows that over 95% of riders are undergraduates. They make up a vast majority. We only serve 3 graduate students and faculty and staff. This is a point I wanted to make. We are working with GSA and the faculty and staff committee to increase their funding. There are lots of different types of mobility challenges, but we are coming here first since an overwhelming majority of our riders are undergraduates as well as all of our drivers are undergrads, so it's directly supporting the salaries of students.

Motion to extend Q&A time by 5 mins
Sussman - Luken
Call to question- Riss
This motion passed at 7:01PM

Littlepage

- I did have a question, you mentioned you wanted more resources for the breakdown. What exactly do you mean by that?

Malhis

- I can work with you outside the senate floor on getting that set up. Typically, I think the best method for me is google sheets or Excel with links to specifically everything and breaking down everything into line items. Google sheet or excel with links to specifically everything and breaking down miscellaneous into multiple line items. Everything needs to be broken down into a lot more items and that will be the best. I can work with you off the senate floor like right now we can go to the back or I can email you and we can set up an alternative meeting to make it a little more clear and that should be great.

Littlepage

- If you could respond to my email, that would be great. I would love to meet with all of you guys or as many as possible.

Wahidullah

- Thank you for coming here. Not only just being close colleagues of mine, but also seeing the determination into the program and the consistency is very appreciated. I have been communicating with you individually in stuff, hoping that along the lines we'd be able to help your particular financial situation. I have one more additional question to financial procedures, could you maybe explain to the senate floor, aside from our own conversation, elaborate on the allocation of

your funding and where it will be coming from, and how you'll be integrating that into programming and to fully encapsulate your budget overview.

Littlepage

- Since we need a decent amount of funding and we want it to be permanent as well, we are looking at pursuing a lock in fee. We are open to suggestions, it's been awhile since we have been involved in Associated Students. We are really looking for solutions. Our biggest priority is making sure funding for this program is permanent and not dependent on changing budgets every year. You guys are the senators so whatever solutions you guys come up with would be best, but ideally a lock in fee.

Luken

- Thank you guys for coming in. I also work with them and this program, as they attested to, is very critical. Firstly, I can work with you as liaison between the mobility transport office and the senate. Senator Wahidullah asked the first question, how do you envision the funding going forward, so lock in fee or internally allocated. Seems like that is not a priority to you but the priority is that it gets funded which makes sense. The only other question I had was do you have a timeline for this. Is there a date we should know we need the funding secured by? Is there a date that we should know, okay we have to proceed, or we have funding secured before things shut down?

Littlepage

- We already have been suffering from the budget drawbacks. We are down to at most, 2 drivers per shift. I do believe, according to my boss, we'll run out during summer. It's most likely looking like that. Last summer we were able to expand services and work during orientation and introduce new students to campus. Unfortunately we are looking at service cutbacks as soon as this summer, so I'm not exactly sure, like what the plan was in terms of sustaining long term funding, but it is pretty urgent, and ideally like, the sooner we can find a source of funding, the better.

Luken

- Have you gone to any other campus departments or entities like student affairs to request for additional funding? You mentioned GSA and another department.

Littlepage

- Our funding was originally sourced from the student fee advisory committee. The student fee advisory committee generously funded the implementation of this program. They have provided the funding for the carts and pilot that lasted the last few years. They are more interested in one time grants, not servicing as it goes. We have reached out to them, talked to other departments, and I believe have contacted the chancellor about it. We have not yet reached out to the GSA, we wanted to come to you guys first since the bulk of the riders are

undergraduates. Lots of resources available compared to GSA and undergraduate departments.

Motion to extend the time period by 10 minutes
Hepburn - Chaudhry
Call to question - Manala
This motion passed at 7:07PM

Sherkin
- I know you've mentioned looking into different faculty departments and, like, the broader purview of the departments here that might come up with some roadblocks, but I also feel like this might fall into, like the basic needs category of school, so that might be someone to pursue. And then also, I was wondering, did you say you have to pay for parking?

Littlepage
- We do have to pay unfortunately. If someone wants to help us with that, that would be great

Sherkin
- I definitely think we should fix that because that's not fair at all. But yeah, basic needs would be really good. Maybe even reaching out to CODE.

Littlepage
- Is there a CODEoffice? We tried to track them down but we couldn't find it.

Than
- CODE doesn't have an office but you can reach out to their chair

Littlepage
- What is the CODE chair email?

Sherkin
- I can also get you a contact. That's my good friend Maya

Littlepage
- We've been trying to get in contact with them, as well as DSP. Unfortunately mobility impairments do not fall under DSP. Technically, my boss has already talked to them about this. They serve intellectual or class related disabilities. I'm not exactly sure about it but I have tried to contact them and I'll reach out again.

