Senate Agenda 1/21
Associated Students UCSB 76th Senate
➕ Senate Voting Tracker for 1/21

Zoom Link

Minutes/Actions recorded by: Sydney Arbolado, Alexandra Cervantes, Liliana Dritz, Melina Magno. **CALL TO ORDER** by Enri Lala, Internal Vice President **at 7:01 PM.**
This meeting was called to order at 7:01 PM Flying Room A by Internal Vice President Enri Lala.

A) MEETING BUSINESS

"Before we begin, we call for students to acknowledge that the lands that the University of California locations were built upon were expropriated & founded upon exclusions and erasures of Indigenous people's human rights throughout California. UCSB is built on Chumash Land, specifically that of the non-federally recognized Barbareno tribe. As an association that pushes the student bodies' voices to the forefront, we should aim to make strides past just acknowledgment to those who continue to fight for their right to be recognized & respected as the original stewards of this land. I ask you all to dedicate time & care to personal education & to advocate for justice alongside Indigenous peoples."

A-1) Roll Call

Amna Chaudhry	✅ Present, ☀️ Early	Off-Campus Senator
Caleb Claro	✅ Present, ☀️ Early	College of Letters & Sciences Senator
Alec GeoSimonian	✅ Present, ☀️ Early	College of Creative Studies Senator
Mia Gutierrez	⛔ Absent	On-Campus Senator
Neo Harter	✅ Present, ☀️ Early	Off-Campus Senator

Xander Hepburn	✅ Present, ☀️ Early Proxy proxy Luke Lopez	Transfer Senator
Yuchang Jiang	✅ Present, ☀️ Early	International Senator
Melanie Jones	✅ Present, ☀️ Early Proxyproxy	College of Letters & Sciences Senator
Noah Luken	✅ Present, ☀️ Early	Off-Campus Senator
Victoria Ly	✅ Present, ☀️ Early	Off-Campus Senator
Qhawe Manala	✅ Present, ☀️ Early	International Senator
Vanessa Manakova	✅ Present, ☀️ Early Proxy	Off-Campus Senator
Nadine Malhis	✅ Present, ☀️ Early Proxy	On-Campus Senator
Olabisi Ola-Olaitan	✅ Present, ☀️ Early zoom	University-Owned Off-Campus Senator
Keizo Ono	✅ Present, ☀️ Early	Off-Campus Senator
Romi Riss	✅ Present, ☀️ Early	Off-Campus Senator
Erica Sherkin	👍 Excused	Off-Campus Senator
Evan Sussman	✅ Present, ☀️ Early	Off-Campus Senator
Sohan Sunderrajan	✅ Present, ☀️ Early	College of Letters & Sciences Senator
Mira Than	✅ Present, ☀️ Early	Off-Campus Senator
CJ Toledo	⛔ Absent	College of Letters & Sciences Senator
Jasmine Wang	✅ Present, ☀️ Early	On-Campus Senator
Eeman Wahidullah	✅ Present, ☀️ Early	Off-Campus Senator

A-2) Excused Absences

Motion to excuse Senator Sherkin at 9:30PM.
Ono - Chaudhry
Call to question - Luken

This motion passed at 7:03PM.

Motion to excuse Senator Wang from 8:20PM - 9:40PM.
Than - Chaudhry
Call to question - Sunderrajan
This motion passed at 7:05PM.

Motion to excuse Senator Wahidullah at 8:50PM for the duration of the meeting .
Sunderrajan - Chaudhry
Call to question - Manala
This motion passed at 7:06PM.

Motion to excuse Senator Ola-Olaitan at 9:30PM for the duration of the meeting.
Manala - Luken
Call to question - Chaudhry
This motion passed at 7:07PM.

Motion to excuse Senator Sherkin for the rest of the meeting due to health reasons.
Ono - Chaundry
Call to question - Than
This motion passed at 7:23PM.

Motion to unanimously consent to move into section I3 Unit Reports.
Passed via unanimous consent at 7:23PM.

A-3) Acceptance of Proxies

Motion to accept Luke Lopez as proxy for Senator Hepburn.
Luken - Wahidullah
Call to question - Chaudhry
This motion passed at 7:07PM.

Motion to accept Mohammad Azeem as proxy for Senator Jones.
Ly - Chaudhry
Call to question - Manala
This motion passed at 7:07PM.

Motion to accept Eddie Barajas as proxy for Senator Malhis.
Wahidullah - Chaudhry
Call to question - Ono
This motion passed at 7:08PM.

Motion to accept Kendall Schauble as proxy for Senator Manakova.
Harter - Luken
Call to question - Than
This motion passed at 7:09PM.

B) External Reports

B-1) Chancellor's Representative-
B-2) UCPD Representative-
B-3) GSA Representative-
B-4) University Center Governance Board Representative-
B-5) IVCSD Representative-

Motion to unanimously consent to move into Public Forum.
Passed via unanimous consent at 7:10PM.

C) New Business

A Resolution Supporting the Integration of Gaucho Bucks into Meal Plans
Malhis - Wang - Ly

Proxy Brajas
- . Senator malhis reintroduced this bill After his discharge from the advocacy committee, where it received substitute review and several clarifying, clarifying amendments. I want to start by thanking the advocacy committee for their time and feedback. The changes have strengthened the bill and have made it clear and more precise and more administratively sound.
- Unfortunately, Senator Malhis and IVT you chair McKayla Wilson have received notification today from EOP that the program is going to shift from being housed under financial crisis, is response team within the UCSB Office

Lala
- Wrong resolution

Barajas proxy
- Senator Malhis is bringing forward this resolution to formally express assoc for integrating gaucho show bucks into existing meal plans to extend student access to retail dining options. At its core, this is about flexibility and accessibility right now, UCSB meal plan structure largely confines students to residential dining halls which doesn't work equally well for students with dietary restrictions, non traditional schedules, late night needs or off campus living situations.
- Many peer UC campuses, in fact, every other one have already implemented models that allow meal plans to be used at retail locations without increasing overall student costs. And students here clearly are asking for similar options.

- Through our survey, we've seen a majority of respondents, 402 out of 403 respond with student support. With this performance. This isn't a hypothetical idea. It's grounded directly in student feedback. Students want more choice and where and how to use their meal plans, especially when it comes to retail food access at locations such as the arbor or within the UCSB.
- Importantly, this resolution does not mandate a specific implementation. It supports exploring cost neutral, feasible pilot programs in collaboration with campus partners. What this resolution does is give us something official and official as a position.
- Having this endorsed by the Senate allows us to engage more effectively and legitimately with housing, dining and auxiliary enterprises. It streamlines conversations with hgae by showing this is not just an individual proposal, but a student backed priority, endorsed by this body passing this resolution, strength can strengthen student advocacy aligns with demonstrated student demands and puts us in a better position to work constructively with administration, with administration towards realistic solutions.

Ly

- I know she's not here for all the work she's been doing. She's reaching out to the RAs. She's had people go to RAs meeting for every single dorm to get their feedback, to share this survey. She's also reached out to a lot of university administration, so she's been coordinating this with a group of student leaders, as well as scheduling meetings with a lot of admin, like admin and just a lot of stakeholders in this.
- And so she's been putting a lot of work into it. And if you check the survey, which I believe everyone has access to, which is at the bottom of the second page, we do have a lot of positive feedback for both late night and for allowing Meal Swipes for retail locations. And most of it is positive. I think if I checked it was lik393 yeses, nine nos. So there's overwhelming support for this resolution, and I also

Wahiduallah

- I do commend the extensive work. Holistically, the entirety of this team has been working on this initiation. I can recall, just even from nostalgic conversations along just with you and everything Eddie from this, how much of the systemic work you guys have been communicating when it comes to integrating the system with gouts into the university, and I think it's great and as more of a question of curiosity, because I remember myself in the past trying to work on similar statistical surveys and try to communicate to alongside administration, to integrate these in a realistic manner, to policies, to actually negotiate with administration, to integrate Gaucho bucks.
- I recognize you guys have made statistical surveys about this. And I assume, because this is more of a resolution, you know, in support of this, in future upcoming particular pilot programs. B
- ut if you could maybe extend on out of a curiosity manner about the next steps going into this, maybe, if you have any examples yet of particular pilot programs,

or maybe upcoming future steps that regards towards administration to ensure that a realistic project that becomes successful in UCSB, or just some more and Tabling, if you have any like information about that, if not, it's fine. I'm just more curious.

