Associated Students

Senate Agenda 1/7
Associated Students UCSB 76th Senate

Zoom Link

Minutes/Actions recorded by: Sydney Arbolado, Summer Tucker, Liliana Dritz. **CALL TO ORDER** by Enri Lala, Internal Vice President **at 6:37 PM.**
This meeting was called to order at 6:37PM.

A) MEETING BUSINESS

"Before we begin, we call for students to acknowledge that the lands that the University of California locations were built upon were expropriated & founded upon exclusions and erasures of Indigenous people's human rights throughout California. UCSB is built on Chumash Land, specifically that of the non-federally recognized Barbareno tribe. As an association that pushes the student bodies' voices to the forefront, we should aim to make strides past just acknowledgment to those who continue to fight for their right to be recognized & respected as the original stewards of this land. I ask you all to dedicate time & care to personal education & to advocate for justice alongside Indigenous peoples."

A-1) Roll Call

Amna Chaudhry	⛔ Absent	Off-Campus Senator
Caleb Claro	⛔ Absent	College of Letters & Sciences Senator
Mia Gutierrez	❔ Unset	On-Campus Senator
Neo Harter	✅ Present, ☀️ Early	Off-Campus Senator
Xander Hepburn	✅ Present, ☀️ Early	Transfer Senator
Yuchang Jiang	✅ Present, ☀️ Early	International Senator
Melanie Jones	✅ Present, ☀️ Early	College of Letters & Sciences Senator

Noah Luken	✅ Present, ☀️ Early	Off-Campus Senator
Victoria Ly	✅ Present, ☀️ Early	Off-Campus Senator
Qhawe Manala	✅ Present, ☀️ Early Proxy	International Senator
Vanessa Manakova	❔ Unset	Off-Campus Senator
Nadine Malhis	✅ Present, ☀️ Early	On-Campus Senator
Olabisi Ola-Olaitan	⛔ Absent	University-Owned Off-Campus Senator
Keizo Ono	✅ Present, ☀️ Early	Off-Campus Senator
Natalia Pascher	⛔ Absent	Off-Campus Senator
Romi Riss	✅ Present, ☀️ Early	Off-Campus Senator
Erica Sherkin	⛔ Absent	Off-Campus Senator
Evan Sussman	✅ Present, ☀️ Early	Off-Campus Senator
Sohan Sunderrajan	✅ Present, ☀️ Early	College of Letters & Sciences Senator
Mira Than	✅ Present, ☀️ Early	Off-Campus Senator
CJ Toledo	⛔ Absent	College of Letters & Sciences Senator
Jasmine Wang	✅ Present, ☀️ Early	On-Campus Senator
Eeman Wahidullah	✅ Present, ☀️ Early	Off-Campus Senator

A-2) Excused Absences
Motion to excuse Senator Sherkin till 7:30pm
Sussman–Wahidullah
Call to question- Ly
This motion passes at 6:40pm

Motion to excuse Senator Riss till 7:30pm
Sussman– Luken

Wahidullah-Harter
Call to question: Ono
This motion passes at

Motion to excuse Senator Manakova for the duration of
Jiang-Ono
Call to question : Ly
This motion passes at 6:42pm

Ola Olaitan arrives at 6:44pm

Motion to excuse Senator Malhis for the remainder of the meeting
Ono - Wahidullah
Call to question - Sherkin
This motion passed at 9:50PM.

Motion to unanimously consent to move into action items.
Passed via unanimous consent at 9:51PM.

A-3) Acceptance of Proxies

Motion to accept Rose Li a proxy for Senator Manala for the duration of the meeting
Luken-Ly
Call to question: Jiang
This motion passes at 6:43pm

B) External Reports

B-1) Chancellor's Representative-
B-2) UCPD Representative-
B-3) GSA Representative-
B-4) University Center Governance Board Representative-
B-5) IVCSD Representative-

C) New Business

A Bill to Establish the AS IVTU and FC Rent Support Program
Malhis - Jiang

Malhis

- This was a pilot program that started last year. The idea of the program is to alleviate the financial burden for students who have emergencies in IV.
- Those who are eligible must provide proof of financial hardship. They submit an extensive application and, if approved, can receive up to twice their monthly rent per quarter. Approval is granted by the EOP Director. The money goes directly to their BARC account, and students can continue applying every quarter if needed.
- There is some additional work involved, and all suggestions can be incorporated when the program is brought to committee. The money is predetermined from its built-up access rollover, and there is about $5,000 in that account. We do not expect the $50,000 cap to be used up every quarter; the $5,000 is allocated per quarter. An additional statement can be added if the full amount is not used.

Harter

- I was going to motion tot able this

Sherkin
- 2500 is the max per quarter
- Allows for a little over 1k for someones rent per quarter
- Is it possible to do more?

Malhis
- Yes so we spoke to financial
- The max is 2500
- If we feel the need we can go back and talk to them again

Hepburn
- So someone could hypothetically apply for it their entire 4 years

Malhis
- There needs to be written proof documentation
- If we notice there are some inconsistencies we will deny them
- There will be a position in IVTU for someone to check this

Harter
- I was wondering if students can use continuous application as documentation
- Have you considered them using this to increase their financial letter

Malhis
- That's a great idea
- Do we want them to consistently become reliant on this event
- Goal is to set up a program
- I know senator jones was working with Mikaila on it

Hepburn
- Can we have a limit

Malhis
- Well there needs to be viable proof so you can apply every quarter
- We can set a cap if this becomes an issue
- Can you send this to finance committee

Lala
- What is the process of working on things in finance committee

Jiang
- Gonna have at least 45 requests next week

Lala
- Have u guys considered a separate meeting

Jiang
- That could be a possibility but it depends on the willingness of officers

HArter
- We can just have advocacy look at it first

Motion to refer A Bill to Establish the AS IVTU and FC Rent Support Program to the Advocacy Committee
Harter - Wahidullah
Call to question: Malhis
This motion passes

A Resolution Expressing Intent to Adopt and License Mapache for Associated Stude...
Malhis - Harter

Malhis
- Former Senator Singh worked really hard to develop Mapache which is an AI which will help with Associated Students to be a policy assistant and fact assistant for legal code as well as campus resources and financial policies and procedures because those are very frequently asked questions by the student

body in regards to Associated Students. The great thing about Mapache is that it is something we can handle on our own. Once we bring Mapache into Associated Students, we have the ability to add things to it and update it. It may be small right now, but it can develop into something larger, and it's in our hands and not in another company's. This resolution that we are going to adopt that may seem scary, actually says first we're gonna try to license and install it and after successful installation, and approval by everyone, afterwards we would negotiate the payment. It would give security to make sure everything is good, and give security to our developer to make sure that everything is good to go. If we look over the therefore, be it resolved, it says after the successful acceptance and installation of the system by Associated students admin and staff, we can deploy Mapache in Associated Students. We can configure its basic knowledge base and finance services, and activate the work flow for reviewing it, as well as gather responses to the system. After we install it, we retain the right to monitor Mapache, and can operate on Associated Students and UCSB infrastructure with our appropriate institutional control of data, and sufficient documentation and access are provided for AS IT and staff.