Jiang
- I don't really have a question but more of providing a solution or more of an answer. In terms of parking permit, we can definitely talk to TPS about this. I think if they were aware of the situation, maybe I'm assuming, but that can be tackled in terms of long term permanent funding and temporary solution for immediate budget cuts for the summer. For permanent funding as for lock in, that's going to have to wait for the voting and ballot in spring. So we can look into

it, the most immediate thing we can do is looking for donations from BCUs. I think a lot of BCUs in Associated Students would be willing to support this program. That mission is really supportive of the student body. If you need any external help, I'm willing to help as well

Littlepage

- I've been in contact with some BCU chairs. Given the amount it requires to maintain the program, it's a solution but we don't really want to have to be reliant exclusively on BCUs giving us the money. It's important to maintain accessibility on campus

Hepburn

- What was the solution for disabled students before this program?

Littlepage

- There wasn't. You crutch, or bus or pay for an uber. The bus is not accessible for everyone and can cause a lot of pain for people, walking to the bus stop, getting on and getting off. There really wasn't a solution before this so we don't want to see the program go to ground zero.

Hepburn

- What do you need a program director for as opposed to being student run?

Littlepage

- The program director makes the schedule everyday. It's not an easy task, 15 rides within 5 minutes. It is a tough task. In addition, our program director holds dual responsibilities..She also is the manager of the Veterans Resource Center. So she has multiple jobs underneath that one job title, and she also steps in. She'll often do rides herself when other students are not available. So some shifts, I know it's harder to get, like, the 7am shifts, it's a lot harder to get students to do that. So she will step in and do those rides. It's a lot of work, and I don't think it would be really complicated trying to make her job into a work study job, because students do not have the same schedule, she's constantly there at the center. She's there Monday through Friday. It's hard to find students that can fit that responsibility and I just shudder thinking about the scheduling. It's already difficult to schedule students to drive, and then find drivers, and then organize the drives.

Malhis

- The staff salary included in the budget, does it include her work?

Littlepage

- Since the TPS part of the mobility program is part of veteran's services and military services, she kind of has two roles in one. She's on a contract too as well. If we don't secure funding, there is no way to ensure we will have a program director in the future. She does have dual responsibilities where she monitors the veteran resource center.

Malhis

- So she doesn't get paid by the veteran resource center?

Littlepage

- She gets paid by Veteran and Military Services. It's complicated. The Veteran and Military Services run both the Mobility Transport Program and the Mobility Resource Center. She is the manager of both

Malhis

- That doesn't answer my question. Does she get paid by that?

Littlepage

- She gets paid by Veteran and Military Services

Than

- Is that coming out of grant money that is provided for the program itself?

Littlepage

- Yes

Than

- And because it's housed under the Veteran Resource Center, the money that is meant for the program is part of her salary as well?

Littlepage

- The Veteran and Military Services, the VRC is part of the Veteran and Military services, as is Mobility Transport Program. The funding that was directed towards the pilot program for mobility service pays her fee and salary to my understanding. I can double check this. We are requesting funding to ensure her position will be permanent. I guess it's fair to say she was hired to direct the mobility program and has effectively taken over as the Veteran Resource Center because we don't have enough money to have a dedicated manager of the resource center.

Alex(CALPIRG)

- Hi I'm Alex, and I'm here with CALPIRG. I'm on the board just to give a little update of what we're working on this quarter. CALPIRG is California Public Interest Research Group. We do a lot of grassroots work. All the power we get is from the sheer amount of students we educate and get involved. Part of the reason we're so effective, we have over 30,000 due paying members across the UC system, and that's also how we get our funding. They give us the power and the resources to actually get big wins on the environment and our society. Recently, we had one of our bigger wins come into fruition starting January 1. There's no more plastic grocery bags in stores. So if you've been to Target, you might have noticed that, really excited about that very big step towards a plastic free future and addressing plastic pollution. And speaking of campaigns that we've worked on before, we also have a new priority campaign this quarter, which is our protect our oceans campaign. The main goal of that campaign is to expand marine protected areas. There are, like state parks, but for our oceans, state no commercial activity can happen there. Campus Point, for example, is a marine protected area, and we're trying to get more of those, because

scientifically, the more you have, the more effective they are. And the numbers are crazy. We've lost like 90% of our kelp forests on the California coast since 2014 so we want to do something about it. Here in Santa Barbara, May 5, there will be public hearings by the Fish and Games commission so we are organizing around that. The other thing is we have a kick off meeting tonight in less than an hour. We have over 160 students that agreed to show up. We are really excited to be working on this. We definitely can get a win on the campaign. We have done a lot of work with you guys in the past. If you're interested in any collaboration, feel free to reach out, my name's Alex.

Wahidullah

- Thank you for coming. I am super appreciative of all the grassroots work you're doing. I'm always eager to collaborate when it comes to student government. Do you have any particular in detail asks that Associated Students could help you with?

Alex

- Basically the biggest thing is we want to get a student resolution passed for support in marine protected areas. Only 3 are happening in the coast, and so we are lucky one is happening in Santa Barbara. Getting students backing behind that would be very impactful.