Eddie Barjas

- Well, most recently, there was some changes to the meal plan that were student initiated, and that led to a quarter long pilot program. And then now we're in the first full year of implementation.
- Notably, those were swiping rollovers and donations, which today we spoke with Jill Horst, who's the director of dining, and there are some other people involved in the meeting as well, and they were saying that this program for them that they just implemented has been cost neutral, which to me, has said that these lack of meal plan changes to benefit the student body are more out of them not wanting to out of lack of initiation, I'll call it, which is why we are urging as and also the Residence Hall Association to support this. Not only we want to show that this is now not just me asking Jill for this, but really the student body.
- we were running into discussions of why this hasn't happened yet, first of which was lack of student support, which I think we've squashed, and we're working on squashing, showing that there's realistically outstanding student support on this, which is through surveys, and then also getting all the residence halls and the Residence Hall Association on top of Associated Students to be in support of this. But then secondly, there are some financial back end issues, which may be a problem that might halt the progression of this, notably the way Gaucho bucks currently works in the system, which is why we're trying to work with the Chancellor's office after getting student support there has to be moved for the Chancellor's Office and kind of the executive level, figuring out the changes in Financial Systems

Motion to refer A Resolution Supporting the Integration of Gaucho Bucks into Meal Plans to the advocacy committee.
Luken - Chaudhry
Call to question: Jiang
This motion passes at 8:31pm

Ono

- Is there a reason why this is not discharged immediately
- Would we be open to discharge it immediately?

Motion to discharge Resolution Supporting the Integration of Gaucho Bucks into Meal Plans
Luken - Ono
Call to question - Chaudhry
This motion passes at 8:31pm

Motion to adopt a Resolution Supporting the Integration of Gaucho Bucks into Meal Plans
Luken - Chaudhry
Cal to question - Wahidullah
Yes: 14
No: 0
Abstain: 5
This motion passes at 8:36PM

Luken
- Point of order
- Last week we tabled res for standing policy 44?

Motion to add a resolution condemning antisemitism to new business
Harter- Wahidullah
Call to question: Luken
This motion passes at 8:38pm

Motion to add Resolution Condemning Antisemitism to New Business
Harter

Harter
- Incident that happened at frat house a couple weeks ago
- Chancellor issued a statement about it as well
- Simple that everyone at this campus deserves to feel safe
- Regardless of race ethnicity, doesn't matter
- If this were to happen to anyone else in our campus I'd still be writing this resolution
- Doesn't matter who it is
- Reason why I think it's important that senate does take a position on this
- EliE Wiesel Holocaust survivor quotes "Neutrality helps the oppressor, never the victim. Silence encourages a tormentor, never the tormented"
- As a body that represents the students on campus,
- Neutrality can be interpreted in a negative way
- In a way that empowers the oppressor
- This is our role as a body
- I think it's important to recognize the injustice that it occurred
- If this were to happen to anyone again, this resolution would be in order
- I urge a vote to pass this since neutrality is empowering the oppressor
- Again, neutrality is empowering the oppressor
- Hope everyone understands the intent of the resolution
- I hope this goes out without a hitch because that is what everyone deserves to put it simply

Motion to unanimously consent to allow Attorney General Natalia Pascher into the discussion.
Passed via unanimous consent at 8:41PM.

Pascher
- Don't remember sponsoring this resolution, not sure why I'm on here
- Didn't explicitly say I was sponsoring this, misrepresentation of myself and my position

Harter
- Very respectfully,
- An hour ago we talked about it and I thought I got approval
- If not, let's just take your name off
- I was under the impression that I got authorization
- If that's an issue please do amend it
- Think it's important we do amend this

Pascher
- Definitely miscommunication

Lala
- There are some issues with format here as well
- You have the choice on to make it on the floor

Luken
- If no one else has any more discussion I'd like to make a motion

Manala
- Regarding a point of info on the bill
- This bill is a great thing that we are pursuing justice
- Just want to understand how this would be different to the avenues that the school already has to dealing with hate and how this provides an alternative solution

Harter
- We pride ourselves on our distinction from the administration
- That's been a crucial theme since the conception of AS that we are separate
- Other entities within school have issued something, this entity has said nothing
- Other entities in the school have said something but others haven't
- Because we are our own entities that have our own reputation
- Has its own column in daily nexus and other media forms
- It's important to honor our existence and autonomy
- We honor our autonomy
- We issue our own statement

Jiang
- POI
- I sincerely don't know what happened

Harter
- There was an instance of breaking and entering of the jewish fraternity
- There was a swastika drawn with shaving cream on mirror of fraternity
- It's clearly a hate symbol and designed to intimidate them
- Done after breaking and entering
- Illegal and a crime
- It’s a crime and intended to intimidate them
- Shouldn't allow that no matter how student is

Riss
- Just for clarification the incident is still under investigation
- They were inside of private residence
- AEPI is not affiliated with IFC
- This is the 4th incident that’s occurred at this residence the past year

Proxy Manakova
- I’m against discrimination of any kind including antisemitism
- I just wanted to ask what is AS anticipating in terms of our UCSB student president
- Tessa Veksler
- Suing on anti semitic claims
- How do you anticipate a statement might affect that?

Lala
- I appreciate that but I feel like the urge to ask to AG
- Feel the urge to ask Interim exec director and AG on what extent this should be talked on

AG Pascher
- Free speech
- Consider that speaking on a pending lawsuit might have implications
- I would say that that’s free speech

Lieberman
- I won’t be speaking on anything

Lala
- Just to be clear it’s not the association
- As a peer I advise you to proceed cautiously

Proxy Manakova
- I just wanted to state that this is exactly why I stated this

Harter
- Again, I think our position our body is our position as a body
- Literally is independent of the lawsuit that is occurring we can make a statement on this
- We can make a statement on this
- Not commenting on any active lawsuits at all
- Completely separate thing
- I don't see how this is related to the lawsuit on any capacity
- I don't see the relation

Move to refer A Resolution Condemning Antisemitism to the Outreach Committee.
Luken - Ono
Call to question - Wahidullah
This motion passed at 8:48PM.

Luken
- I've asked this before
- Can the motion and the second and the person who called to question give consent to call to question?
- If I make a motion can I call consent?

AG Pascher
- If anyone else says consent?

Lala
- In that case there might be a problem
- There might be a problem
- That’s the whole point of this process
- Don’t see a problem with
- Adding on their consent to others
- Wouldn’t be super worried about it but if someone catches it let me know
- Should voice if you give consent to something or not

Pascher
- More to give someone the space to object than for consent

Motion to unanimously consent to move into a short report.
Passed via unanimous consent at 8:50PM.

D) PUBLIC FORUM

[1:30]

Speaking agreements:

"You have three minutes to speak, with three minutes for Q&A. Please state your name, pronouns, and enunciate, but refrain from yelling. Speculation of a Senator's intentions is prohibited and may result in you being removed from the ability to speak on the floor. Please know this meeting is being recorded. You may speak on any issue, whether it is on the agenda or not. Please include a content warning if it will be graphic. You may only come up once, and you may choose not to answer questions."

1. Alex borgas (7:11)

- I'm Alex. He him. I'm here on behalf of Calpirg,, California Public Interest Research Group. I've got two quick updates. I just want to decide our oceans campaign. If y'all were here last week, I talked about that, as a quick overview, our oceans aren't doing great right now.
- We're trying to push for marine protected areas, which are like state parks, but for our oceans, so no commercial activity can happen there. This is scientifically proven. When they were first put in place, they surpassed expectations, but they're more effective the more you have and the bigger they are. So we want to get the new petitions that are being introduced by the Commission passed, which is the main thing that we're organizing around.
- On that note, part of the reason we're able to win campaigns like this is through our pledge drive. Is what, which is what we're working on right now. If you've seen us in the harbor, we have like over 30,000 members across the UC system that pledge a $10 activity fee that helps us get staffing, training, resources, political power, and also just helps show students are willing to put their money where their mouth is.
- When you have 30,000 broke college students paying $10 a quarter for a campaign that they support, it really means something. So we're trying to keep that up, which is what we're working on right now. What I'll say is it takes a lot of time to research this, two weeks every quarter.
- We've done a lot, but we'd rather be working on a campaign. So hopefully we'll move to a system where we don't have to have, like an opt in system. It's just an opt out system where the student body can vote on it during a referendum. The second thing that we'll talk about briefly is our tech books campaign. This is statewide, also something that other states are working on, which is just textbook affordability.
- Students shouldn't have to choose between paying for food or rent or the newest version of textbooks in order to pass classes. Part of that we've done, we've been conducting surveys across the UC system of students, asking them how expensive their textbooks are, if they've ever missed the required textbook for a class, just what their experience has been in general. So the information of that

survey and also just advocating for cheaper textbooks and open textbooks. So if any senators are interested in working on that, or think they want to attend the conference or send collaboration in that realm, to feel free to reach out, my door is always open.

