Minutes/Actions recorded by: Liliana Dritz, Melina Magno, Summer Tucker, Sydney Arbolado
CALL TO ORDER by Enri Lala, Internal Vice President **at 7:04 PM.**
This meeting was called to order at 7:04PM in the Flying A Room by Internal Vice President Lala.

A) MEETING BUSINESS

"Before we begin, we call for students to acknowledge that the lands that the University of California locations were built upon were expropriated & founded upon exclusions and erasures of Indigenous people's human rights throughout California. UCSB is built on Chumash Land, specifically that of the non-federally recognized Barbareno tribe. As an association that pushes the student bodies' voices to the forefront, we should aim to make strides past just acknowledgment to those who continue to fight for their right to be recognized & respected as the original stewards of this land. I ask you all to dedicate time & care to personal education & to advocate for justice alongside Indigenous peoples."

A Bill to Reinvigorate the ASUCSB Senate Advocacy Committee
Sherkin- Sunderrajan

Sunderrajan

- Hi everyone. I'm the Vice Chair of the advocacy committee and the bill we proposed, it was because we thought we needed a few more positions to better serve the student body.
- We did not think that the committee had the resources available for the scope of projects we wanted to complete with the limited amount of staff, like as per, like the prior legal code, and so we wanted to add a few, a few more positions.
- We believe that, because we are the advocacy committee and represent the students, that we need a diversity and equity coordinator to ensure that, like, you know, the more the underrepresented students' needs are met in the committees.
- And then we also thought that was a very large position, and so we wanted to add to diversity and equity coordinator staffers which would work with the which would work with the coordinator to like, to go through bigger tasks and help them through everything alongside that, we also thought the campus project liaison was a big position, and we thought we the campus project liaison staff need staffers as well

Wahidullah

- I think this is great
- Small question
- How will you guys be able to ensure you guys are picking the best diversity and equity coordinator?

Suderrajan

- We looked over each individual's background, like the extracurriculars, like the things they were doing, and then the person that we the coordinator that we chose, we believe that he best fit the need.

Lala

- You guys haven't hired anyone for the position, it hasn’t been approved right?

Sunderrajan

- We have someone in mind

Luken

- This is not an implication of blame for anything. I'm genuinely curious, and hopefully someone can speak to the process of this. When I looked over this bill, when it was sent out on the agenda, there have not been changes in some of the names and things like this since I first looked at it.
- So I'm a little confused how that happened. It could just be you guys went in and edited it after the agenda was sent out, which I guess there's maybe nothing technically wrong with that, but it does bring up a concern that bills can be changed after being sent on the agenda. So maybe you guys could speak to the

process of that and then it like that. You guys did change it just on. I know I'm not tripping.

Lala

- You're not. Once it's added on to the agenda, there should not be any further changes. The only changes that can be made at that point should be motioned on how we enforce that is rather difficult.
- I mean, as you can imagine, I'm not, you know, checking 24/7, like each of the pieces of legislation that are added on, and whether, you know the commons, apostrophes are in the same order. If that was the case, like it happens if you can, if you can, get it back to the version it was in when you added it to the agenda. That would be preferable. But these things happen. Just this is, I'm really glad you bring it up
- once it's something is added on to the agenda, it's there the way it's been added on. And the best way it was explained to me is that the agenda belongs to the Senate leadership until 6:30pm ideally. And then once the senate meeting commences, then it's yours.
- You can amend it as you see fit. And there are a few things here, like, you know, just the colon and comma that should be at the end of every whereas clause, which you know, we'll table this rather than refer to the supervision.
- I can add some just simple procedural suggestions there. But, yeah, it's really difficult for some leadership to keep track of this, this minute of thing. So if you guys, if it can just be an agreement amongst us, that there are no changes after it's submitted to the agenda, that would be very useful there.