Aryaman Singh

- I don't have much to add, thank you Senator Malhis and Senator Harter for sponsoring the resolution. It's just designed to help students access the resources they have. In my time as finance chair, everyone was asking the same questions every single day. My thought process was there was a better way to answer these questions. It's not supposed to replace humans but reducing the workload you already have. Even in office hours, you mostly answer questions for students. It answers basic questions, not edge cases or something that depends on the interpretation of you guys. I made this project to make Associated Students more accessible and transparent.

Sunderjjan

- What AI model did you use it for?

Singh

- On the back end it's using malama but what matters is the extension on top of it that I built that does natural language processing and understanding which is based on the text I give it and what the user gives it.

Sunderjjan

- Is the project still similar? I remember the first time you brought this up with the GPT.
- What changes have you made?

Singh

- It uses basic math to understand what the user says and also what pieces of information there is access to. That is where the natural language comes in because then you don't rely on the exact text. It doesn't have to be perfect, it can still understand what you mean.

Sunderjjan

- What is the difference between your project and if we uploaded legal code and financial code to CHATGPT and asked the same question?

Singh

- That would cost more money because you would have to do that for every single request you get. What this does is breaks down all that information into chunks of information and then when you answer a question, it converts it into a vector and matrix, and compares it, and sees what's most relevant to what the user is asking and gives an answer based on that. It's cheaper, more efficient, and gives you more control of what information the bot has access to. A lot of the things are not in financial policy but are the way things work, so now you have a file with that information. That's what separates it.

Sussman

- You came to outreach last quarter. You brought a panel with you and their results were not the greatest at the moment. The committee said it was giving ambiguous answers or not fully correct answers. Has there been any revisement? Should we create a contract of 20k or should we see if there is a better way to go about this. I'm concerned we would give 20k to this just for licensing fee, but my question is, is the service itself improved, and, in the longer term, is this a better project to suit your focus on?

Singh

- What I gathered from that beta testing was that the knowledge it had access to was incomplete, not the system itself. It is accessing that data in a bank and that bank needs to be expanded. The system itself finding answers in the information bank is performing well and always has been. I met with Michael a couple weeks ago about the new requisition systems, and he sent me a video about 10 minutes long explaining the requisition process. First thing in my head, it's already too complex, but after uploading that video, you can ask Mapache questions about that. It will answer and guide you on how to fill out the requisition form. That is another example of how the knowledge base has been expanded and that we can work on together. The system behavior itself is working well and you can test it out.

Sussman

- Do you think doing this resolution as a longer term project is a better solution?

Harter

- I do believe the wording suggests that we can think what is viable or not. I get the prematurity point but either way what we are doing with the resolution, is that when we think something is viable, is when we will make a financial commitment. It's also up to 20k, not exactly 20k. To clear that up, the ball is still in our court. When we think something is viable is when we will make the final commitment. The ball is still in out court

Luken

- The ball will be in our court until we purchase Let's adopt and license it when it's ready

Jiang
- You mentioned you just talked to Michael. At least to my knowledge, one of our staff members that just got hired has a bot too. Are you open to comparing results?

Singh
- Yes, I already talked to Micahel about that. I also already sent David my thing to test out and see how he feels. One of his responses was that reducing the number of questions asked of you guys is very important and he wanted more prompt injection and guardrails. Sometimes the bot gets confused when you say super specific things

Lala
- Can you provide more context on what the specific thing is so people know who David is and the other thing is?

Jiang
- I don't think you guys know you were developing a bot at the same time. David Jr. Sim was previous CCO and he was hired this quarter on the financial team as a staff member. I've shared when I had the idea of an AI bot and Sebastian basically sent me the link that David was doing at the time. I will send the link to the slack of the senate so you guys can access. I can't really tell the difference between the two as someone who doesn't know how to code. If people want to test each out, that would be great.

Harter
- To Senator Luken's point I do think one of the benefits of issuing the resolution is so that the student body would be aware of the intent. As far as the consequentiality, I think the cons are very minimal and the pros could be more transparency and student participation as opposed to something abrupt like immediate adoption. I see your point completely but that's my thought process.
- ency
- As opposed to something abrupt

Motion to refer A Resolution Expressing Intent to Adopt and License Mapache for Associated Students to to outreach committee
Luken- Sussman
Call to question- Jones
This motion passes.

Malhis
- Wouldn't the liaison committee be better?

Than
- Since it's a resolution, shouldn't we adopt it tonight?

Lala
- The precedent is we refer them to committee if they are legislation

Singh

- Right now it's just running on my laptop so it can't handle a lot. It would be better for 1 or 2 right now.

D) PUBLIC FORUM
[1:30]

Speaking agreements:

"You have three minutes to speak, with three minutes for Q&A. Please state your name, pronouns, and enunciate, but refrain from yelling. Speculation of a Senator's intentions is prohibited and may result in you being removed from the ability to speak on the floor. Please know this meeting is being recorded. You may speak on any issue, whether it is on the agenda or not. Please include a content warning if it will be graphic. You may only come up once, and you may choose not to answer questions."

1. Tashvi Ratnani on AS Merch Project
    - I am proposing a project to create AS-themed merchandise for the upcoming basketball game against Cal Poly on the 22. The goal of this initiative is to increase student engagement and school spirit during the game through the distribution of themed T-shirts.
    - I am requesting funding to produce an initial run of 100 shirts, which would cost $13.48 per shirt.
    - The shirts would be printed locally through IV Outfitters, and this project would be done in collaboration with the EVPLA and the IVP Office

Luken
- Why not get 500 shirts and ask for more money

Tashvi
- We wanted to start of slow and then get students to design merch as a first attempt

Malhis
- Why IV Outfitters?