Harter

- Thank you so much for coming today and talking about your initiatives. I think it's really great. The 30k is really significant. Seriously, I'm definitely interested in working with you in some capacity. I just need to get your information for everyone.

Borgas

- aborgas@ucsb.edu

Luken

- Thank you for coming in. I really appreciate it. The textbook initiative sounds awesome. Senator Than and I are also working on something within just creating a grant program for students to pay for textbooks. So would you be interested in potentially collaborating or working together? Yeah, that'd

Borgas

- I'd be interested, thank you

Barajas proxy

- You mentioned students are able to opt out of the 10$ if they wanted to?

Borgas

- I meant by that is the current system that we have right now, other activities fees for other clubs, they're just automatically part of your tuition, the way our pledge system and funding is made right now, students like sign the paper and then it gets added to their barc account, the $10 Calpirg each quarter. So yeah, right now it kind of opt-in system.
- It is possible to remove it from your parking account. But I think what I was trying to say is that we want to move to a system, you know, sometime in the future, in the next couple of years, where students are automatically opted in, and then they opt out like any other club.
- Any other club, and then the student body votes on it every couple of years, or however many times to work.

Proxy barajas

- So, like, that's like a referendum. So if I'm a freshman yesterday, if I'm a freshman and I see, you know, I'm in the group, and it automatically charges me what I like on my bar account, see that there's this $10 cost or, like, I mean, how can I discover that I'm paying towards something?

Borgas

- Yeah, I think that's how. I mean, I'm not sure exactly what the logistics of it are, because that's honestly, like, probably someone who's working on that at the statewide level would be a good person to ask, but it would be something along those lines as it is right now, since students actually have to be, like, approached and signed a physical piece of paper.

1. Henry Eidron

he/him grad researcher PBS, study collective actions like protests and strikes

- So I'm Henry. He him. I'm a graduate student, researcher in Psych and brain sciences. I study collective action, so I study protests and strikes. So I don't know if you've heard, but there's a you see, workers are bargaining right now with you cop for like, a new contract, which means there's a possibility that there'll be a labor strike sometime in the winter, spring, part of my job to study how people think about those kinds of strikes.
- So I'm here advertising for a research a paid research study. The pay. It's a weekly study. So you do one study, one survey at the start, one survey at the end, which you get paid $4 for, and then two surveys per week with an 80% with a 50% bonus, you complete 80% or more of the studies. So theoretically, if a strike lasts four weeks, it's 25 bucks, and that, if you don't want to do the math yourself, it's about $20 an hour for the time you spend.
- So we try and make it a good deal. For you guys, we care a lot about what undergraduates and students think about these kinds of movements. Your opinion matters. So that's why I'm here. I've got some sign up to the QR code. You're interested, or if you think other people would be interested, we're reaching out to the permits.

Sussman

- You mentioned that a strike is most likely gonna happen in the next quarter
- If you think others would be interested, reaching out to departments

Speaker

- Wound’t say most likely
- Possibility a strike could occur

Sussman

- Can you explain what that looks like, ta or union strike?

Speaker

- so the strikes would be with the UAW unit on campus, which includes TAS GSRs. And now recently, with bargaining, there's been an inclusion of a certain type of administrative worker, like an administrative facilities person. So there would be that whole group would be on the break.

Harter

- Pleasure to meet you
- Im interested in your research especifically in wh
- Can you speak for what you're looking for

Speaker

- I won't speak too much to this study, just because it's sort of a research. You can introduce systematic bias by telling people what you're looking at. If you participate in the survey, you'll be debriefed on exactly what we're looking at. I'll say generally, what I study is moral and ideological predictors of collective action. So what gets people on the picket line? You know what gets people who do protests and what are the things about people that makes them see collective action differently? So we look at those kinds of predictors. Thank you very much.

Ly

- Just to clarify, you came to the senate to ask for money?

Speaker

- No we will pay you

Ly

- Is there anything that you want specifically from senate except for advertising

Speaker

- There will be emails coming through different departments
- We are trying to get a student wide one to go out

Luken

- Have you been in contact with the AS external vice president of statewide affairs. I would recommend getting in contact with her, because that's the person who suggested I get in contact. but after you explained the research, it seems like that would be a good fit.

Ono

- Could you briefly just go over what the UAW demands are just this time

Speaker

- I'm not here representing the union.I am a union member, but I'm not a union representative in any capacity here. I'm just a researcher, but to speak briefly to it, a lot of the primary focus right now is on like job security. So benefits for, you know, workers who have kids, benefits for workers who have to go on leave, international student rights. So trying to help people through like Visa processes

Wang

- the list. Hi, thanks for coming here today. I'm also in the Psych and brain department, so I think this is really awesome.
- Wondering if you have reached out to lobby corps under AS
- I think they would be maybe the most likely to want to participate in this. I just think that can be helpful. Like, just in case, if we just, like, send this out, like, mass then what if people are, like, encouraged to strike just because they can get paid, which I feel like might be good

Speaker

- Yeah, to clarify, this is like, not just for striking workers. It's for anyone who has an opinion on the strike so any current undergraduate or graduate student regardless of strike participation. So the reason I don't want to send it out to a

particular group individually is because of survey bias, if you send it out to one group who you think is likely to respond, you give that group an unequal opportunity to participate in the survey. So I want everyone to have an equal opportunity.

Unanimous consent to move into 7:23 excused absences

E) Acceptance of Agenda

Motion to add under discussion items BCU Liasonship
Than-Sunderrajan
Called to question-Manala
This motion passed at 9:51PM

Motion to approve $175 from AS Senate Outreach Committee (Account #469) for park rental space in Isla Vista for a food truck event.
Luken- Jiang
Called to question- Than
Handvote:
Yes- 13
No- 0
Abstain- 2
This motion passed at 9:24PM

Jiang

- As a reminder, for the food trucks, you're going to hire someone right? You are going to pay for a vendor?

Luken

- No

Jiang

- Are you going to hire someone to operate the truck?

Luken

- We are renting the space for them to come and then a potion of profit is going to A.S. I'm working with Michael on it.

Jiang

- Oh, okay

Than

- Point of order, is it not a handvote, for financial motion

Luken

- We are not passing funding, just approving money from our budget.

Sussman

- Still, let's do a handvote.

Luken

- If that were true, we'd have to handvote on every single motion to bundle and approve all minutes and allocations.

Sussman

- Does the Attorney General have advice on this one?

Attorney General Pascher

- One senator can request a handvote and it's at the discretion of the chair at the request of the senator. You can vote on whether or not to go by handvote. You are doing it on the senate's behalf

Luken

- Do we have to do a hand vote on this because it's a financial motion? This is something that would not pass in our minutes, so we are doing it now so it would.

Attorney General Pascher

- You should be doing that on the senate's behalf. The senate is approving for outreach so it would be wise to do it by handvote.

Luken

- So then why don't we do it when we approve minutes and allocations?

Attorney General Pascher

- You should, but have you looked at every single minute and allocations? Have you gone to the minutes folder to be approved one by one?

Jiang

- We need ratification. The thing that is distinctive of this motion is that it is a financial motion not on the agenda of the outreach committee. So the senate is doing it on behalf of the outreach committee.

Luken

- If this motion was made in outreach, we should do a hand vote on this in the committee?

Jiang

- Ideally, it would be handvote

Sussman

- There is a motion needed to add a bill to Establish Standing Policy 44: Use of Artificial Intelligence and Large Language Models referred to outreach committee

Attorney General Pascher

- You guys motioned to the table at the last meeting. You don't need to do that's on the agenda, it's just not physically on the agenda.

Sussman

- If the Attorney General is okay with it, then we don't need to do the motion

A Bill to Establish Standing Policy 44: Use of Artificial Intelligence and Large Langu...

Pascher- Luken

Luken

- Nothing new to add from previous discussions. It is a pretty sound bill. It just gives future Attorney General's guidelines by which to approach questions surrounding artificial intelligence in the association. I think it'll be potentially beneficial and a good thing to outline. I encourage everyone to vote yes on adoption.

Motion to adopt a Bill to Establish Standing Policy 44: Use of Artificial Intelligence and Large Language Models In ASUCSB
Ono- Riss
Called to question- Than
Hand Vote
Yes- 13
No- 0
Abstain- 2
This motion passed at 9:29PM

Jiang

- When someone passes a bill on standing policy revision, bylaw revision, or even constitutional revision, do they retroactively apply?