Jiang

- Are you sure of the fixed position?
- Do you have 5 senators

Sunderrajan

- We have 3 senators, if you'd like to join

Lala

- We are missing 5 senators in general

Pascher

- As a member of the advocacy committee, I was just wondering, because it would be useful to know, under Section f2 you list entities, and I was wondering where you got those from?
- I've heard of most of these, and some of these I have not heard of. Maybe it took my own ignorance. I was wondering where you got this from, and if they're all active, because it's a good resource for for me,

Sunderrajan

- Sherkin went out of her way to find BCUs that were beneficial for the diversity and equity coordinator and this is the list she came up with

Motion to refer a Bill to Reinvigorate the ASUCSB Senate Advocacy Committee to the advocacy committee
Luken -

Lala
- It's advisable that it should be considered by another committee

Motion to refer a Bill to Reinvigorate the ASUCSB Senate Advocacy Committee to the liaison committee
Wahidullah - Ono
Call to question - Jones
This motion passed at 8:16pm

A Bill to Create Quarterly States of the Association
Jones - Sussman

Jones (8:17PM)
- The goal of creating quarterly states of the association is to make those quarterly reports for as entities a more fruitful and engaging process by requiring entities to not only give a report to the Senate, but report to the entire Association
- Hear the reports of everyone else
- Will increase AS wide communication across entity knowledge

Claro
- Think it's a good way to address problems when it comes to reporting on BCUs
- Although I'm confused
- "Insufficiently leading to lack of communication on crucial matters between these broader association"
- How does a single forum fix that?
- If the problem is that BCUs written reports are not engaged with on a regular and consistent basis
- How does a forum solve that?

Jones
- Forum as in everyone is together
- A lot of written reports do not get read and are not even looked at
- By having everyone in the same space, we can all engage with each other

- The work that is being done by the association

Claro
- Is this not a forum?
- Right now
- Where there is one every week?

Jones
- Yes but at the same time a lot of people do not come
- Or hearing the work that anyone else is doing
- Just choosing to submit paperwork online to check the box

Pascher
- Just to speak on it as well I think BCU chairs often are discouraged from coming to senate meetings
- It takes forever from the start for them to speak
- They have to have their time extended
- They have to sit here, it's a little formal and this is a little less intimidating
- My question is a concern with the language of limiting
- Limiting BCUs to 3 minutes implies a strange and unnecessary authority of
- Implies a strange and unnecessary authority of senate over BCUs
- Just wanted to express my dislike for that
- Maybe if this could be kept in mind to whatever committee it may be referred to
- BCU and senate should be working together instead of having a power
- Instead of having power imbalance

Jones
- Reason behind that is that we have so many entities
- Them bringing one person we have to be respectful of everyone's time
- Realize that the first one is November 18th
- Don't want to have everyone standing there 4-5 hours
- Keeping it bare bones
- Who wants to sit there for 4-5 hours just to half listen
- Just to half listen

Lala
- This might fill up
- Do we have an estimate on how long the meeting would run
- How long would the meeting run?

Jones
- 2 and a half hours with it being 3 minutes

Lala
- What about with 5 minutes?

Jones

- 3-3 and a half hours
- Lot of entities to report, not just BCUs but also execs speaking on their offices as well

Pascher

- If we were to add up all the BCUs
- That could be something we sort out
- Is the ordering of this bill in current legal code?

Lala

- It's independent of roberts rule
- If there's like a changed article 25
- I don't think anything is being removed
- Even if it is
- Look at all the therefore clauses
- The 2nd therefore clause
- This will get rid of all
- The third one is it would change the order to correspond with how it's structured
- Even if Sussman bill changes that

Wahidullah

- When I was going over this bill I saw it as a good opportunity
- Maybe also a good opportunity for student representation to come and talk
- If so I think its good if we are communicating with this later
- To discuss about how we can use this opportunity
- It is very difficult for them to be coming in sometimes
- Looking at this, this could be a good opportunity for them as well

Jones

- We definitely recommend that students come but we won't be doing questions in consideration for other people's time

Malhis

- I love the idea of this bill
- I know this will be retouched
- I feel like for scheduling and format
- You state very specific times
- You could just say
- During week 8 and it can be flexible every year
- I recommend you look of how we do our cycle
- We have a unique process where we assign everyone a time and give some leeway
- Has always worked well the past years

- That’s why it doesn't need to be completely formatted

Jones
- Considered splitting into 2
- Wanted it to be an event where entities could speak w each other
- We emphasize having at least one representative from each entity

Luken
- Echoing Wahidullah's comments
- Would appreciate form outreach perspective
- I don't think there has to be language
- Regarding how they present
- I think this should be a very student facing event
- Invite students to see what organizations are doing
- As much as I think I love the idea of having it be entities collaborating
- So just no critique of idea or anything
- Add that in in some way
- I would appreciate as I think its a good way
- Would perform outreach to students on association

Jiang
- I’m just curious what is the BCU?