Than

- Thank you so much for coming. Going to mention we have 2 environmental issues that seem like this is one of their mission statements. Have you ever reached out with EAB or EJA?

Alex

- We have gone to broader E coalition meetings. I think the main place we collaborated on them is with the stop sable campaign, which there's been a lot of work going into. We're definitely continuing to work with them, we are in touch.

Speaking agreements:

"You have three minutes to speak, with three minutes for Q&A. Please state your name, pronouns, and enunciate, but refrain from yelling. Speculation of a Senator's intentions is prohibited and may result in you being removed from the ability to speak on the floor. Please know this meeting is being recorded. You may speak on any issue, whether it is on the agenda or not. Please include a content warning if it will be graphic. You may only come up once, and you may choose not to answer questions."

A Bill to Clean Up Legal Code referred out of Outreach Committee with amendments
Sussman-Pascher-Luken

Sussman
- I don't think I need to explain this bill anymore

Luken
- The amendments of outreach committee

Sussman

- Yeah, a couple of them I spoke to the former Attorney General, Taylor iden before all recess or winter break. Essentially, a couple of the amendments are pertaining to the IVP and the role with the chief compliance officers revamped office in this bill, to which both parties have been communicated with, and then the second is removed or unstriking the consent calendar. So essentially, going forward, a really good power that we could use when bills are discharged from the Committee, just put it on the consent calendar. And if people disagree with the limits removed from the consent calendar, but essentially the Consent Calendar in its name, you consent to it being passed, and then you just pass Yes. So those are really the only amendments being made,

Wahidullah

- Just to provide just this again, more additional cross checking when it comes to the bill to clean up legal code, I just tried to make sure from holistically, because it was discharged previously before from the leasing committee on just holistic confirmation. I also tried to send the hours committee just to make sure they had any additional questions towards it, pertaining towards our own committee amendments. It seemed that it was secure after communicating with just the members, as well as just looking over it additional times and just answer any particular questions, at least from our own particular end, from our last time communicating is about it should be also cross checked and verified. So, yeah, I think it's also good to

Holly
- , I thought I couldn't hear very well if you said I didn't mean to interrupt, since tonight's food, which actually, if you all happen to run into Aryan or you run into Sean on your way out the door, if everyone could say a big thank you to them for making sure that you all got pizza tonight, we were able to get exceptions to get food. Aryan spent his personal time to go and make sure that it was paid for. So A, please say a huge thank you to the both of them for making that happen. And B, because that was purchased on a teeny card, if we could please have at least the approval for the cost of that so that that can be included in the micro requisition, that would make my life a lot easier, which I also appreciate, but we can sort out the rest. If the original motion at the beginning of the year funded Kyle's kitchen, it would also be my opinion that you all could reconsider that motion to just food in general, so you don't have to repeat it, but we can sort that out. I just want to make sure that the expenditure reports for tonight's dinner are covered and they're not delayed an additional week. I think we only have like 48 hours to finalize the report, so if that can be included at the minimum, I would really appreciate that

Luken
- In the meantime I just wanted to apologize to my fellow senators for creating a tense environment. I let my emotions get the best of me

I-4) President's Cabinet Report-
AG Pascher (7:37PM)

- Was asked to present from Le Ahn about presentation about BCU award
- I was going to go off email to Holly about the award
- Proposing to put the outstanding BCU award similar to how we have association member of the quarter

- This would essentially create the same framework for that
- I can go ahead and forward this to you all
- Essentially what it's doing is to consider allowing this be in the budget eventually
- To consider allowing for this to be in the budget eventually
- The BCU will receive an additional 100% of their honoraria
- To double their honoraria if they require it
- This would reward BCUs that are working extra hard in assoc
- I think just keep an eye for that in the coming time for President Metzger
- I can forward it to you guys so look in your inbox
- I'd like to do AG report in I8

Vincent Ton
- Just a context for outstanding BCU award
- The additional 100 that would be paid would come from the senate account
- If a student would normally receive 300,
- The extra 300 comes from 468

Than
- I'm the only person of this award project
- I'm the only surviving member of the award project because I was on it last year
- Developed by Mingjun Zha
- Have a question concerning, as someone who was on planning, what the marketing is gonna look like
- What is the marketing going to look like this year?
- Don't even believe BCUs who won last year got their honoraria
- I have high hopes that the program will be better than it was last time
- But there are concerns in terms of just information itself

Vincent Ton
- I want to talk about none of the BCUs getting the money last year
- Don't know where planning stages of this project were
- No one notified the financial operations team of the fall 24 situation
- They may have emailed specific members within requisitions
- Those messages should've been elevated to the top
- Right now, our team is reconciling the payments from last year
- My understanding is COSWB wanted in fall 24
- TQC wanted either spring or winter
- Global Gaucho spring or winter

Lala
- I don't think there was one in fall

Ton
- Whatever senate decides from this, there needs to be clear guidelines

- I didn't think there was one in fall 24 but the president who was a member of COSWB said they won the award in fall 24
- By this point, it's been over a year if that's the case we need to get the payment out
- Some of the fine print needs to be reconciled

AG Pascher
- Just emailed you document that's shared with me
- Just the messenger, don't know how to answer intricate questions

Chairship yielded to IVP Lala at 7:43PM.