Tashvi
- The idea was to support a local business and they can put a rush on it

Gohaun Huynh
- I am a representative from the Speech team
- I here requesting finances for our upcoming tournament
- The finance committee did not meet this week and we did not know, I counted that at least 8 or 9 attendees there. Our requests are urgent
- One is for our international tournament that is coming up in march
- The reason why we are putting in our request now is becasue cheaper to book flights now
- It will become more expensive
- Have a regional tournament next weekend on jan 17-18 which we need finances for

        - All of this is in the finance sheet

Sussman
- Has the international tournament been approved by the vice chancellor's office

Goahun
- Yes we just need the funds

Luken
- Can you send us the sheet?

Speaker:
- Yes

Harter
- Are u asking us to motion tonight

Speaker
- Yes

Malhis
- Do u have written documentation on the approval
- Can we still ask questions once we get the budget sheet

Harper Walker Ly
- We are asking for funding after spending our entire fall quarter trying to figure things out. We have spent the whole quarter working through our options and are now at a crossroads. If we want to continue to exist, we need funding now.
- We have four projects that we split up and worked on throughout this year. The first project is coverage of the Save Deltopia campaign. We interviewed people at the town hall, but there was no usable audio. We are asking for $1,134 in funding for a camera. It has been controversial whether we need our own camera, but we believe we do.
- We tried reaching out to ASOP and the Annex but did not receive a response. We need a camera because, with our popularity on social media, having our own equipment would be really beneficial. We plan to keep the camera at the Annex. We need something that is on demand. This funding would also cover a tripod, microphone, press passes, and an SD card.
- We are also requesting funding for a Gaucho Global commission and four Adobe Creative Cloud memberships so that we are not limited in who can work on what at any given time.
- The last project is rebranding as we are emerging from a transition period. There was no one we could ask for advice. We are requesting funding for a tablecloth and a lockbox, which comes out to $224.
- The total amount we are requesting is $4,000.

Harter
- You guys did an interview with me but the noise was messed up. That's a testament to their need

Wahiddulla
- One, do you guys have a holistic budget? It would be good to share that with us, For things such as the rental of the camera, have you reached out to CMU?

Walker Ly

- We did reach out to CMU. I was tasked with the full budget. The thing is we've looked into options with renting a camera and it's integral with our mission statement. We want to be on our feet. A lot of these shared technology services are delayed and resources are limited. We have many options and that's why they're in place, but we want to create reels where we interview students. The honoraria because we didn't have funding for last quarter, I don't how that will work.

Vincent Ton

- It is a testament to the work the living history project has done. Harper, you've done a great job, kudos to you and the board for putting this together.

E) Acceptance of Agenda
Motion to accept the agenda as amended.
Ono- Ly
Called to question- Wang
This motion passed at 10:55PM
F) Consent Calendar

G) Action Items

A Bill to Modernize Honoraria
Jones - Sussman

Sussman

- As I'm sure you're all aware because I've emailed during finals week. I'll give my thoughts on what this bill is and why we wrote it. This bill came to fruition in early September where Melanie, Enri and I met over zoom with Sean, Michael, Vincent, Holly, and Marissa while I was traveling. We decided that honoraria needed to be reformed. The way that the honoraria committee works is one of the most inefficient bureaucracies. Let alone the process itself, going through the forms of every single individual in this association that doesn't know how the process works, submit it late, and then have to retroactively do it. From there we realized, there is an alternative to that. We are legislating our way out of a broken system. The staff on that meeting were so generous to give us a document with their thoughts, ideas, and ideal view of what honoraria looks like in an association that is leaving from paper requisitions to a digitized association. Melanie and I spent maybe 10 weeks on this bill. We started with some concepts that weren't on a proposed document. We decided to make it as close to that document as possible with Vincent, Michael, and staff having access to the document throughout the entirety of that process, so much so that we would text regularly and get review from pro staff. It was approved by them and they said it looks great to us, the financial operations team will be very thrilled with this, and then came the controversy. I don't want to be involved and I'm sure all of you don't either. Some allegations made about this bill are inherently untrue and false. I

understand that the process of voting the bill over email vote was not the most highly liked and looked upon. There were some serious harms done to the characters of Melanie and I who wanted to write this bill to make things work better. Because of that, students are going to get paid late. Again, they'll get paid, not the end of the world. This bill has been approved by staff. It's not taking away power from us as an association. People like the fact students can overlook the honoraria committee, but to a certain extent, we are student leaders, not full time employees. Meeting with the honoraria committee is near impossible in our positions, and you have to wait on other people. Holding a committee meeting is very hard. This is not taking away power, rather giving us more power to do our elected jobs, it's not bureaucratic nonsense. With that being said, I think this bill should still pass. I worked day and night with Melanie on this. We read it out loud over facetime. All I want to do is help the association.

Jones

- That was pretty comprehensive so thank you. One of the biggest parts of it not being passed, besides email vote, was people wanted more time to come to the table with proposed amendments. I don't want to reiterate everything he said, I'd like to actually have a discussion with everyone. I want to make sure everyone feels involved with such a big change in the association. Now that we've had a few more weeks to read it over, I would love to hear the proposed amendments that I'm hoping were proposed.

Vincent

- I did not have my hand raised. My position on this bill, for the senators to know, I'm here on behalf of financial operations. I think the senate would benefit in considering this bill to understand our role. We do not have any say in who gets deducted, we don't have any say in who is viewed as doing their job in Associated Students. Our role in this partnership with government affairs once we get that list of approved students, we cut those checks as soon as possible. Some of the questions you may have is why did checks from last year take so long to get out? The way we saw it was we didn't get a list of approved students until well after we should've. Once we get them, we move as quickly as we can to cut the checks and disperse them. Obviously checks from December 2025 and the approved retroactive checks, credit goes entirely to our on staff team for moving as quickly as they could to cut the checks and get them out. Many of you probably got communications about your summer check being ready, or your retroactive check being ready. If there is an ounce of appreciation you can give to the student staff and Bryan and Aryman, please give it to them. We're really guided in our university that students who are owed money because of the work they do, students who need money reimbursed, we try our best to move as quickly as we can. We are blinded by the process currently in place. We saw this, Michael, myself, and members of our unit, saw this bill as expediting the payment process. I don't want to comment on emails sent out, but one of the things I wanted to spell is that the notion that members of the association will not get paid for fall work is

not true. When they get paid is up to when this is decided. If the bill fails, we go back to our normal procedures. If the bill passes, we have to plan to move quickly.