Metzer
- As a former BCU chair I have sat and waited for 3 hours to give a report
- Think it’s also about how you publicize it and market it

Jiang
- Maybe to present both of the options to the BCUs and just to see their opinion
- Just to see their opinion
- Assuming that they will prefer that over senate meetings
- Communication is a big issue

Ono
- I was curious on the 7% figure
- Standardized figure for failure to submit a BCU report

Jones
- That was separate because in relation to getting a lot of written reports
- And that is the responsibility of the chairs to draft that, so there needs to be some sort of accountability attached
- Also incentive to actually come and participate and engage

Claro
- I share the same sentiments as Jones and Malhis

- I have a concern when it comes with our relationship with BCUs
- From a BCU perspective
- We have a bill essentially to mandate every BCU chair to come to one meeting and the punitive
- The punitive repercussion to that is a paid reduction
- How is this gonna look to BCUs?

Jones
- We already require to
- A lot of them don't get listened to
- There are already reductions for that
- Just trying to make this a more engaging process
- It's supposed to be fun, come to this banquet and eat food rather than speak in front of these people who are on their computers
- We are all here as students

Metzger
- BCU communication is getting there, has been something that's my mind since I started having BCU background, and how do they set it to make decisions without that knowledge
- That's why at the beginning of summer I sent out a survey asking for feedback on senate quarterly
- The general response that I got, they don't find it super effective and they don't like the senate's environment and that's just the general response I got
- I would also fully support sending out stuff
- At the time I can't remember how I rephrased but I said something like what do you think of this idea
- I would support sending out another survey with this proposal that's more fleshed out and getting feedback on it

Harter
- I wanted to motion to defer this to outreach committee

Lala
- Info that might be useful
- If there is precedent on deduction of honoraria
- Obviously it varies between regular officer, chair
- This is pretty unusual
- It's for attendance, however many you miss it gets deducted
- However many you miss is deducted
- This is transparent

Motion to defer A Bill to Create Quarterly States of the Association to the outreach committee.
Pascher - Luken

Malhis
- How about we take it to liaison first
- Then we take it back to outreach committee and have it be the forefront to students as well
- Feel like that's better timing

Second rescinds.
Motion dies.

Lala
- The second, you decide to rescind, you do another one, or you can go through on a vote, and then we'll see

Malhis
- Question, it can't be in 2 committees at once

Lala
- Liaison could very well table it to outreach
- If there's no second, the motion is dead

Motion to A Bill to Create Quarterly States of the Association to liaison committee.
Chaudhry - Harter

A Bill to Amend Finance Committee Membership Positions

Malhis - Jiang

Malhis (8:51PM)
- Already brought up this bill before, but it was basically contingent upon the former bill, that was already technically brought up and not yet passed, to pass until we do this one
- Even though I wanted to amend that bill on the Senate floor because it would be more efficient

- Nevertheless, the results of the last finance committee meeting brought this bill up again
- This time following general procedure
- We just fixed it to have it our official real name
- Which is just finance committee
- Also amended our membership positions
- Finance committee is having larger operating cash
- Since we used the rollover decisions to balance budget and things like that
- We want to fulfill mission statement
- Direct impact we make on student body
- Which is what finance committee does
- We have a larger operating cash
- As a result of that more authorized signer workshops are expected
- More questions and emails
- We have decided that we wanted a larger committee
- We wanted a larger committee which meant amending
- Which meant amending positions
- Finance officer of technology
- We would like people to work closely with
- As liaisonship, BCUs are expected to collaborate
- So we expect to work closely with BCUs as well
- We wanted to make that 2 and make communication more efficient
- Also expanded our officers of special projects from 3 to 5
- This is because we are getting legislation on finance committee
- Having more people that can help and work and review, we extended that
- Finance officer of external funding
- Having someone help out with additional funding and what goes in in the office
- Totalling 6 additional officers

Jiang
- We need more.. To avoid the drone situation from last year

Luken
- Do you have a preference
- I yield

Lala
- Have you laid out fiscal impact on the bill

Malhis
- I could explain it, it'll affect honoraria
- It'll be tabled to whatever committee can fix it

Pascher
- In light of me learning we should discuss which committee we should table it to

- It's not wise to refer this to finance committee
- Think liaison committee is best