Than
- I have the original documents so maybe we want to give that to the president
- There are 2 award reports on who won each quarter
- They were supposed to reference their fall event for winter
- The entire process of this was really confusing last year
- I'm just going to contact you and send it to the office of the president

Motion to unanimously consent to move into Section I-8 Administrative Reports.
Passed via unanimous consent at 7:43PM.

I-5) Executive Director's Report-
Chairship yielded to First President Pro Tempore Sussman.
Sean Lieberman (7:31PM)
- One was on the agenda the temporary safety committee thing coming up
- We are exploring who could be your staff advisor for that
- Just wanted you to know
- Getting ahead of it so someone can be in place to help you with that
- Safety has come up so frequently with people around campus
- Guessing also that it won't be a temporary committee after some point
- Public safety commission and before that it was called COPS
- At a certain point, they changed it to public safety
- Just like the bike committee used to be BIKES
- I don't know who did all that, pretty amazing
- Reminder about funding, international travel requires
- International travel requires permission from vice chancellors office
- I want for the senate and finance committee, we cannot fund that without permission from vice chancellors office
- Can't fund that without permission from vice chancellor's office
- Permission for liability, not good use of student funds, very expensive
- More expensive to travel internationally than domestically
- Lots of things that come to plight with that
- Most other AS's don't do international travel at all
- We're kind of an exception

- Campus wide messaging
- System for requesting an email blast to go out to everybody is down
- And probably permanently down, they might be retiring that system
- Looking at alternatives
- Think it went down in december and they said it'll be down all of this quarter for sure
- Not anticipating it going up again so looking at our own solutions
- Student services initiative going out for signatures
- Gathering those right now. Might see them on advertisements and on
- With the olympics coming this year, then 2 years for LA, interesting if you wanted to explore AS olympics?
- We have done it in the past in different years
- Last time it happened was Tessa's year
- Not just senate, but all BCUs get together for an athletic competition
- It's not just the senate but all BCUs come together
- Putting it out there because if you want to do it again
- Funny idea, student vs staff kickball
- I play lots of sports, for me good motivation
- Institutional memory
- That's all I have for now
- Any questions

Wahidullah
- Good to see you
- I was communicating about this
- Interested in reinvigorating it
- Great initiative
- Background context I want to hear
- More additional information why olympics had to be dissolved

Lieberman
- Don't know
- In my view, I visited one of them in 09
- I don't think it was anything particular that happened to make them stop, the pandemic slowed it down
- Think the pandemic killed lots of things, Tessa brought it back, one motivated person
- One motivated person that gets it going and if there's not that person, it doesn't happen
- Don't think it was anything logistically that got away

Holly
- I was just going to add
- Predominantly, AS Olympics planned by CoC

- For probably the last 4-5 years, they haven't had a substantial budget as the past so budget
- Budget consideration has been an issue as well
- Sean said it' really student initiated
- Doesn't happen if not planned
- COC for 3-4 years has not had a full board
- Don't have enough people to plan, enough budget
- I don't think anybody was anti-olympics, just needed more support

Motion to unanimously consent to move into the President's Cabinet Report.
Passed via unanimous consent at 7:37PM.

I-6) Executive Office(r)s' Report -
Jeffery he/him

- I'm the director of accountability and I'd like to briefly introduce project accountability and expectations for the quarter
- All senators will be expected to fill out a senate project form
- It seems like a lot but it will only take a few minutes
- It will help detail projects, timelines, funding, and resource needs
- Any current planned projects,
- These forms allow senate and IVP office and ensure expectations are very clear going forward
- In addition, senators are expected to use project tracker, now expected system for documenting said progress
- This will be used when evaluating engagement, follow through and accountability
- Senators who consistently submit complete project forms
- Will be recognized for engagement and failure to do so maybe be reflected in accountability reviews
- Including honoraria process
- Thank you for your attention, continued support, and commitment to students

Luken

- Thanks for coming in.
- In what capacity can honoraria be reduced for not following the IVP accountability director?

Sussman

- One of the requirements is 10% reduction if your legal code isn't followed
- 10% dedication if legal code duties are not followed but not under our legal code duties currently

Luken

- The IVP determines for all members of association if they did or not follow legal code

Sussman
- For the senate
- 4% for attendance
- 15% for state of association attendance
- 10% for legal code duties not followed
- Those are the only deductions applicable and possible

Lala
- When will the form be available for senators?