Attorney General Pascher

- At the time of the violation, you go by the legal code that is in order if that makes sense.

Ola- Olaitan

- I voted yes and I have been excused to leave at 9:30PM so I won't be present for future motions

Motion to amend the agenda and add the appointment of Erika Sherkin under the Temporary Committee of Student Safety
Riss-

Sussman

- Let's go ahead and do that under appointments and resignations.

Motion rescinded- Riss

Than

- If I want to move something to discussion items, would we just move there?

Sussman

- We would do it in discussion items

Luken

- If you are amending the agenda for a section, you should just do it in that section?

Sussman

- So that's the only thing you would do outside of action items

Luken

- So it's an action item that you do outside action items?

Sussman

- Yes

- Check your inbox, a lot to keep track of
- Does everyone know how the budget process works?
- The general version is that budget process, everyone submits budget to finance committee
- They go and present at hearing in a few weeks
- This is what we are gonna spend, this is what we already spent
- Have we not spent, have we overspent
- Forecast into the future
- Finance committee hears all that over course of a week
- They make up their notes and decide
- Usually for non lock ins
- This group gets this, this group gets that
- That budget goes to the president's office and they can form their own budget or not
- President then makes their budget, which goes to senate, who has 2 versions of a budget draft
- In Pardall Center until 2AM
- When you actually confirm it, there's an actual discussion that happens
- It's like 4-5 steps that happen in that process, I'm sorry for future versions of you it's gonna be a lot of late nights
- That's the budget process
- Look for those emails
- New staff starting tomorrow at ticket office
- Employee who worked here and came back
- Went to different opportunity at UCLA
- Just in time for the Cal Poly basketball game
- Space, some things happening with admin and KCSB
- I can talk more as they get further into it

Ly

- Quick question about budget process
- The finance committee has budget, and then president makes budget based off that one
- The president makes their own budget and then the senate gets presented with both budgets?

Sean Lieberman

- If the president chooses to have one
- Last year, her budget became what finance comm recommended

Than

- Ty for coming
- These two questions regarding space
- Nothing AS can do
- There's nothing much AS can do, but any updates regarding the cultural center?
- Regarding internal job descriptions
- Internal job descriptions we were given but I noticed it says for internal use
- Wasn't sure if they were allowed to be proliferated around senate
- I thought these were supposed to be public

Sean Lieberman

- Semi public
- Internal
- If other senators wish to view them that's fine
- If so I thought these were supposed to be public
- Chris who serves on committee who's helping with that
- We've been left int he dark for the past 4 months
- On his radar he's gonna bug someone every week for an answer
- Waiting on us to pay for an elevator
- They stopped and were trying to hire an additional contractor
- Last we heard they were waiting on us to pay for an elevator
- We are pestering them, annoying part of the job
- We have to keep poking people for updates
- The changes we want to make were not that extensive
- A wall, widening a door
- They deemed them large projects

Done at 7:30PM.

I-6) Executive Office(r)s' Report -

President Le Anh Metzger – General Funding Request

- Updates are that last week we had protected peers week it was really great
- Between 30-50 for the rest of the week
- That was exciting
- Really big turnout, lot of engagement
- Doing one last rapid response
- I'm here to make a funding request from my office
- Presentation that walks through everything

- Overview of my office's budget for this fiscal year, that was decided during a budget hearing last year
- 3,000 for operating, 14,000 for honoraria
- 10k for special projects
- Preface that none of this accounts for the 10k for Super Cucas last year
- This is just what we were allocated last year
- I've been a very project and event focused leader
- I lead a productive office, high expectations of staff
- Last year I led a smaller team with a bigger budget 80k
- This budget is a lot smaller than I'm used to
- Gonna walk through each section
- My current expenditure, projected expenditures
- As for operating another overview we have 3k allocated and we spent 1k for honoraria
- For honoraria, only 14k we've already spent 11,250
- Special projects, we have 10k
- We have 10k and so far we've spent 10500 with all our events and projects and initiatives
- The budget total is 27k
- We've spent almost 23k
- We've spent around 1k on printing, advertising, office retreats and tabling materials
- The rest of budget will be spent this year on office retreats, printing advertisements
- I anticipate that the remaining 2k will be funding for this session
- Not requesting any more for that
- Honoraria so breakdown is that we have head of staff and deputy head of staff
- Head of staffing and deputy head of staff, 450 a quarter
- 19 staffers 300 dollars a quarter
- The office is bigger than previous years
- If you remember there was a bill passed over the summer to have special projects
- These have been really helpful this year to increase output for environmental projects
- Collab with campus such as meal planning initiative and academic affair coordinators
- Academic affairs and facilities coords were added to my office in that bill
- They previously were floaters, I don't know where their honoraria came from but now it comes from my office
- Their 5 additional positions in my cabinet this year
- Got our Pearman fellow, additional 250 total for entire year
- This was included in the Pearman fellowship bill
- Where they now are in honoraria
- And comes from budget of their housing organization
- Student of the quarter award

- I've also got the student of the quarter award, 300 honoraria from our office so the decision comes from the office of the president
- The decision comes from office of president team
- To sum all that up that's 20 people at 300$ head of staff and Pearman fellows
- Summer honoraria, some staff worked a lot over the summer and got full honoraria, some less so they got half
- The total amount I'm projected to spend is 25,300
- We are budgeted for 14k
- Requesting an additional 11,300 in the honoraria category
- Next is special projects, I've spent around 10,500 up until this point, week 3
- This includes
- 1000 with coffee with the president this quarter
- Has already been spent, including that 10,500
- Around 4000 allocated for protect your peers
- That's also included in that 10,000 which has been spent
- This is a breakdown of what we already spent
- 10,500
- I have my office projected spending which follows a similar
- Rams up planning for the rest of the year
- Not firm amounts, won't read all of these
- These are some of the things I know are on the radar
- Big one is Earth month, project my office has been working on for the whole year
- Collaborating with different environmental organizations
- Entire month long of environment related events and initiatives
- If your interested in learning more, the link is there
- It's going to be an entire month long of events
- Should be really big
- Lots of things going on, big ticket items are, to point out:
- Annual mental health town hall this quarter and repeat of things like coffee with the president, farmers market

Motion to extend the president's time by 5 minutes
Sussman - Ono
Call to question - Geosimonian
This motion passed at 7:41PM.

- I believe the office of the president should be an office of projects and outreach
- I think my office should have a budget corresponding to our productivity
- We put out a lot so far in year
- 10-11 thousand
- Going to spend more than that per quarter ideally based on the plans that we have
- I also think that my office should have authority over how it spends its money on a day to day basis

- Authority on how we spend our money on day to day basis
- For things like a mental health event
- Office should decide how they want to budget that and not go and get permission for every event
- Requesting 11,300 for honoraria
- 32k for special projects
- 43,300 for the remainder of this year

Lala
- Your week on protect your peers is inspirational

Jiang
- Brilliant idea
- I think my only question is there's a few events that I believe other BCUs or entities are allocating money towards
- Is it possible that it's in collaboration, is it possible that could be a route for your events?

President Metzger
- Are there specific events

Jiang
- EAB earth month
- Mental health COSWB
- IV farmer's market, IVTU

President Metzger
- My commissioner of sustainability has been working with EAB
- I think that's already part of their plan
- EAB has its kind of earth day celebration that it puts its time and effort into
- I'm not 100% sure but it doesn't seem like they can allocate more money
- They have it planned just to do earth day
- For mental health events, COSWB has much tighter budget this year
- COSWB has a much tighter budget this year and they've come to me requesting money
- I've had to turn them away because they haven't had anything
- IV farmers market, I know that there were talks but we've had hard time moving forward with the funding
- We need money for IV farmers market do we have any money to spend
- That's another conversation
- If that's something you wanna take and figure out, we can also do that

Wahidullah
- Been in communication with BCUs about allocating money
- Was gonna ask similar question

- We've already been in communication with you before
- I just want to hear more about other projects
- Maybe you could go into detail about other additional projects?
- Have you been collaborating on funding with particular BCUs, stuff like that?

President Metzger
- We definitely want to collaborate
- Most people reach out to us asking for money in order to collaborate
- It's hard when we have a tight budget and can't contribute
- A lot of people go to collaborate when they are tight on money but its hard when you are also tight on money
- The plan is to collaborate

Luken
- Which account do you want this money out of?

President Metzger
- Senate unallocated but wherever you see fit also works
- Wherever you see fit also

Luken
- Inform me and others under appointments is yourself, IVP, and SAG
- For the faculty legislature
- Can you speak to who appoints those and what the role is?