Than
- I would
- My concern is that bc we meet on wednesdays 1-2
- Our probable supposed permanent time is that
- Which means it would take 2 senate meetings

Lala
- Essentially you'd meet next wednesday and then we wouldn't be able to add it to that wednesday, but add it to the wednesday after that
- If it's not against the chairs

Jiang
- Were going to train these people, fully capable

Lala
- If it's urgent, we can discharge it next wednesday

Malhis
- In the past, we can submit it to the agenda late

Lala
- You can motion it on but no

Motion to refer A Bill to Amend Finance Committee Membership Positions to the liaison committee.
Wahidullah - Malhis
Call to question - Luken
This motion passed at 8:58PM.

Ly
- I talked to chair Malhis about this
- There's a rebranding of FnB committee to finance committee
- For finance committee and outreach to share that branding to the student body
- Currently everyone knows them as FnB that's how all the RCOs know them
- If were changing it in legal code, need to share out to students as well

Lala
- The bill by Sussman has this as part of it
- I know because I did some of that work myself
- You just want to coordinate with them

- You’re only getting rid of references in legal code, but there's references outside of legal code, which Sussman is working on
- I fully agree
- There's still a banner that says finance and business

Jiang
- We are waiting for the label

A Resolution to Form the Senatorial Appointments Ad-Hoc Committee

Sussman- Luken

Luken:
- He has spoken to the Attorney General about this bill. It's purely a procedural matter, and it will validate motions that were made in previous meetings, including appointments to the senatorial Ad-Hoc committee. I hope everyone's aware of what this is, after the bill, but for those that aren't, it's a temporary resolution. It’s a committee that's being established to search for senators to fill the five vacancies that we have, which are three on campus positions, College of Engineering, Senator, and College of Creative Studies. Senator. He also wanted me to note that there are three open spots on the committee, so any senator who would like to join the committee to fill the leftover senate positions we have, can join and request senate leadership that they be appointed to the committee.
- As my own comments, just echoing what Senator Sussman said. I feel it’d be prudent, if the body agrees, to refer this to a committee and discharge it so ADHOC can go back to work. That’s just my thoughts.

Lala
- The 74th and 75th have introduced such resolutions to create temporary Ad-Hoc committees, because we use both Ad-Hoc and temporary to mean the same thing. The forthcoming bill will try to resolve that and have one term for it, but it's essentially needed to have the committee and, us, incentive leadership realized that was never introduced. We kind of thought that that was taken care of, and then we realized that was never introduced. So this would take care of that, and would essentially retroactively approve all the appointments made in the first meeting, and as the senator was suggesting, you have to refer to whichever committee you think would be best fit, and then discharge it so it passes. It doesn't have a week of sort of a mandatory gap. I welcome any discussion.

Pascher

- I just wanted to open this up to include future vacancies in the senate, for whatever reason they arise. I think this is a great resolution and great language.

Luken

- This resolution will establish the committee for the duration of the term, so if a vacancy were to become available, it would already be established and they would be able to convene and start searching.

Pascher

- Cool.

Enri

- Usually it would. It would usually be the equivalent of resolution, but the first therefore clauses shall immediately authorize the creation of a senatorial appointment committee, blah, blah, blah, and it gives specific dates. If this is a route you wanted to pursue it would be good to add another clause, and essentially say the committee as all resolutions establishing temporary committees will run on until the adjournment of the 76th senate and can be reconvened by the first President pro tempore for any future vacancies.

Wahidullah

- I think this is a good bill. From my previous experience in the 75 Senate, if you need any assistance I am willing to help. You can also table to the Liaison Committee for more advice because it also has to do with internal affairs.
- Table to liaison committee for more advice
- But also because it has to do with internal affairs

Lala

- Would it be okay that I reject the suggestion you made and then I change it?

Vicky

- Can someone clarify up to 8 senator voting members?
- Under the 3 whereas, and under the 4th whereas, it's not contradictory but if someone could clarify that

Luken

- This is all in legal code. The whereas clauses are just enumerating what is stated in legal code. I am looking for the exact language. Quorum for AD-HOc including chair shall be no less than 1/5th of the senate. So Senator Sussman had made adjustments to this and I believe there can be up to 8 voting members. I think he may have edited that and not added the second whereas clause. I thought I had it in legal code, but I can't find it right now.

Lala

- How many members, if this passes and the appointments are approved, how many members are there in the chair?