Jeffrey
- Right now

Lala
- Deadline?

Jeffrey
- End of next week

I-7) Senator Representative Reports-
I-8) Administrative Reports-
AG Pascher (7:44PM)
- It's good to report to you guys at AG and I appreciate you approving my AG
- Sprung into action with my office, held emergency meeting last friday
- Despite only being really approved thurs morning
- They were able to meet on short notice, everything's working fine
- I am currently working on a JC case and the status is paused
- Status of case is paused
- That has inflicted any administrative work that I'm able to do with my office until resolved
- That is my official update
- Moving further, I have sent you all an email regarding email votes
- Have received a lot of interest
- People are really on the same page into what an email vote looks like
- Once my office is free and available, we'll be conducting research
- Looking at precedent
- In addition to legal code, one of the main projects my office will take up is called civil code at UCSB
- Similar to bench book, what it would do is outline what it means to violate legal code
- So that we don't have to have unstandardized prosecutions of legal code
- When it comes to prosecuting legal code violations
- With that, in the same respect to expect legislation on email votes

- Potentially expect and consider having civil code adopted
- Whether that be standing policy or procedure
- Or in a separate capacity
- That's from my office
- Thirdly and lastly, I've been receiving lot of inquiries about legal code violations and questions
- While questions are fine, but if you have inquiries about specific incidence please use my official email
- Any correspondence needs to be documented
- If any of you are interested in looking at any violations, please do that through official means of communication
- Finally, I will be moving out of my office and into my position as AG
- I've been really focused on doing the bandwork as senator
- I want to make sure that no one has doubled up on that work and got it covered
- With that, I'm all done

Luken
- Can you elucidate on banners project?
- Neo and I as chairs of outreach committee, directed our staff to look into something so make sure they are not double dipping

AG Pascher
- Would send that passionate person to contact me
- Eddy has been spear heading this and I have been helping
- He's been working on this since his freshman year, quite far along
- While it be awesome if your person caught up, I think it would be best to collaborate
- We are meeting with student affairs friday to approve the project and then we
- Meeting with another committee to approve logos
- Then hopefully coming to AS for funding
- Which is good advertisement for us

Luken
- The banner project, the banner on light poles on campus?

AG pascher
- Yes

Hepburn
- What does it mean for your JC case to be paused?

AG Pascher
- It was moving to trial but it has been paused
- You can look at judicial council website
- Can look on JC website for petition

Hepburn
- Are you on JC?

AG Pascher
- Don't know what's publicly available
- The change in leadership has affected the case

Harter
- In regards to the banner, if we can influence the design in any capacity and see them before they get accepted and loop around and ask for money

AG Pascher
- The way it works is, campus administration would be nice
- The less I have to bounce around, the quicker this works
- What the process is right now is the space committee
- The space committee has authority over light poles we want to hang banners from
- Before we put any banners up on campus, we have to go to something called something like the design committee
- Yes you can have a say on the banners, but we can't make it lucrative or outlandish because it would decrease our chances of getting it approved

Harter
- We can't even fund it unless it has a branding on it, right?

AG Pascher
- It will have AS branding on it

Harter
- Okay, my main concern

AG Pascher
- Wouldn't be doing project if not for AS

Sussman
- Can you resend the outstanding BCU doc?

Motion to unanimously consent to move into Section I-6 Executive Officer's Report. Passed via unanimous consent at 7:52PM.

J) Committee Report
J-1) Standing Committee on Finance -
Jiang (7:57PM)

- The finance committee did not come into the to be approved folder until 10 minutes before the meeting
- We had 64 requests, minute takers were working hard to get those updates
- One of the requests was voted to refer back to the senate
- If you guys remember former senator Butler and her black history heritage trip that she did
- Former senator butler and her black history heritage trip that she did a really touching presentation on that experience which brought her to a new perspective on that history
- The reason why we referred it back to the senate is the amount of money to help us out a little bit
- I was reminded there has been a motion approved by the Senate to approve
- 25,000 dollars out of quarterly fund of finance committee
- Those funds provided for all campus RCOs
- Possible to get help from senate account if possible

Luken
- It was my understanding that their trip did not meet financial policy and procedures
- Am I misguided in that?
- I heard from another member of finance committee that they thought because the trip
- They said they thought because the trip was not being advertised to or being available to all students that it wasn't eligible for everyone

Jiang
- To my understanding the representative of the program, their application is open to all students and they have a clear criteria for selecting
- There is not policy complication or procedure for the program
- No procedural complication
- We also had a resolution that was supposed to be passed in support of this program
- My recommendation is to fulfill our words on it

Vincent Ton
- What's the group behind this group again?

Jiang
- CAPS are representing them but it was a formal project under the high impact project
- Originally under high impact project, but they're doubting the permanent funding for this program
- Doubting the permanent funding for this program
- They had CAPS helping them partially fund their travel as well
- CAPS came to us for basically the rest of it this year

Hepburn

- Is there any academic competition or conference or is it purely educational?