Luken

- My only amendment I wanted to make relates to under Article 16, Section 1, Subsection B. The very last stipulation that checks should only be distributed in highly extenuating circumstances. That makes no sense because there are some types of accounts that can receive checks and not direct deposit. You don't need to demonstrate to financial operations that you should get a check instead of a direct deposit. I think removing that because it seems unnecessary would facilitate a lot of smoother processing for people for their money. That is my only proposed amendment, just remove that phrase at the end.

Sussman

- If it's okay with the body, I know we don't like opening bills. Would you guys be okay with simply opening the bill and striking it out?

Lala

- Any amendments that are made, you have to delay it by a week. That's what the attorney general said

Sussman

- This was in confidentiality of my own appointment. The former attorney general says that since we don't have an interim attorney general to fill the position, we don't have to. Within the same realm, it doesn't substantially change bills so there is no need to table. I can text the former attorney general now and ask.

Luken

- The attorney general would have to prosecute and I could not believe that the Attorney General would prosecute or do anything about that. I really doubt she would do that

Lala

- When I was a senator last term, we did that all the time, making substantial changes to legislation on the same night.

Harter

- To the prosecution point, if you go to the remedial section of the bylaws, it's basically outlined that you don't go straight into prosecution. It'd be extremely unlikely or impossible that you got prosecuted. There's a case against the Attorney General if that were to occur without proper remedial action. My next point is to congratulate you guys and commend you on the excellence of this bill. I think it's an amazing bill. I understand you guys did extensive work and spoke to many people, and I feel very honored to be amongst the body that is passing this bill

Motion to open a bill to modernize honoraria

Luken- Wang
Call to question- Ly
This motion passed at: 9:38PM

Motion to amend a bill to modernize honoraria and strike "only in highly extenuating circumstances" from Article 16
Jones - Ono
Called to question- Wahidullah
This motion passed at: 9:39PM

Motion to amend a bill to modernize honoraria and strike "in which the students present a legitimate reason and is able to be accommodated by Financial Operations, and is to fit within accordance with University procedures."
Luken- Sherkin
Call to question - Wahidullah
This motion passed at 9:40PM

This motion passed at 9:46PM.

Enri

- I want to congratulate the most effective pro-temp team, and the most humane. No one treats their colleagues the best except for that one. I know there was quite

a bit of controversy at the end of the quarter, some of it justified, some of it not. We might all have our own interpretations of it, but I was hoping to find a mature and a body that's grown from its controversies when we came back from winter quarter, and I think it's exceeded my expectations. I've only seen professionalism and genuine kindness and a wish to make this successful quarter and a half going forward. So I'm really impressed with all of you. This is amazing. Thank you.

Vincent

- I think the senate would also benefit in knowing where we go from here. Holly and I will find some time tomorrow with the bill passed. This process is still two pronged in that it splits with government affairs.. With there not being a need to convene the honoraria committee for fall 2025, we'll look through the appointments tracker and move forward with sending out forms and communications to the chairs so they can begin due process. There will be association wide updates on multiple levels, and financial operations will move very quickly once we get approved to cut the checks. We commend the senate and we hope you'll be patient with us as we navigate the new process.

Motion to amend the agenda and add "term limits" to section L Discussion items
Harter - Than
Call to question - Wahidullah
This motion passed at 9:49PM

Unanimous consent to move into item A2 excused absences at 9:50PM.

Fall Quarterly Omnibus Bill
Than - Wahidullah

Than

- I went through it and changed all the formatting issues
- The main things were the enacted clauses
- I also identified a couple more errors, they are all in magenta
- When you are amending something on, and it's a huge portion, because it's all in a different color, you can't tell what was changed from the original legislation
- For example these extra legal codes
- Because it all has to be in a different color, you can't tell what was changed from original legislation
- If you look at AS media center, you can't tell what might have been added on
- Because that should've been in red but now it's in purple, wanted to point out for later on
- Other than that, everything should be procedurally fine
- If there's errors I'm sorry I couldn't catch it

- If anything wasn't captured, probably just syntax
- It has nothing to do with the legality and the importance for the BCUs
- If there are issues, I'll work with BCUs on it later

Wahidullah
- Aside from the logistic stuff, thanks to senator Than for helping with this as we collaborated over winter break
- I was asking some additional points regarding parties present to when you were writing this
- All the BCUs and committees are still set in stone
- As well as the ones affected by said strike throughs
- I've been communicating with them for the past few days and weeks and they are calm towards negotiating for a middle ground
- Expecting to have meeting with them next week or so
- When it comes to liaison committee, my goals and legislation
- We can ensure that things have to come across, have particular weeks to come assist them
- Particular legal code bill to help with their set needs
- Everything else is not controversial and should be good to go

Harter
- Thank you guys both for producing this bill
- Just going over it quickly
- The therefore be it enacted clause in pink
- It says will go into effect until article 11, boards, commissions, and units
- Immediately came to mind, don't think it's labeled boards commissions and units, it's called boards and commissions
- In the actual legal code
- Happened to review the legal code
- I don't know if that's an issue legality wise, if that technically doesn't exist
- That's past my knowledge
- Do recognize that mistake
- Wanted to point it out
- If that's an issue, we will have to send it to committee again

Luken
- I think we just pass it and then if we need to fix it in a later bill we will
- If it's an issue, think of it in a later bill

Wahidullah
- Similar place
- When it comes to particular amendments
- From my own retention to it
- If it doesn't have anything that changes the substantialness to the piece
- I don't think it has substantial need for amending

- When it comes to terms of this legislative piece, don't think it has any causality
- I agree with senator Luken that it can still be passed today

Sussman
- I'm going to be so pretentious for one second
- From Sacramento, there was a jeopardy
- One of those cards was the amendments of germaneness
- You basically just have to have an original amendment to the content of the bill's purpose
- I think we will be fine, but happy to text AG if necessary

Motion to adopt Fall Quarterly Omnibus Bill
Sussman - Harter
Harter
- Might be germane, it doesn't actually list the AS entities anywhere
- In the description, AS entities aren't listed
- The version I'm looking at is title, and description but its not complete

Lala
- Doesn't necessarily have to communicate that, does say following AS entities

Luken
- It doesn't matter at all because therefore being enacted

Than
- I meant that these are the following
- As in the following as written down

Call to question - Jones

Abstain- 1

This motion passed at 9:59PM.

Motion to approve up to $1,400.00 from the Senate Unallocated fund to cover the costs for the collaboration with Island View Outfitters for the AS Merch Project pursued by the Offices of the External Vice President for Local Affairs and Internal Vice President.
Sussman- Harter

Luken
- Why are they not paying for it themselves?

- Why is the senate paying for this and not getting any credit?