Luken

- It just says quorum shall be no less than 1/5th

Lala

- I'm wondering if it meets that standard. It has to meet the 1/5th. There are 6 members, 6x5=30 which is more than 22. All that needs to be done is opening the motion.

Suyan Wang At 7:09pm

- I serve as the chair for global gaucho committee
- The Gaucho food inclusion program (GFIP) was created by last year's international senate as pilot to address student food insecurity, serving students with special circumstances such as international, undocumented or dietary restrictions
- It was approved in senate with 13500 during meeting of october 30th
- This program eventually launched in late march
- I'll share with you that the program did not succeed as planned
- I am here to provide shared report and seek senates assistance
- Funding for the program, and then use the term GFIPT, to describe those who are known programs. However, he never specified who was included in that team. I want to kindly note that the global voucher commission was never included in this original initiative.
- Therefore, when she brought this initiative to GDC board meetings as an international standards senator, many questions were raised. I think the November 25 meeting back in 2024 one of my board members directly asked, what is the nature of this project? Is this a new UC project? This confusion persisted as from many of the following by January
- January 25 we reported that vouchers and stamps were printed on February 11, she reported that negotiations with restaurants were complete, yet no contracts were signed. It was not approved by the administration and invoices were issued. However, under GGC there in February, after her resignation from the Senate and her transition to GDC as our policy director, you began asking GDC members to table, send emails and distribute vouchers through our channel.
- The program officially launched in March 2025 emails framed it as a GGC initiative, but still ended with a signature Best regards voucher food inclusion programming, again, while we saw the value of the program and wish to deliver it further about execution, we never clarified who was on this team.
- Unfortunately, the gfip program did not succeed as intended, while invoices across six restaurants totaled around 10,495 Only a fraction was actually redeemed.

- So far, the super quick has reported $860.25 redeemed. Kaiju reported 13 students went to that and Assoc's wall kept no records. But the previous GTC board now pretty much all graduated. This responsibility now falls on the current board, including myself, to reconcile invoices and close out this program. From this experience, we want to highlight three main issues and offer solutions.

Motion to extend the speaker's time by 2 minutes
Pascher- Claro
Call to question: Wahidullah
This motion passes at 7:13pm

- We ask senate to clarify ownership of projects moving forward, the senators project should not automatically become a BCU project with both transitions. If a sponsor meets their senator, well, there should be a formal process for reporting who owns the project.
- Secondly, we kindly ask that the Senate require more default logistics plans before approving any process. Who signs the contract, who is responsible for execution to report back? Gfib never had approval. Contracts were drafted but not signed. Their vouchers were printed, restaurant filled and invoices far exceeded actual reduction. Third, we kindly asked for stronger communication between Senate and BCUs. gfib, the International Center was supposed to serve as our connection within the Senate, and we leaned on that connection because of this reason, but it only added to that confusion.
- We would like to work with the Senate to create a structured channel of communication so that Bcus aren't properly informed when Senate projects involve us. And finally, for that, for this particular program, We kindly ask for the Senate support.
- Now, GDC is left tracing invoices and redemption data or programs that began in the Senate, and we are having difficulties closing it out responsibly on our own with a whole new board the previous or vibrator. We ask that the Senate designate someone, a senator committee, whoever, to work directly with us so that vendors are treated fairly and the program can be concluded properly. Thank you sincerely for your time and for your dedication to the

Jiang

- I would kindly ask senators to let me voluntarily be the one who addresses the issue and solution and follow up with everything, because unfortunately, I'm actually a participant of programs. When the previous environment la reached out to me, she basically assigned me the work, basically including dropping a contract to negotiate with the vendors and everything.
- But I wasn't part of the senate at the time, and she basically promised me the process would find this I wasn't aware of. I thought she was reaching out to ask for help, which, I think it's about the program, as you agree. So I offered my help,

and I was very much aware of the situation that get worse after she stopped the meeting. And actually I just mentioned about this concern

Speaker
- Was she requesting a favor from you?

Lala
- Generally can't ask questions from senators
- Maybe there's a way to volunteer the information

Pascher
- I was not part of the last Senate we are here representing the current senate and exactly what we're here address your concerns and certainly kind of clean up while I don't want to discuss the logistics of how we can help you on the Senate floor, I believe that myself and some senators will be reaching out to to get this solved and sorted out. So thank you for coming in

Claro
- Were there any turnover documents provided to your bcu?