Jiang

- I believe Malhis worked really closely with project, would be better if she answered

Malhis

- You apply for the program
- The program starts in the beginning of the year
- You apply and people get into program around November
- Starts during winter quarter
- They have to take this particular course after they get admitted
- That course starts them with the education cycle that is before the trip
- Part of the funding they allocate for this is not only just for the part, and then afterwards they're required to write a research paper.
- It's more as an educational program than a competition
- They have to write research paper
- Hosted by CAPS as well as a lot of professors, black studies department

Hepburn

- It's an organization where they learn ahead of time,
- They see what they're learning about
- To clarify, this is 60k that is being requested for 10 people and faculty

Malhis

- The allocation of money is not 60k
- The entire funding is 60k but only asking AS is 36k
- If you look at flux request
- Learning does happen on trip, person who instructs them
- Senator Butler had a formal presentation on this last year about the educational aspects of this
- Heavy instructive learning
- Not really free going out
- With everyone at all times
- I think on the spreadsheet, Meredith and Senator Wahidullah has showed us the agenda of the 10 days they are on the trip
- Before they go on trip, they have reception and after a recap

Harter

- I don't understand how the process works
- How does someone get selected for this?
- What does it look like application to your getting on the plane
- Who is determining who's going on this trip, what are qualifications?

Malhis

- Members of CAPS and Black studies department oversee applications
- A form you must complete, open and accessible to everyone
- Then, there's people selected based on interest, availability, motivation
- I don't know exactly what they determine is a better answer or not
- I'm not educated in black studies
- Then they have two stages of interviews, initial interview process and a second stage when they narrow it down
- Second stage of interviews when they narrow it down to final 20 people

Harter

- When you say CAPS do you mean counseling and psychological services>

Lala

- So the association has no role in choosing who goes?

Malhis

- It works like when we found other departments
- As of now, we don't have a say
- We will be advertised there
- If we want to include that or have a stipulation, don't think it would go well

Sussman

- The total is 36 and we are being asked for 18k?

Malhis

- The total is 60k and we are being asked for 36k

Sussman

- If that funding's coming from senate unallocated, that's nearly ¼ of our budget
- That is a ton of funds
- Have any BCUs been consulted?

Jiang

- Basically we can do SCORE for sure
- To be honest, the funding part is problematic
- The other part more problematic is the consistency of the association
- The most senate did pass a resolution to do this program
- You can say that we are not blinded by the previous senates position
- For student body, we're one entity
- Can see argument for both sides
- If the problems is just funding, finance committee can figure out accounts for it
- Kind of just referring back to senate to partially assist as well

Malhis
- It's 25k

Lala
- I don't believe that it was the last senate that passed it
- Resolutions are by nature not binding
- They only function till the end of the term of the senate

Wahidullah
- Provide additional feedback to this project, in communication with Butler and Malhis
- Communicating senator Butler in the past and currently
- Other alternative entities
- Yes, other entities have been communicated
- Other BCUs
- Initially what happened that this is supposed to be communicated
- Supposed to communicated to finance committee, reiterating towards senate to see if there's willing support
- If you guys are willing to help with these funds
- Although it was communicated that it requires a substantial amount of funding
- After communicating on multiple entities that would be impacted by this, it's essential to allocate funding towards this program
- Very commendable so wanted to highlight that

Speaker
- Please be there or be square
- We look forward to seeing your faces there

J-2) Standing Committee on Outreach -
Luken (7:56PM)
- We on Monday gave an outline
- We have a huge syllabus that we gave to our committee members outlining projects, goals, legislation, idea organization and much more
- Outlining projects goals legislation, idea organization
- I encourage my fellow senators to look over that
- There is a lot of room for potential collaboration
- We are going to be working on a lot of stuff
- We'd love to work with you
- In projects directly and not directly related to our charge as outreach committee
- If you have a chance look over that, the minutes should be in the to be approved folder
- Minutes should be in to be approved folder
- Otherwise you have my emails about the meeting

J-3) Standing Committee on Liaison -

Quartely Chairs Meeting: Chair Eemaans Reports

Wahidullah (8:09PM)

- I wont take long senators but brief report again
- I just want to speak not on what I highlighted
- Just a small miniature report, you guys can follow along
- I wanted to talk about the positive feedback and progress in liaison committee
- Wanted to mention on Monday, went to communicate to quarterly BCU chairs meeting
- I went there for the first time
- It's been historically now shown that this is the first time a senator has gone to quarterly meeting
- That in itself was really positive feedback
- Went there to highlight same report here
- Highlights pilot programs
- Has all the reports we share with BCUs
- How we can assist BCUs
- Doing positive feedbacks we received,
- A lot of the forms on this report page responded a lot
- Usually we only get minute responses
- I have typically listed 5 or so
- 30-40 responses on this one, positive feedbacks towards new programs this quarter
- Receive a lot of impact on a lot of the things I mentioned, coming in person
- Having more direct feedback and reminders
- Good step in first direction
- Wanted to highlight and reiterate this stuff
- Overall really great to meet BCU chairs in person and want to remind other senators
- Wanted to remind other senators that are interested
- Highlight this is good first step in a positive direction
- If you're not signed up for at least one BCU liaison yet, please do so
- 10% text messaging
- 10% Gcal invites
- 70% prefer email
- Majority said emails
- A lot of people are excited to meet you all in person
- Enthusiastic to see people wanting to meet
- Will speak about afterwards, holistically been really beneficial