Lala
- There is nothing allocated to this kind of project that I know of in either office
- Secondly, it is the quickest route because IV outfitters was ready to get this out last week, and they needed the quickest fund possible
- Senate has the power first, if it's a major concern, offices could arrange something of paying back to the senate
- It's a little under 1% of what is in unallocated at the beginning of the year

Luken
- Would be nice to see that offices pay for their own things
- If they need that money from senate to explain why
- Just because it's less than 1% doesn't mean we should just be tossing it away for frivolous reasons
- I think it's a sick project, but want everyone to be thinking of accountability and transparency of these things

Lala
- I will add the description of the cost timeline

This motion passed at 10:03PM.

Motion to allocate $9,209.19 from Senate Unallocated to Living History Project.
Account Number 190.
Jiang - Harter
Call to question - Wang

Handvote:
Yes- 14
No- 0
Abstain- 1
This motion passed at 10:08PM.

Jiang
- The number Malhis submitted gets sent to finance committee
- Which is not the number that the representative asked for

- Apparently they cut back their budget due to conflicts with various parties
- Basically what they have wanted, if people remember public forum,
- Something over 4,100 something
- That only counts their honoraria for this quarter and the budget for events they are planning
- Didn't budget for previous or next quarters honoraria
- This number is double the amount they allocated for this quarter honoraria
- Which is also in the budget sheet for public forum
- They just updated it

Luken
- I have two questions, they're just discussion items
- First of all, I have for outreach to talk about a bill to clean up legal code and the mapache bill resolution
- Are there any other bills we need to talk about?
- Do Pearman fellows count towards quorum or can they vote towards motions?

Sussman
- No they don't
- They are encouraged to engage and watch the process of voting
- They don't count as a voting member

Motion to grant speech forensics $10,759 from the Finance Committee Fund winter quarter for an international forensics tournament in Athens, with the stipulation that they go to finance committee to obtain a financial exception for travel.
Wang - Harter
Call to question - Sherkin

Abstain- 6
This motion passed at 10:12PM

Motion to grant Speech Forensics $4,781.68 from Academic Teams for a Speech Forensics tournament in Los Angeles.
Wang- Harter

Jiang
- I have a comment on the account that was made for both the requests
- I'm confused that why both isn't coming out of USSA
- The first one is international travel so it fits the description
- Second one I'll argue that a travel cost can also be allocated prematurely
- Don't know if we have money in that account for academic teams

Sussman

- Senator Jiang brings up a great point
- This motion doesn't say which account it’s being brought from
- There is no substance to where this is money is coming
- Whether it’s coming from senate unallocated
- There is nothing here
- There are just concerns of repeatedly incidences of RCOs coming to senate for funding
- I know finance committee didn't meet last week, but it’s getting concerning

Jiang

- They did provide the funding account is the account name of finance committee
- Which is the actual name of finance committee for this situation
- Academics don’t even have the money
- Don’t even know, don’t have numbers
- Just fits your guys’ mission well
- If your using out of USSA, you don’t need an exception from us
- They naturally grant the thing
- If you are going to get approved by senate and go to finance for exceptions, the time is the same
- Essentially the time is the same, you still need to go to finance meeting to get your exception
- You're not saving time by coming to the Senate and doing this approval
- I think the previous kind of motion doesn't work for your benefit
- This doesn’t work for your benefit as well

Harter

- Does academic teams receive natural exception?

Jiang

- No, only academic conference
- Point of information. So if we want to undo a motion that was passed
- Can we revise the motion and revote?

Ly

- What would you recommend changing academic teams to?

JIang

- Would recommend both changing to USSA

Second rescinded
Motion rescinded

Motion to revise the previous motion to read Motion to grant speech forensics $10,759 from the USSA fund for an international forensics tournament in Athens"
Jiang - Harter
Call to question - Wang
Luken
- If we're making a financial motion and someone in the room who' at the table would be impacted by that motion, for the purpose of conflict of interest, do they have to say that aloud?

Lala
- I don't remember if policy 15 explicitly states that. You just abstain.

Holly
- I would highly recommend that anyone is affected by the vote to recuse themself on record.

Lala
- Should that be explicitly stated?

Sussman
- I don't know if the Attorney General said that.

Hepburn
- Just so everyone knows I will very likely go on both of these things. That is why I abstained and I will abstain from the next one

Handvote:
Yes- 10
No-0

This motion passed at 10:22PM

Jiang
- For the tournament in Los Angeles, am I delusional or there's no budget for it? The budget was only for Athens.

Enri
- It's up to you guys if you want to vote on that if you don't have a budget in front of it

Hepburn
- Can we get that budget and return that action item to get that done tonight?

Back here at 10:38PM.
Motion to grant Speech Forensics $4,781.68 from USSA fund for a Speech Forensics tournament in Los Angeles
Jiang
- Can senators present now, answer question on speech forensics without them being here?

Enri

- Are we discussing the thing from public forum earlier or enjoying some quiet time?

Harter- Ono

Jiang

- Do you have a list of attendees, that was 26 people? Do you have the names of the people?

Hepburn

- No, it's undetermined because we haven't gotten funding. We will use less if so, in which the money will go back to the finance committee.

Jiang

- Did you attend a similar event last year?

Hepburn

- No

Jiang

- Do you have an average attendance ?

Hepburn

- Yes, usually we'd go to the finance committee.

Called to question- Sussman

G-2) Old Business
[Debate Time Per Item- 15 Minutes]

H) Recess

Back from recess at 9:24PM.

I-3) Unit Reports [Speaking time not to exceed 10 minutes] -

Report Speaking Agreement: Pursuant to Senate Standing Rules Section F, clause 5, officers of the Association providing reports, must take questions from Senators relevant to the matter(s) or project(s) presented. Knowing that, do you still wish to give a report?

I-4) President's Cabinet Report-
I-5) Executive Director's Report-

Sean Lieberman

- Good to see you all
- There were Qualtrics forms that honoraria earners should fill out if you want to be reimbursed or receive honoraria
- How you get into the new Microix system to get reimbursed
- Stop using paper forms for requisitions, use the system now
- Check your email for the log in
- The student affairs based initiation going on the ballot for signatures
- 15 different departments, you will see on the forms

Lala

- Has the process of signature gathering going to commence

Sean

- They have three weeks to gather signatures
- It started Monday, they need more signatures
- They need 3500
- For us it's calculated based on the number of people who voted on the president of the prior election
- Theirs is just a percentage which is higher
- For us it would require probably like 1500

Than

- Just want the update for the job descriptions update
- The updates to the honoraria system
- There is a huge backlog for requisitions
- Will this help with the backlog of requisitions?
  What is the update with the Sacramento requisitions?