Speaker
- So basically, the only documents that we had actually, this was our advisor to assoc
- I thought we ended up getting a lot of the gfip related stuff at the end of this project. So the board was not informed on it at all. So we just thought it was a Senate project, and that's how Senator you presented it. So basically, it's only after that, she transitioned into policy director here at GGC.

Wahidullah
- Thank you for coming, I apologize that you have to deal with this issue
- Speaking on behalf of liaison committee, if you have more issues or questions feel free to come to our meetings to discuss it
- Could you provide questions of what is still stringing on and affecting your BCU

Speaker
- specifically for the GGC global voucher commission, something that obviously we will be working together with international centers and GGC, but I do want to stand right here and all the senators here to kindly ask that we don't make assumptions.
- We don't correlate a senator with the BCU just because they share similar conditions, because we do have to have that Negotiation Communication. And when you are making that assumption, that does not happen, because the senator can bear the power to pretty much block that information and just tell us, Oh, this is what the Senate wants.
- That's what we got out of this project. But we never really have that communication. So that's something I want to kindly ask everyone to, even if the

BCU is doing something that a senator wants to do, to not kind of make that connection, also because we are focused on our own project. So this project actually, we didn't want to do that at all, like it was not on her list. They just got carried out.

Jiang

- I do have information that I was responsible when I was under you

Pascher

- I'll probably be reaching out to finance comm as well

Finished at 7:20pm

Lena Wessel (7:20PM)

- I'm Lena, president of out in Science, Technology, Engineering, and Mathematics
- RCO that focuses on uplifting and serving the queer STEM community
- We have been sending people to the national oSTEM conference in baltimore
- Occurring from October 16th-18th
- Will involve 11 hundred LGBTQ students
- From across country and globe
- Space is designed for attendees to share their professional and personal experiences, talk about peer issues and career development
- To discuss the latest research
- We want to request $6,650.78
- Fund 6 students to go, flights, food
- Request one time exception for travel
- Detailed budget should've been sent to you by TQcomm
- We would need to have funding request by today
- So that we can book hotels before it closes
- Tried to meet at monday but didnt happen
- Tq comm funding got recently reallocated so they couldnt
- Asking for funding

Lala

- Could you give me the full name of RCO?

Lena

- oSTEM, out in Science, Technology, Engineering, Math

Malhis

- How many people are you sending to this event?

Lena

- 6 People

Malhis

- Did you guys decide to delegate these people?
- How you chose these people and why this conference?

Lena
- oSTEM UCSB is a chapter of oSTEM national
- They hold the conference every year
- Conference is tied to our identity as an org
- We set up an application form and were trying to approve all 6 people that applied
- Trying to approve all 6 people that can fly
- Have lower sums of people
- Historically we've been able to send 8 people
- We'd like to be able to send the 6
- Criteria
- Involvement in STEM community, involvement in queer community, and in club in general
- If it would serve their professional selves

Malhis
- You said you are requesting from senate 6k
- But you guys submitted a flux request for 12,000 something
- That's double, can you explain?

Lena
- That was from sunday
- We solidified all the people that applied for the conference but we only need 6k
- We only need the 6k
- Can update that budget on flux

Malhis
- You guys may need to submit a new one
- If you can do it tonight
- What's the real amount

Lena
- 6,650.78$

Malhis
- Can you forward the itemized budget request

Lala
- You need it essentially before October 16, right?
- Next finance meeting is Monday 4pm
- If you guys could update flux w actual itemized budget
- If you go and present next monday

Lala
- If you guys could update flux with the itemized budget it would be more fitting

Lena
- It's just we need to book hotel rooms now before it closes and we need to book flights before it closes
- We need the money now because we need to book hotel and flights before the block closes

Lala
- Is this all possible if it's approved Monday?

Malhis
- I suggest that she send it to you, and you put it on the agenda for everyone to see the itemized budget list, and then we can grant it from me directly

Lala
- Could you please email me?
- And also senate gmail

Done at 7:28PM.