Harter

- Thank you chair. I appreciate you going to that meeting, apparently the first one, sounds like it was a historical event

- In regards to the liaison committee that happened yesterday night, from what I heard,
- From what I heard, you guys are implementing a 3 strike policy for the model
- I wasn't aware of that when I signed up
- Apparently was updated as of last night
- Don't understand

Wahidullah
- That was not mentioned to the senate body
- That's just for our own specific community members of 3 strike policy
- We have cut our quantity in work by half
- Now there is less work
- More qualitative
- More enforcement and communication on a strict policy
- Not inexcusable as before to do the task
- It's not at all towards senators but to make sure they stay on task
- Just for our own committee members
- Communicating in person
- BCUs are eager to work with us and we shouldn't let them down
- It's not anything to you
- Being a liaison doesn't mean you are doing a work, you are just a point of contact for us
- Not in any way laborious

Harter
- Let's just say someone gets 3 strikes
- What happens?
- Do we fire them? They resign?

Wahidullah
- It goes 2 ways
- If it is our student representatives who are unable to do their tasks
- If they have not been communicating to us and being absent, then obviously we might have to let them go
- Obviously they have to go
- It is a nonpositional role and they have not been coming to meetings then we will be communicating to senate leadership
- Then we will be communicating to senate leadership towards these matters

Than
- Thank you for going to the meeting
- Do you think they would be open to doing a second one?
- Because it feels like just a quarterly one, all the chairs, we finally get to talk to them, important for us to interact

- I'm not sure, but do you know how receptive they would be to hosting another one of those?

Wahidullah
- Didn't communicate one on one with CoC's chair
- After communicating with all, they'd be more open to communicating more and more in person
- It might not be as formal as the meeting
- It could be informal to have people come stop by and talk to us
- If it's not as organizational we wouldn't do that

Sherkin
- Grateful for your hard work
- Given the fact we have gotten such good feedback from BCUs
- How can we make sure the stuff can carry over
- To make sure we get the systems in place and keep the good things going

Wahidullah
- Something I communicate with staff
- A lot of these ideas that I have been introducing are from responses from fall quarter
- Because of that, in first 1-5 weeks, we're continuing it as pilot programs
- Seeing the success of one on one systems
- I will be communicating with staff and working on this in a formalized matter
- That in the future, future liaison committees will keep this a part of the system for reminders

Motion to unanimously consent to move into B-1 Chancellor's Representative.
Passed via unanimous consent at 8:19PM.

J-4) Standing Committee on Advocacy -
(9:20PM)
Ono:
- Gonna have a thing friday, be there

Sussman
- You still need that motion for this evening for the Pardall?

Ono
- No

J-5) Group Project and other Temporary Committee Reports-

Rita

- The plans have been funded. We have secured funding for the project, and ⅔ would be funded by the bike committee lock in fee, and that has been rolling over for several years for this exact purpose. The remaining will be funded by campus discretionary income, which the Chancellor's office agreed to upon request. That whole project is gonna cost a total of 1.4 million dollars

Anthony

- We brought copies of the plans, but we can't distribute these plans right now because they're still subject to change. We were asked not to distribute them, because if there's, like, multiple versions floating around that could be problematic, but this is the overall design. There's two roundabouts connecting them to the existing north and south bike paths. We've shown the preliminary, like hand drawn version of this at the Senate before, but we just thought we would show you the plans are real, as not everybody seems to believe and yeah, so there are a lot of next steps, even though now we have secured all the funding for it. So there's a couple of campus sign offs that still have to happen. And then we have to get regulatory approvals from like the California Coastal Commission and the Goleta Water District, because there are some like tree removals and tree replantings, and then also, like, there's concerns with drainage and the existing utility lines that are under the concrete there. But as you can see in this design, there's a net increase, I believe, of vegetated areas. So there won't be an increase in like runoff during rainy seasons. There's also no change to the width of the existing walking path. So the walking path is staying it's 20 foot wide, width, and it's still an accessible lane for fire trucks to come through in case of emergency. The bike path is just going to be built through the areas that are currently planters, and then there will be two roundabouts on either end. So then we'll have to, after getting those regulatory approvals, we have to get a construction then. But we and our campus planning colleagues are very optimistic that construction could occur this summer, I believe sometime in June or July

Rita

- We are the cochairs of the bike committee. Thank you for supporting us in the senate with outreach, moral support, communicating with campus, and funding options. I'm glad we are able to get this funded, without additional student fees outside the bike committees budget.