President Metzger
- In legal code I forget where maybe under academic senate
- It states that there will be president to vice presidents and member of legislative council as
- As undergrads representatives on faculty legislatures
- These are non voting positions
- Invited to come to meetings and listen ask questions and participate

Luken
- What does the faculty legislation mean?

President Metzger
- Part of the academic senate
- Government of faculty
- They makeup and do a lot of decisions on campus
- Faculty legislature is only group in academic senate that can write legislation
- Change the bylaws of academic senate
- It's kind of hard to explain
- It's a lot of professors and deans on these committees
- They recently voted to approve a new major

- Voted to approve a new major for engineering and a new minor for letters and science
- Restrictions like that

Than
- Have a couple documents if you were able to procure them, regarding your special projects coordinators, like projects they did
- List of events during fall quarter and prior to this what those budgets looked like if you want to send the minutes
- Sure they're in the minutes, if you want to send them

President Metzger
- Do you mean my office's minutes?

Than
- More exactly about what events people were planning throughout fall, documentation about the turnout of those events
- How much money each event was allocated
- If there was a specific coordinator or a specific person

President Metzger
- Special projects coordinators are not the only people in the office that do special projects
- When I was looking at goals for my presidential term, not all of them fell into a specific position
- I wanted to add some special projects coordinators that could be flexible depending on people's strengths
- Also I had a lot of environment related goals
- Some of them have been working together to do earth month
- Eternal flame project, IV farmer's market
- 2 of my special projects coords had been working on sustainability for those three long term projects
- Which are bigger longer projects
- IV farmer's market
- They've been leaders on that
- My third SPC has facilitated relations with athletics, Red Bull, pro
- He's been proxy for me on a lot of committees
- Working with Eddie on some of his long term projects so that they can continue for the next 4 years
- So that they can continue for next 4 years

Than
- I appreciate the breakdown
- In terms of actual documentation of breakdown of budget for these events, turn outs, would those be able to be procured

President Metzger
- Yes

Ly
- Obviously this is a lot of money since it is 43k for the next two quarters
- 43 for next 2 quarters, when its 27k for whole year
- 1. When would you like funding passed by, when is the latest?
- And then second, would there be a different total price, lower alternative
- Would there been a different lower alternative total amount that you would be happy with

President Metzger
- If you want to take a week to look at it further it can be passed then
- It can be passed next week as well
- If you would like to break things up a bit we could separate
- We could also separate the earth month request
- To make it a separate request specifically for it
- I do know that they will be requesting the money nonetheless
- We could take out some of the money for the IV farmers market

Jiang
- Were you referring to funding requests of other BCUs or RCOs?

President Metzger
- It's a mix
- We discussed, we can take off some money for IV farmer's market
- COSWB wanted to collab on Winter Wellness Wonderland
- Going to different groups, asking if we could sponsor food for event
- We are collaborating with EOP for lunar year event
- Other groups that might come to me throughout year asking for collabs

Jiang
- This is totally no intention intended
- Is it more efficient for the BCUs to just come to the senate for that money
- Probably more efficient if we just fund them directly

Pres
- If EOP said oh we want funding and went into finance and got funding
- Maybe they would put a sponsor for AS
- By this, I get to have a relationship with you and AS AM department
- Build that collaboration work with them directly
- Have office of the president on the flyer
- Think a lot of times, groups just don't want a check written for them

- They want collaboration and support which I think funding request for specific groups can do better than just sending everything for finance committee

Matthew Nelson (8:51PM)

- Over the past few months the IVP office has been trying to work with the faculty executive committee to explore adding minors at the college of engineering
- Particularly in minors of the majors that already exist
- Mechanical, electrical, computer, chemical
- We recently heard back that of those departments,
- Of those departments only computer science would be interested in exploring something like that
- Still a very exciting opportunity
- Believe there would be fair amount of people that would be interested
- Another thing that has been talked about is an adoption of an AI major
- About the adoption of AI major in college of engineering
- Thought that was something worth mentioning since it's related
- Would like to talk to some of collegiate senators
- I don't know if it makes sense to talk to all of them or some
- Whoever believes they would have a relative stake in this
- Talk to to the CS department and move forward with this

Wahidullah

- I'm curious towards AI major have you seen
- Have you seen any similar commonality policies in other institutions
- First kind of pilot program your office is doing
- Or are you basing it off other universities?

Nelson

- Our office doesn't have anything to do with this
- Believe this is something originating in CS department
- We would like to get involved in it
- Mirroring pushes at other schools to adopt AI

Lala

- UC San Diego adopted one fall 2025

Eddie Barajas Malhis Proxy

- You mentioned CS is interested in adopting a minor
- If I'm a CS major, could I do a major in another field?
- Or is it more if I'm a mechanical major I can minor in computer science?
- Was there any word on minoring and majoring doubles in college of engineering as an AI major
- For example could I major or minor in AI, double?

Nelson

- Not something the academic senate mentioned
- Their current policy is that you can't do a full major within college of engineering
- I would imagine that AI major wouldn't be any different in that regard

Lala

- CS was the only one up for it so far
- If you’re in college of engineering you can do one role
- As it stands if you are in the college of engineering you can double major in other schools
- Other UCs have opportunity of double majoring
- Every other UC has the opportunity to double major in engineering school
- We don’t have info on the AI majors so far
- Think that’s a key one in majors so far
- Whether there's an exception for the AI one

Manala

- Did they give you steps to follow how that interaction was?
- How's your interaction with them?

Nelson

- Interaction with faculty and committee wasn’t the best
- Weren’t very involved
- All we got was email saying that
- On what the individual program’s decided on and if we were interested we had to reach out to the CS department
- If there were adequate resources
- They did not specify what that meant to them

Geosimonian

- As the CCS senator here how exactly a minor standing
- CCS has a computing major, COE has a computer science major
- Some CS adjacent majors I was shopping to ask how if they even disclosed any info and how
- If they even disclose any of this information
- How the introduction of a new CS major would affect this
- Or the CCS computing major would be able to
- Maybe take the AI course

Nelson

- That is not something that they got into it but that is why collaborating with you makes us so important
- I'm not sure

Luken

- It’s been an initiative of fellow senators and myself to look into potentially helping create a business major or business econ major
- It's been an initiative of some of some of us to create business major of business econ

Nelson

- That’s been mentioned in office
- Would definitely be interested

I-7) Senator Representative Reports-
I-8) Administrative Reports-
AG Pascher (7:56PM)

- Hello, everyone. In the last if you guys are going to choose to have a non senator speak in discussion, you have the ability to ask the chair to receive unanimous consent for that to be made an exception, and I would recommend that you all also ask that the chair enforce the speaking agreement for that speaker. Just food for thought. I don't think that anything was violated. Those are your guys' standing rules. I'm just refreshing your recollection of what that means for you guys. So if that's of any help, keep that in mind for today and for future meetings.
- A bigger thing that is affecting my office, and I'm sure is affecting you all, is I can't give my office any projects to do because I don't have a working version of legal code. So do without what you will. I don't know whether or not you guys are planning to move into closed session today. So please, I mean if you make that available on your agendas as soon as you guys.
- That I can't look into email votes, I can't look into civil code, I can't do anything. I can't get, I mean, we haven't been able to clean up the legal code, but there have been bills and resolutions that have passed since then, and I just simply cannot do my job. I can't do anything. It's really frustrating. I'm sure you guys are frustrated as well, but it's especially frustrating for me because I'm here to uphold legal voting.
- Secondly, when that happens, I encourage you all to reread your duties and responsibilities. You know, things are changing very rapidly. You guys are passing a lot of legislation, and I think each quarter it would be wise to refresh your memory on your duties and responsibilities as elected senators and representatives with that kind of talk about, you know, more meeting, procedure stuff.
- I tried to set this precedent last quarter. I don't think it really caught on, but now that I'm here in a different position, I'd like to present this, or propose this to you all. You guys don't have to motion to excuse you. If somebody asks you to excuse their absence, you don't have to do that. And whenever somebody asked me, I let them know, hey, I need a reason. I'm not going to motion to excuse you unless you give me a reason that I can present to the body, present to the students. I

know it seems arbitrary and it seems stupid, but in legal code, like academic conflict, it is outlined.