Holly

- They have been submitted
- I will ask michael if its check of BARC account

Sean

- If your in the system we can pay you via direct deposit
- Lily is getting the job descriptions ready they should be done by the end of the week
- The paper forms are being scanned and it takes extra time, once its digital it will be fine

Lala

- The payment did not go through with the pardall center

Sean

- We will have a QR code at the front desk
- Payment wasn't going through and there was a copy of the check that says its cashed

Lala

- And there are no other alternatives in iv?

Sean

- We can get frontier
- I'll look into that

Harter

- Question on linkedin learning are there any updates
- Apparently the SB library gives free linkedin accounts to everyone who has a library card and a library card is free for residents of Santa Barbara

Ono

- It was at pardall and it's bad we don't have internet
- We can't schedule appointments
- Definitely need to get that going asap
- I can help out

I-6) Executive Office(r)s' Report -

President Metzger

- A big thing my office is working on right now is Protect Your Peers Week, which will be a week of events centered around community engagement. On Wednesday, there will be a town hall, and on Thursday we will be hosting a teach-in on the history of immigration in the United States. I hope to see you all there. If you all could help support by publishing and promoting these events, that would be great.
- There are ongoing updates on the search for the new UCPD Chief of Police. I sent an email about this on Sunday. EVPLA has been serving on the search committee. There are four finalists, and there will be AS panels over the next few weeks. I sent you calendar invites. This is really important to prioritize, as the Chief of Police is a very impactful role on campus. Please attend the panels, ask questions, and provide your input.
- For the Executive Director search, the application deadline is tomorrow. Applications will be reviewed next week. Last time, there were around 30 applications. We will be conducting Zoom interviews and then bringing final candidates to campus for panels.
- Shoutout to the Fall AS Student of the Quarter is Lily Strange. There were so many nominations. There were really great things said about her work with the COC and COSWB.
- Some important dates to keep in mind include the quarterly chairs meeting, AS Quarterly, and the State of the Association. Please make these a priority. Senate attendance has been lacking, and I would really love to see you all there. We will also be talking about the Outstanding BCU Award and making a budget request for my office.
- Finally, a note about respect. At the end of last quarter, I received complaints. The association I want to lead is compassionate, respectful, and welcoming. We treat one another with respect. Condescension and mocking have no place in this association. We are not better than anyone else.

Ly

- What are the food security initiatives?

Metzger

- Last quarter we did the super cucas free burritos
- We are looking to continue that program for undocumented to get EBT

- We were able to give away all the burritos by thanksgiving
- If you guys have any feedback id be willing to listen to it
- Looking for more food security for undocumented students

Lala
- Can the senate help fund those initiatives?

Metzger
- Yes if anyone has ideas or thoughts pls reach out

Luken
- It's good and important to introduce yourselves when people are up there speaking

I-7) Senator Representative Reports-

Wahidullah
- I wanted to share a group project I have been working on to help support the Liaison Committee. I have been working on some new projects and reflecting on new systems that could better support our work, and I wanted to share a brief message.
- One thing I learned is that I think we should all remember how important effective liaison work is. After observing over the fall quarter, I saw firsthand the consequences of liaison strategies that have failed. Many of the BCUs do not even know who we are, and after seeing those gaps, that is unacceptable.
- Because of this, we are launching a new Senator–BCU matchmaking pilot program. This program will include structured check-ins and will only take a couple of minutes to complete. Please make sure to fill it out.
- The model is simple and step by step. You will list the BCUs you are interested in, and the system will assign you a BCU. This is a good opportunity for senators to show that they care about the BCUs they represent. It will also help ensure we do not repeat the same mistakes of not understanding how BCUs work.
- I wanted to make sure that this quarter starts strong and that we move forward with a great outlook.

Ly
- Will each senator have 1 bcu assigned

Wahidullah
- Typing to keep it at least 1 and committee members will do 2

Harter
- I commend the effort
- What's the next steps
- Will we get an email

Wahidullah
- I will look over and manually organize so that each bcu has a liaison, I will email you which bcu
- Up to you being the liaison if you wanna communicate with is

Ej Raad EVPLA

- Hope everyone had a great break. I am here to give an update on the status of the Save Deltopia campaign.
- This week, we had a meeting where we spoke at length about the proposed ordinance. His view is mirrored by the other Republican on the board. Because he identifies as a libertarian, he is in support of the ordinance due to the financial burden of Deltopia, which costs approximately $300,000–$400,000.
- He shared that if AS could, in some form and in writing, indicate a degree of financial commitment to the county, he would change his mind on the ordinance. The Program Board has also been informed.
- If we are able to provide something that commits to a financial contribution, it would be very helpful, as both he and the other Republican would be willing to change their position

Sussman

- I think the MOU would be for BCU's to contribute to this. You said around 200k

Raad

- About half would be nice but doesn't have to be exact

Sussman

- We can utilize these rollovers that aren't being used
- If we work on an MOU early this week then we can get that to them soon
- We can't vote on anything tonight

Hepburn

- So he specified he's a libertarian and yet wants to suppress the free market

Raad

- Yes in a nice way
- I don't want to sway his vote
- He said if we have the money to pay for it it's fine

Riis

- When is the election term
- How do we know were not committing to them money and then in the future there might be want for us to commit more money
- What's the long term

Raad

- The biggest thing is if it's not past now then it won't be passed at a;;
- Its unsanctioned
- If deltopia was a sanctioned event then it would fall onto the burden of other groups
- I know supervisors are in their reelection year this year but he isn't
- There's no knowledge of if this will be repeated or not

Speaker

- Will it be possible for us to get an exact number on the amount of money

Raad

- He said half maybe

Luken

Really skeptical about doing this

- Ivcsd has put together an alternative plan
- What do you see as the long term solution regardless of what happens
- How do you ensure we have autonomy of what happens

Raad

- If we were our own city we wouldn't have this problem
- Long term its something we should strive for
- I am Skeptical too
- Do we thinking this os a strong use of the associations money
- The budget is 2 mill
- Do we feel this is an important thing to fund

Harter

- The way I conceive the issue is that, obviously, we have this time frame. In the short term, it looks like we are basically going to see what happens with this
- The midterm solution is to create a sanctioned event. It will be very difficult to make that happen this year, so we should aim for next year, once we are officially recognized as a city. I see the allocation of money as being tied to supporting the sanctioned event next year
- Once the prerequisites are met, we will have the background needed to move forward. I don’t think there will be a slippery slope of continuously asking for money, because we will have a sanctioned event next year, if not this year.