Hepburn

- Great job guys. That is super awesome. How were you able to get funding from the school?

Anthony

- Its been a thing every since the ILP was built and the old bike path was destroyed. That was 2 iterations of chairs before us did most of the work, going back and forth with Chancellor McPherson's office and sort of all the necessary offices on

campus. We had to sort of prove there's no other solutions besides another bike path. We sort of had to prove that there were no other solutions other than building a real bike path. So there were studies done, like circulation studies of how many people are biking and walking through the area. And we just thought of a lot of different ways to either create a temporary bike way or, like a deterrent for bikers to go through there at all. But we ultimately would just sort of convince them that it's necessary and like, a safety liability for them too. And also, we were told that the 1/3 was agreed to like, specifically by the Chancellor Association, so maybe he wants to have a good image in his first year at UCSB. It's been just like years of collaborating on the actual details of the project. And then we told them we can contribute all of our money, basically, will you contribute the rest? And they said, Yes. So we're grateful.

Luken

- Congratulations, I know how hard you worked. How does it feel?

Rita

- It feels really good to know that we have made such a big achievement, to know that we've made it. Everyone at UCSB is going to feel the impact of such a big achievement. We aren't going to be here because we are both seniors but nice to know we took part in something that will improve people's lives.

Ono

- Hope you're extremely proud of yourselves. It's been a pleasure to work with you throughout handing out bike lights outside Pardall, you guys do so much and I know this will exhaust your budget for a while so we would be happy to help you guys out with funding for a while.

Anthony

- That is what our lock in fee is for. We thought with the resolution passed last year, the more the campus contributed last year, the better. This is what our student fee is designated for. There was no better way to use the money we saved up than this project. The next big thing on our mind is another path near the SSMS building, sort of between the old pool and recreation center. Once housing is built, there will be more students on that area of campus. We anticipate a lot more traffic in the community through that area.

Harter

- Thank you so much. I second what Senator Ono said. I have a particular interest in seeing these plans. I know you can't distribute them broadly, if you could leave them here for recess, would love to look at them.

Anthony

- We have to leave soon. Thanks for your interest. We will distribute the official ones as soon as we can. There are many pages on this, on exact tree species that will be here. We want to avoid any changes happening or any confusion. Thank you and sorry.

Gary McPherson

- We are proud of you. This is a remarkable achievement

K) Minutes and Allocations:

Motion to bundle and approve all minutes and allocations
Chaudhry- Wahidullah
Call to question: Ono
This motion has passed at 10:44pm

To Be Approved

L) Discussion Items

Motion to amend the agenda and add Winter 2026 Dinner Calendar to Discussion Items
Jones- Ono
Call to question: Manala
This motion has passed at 10:47pm

Motion to move into closed session to discuss BCU structuring and Association Spending with all Association officers, elected officials, and Judicial Council members, staff and minute takers.
Sussman - Chaudhry
Call to question: GeoSimonian
This motion has passed at 10:49PM

Motion to exit closed session at 11:10pm
Sussman - Ono
Call to question: Manola
Motion has passed at 11:10pm

Motion to reflect, in accordance with the Brown Act, that the closed session concerned BCU structuring and Association Spending
Sussman - ono
Call to question: Ly
Motion has passed at 11:10pm

M) Appointments and Resignations

Motion to bundle and approve all appointments and resignations
Sussman- Manala
Call to question: Chaudhry
This motion passes at 10:45pm

Senate Advocacy Committee

Resignation of Sohan Sunderrajan as Vice Chair
Erica Sherkin as Vice Chair
Sohan Sunderrajan as Senator Voting Member

Global Gaucho Commission

Resignation of Molly Mascal as Project Officer
Molly Mascal as Vice Chair
Samrita Sivakumar as Project Officer
Duru Arda as Project Officer

Public and Mental Health Commission

Resignation of Raya Kessel as Secretary
Resignation of Jenny Zhang as International Student Liaison

Liaison Committee

Resignation of Kennedy Johnson as BCU Representative
Resignation of Urmi Mandal as BCU Representative

Outreach Committee

Lucy Lin as Member at Large
Bridget Smith as Member-at-Large

Office of Senate Leadership

Resignation of Ryan Robustelli as First Pro Tempore Senior Advisor

Mohammad Azeem as Second Pro Tempore Chief of Staff

Finance Committee

Resignation of Caden Siv as Finance Officer of Technology
Resignation of Jaden Yamamoto as Finance Office
Alec Geosimonian as Senator Voting Member

N) Remarks

O) Adjournment

Motion to adjourn 11:17pm
Ono:Chauldhry
Passes at 11:17pm