- It's not directly in response to absences, but it does fall on the lines of public meeting transparency. So if there's an academic conflict, if there's a health reason, as Senator Sherkin and just a motion to excuse for, I think that that would help you guys, kind of, you know, buckle down on why we're having so many absences.
- And with the new build a modernized honoraria, you guys passed excused absences aren't outlined at all. So do with that what you will. I don't have an answer for you about what an excused absence is versus an unexcused absence, but that's just food for thought. You know, for the future, you guys don't have to take that advice that's just simply, you know, kind of a way for you guys to set precedent for the rest of this year or for the next year.
- I'd like to remind you all that this is a public meeting. You guys are to be held to the standards that this is a transparent public meeting. And while I know that I am at no I don't want to be mistaken for pointing this at anyone. This is just another refresher. And I know there were difficulties, difficulties and complications today, but you are to advertise the meeting at least 24 hours in advance. And you know, if you're saying you're going to start at 630 you know, I get that thing happening. I understand. I truly do, but maybe even just put a note at the beginning of the meeting. You know, I'd like for this to be on the record, that this is why we were delayed. Or, you know, just make it as transparent as you can. Take the extra steps that you need to make it, make it over, over the top. I know it's not your not your fault. I really do appreciate Chipotle. I enjoyed it. So, yeah, just food for thought. Try to, try to play by the rules. And you know, just do your guys' job. You guys are doing great.

Lala

- Thank you. AG, I think those are all valuable. Thanks. Very briefly. I know Holly has something in terms of an update on legal code. But just so everyone is aware, a bill to update legal code included a change which tasked the director of the director of accountability under the IEP s office
- . Is just the role that was thought the most fitting. I don't quite remember why, with following up on and making sure legislation is reflected on one unified dog, of course, beginning with the structure of the cleanup bill, since it was so extensive, since it has proven difficult with staff having various other responsibilities on top of this, it seems like some student involvement is necessary, and I'm following up with both center assoc and director accountability to make that happen this term, because you're completely right that it paralyzes some of our most key functions if we don't have access to that. So that's sort of a basic update. Holly, I don't know if yours is related to that, but feel free to chime in

Holly

- Thank you. Enri, it is related to the update. I just wanted to let you all know that I can share with you all the bill trackers from the last one to two cycles. So I

obviously am currently keeping track of the legislation that you all have passed this term, but I can share it with you from last term as well, so I have all of those up to date, and I'm working through the bill to clean up legal code and the live version, but you'll notice on the tracker, all the other legislation that has been passed both this term and really The terms before that are up to date.

- So all of that is good to go. I'm just kind of slowly working my way through the bill to clean up legal code, and I expect I can have that live version to you all within a week or two. Ideally, I would love a week, but I can send that out to the Senate and the entire Association, letting them know that it is up to date, along with my version of what I call a bill book, if you all want to see the version that I have. So I just wanted to let you know that the final copy should be coming within the next, like week or two, and hopefully this quarter, possibly in the next we'll be hiring a new position on the Governmental Affairs team.
- The position title is going to be called the Student Government liaison. It was formerly called the legislative liaison. And fun fact, that was actually the position I had when I started in the association, which is how I continue to update the legal code, but that new position, when it's hired, they will be responsible for maintaining all that. So I can send kind of a summary of what the new team structure is going to look like. Myself and Marissa and Sean and Lily have been working on providing some additional staffing in the governmental affairs unit, because it's pretty much only been me for a very long time. So if you all are curious about that as well, but long story short, updated legal code will be available in two weeks.

AG Pascher

- I know there's a live version of legal code is that what you're making live updates to? Should I turn to that in the meantime, you know, I don't really have anything for my office to do without, without this

Holly

- so I can send you the link to the live version of the legal code up until last year. So the the request of this current year, Senate leadership was to have a live version of it and past years, which for many reasons, but we used to just have, like I had a physical Word document, and then I would send out a PDF and print copies every cycle for everyone, and for the reasons that you've shared, students are like, wanting more, up to date, access to it, and I don't want to be like, providing individual excerpts for every single entity, if there's cases or anything that have come up.
- So if you think that it would be helpful to you to review what's already there, it'll continue to be updated. So I apologize that it has taken this long, but it'll be updated in the next couple weeks, if you want to continue to check back on the live version.
- But I worked on that request to make it into a Google Doc, because to convert it to a Google Doc, I have to go through, like, literally, every single word. So it took a substantial amount of time, which is part of why I was hesitant. Just there's not a ton of staffing hours, and again, just one person, not an excuse, but just so you understand kind of the scope of it.

- Spend time over the summer converting it into a Google doc so that live version is up to date, except for the bill to clean up legal code, which I know does have some substantial changes, and so maybe in the next week or two, you can kind of compare both what is in the live version that I'll send you in the link, and then you can probably compare that with the version that Senator Sussman has to before over the next couple of weeks to to compare what those updates will be. I'm also happy to help, or me, like, kind of figure things out too, within the next couple of weeks.

Pascher

- Understand it’s a big undertaking

Holly

- I appreciate everyone's patience. I really try to kind of toe the line with you all with like, I don't want anybody to feel like they're bothering me. It's just, I want you all to have, like, an understanding of what the scope of the area of work is, but don't ever feel like you're bothering me. I don't mind being reminded. I don't mind hearing feedback or requests or anything.
- Actually really appreciate it and the opportunity to talk with you all. So thank you again for the floor, but yeah, I'm happy to to answer any questions for you, Natalia over any centers and you,

Sussman

- Holly, just a quick question. So build a in the build a cleanup legal code, the versions from the past senates were not up to date, which kind of led to some issues with appointments, so I kind of took the due diligence to update those sections from past codes, including like polycord and GGC. So is the version of live legal code completely different from those updated versions?

Holly

- I don't suspect that it will be really what I'm going to do, so that it's the most accurate for you all is similarly going to continue to go section by section what I'll wind up doing. So like the most recent before the most recent piece of legislation was passed before that was the fall omnibus bill. So because I also update it chronologically, I'll know just based on my record. So like pmhc, for example, recently added two positions to their board. If it's not reflected in the bill to clean up legal code, I'm not going to delete that because I know that the version of the bill was passed most recently.
- So what I'll also do is, if there's anyone that's interested in having a second set of eyes to make sure that it's accurate, what I'll also do is I can coordinate with the liaison committee to have our BCUs review their bylaws, just to make sure that if there were any changes that need to be made or that were missed, that can be worked on.
- But I have done pretty substantial bill changes before, so I feel pretty comfortable working my way through it, section by section. But I'm happy to have other sets of eyes. And I think if you've gone through and entered legislation from this term, I don't think it's going to be substantially, substantially different, but I can also

confer with you and Natalia as the AG, to give the final Go ahead, if there's anything I'm like, really stuck on, because I wanted to reflect what you all intend as a legislative body. So if I have any major conflicts, I'll be sure to loop you all in.id ont suspect it will be

Than

- the legal code live version also, does it also have the up to date, sorry, the bills from last year's Senate, because I received some of the bills from last year's Senate regarding amendments to the constitution that I looked both at the bill to clean up, leave the hood and the live version.
- And they don't have any of these at the same time, some of them might not have passed, but I know that one of them did. I believe it was Article Nine one, and none of those changes are reflected on the live version. So I'm a little confused. How far behind is this live version.Does the legal code live version have bills from last year's senate

Holly

- Thank you. So thank you for pointing that out. I did forget to mention that. So the legislation from last year, minus the constitutional amendments is done. I'm still trying to track down the accurate version of the language, because I know that there were some amendments that were made in the review from the elections board.There were three of them total from last term, and I have the language, I think, from one or two of them. But in terms of, just like, if there was, you know, a bill to update pmhc, legal code, outreach committees, legal code, like all of those are done, I just want to make sure that I have the correct language for the final one for the constitutional amendment. So yes, in addition to the bill to clean up legal code, I have, like, two constitutional amendments to be done. So that'll be done within the same timeline, within a week or two. I can let you know when those are done as well.