Ly

- I know you said there are 5 supervisors
- And you are saying at least 3
- Do you what the democratic ones will lead towards

Raad

- Some supervisors are more sympathetic to our cause
- Ly was apparently in a conversation more sympathetic towards our cause
- Seems split

Ly

- Since the 200k is a stipulation from one of the supervisors,..
- Maybe saying we are committed this is our even were willing to put up x amount
- More negotiating power

Sherkin

- Want to get a little more context
- Say we pay the 200k
- Is this more like so we can have control or were backed into a corner

Raad

- With the library it was more of the latter
- This was imposed on us and we took this opportunity to get ahead of it
- The latter sounds more plausible

Harter

- The bus thing where are we with that

Raad

- Sen Harter was thinking of having bills bus take students to the board of supervisors
- It might give the wrong look
- I did reach out and they quoted 1000 for a bus of under 40 people

Hepburn

- TPS has a bunch of vans

Harter

- A big bus would be cheap
- Doesn't have to be the party one
- Just wanted to know if u were still interested

Raad

- Also told 40 people would completely pack the room
- Also the vote is at 9 am jan 13th
- It will come up before their recess at 12 or after at 1

  Motion to extend speakers time

  8:10pm

Sussman

- What do you think is the solution here

Raad

- The first step is what you mentioned: I need to show them a financial commitment. We already have half of the funds from the Program Board. The best approach is to work with BCUs and ask them to contribute as well
- If you all could help with that, it would be great. After that, we are going to start heavily marketing the event to students so they attend.

Lala

- There is obviously precedent with as being involve
- Seems different to have an mou with santa barbara county
- Doesn't seem impossible
- Just need to show were committed
- How about a senator or two help with the mou

Raad

- I just need something tangible to show them were committed

Malhis

- Is it possible for us to use senate unallocated
- We still have a large sum

Lala

- Yeah that’s a matter for the body to take up

Sussman

- This a question for sean
- If we use all of senate unallocated can we tap into reserves

Lieberman

- This doesn't sounds like one of the 3 reasons to tap into reserves

Malhis

- By when would you like to show them u have some sort of commitment from as

Raad

- By the 13th

Sussman

- But we would have to vote on that tonight

I-8) Administrative Reports-
J) Committee Report
J-1) Standing Committee on Finance -
Jiang

- I have been trying to do a data analysis based on Administration of Finance Committee funding. I have been looking at which RCOs are registered and which of them are funded, as well as what kinds of organizations receive funding. How many accounts are we funding? I have always been curious. I have always been curious why academic teams and conference funding are under different accounts, and whether that structure is intended to improve efficiency for students or for administrative purposes. 18% of sports teams get funded. Allocated an extra 17k to the same out of other funds.
- Currently, we have funded 37% of registered RCOs that are funded. I still need to categorize the data based on event type. We have funded 85% of travel requests, and the full report should be completed sometime next week. I welcome any suggestions or attestations
- Last quarter, I presented a report on USSA. USSA now has a fund balance of approximately $170,000. At this point, the main mission of USSA may no longer be doable. I am recommending that we change the ballot language so it is more relevant and updated, as the current numbers in the Legal Code are not aligning with student values
- I have also been speaking with Sarah, who manages our Fluxx platform. She has shared that RCOs are very eager to have access to storage space on campus. Currently, we do not have a catalog of items that are purchased by BCUs. Sarah has proposed that having a dedicated storage space on campus would be extremely beneficial, and I would welcome any senators who are interested in working on this as well.

J-2) Standing Committee on Outreach -

Luken

- We are implementing the Genco project. Once the Finops team gets back to us, Genco will process the invoice.
- We are commissioning a study this quarter on living conditions in Isla Vista. The study will begin in Week 3 and will provide a comprehensive overview of living conditions in IV. If you have any ideas for additional areas we should incorporate into the study, please let us know.

- We are also trying to get food trucks on campus. Food and Dining has not allowed this, and at most we are only able to have a food truck come every other week. We are currently looking at alternative ways to bring food trucks near campus.

Harter

- If anyone is interested in reviewing any of the projects we have, you can look at the winter quarter syllabus. It outlines the next couple of weeks. Anyone who is interested in looking at the syllabus is welcome to leave comments, concerns, or feedback.
- We will be addressing a few pieces of legislation at our meeting. We also have new people joining our committee, and we have expanded to 17 members. We are interested in continuing the success we had last quarter

Jiang

- Not familiar with the modes of the food truck

Luken

- The serve food on the side of the truck
- We wanted to bring them on campus but there are policies so we might do it in iv

Lala

- What are the chances we get an in n out truck on campus

Harter

- We haven't looked into it
- But 10 years is a pretty big time frame

Lala

- Glad to hear about genco moving forwarded
- How many will be in residence halls and how many will be elsewhere

Luken

- It will only be in residence halls for now its a plot program
- RHA is involved
- Once the payment is done they will install it
- Planning on tabling all quarter

Lala

- Wondering where the democracy project form is

Luken

- No one responded

Harter

- We'll revive the effort

J-3) Standing Committee on Liaison -

Wahidullah

- We are trying to create a better environment and improve communication. We now have a new meeting space, a newsletter, and more facilitation to support this effort.
- We are also starting a new hiring process for our Liaison Committee, which is a great opportunity. Please tell anyone you know who might be interested to apply.
- Finally, any senators who have not done so yet, please sign up for the matchmaking template

Lala
- Are we able to have committee meetings here in flying room a

Holly
- Yes just reach out to me

Than
- Wahidullah has done a great job
- Looking forward on working with the outreach committee

J-4) Standing Committee on Advocacy -

Sherkin
- Gonna switch chairship ty everyone for being awesome last quarter

Ono
- Gonna do good stuff

J-5) Group Project and other Temporary Committee Reports-

Sussman
- I am going to introduce a resolution on a student safety committee
- Wanted to bring that to your attention

Lala
- You can have a temporary committee
- Dean Joaquin, would ask if the chancellor's advisory committee is on how appointment works

Dean Joa1uin
- There's an application process within all of those things

Jiang
- Are we going to keep doing the appointment committee

Sussman
- Its a runner up system there were a couple of other people who ran for off-campus senator in spring so they would be reached out to first

Pascher
- The temporary committee is in a chair as a student on that committee
- It doesn't need to be chaired by a senator

Lala
- Does the resolution say senator Pascher

Pascher
- It says Natalia Pascher
- No senator

K) Minutes and Allocations:

To Be Approved
Motion to bundle and approve all minutes and allocations
Harter- Ono
Call to question - Hepburn
This motion passed at: 10:24PM

L) Discussion Items
Term Limits
Harter
- I've been really concerned with the continuity of associated students
- I think term limits and a major issue of that
- Want to hear what people think about increasing term limit to 2 years
- Feel like that has been discussed in previous senates
- Don't know much about current arguments
- Have a few of my own
- People not being able to perform enough in a single year
- Did happen to go to student government conference in break
- Spoke to students from hundreds of universities
- Whole 2 year term limit occurs at other schools
- The one year term limit is not completely standardized
- Just interested in doing this
- Would like to hear body's opinion of this
- Perhaps we can return to this

`

Sherkin
- Sorry for the quite simple question, if a junior runs, what happens for them after senior?