Pascher

- So system wide school emails are down?
- There’s no remedy thus far to just association wide emails

Sean

- For now yes they haven't come out with a new solution having a conversation about it friday

J) Committee Report
J-1) Standing Committee on Finance -
J-2) Standing Committee on Outreach -
Luken (8:13PM)
Luken

- Ask for your collab
- Study of housing conditions in IV have to

- We have to go through tedious task of going to every building in IV that's residential
- Trying to determine number of units on that building
- Going to do that by manual labor
- If anyone would wanna help let me know
- Working on creating study on how to improve as through focus groups
- How to improve AS through focus groups
- Going to have interested students participating
- Deep dive on what they know and what they want to see on campus
- Working on a halftime event
- Halftime event at basketball game middle to late february
- Sometime in mid to late february
- Love to have senator present
- Maybe liaison committee too
- I have to motion a resignation of one of our members tonight
- Make a motion to approve money from our account to food truck
- That we didn't get to last night in our meetings

Lala
- You can motion that in committee meeting

J-3) Standing Committee on Liaison -

Wahidullah (8:15PM)
- Quick reminders
- We already communicated on some pilot programs we're testing
- If you're already assigned to a liaison, we might be emailing you
- Make sure to go in person and connect with your BCU and make a note if they have questions or concerns
- Make any particular notes, if any BCUs have any questions please forward to me and my committee
- Other than that, we have minute updates
- Communicating with Holly more
- Depending on success of BCU pilot program on liaisonship, might have a similar program on staff liaisonship
- How to access staff meetings when their office hours are
- Holly and I are working on that
- Want to know where staff meetings are
- You can access on the sheet
- Accessibility is resourceful
- Pilot program
- Go in person

Than
- Two important things

- Brown act
- I want everyone to review internal job descriptions
- We'd have to require discussion for that
- Main thing we talked about last closed session, after talking with organization we talked about in last closed session
- I want that discussion item to be public
- They brought up something
- Checked with commissioner, they were impartial to this being impartial or closed
- Both me and chair Wahidullah let them know that we were intending to put this on public discussion
- To reflect what their interests and reasoning were
- Transparency thing
- Because I'm talking on behalf ot his person, if I misrepresent them in closed discussion that would be unfair

J-4) Standing Committee on Advocacy -
Ono (8:18PM)

- We had the joint rent support program bill
- Last week, we discharged it, but I'm gonna need to motion it on, you have the language for when that happens.
- Meeting friday 12-2 please pull up
- Work with outreach for mobile food pantry

Jiang

- I just received an email between IVTU chair and the EOP director
- Feels like they would like to have bill tabled for at least a week
- For them to get details sorted out for rent support

Ono

- Wasn't informed of that, if that's case we can table it
- Or just don't motion it on

J-5) Group Project and other Temporary Committee Reports-
Riss (8:20)

- Update on the Senate safety committee. We're still looking for one self appointed Senate member, going to motion on the agenda and appoint Erica
- Coordination with COSWB EVPLA and office of president
- The office of president to try and get their members
- Any students that you think are really passionate about this

Pascher

- I'm the chair of the temporary committee to create a department of legacy gauchos .

- If you guys feel it necessary to dissolve committee
- Dissolve committee, as it hasn't reported to senate
- Please feel free to do so

Luken
- It was formed in a resolution so it'll resolve at the end of our term anyways

Pascher
- Yes

K) Minutes and Allocations:
To Be Approved
Motion to bundle and approve all minutes and allocations
Jiang-Ono
Called to question- Manala
This motion passed at 9:43PM

Unanimous consent to move back into item M at 9:44PM

L) Discussion Items
BCU Liasonship

Than
- I want to remain neutral. I already emailed them regarding the acceptance.
- Is the thing about the Program Board going to be talked about further in closed session? This is regarding their answer to something in discussion

Sussman
- Shaun, JC, Attorney General, some help here?
- Seeing that it was said in closed session, I feel it should remain confidential correct

Attorney General Pascher
- I have no legal authority outside of A.S. but the way I interpreted it is that we do not fall under the Brown Act. I do believe that any call has been struck. I could be wrong but that's the information I've been provided

Jiang
- They gave you permission to talk about something from closed discussion?

Than
- They gave me permission to explain something we talked about in closed discussion. It is about the Senate Liaisonship, and about senators being allocated.
- This is a response because Senator Wahidullah mentioned it at the chaired meeting. I was just asking if I could talk about it.
- Okay, this is about them not wanting a senator at their board meetings. They, themselves, didn't want it. The reasoning they have for that is because they are scared that senators entering to and from their board meetings will break

confidentiality of their artists. They say that they have a special ability as Program Board because they have the trust of agents and artists to prevent disclosure existence of being at Program Boards events
- They have had issues of people doing leaks so they don't wish for a senator to be allowed at their meetings. I told them that I don't think it's okay and that I would bring it up to senate

Luken
- I see two easy fixes to this issue. I don't see a reason why they couldn't enter a closed session during a meeting.

Than
- They don't want senators in closed discussion. They want warnings of who's coming to their meetings

Luken
- They can enter closed session with just the board

Ly
- A solution similar to what Senator Luken was saying is scheduling a time ahead of time. Also, having a senator liaison doesn't mean that the senator has to know what is going on to form a relationship. We can offer them having a senator they trust to be a liaison and the relationship can be established so that they can get updates before.
- I think their point is fair, they talk about a lot of confidential issues. I don't think it has to be that big of a deal

Harter
- The way I interpreted the liaison model was very relational. By nature of the relationship, it is unique to the individuals of that relationship.
- The Program Board and whoever the liaison is, can establish the rules of their relationship. That is the definition of the relationship. If it's in their interest to establish that with their liaison, I don't see an issue with that

Sunderjjan
- I am the liaison for the Program Board so is it okay if I tell them? They actually asked me to leave last meeting

Than
- They mentioned that a senator they didn't know entered their meeting, which is why they wanted to talk to me. They were a little stressed about that.

Jiang
- I don't know if I'm in a position to explain how to have a relationship with them. But just in terms of the Program Board, what I find really helpful is that the Program Board office is next to A.S. main
- When they have open doors, they are open for communication and you can just stop by and kind of introduce yourself. I feel like that is a smooth way of doing it instead of having them feel like we are intruding on their space
- People may have a different take on this

Sunderajan
- I went to one of the rooms here. I think it was the Harbor Room at 5, I saw them during advocacy meetings

Sean Liberman

- Everyone has great solutions and I agree with the creativity of it. They probably want a consistent person to build that relationship with, rather than 10 different senators who they don't know.
- Previously the liaison was different than it is now. With this new approach we might build trust and be able to sit in on closed sessions.

Luken

- I have a comment about the Brown Act. Senator Harter and I were talking to the board members of IVCSD. He just made a comment about how its funny how we can just go into closed session for whatever we want
- In our meeting we have to follow the Brown Act and can only go into closed session for like 3 specific things. I would concur with the AG that it seems like we have more leeway with our discussion.

Harter

- I tend to agree with what's being said in general. We technically do have the ability to do it and that ability is something we should exercise.
  My opinion is that, especially after having coincidentally attended a series of deliberative bodies, City of Goleta, Santa Barbara County, etc. We have that ability but we really only should do it when it's appropriate
- We should consider ourselves on par with the other deliberative bodies that we have around. It is our reputation that we have to uphold

Allocation of ASOP Budget

Jiang

- I think you guys still have vivid memories of the slides presented, I just have a few more comments that related to the same question I asked. I was just confused and I just checked the legal code of the responsibilities of officers in the ASOP.
- Most of the events she listed out were events that needed to be allocated to Transfer Student Alliance and COSWEB
- I still stick with my stance that the funding should be for specific events, rather than it be transferred to ASOP and have the office redelegate again.
- I was checking the legal code and in all the officers' responsibilities it's about coordination.
- I just don't think it is necessary for all those things to be required to be planned out by the president's office. The Office of the President could support in ways of coordination or provide organizational support but I don't think it's necessary we have to fund all those events. Especially when there is a huge realm of repetition
- The honoraria I think is fair. What is got is $8,100, not including the honoraria, which is $19,000

Sussman

- Would you like to further have conversations with the president before next week? She indicated that funding has to be passed sooner rather than later
- Would you like to do that and have a spreadsheet and delegation of funding?

Jiang

- Is it not enough that I'm giving my professional opinion as the chair of the Finance Committee?
- Can someone help me out?

Chaudhry

- I can

Luken

- To add to the discussion, I really agree with Senator Jiang and I appreciate her bringing that up.
- If this comes out of the Senate Unallocated, we will be funding with our designated fund the President and her initiatives. We are passing that off without credit, that is something to consider.
- To that point, I think it would be prudent to fund that honoraria, to consider taking it out of Undesignated instead of Unallocated, to fund part of what she requested but not all to encourage one efficient spending of the money and to keep her in collaboration with us on how the funding is spent
- In my view, not that I have any thoughts on how the president would spend it, but I think it's financially irresponsible to send money without support

Jiang

- I can't pinpoint where the legal code says this. We can only use undesignated once we dry up unallocated so you can do it through unallocated if you want.