Harter
- If we were to write a bill that changed legal code and effected 2 year term limit, it would say
- You can't be a super senior if you get elected as a third year
- You would be done pretty much
- Some complexities between dividing available seats
- Some years some are open, and some years others are open
- Can dive very nitty gritty
- To address your concern head on

- We would prevent people from continuing their term after they graduated

Jiang
- It never looks good for people in position to say they want to extend their terms
- Especially, this is not the end of our term
- It looks worse if you do it at the end of your term
- Don't think continuity outweighs the fact that
- AS is not already an organization that reaches the student body as much as we wanted
- In terms of student participation, don’t wanna put it too bad but
- We say we represent students but we know we don’t represent them enough
- I just worry that extending the terms with continuity would make less students who can participate in this
- Now you're only having the same people around
- Only 4 years of college, 2 years would literally be half
- I'm not personally on board with this idea

Manala Proxy
- What offices we are extending term for?

Harter
- It wouldn’t be an extension of our power
- Not behind that personally, get ethical concerns
- I can totally see students being more interested in getting involved in AS knowing they will have power for longer
- Don’t want to villainize power
- We want power. Power is how you change things
- Students are going to be in a position where they have more power
- I argue they might be more inclined to get involved in the association
- Not going to argue it, just entertaining thoughts
- The positions that are affected, I think obviously the senate would have to be affected
- To be continuous with the continuity point, senate would have to be amended, and executive decisions should be considered as well
- I think the executive positions should be considered as well

Lala
- There is some mention of terms of office in the Constitution, although it's in reference to something else, but it seems to be constitutionally bound, would have to go through constitutional amendment process
- Last year we tried to do that in the winter special election and got 2% of vote
- Would certainly have to wait for spring general election
- Change structure of senate which would have to kick in next year
- You’re also electing those positions at same time
- This is a little odd

- People are voting for someone and whether they will stay for two years
- Something to keep in mind, this should go to students ultimately
- Should ultimately go to students

Ly

- Not super necessary
- Many people in senate want to do another position
- If they do have interests in coming back, we have Wahidullah
- There is the situation of seniors who are going to be graduating
- If there is interest, not that many people who run for senate in first place
- They have a likely chance of being reelected
- Gives more choice and power to student body
- In addition to creating change,
- If one year votes for senates, the next year those students wouldn't have a say if they wanted those people there
- Takes away less power from people

Wahidullah

- Connects
- My particular components about this
- I do understand extending or not extending
- As I communicated about this
- This will limitize the poll of participants getting interested in the program
- Think that if we’re supposed to be there reps, will limit the pool
- When communicating about the idea of ideology the intrinsic interests that has become part of as is about singular position instead of community would create smaller pool of people interested in position of power
- There should be more people interested
- Think were doing well this year, reevaluating certain structures that stop us from progress in the first place
- I think its a structure and system
- Think that what we're doing right now, modernizing honoraria and such, helps
- I think its better to fix the resources
- Rather than extending it

Harter

- Really quick, the system that I was conceiving or thinking of
- An alternating A and B system
- The reason why that system exists is so that every single year
- Every single year a position is voted on
- Either A or B, half of senate is open
- I actually don't think that the concern about other people being involved is something to be concerned about
- Every single year, positions will be open and someone can earn positions in AS as a senator

- That’s why that system exists
- Valid concern but the system is flexible and comes built in with safeguard for that exact concern
- But the system is flexible
- I’m not married to the idea, just wanted to hear people’s opinions

Than
- I kinda like the idea
- I haven't been in spring elections
- Isn’t spring quarter just preparing for the elections
- Feel like you could choose, positions could be 1 or 2 years
- I know that no one is running for elections
- Ideally in a world where AS is more prominent we could have positions that are 2 years and 1 years and A and B
- We have alternating A and B, all these kinds of various forms
- I think a spring quarter could be focused on that

Lala
- I think Davis has an election spring and fall with this in mind

Luken
- I would like to have these conversations in the senate but this is not an effective use of our time at all

Lala
- Send in ahead of time. I had no idea we were gonna talk about it

M) Appointments and Resignations
Enri
- These are just appointments that we left at the end of the quarter that we have to do now. You can address specific orders now

Motion to approve the retroactive appointments and resignations for the Fall 2025 Quarter: Under the Trans & Queer Commission, Resignation of Anastasia Grizzel as Special Projects Commissioner, Sasha Velasquez as Special Projects Commissioner, under the Food Bank Advisory Committee Kamelia Kaveh as Publicity Coordinator, Mia Lopez as Internal Affairs Coordinator, Jimena Gomez Rueda as Internal Affairs Coordinator, Melanie Mendoza as External Affairs Coordinator
Ly - Ono
Call to question - Wahidullah
This motion passed at 10:46PM.

Office of the Internal Vice President

Resignation of Grant Schweigert as Head of Staff
Resignation of Casey Carnow as Deputy Head of Staff
Resignation of Maryn Hoffman as Internal Affairs Coordinator
Casey Carnow as Head of Staff
Maryn Hoffman as Deputy Head of Staff

76th Senate

This motion passed at 10:48PM.

Motion to bundle and approve all appointments and resignations
Ly -
Sherkin
- For Senator Pascher, can we have a special one for her?

Motion rescinded.
Enri
- I get the feeling of that value. That is usually when you single out people to make the motion on their own. You make the motions separately. Policy 15 says when you know someone you can't motion on their appointment to something even though senator to Attorney General is a paycut. If you want to do that, your choice honestly.

Sherkin
- What if we approve her now and then bundle the rest?

Motion to approve the resignation of Natlia Pascher as off-campus senator.
Sherkin - Harter