Luken

- If the president uses her entire fund, we can motion from unallocated from her

Jiang

- It would only be used when you've used the Senate Unallocated account

Luken

- We can only motioned from undesignated once we've used unallocated

Jiang

- Yes

Manala

- The unallocated would have to be used up in its entirety before we use undesignated

Jiang

- Yes. That is correct

Ly

- I think I also have a formal budget. A lot of the ideas she has are hypothetical and we don't want to just give a sum of money for events that might not even happen.
- I also concur, there is not anything explicit in legal code regarding the president doing events. That's the direction she wants to take this year, which is great. She should get more money to get an agency to host these events, or they could be held under BCUs or worked in collaboration with BCUs.
- I don't think we should rush into allocating $32,000

Ono

- I think you guys bring up important points. Personally, I feel okay with handing over this money with conditions.

- Up to clause and then we can have the rest of the funds cycle back to the senate account. I think you're right that some of these can be reorganized.
- I will say that personally, that is a pain but that doesn't mean it shouldn't happen but I'm still okay with the money being given with clauses

Harter

- I think everyone has brought up excellent points. The only thing I feel I have to add is that we need to ensure the President is being held accountable for the role she is being entrusted with.
- I think it's an excellent idea for her to embark on other projects. I only think it's appropriate for her to do so if the responsibilities she is given are being met.
- Today, when she presented there were very few comments on the criteria presented in legal code, such as managing the administration. I'm not saying she is not doing her job, but her effectiveness is ambiguous
- I want to see that everything we are trusting her to do is being done before we enable to do another project or anything additional. I think that makes sense to me. That's the only contribution I have

Luken

- I think it would be wise for us to talk to the President this week, and hear a report from her next week.
- We can request her to come and give us a report. I don't think anyone doubts she's doing a good job, it would just be nice to hear her speak
- We can finalize how much we are going to pass next week and not rush into it now. I think we should not make any motions until next week.

Sussman

- I think if there is any email correspondence it should be senate wide so there is more info going into next week. That way we know what we are getting into.

Harter

- I want to clarify my position
- I don't think President Metzger is doing bad, we just need a more robust and detailed presentation of what she has accomplished.
- Its in our best interest, and the students best interest, to hold each other accountable

Motion to enter a closed discussion, regarding the following: staff organization, internal job descriptions and affairs, with all elected officials, A.S. Minutetakers, Attorney General, Judicial Council and Senate present
Than-Ono
Called to question- Manala
This motion passed at 10:26PM

Objection- Harter

- I want a detailed explanation about why we are going into closed session

Objection rescinded.

Than

- There are several name drops that we don't want to put into public because it concerns specific individuals. We don't want to harm their reputation so we can't discuss it in a public manner.
- Additionally, there are financial budget talks in terms of BCUs and the internal job descriptions say for "internal use only." I do want to talk about them senate wide so we don't have to have private correspondence to senators in small groups.
- I assume it would require being in closed session

Sussman

- This doesn't include staff correct?

Harter

- I am expressing my concern that we are mixing things that should and shouldn't be in closed session. It could be potentially harmful for us as a body and worsen the issue we have with student confidence and BCU confidence.
- That is my opinion, do with it what you will.

Than

- Could you just specify which ones shouldn't be included?

Harter

- I feel the BCU situation specifically, we have exhausted what is, in general, acceptable for a closed discussion on that matter and that discussion specifically should be elevated to the public face
- I do think we are starting to cross the line of abuse of our power. However, if someone can make an argument against that I would like to hear it.

Jiang

- If one cannot counterargue, how does that work
- How can that paradox be resolved

Sussman

- We are still in discussion so what can happen is the first and second want to revise the motion at hand. If things are not to be discussed in closed session, we can talk about it in a public session.

Jiang

- How about we propose a middle ground that we talk about the situation in closed session and if any moment you think it should be public, we can exit

Luken

- I am going to make a motion and we can handvote

Motion to amend the motion and strike "BCUs,"
Luken-Manala
Called to question-Ono
Handvote:
Yes- 9
No- 3
Abstain- 3

This motion passed at 10:22PM

Motion to amend the motion and add "Attorney General, Judicial Council" after "AS Minutetakers"
Luken-GeoSimonian
Called to question- Jiang
This motion passed at 10:24PM

Motion to exit closed session
Luken-Ono

In accordance with the Brown Act to reflect on the agenda that the following items were discussed - staff organization, internal job descriptions affairs
Than- Manala
Called to question- Chaudhry
This motion passed at 11:04PM

M) Appointments and Resignations

Motion to amend the agenda adding the appointment of Erica Sherkin under the Temporary Committee on Student Safety
Riss- Chaudhry
Called to question- Luken
This motioned passed at 9:31PM

Motion to amend the agenda and add the resignation of Linden Staley as Member-at-Large from the Outreach Committee.
Luken- Riss
Called to question-Chaudhry
This motion passed at 9:32PM

Motion to add the resignation of Senator Claro from the agenda
Sunderrajan- Harter
Called to question- Luken
Objection- Luken and Jiang
- *I want to see a handvote and we can vote no*

Objection rescinded- Jiang
Hand Vote
Yes-0

No- 10
Abstain-4
Motion fails.

Luken
- I want to know, is this the proper legal procedure? I'd hate to mess something up and then have to go through bureaucratic stuff.

Sussman
- This is a policy 10 question. I believe Senators can remove other Senators at any point. Is that wrong, Attorney General?

Attorney General Pascher
- I wouldn't like to speak on something that is grey area or not of my purview. I would find it proper that a senator who wants to resign from his or her position, does so on their own via proper communication to senate leadership. I don't know if you could secondarily ask the Judicial Council about that.

Judicial Council
- This has happened before. Our interpretation of it is if you resign, it does not follow policy 10. It is a separate process. If the person does not object then it is considered consent to their resignation.

Sussman
- In the circumstance in which the resignation of the senator is not here, there is no way they could object

Judicial Council
- There is a period they could object

Ono
- This could be simplified by Senator Claro sending an email to senate leadership. This could happen like right now because we are just adding it to the agenda. I think that's kind of how we should do it besides this grey area.

Sussman
- The motion has not been added to the agenda, it is still on the floor

Luken
- Senator Sunderrajan can you confirm Senator Claro asked you for this motion and wants to resign ?

Sunderrajan

- Caleb told Eemman and she was supposed to do it, but Eemman had to leave so she told me to do it.

Jiang
- He texted me during the first half of the session when he said he was going to resign

Sussman
- From a senate leadership perspective, this is brand new to me. I would prefer if we didn't force the resignation of someone as the chair of the meeting. I don't want to resign someone without verbal confirmation from the senate leadership perspective

Luken
- I concur with what you just said because there is no material difference between him stopping now and him stopping the next meeting. He can just stop working and his resignation is just official as of next Wednesday if we approve it.

Sussman
- Is it okay if the first one rescinds?

Attorney General
- It needs to be the second.

Motion to amend the agenda and add the appointment of Olivia Doss under the Temporary Committee of Student Safety as a Student Representative.
Riss-Harter
Called to question-Ono
The motion passed at 9:39PM

Senator Wang arrives at 9:39PM

Motion to bundle and approve all appointments and resignations
Jiang-Riss
Call to question- Manala
This motion passed at 9:41PM

Harter
- You should have an email from Senator Claro in a few minutes

Luken
- Why can't we just wait until the next meeting?

Ono
- He's on my committee so it would be helpful for quorum

Luken

- We can add the removal of him from advocacy committee

Motion to add the resignation of Senator Caleb Claro, as College of Letters and Sciences Senator to the agenda
Harter-Ono
Called to question-Than
This motion passed at 9:47PM

Motion to approve the resignation of Caleb Claro as College of Letters and Science Senator
Than- Jiang
Called to question- Riss
This motion passed at 9:46PM

Ono
- My committee is now down to two senators. We are open for business if you'd like to join the committee. I am a little flabbergasted by this because I was not notified in advance. I just think that it's important that we build these things professionally. So from here on out, please note that. And, if you would like to work with my committee, please do so.

Jiang
- We did pretty well with two senators, if it makes you feel better

Ly
- Under article 3, section 3, for vacancies, it says an office should be announced under action items. I don't think we have to do that today but I wanted to make everyone aware

Sussman
- Is that constitution or bylaws?

Ly
- Just the bylaws

Attorney General Pascher
- What article? And what year are you looking at?

Ly
- I'm looking at the live version right now so not sure its applicable

Sussman
- Attorney General, we want to notify the senate within the next week

<u>Black Women's Health Collaborative</u>

Resignation of Anais Cooper as the Co-Chair
Queen Allah as the Co-Chair

<u>Office of the Attorney General</u>

Resignation of Olivia Shen as AOG Caseworker

Public and Mental Health Commission