Jones
- I would like to remind senators to lower their laptop during public forum to give speakers our full attention
- If you want to take notes, do it on paper

Dean of Students Joaquin Becerra
Speaker #3
- I serve as your dean of students
- Thank you for choosing to lead on your campus
- These meetings are not for the weak willed or minded
- I appreciate you all so much
- Just want to be a support and community
- Thank you for that
- Please reach out
- If we could be in support let me know
- Its extremely hard to lead right now
- It's a time where we don't trust institutions and each other
- If we can be in support, please reach out

Luken
- How have you and your office worked with AS in the past

Becerra

- We have regular meetings with your president
- Regular meetings
- projects
- Support In regards to advocacy
- Reflection space on campus and things of that nature
- Things of that nature
- Pieces of support we've engaged in using our restorative justice program
- Engaging in
- If trust issues occur we can help support those pieces
- We could help support those pieces
- We are in connection with your leadership constantly
- Student life
- We are in connection with your leadership
- Additionally we are needing in getting
- We are needing to get information and connection with you all
- My agenda is your agenda
- How can we be best serving
- Tangible elements

Than

- As part of liaison committee we are looking forward

Jiang

- They were very magical just wanted to express my interest
- In terms of international community

Becerra

- I founded restorative justice program a few years back, it's blossomed
- Yall are amazing
- Davis is coming to campus, lot of collaborations with orgs
- We do that
- Would love to hold circles for international students

Claro

- Many students are kind of afraid with current funding cuts we've been experiencing
- Is the school doing anything to address that at all?

Becerra

- Yes, I think they're impactful on academic end
- Wouldn't be best person to give you those pieces
- As you can see we are being impacted negatively by federal legislation and policies in Trump's administration
- Very impactful

- We're doing exploring other ways, both in the research space and also in the teaching space, to bring in more funding, to ensure that, you know, there's no penetration in service
- Think more of that connection and discussion will happen soon

Pascher
- I wanted to introduce myself we were in contact
- I believe we were in contact last quarter
- Something about the graduation concern
- Wanted to put the face to the name you have my email, if you ever need anything
- If you ever need anything from me, if you want me to reach out to senate on your behalf

Becerra
- Thank you

Wahidullah
- Thank you it is great to see you again
- Continuing moving projects forward
- Small question
- Are you in contact or communicating with executive committee and other standing committed like finance

Becerra
- It’s my hope to be as connected and be in support
- I don't want to impose
- Don’t wanna impose
- We take up space
- If there’s any way to
- Connect organically and naturally

G) Action Items

Motion to grant Out in Science, Technology, Engineering, and Mathematics a one time Exception for Travel for their National Academic Conference
Malhis - Claro
Call to question - Luken
This motion passed at 8:41PM.

Malhis
- We went over
- Also looked at new flight tickets
- All on the new email there

Pascher
- Would like senator Malhis's recommendation
- I know you motioned it but I'd like to hear what you have to say

Malhis
- Right now, approving exception for travel with the one time exception
- Travel based
- It is hosted by the national oSTEM thing
- The plan for this, I have the motion language written
- We can fund this through our conferences account, but
- A cap for that at 3500
- We motioned to grant 3500
- Then we do the remaining 4000 something dollars from SEAL fall quarter

Pascher
- What is your position on this?

Malhis
- As a person of finance comm who's serving students
- Any requests that comes in early and doesn't break financial policies should be funded
- First come first serve service
- Doesn't break financial policies

Ly
- Do we have to add the oSTEM financial funding to the agenda before we approve this or

Lala
- We can just approve this motion
- Would highly recommend to motion to add on their finalized budget

Motion to add oSTEM 2025 Conference Final Funding Request to the agenda.
Ly - Pascher
Call to question - Wahidullah
This motion passed at 8:43PM.

Motion to grant Out in Science, Technology, Engineering, and Mathematics 3500.00 for their National Academic Conference from the Conferences of Senate Finance Committee via hand vote.

This motion passed at 8:45PM.

Motion to grant Out in Science, Technology, Engineering, and Mathematics 4841.76 for their National Academic Conference from SEAL Fall Quarter fund from Senate Finance Committee.
Malhis - Ono
Call to question - Wahidullah

Hand Vote
Yes - 18
No - 0
Abstain - 2
This motion passed at 8:46PM.

Motion to grant the Internal Vice President and the Honoraria Committee the discretion to adjust the Summer 2025 honoraria timeline to ensure a prompt and feasible process
Jones - Ono
Call to question - Wahidullah
Objection: Malhis

Lala
- Background

- The honoraria deadline is a lot earlier to process than other years
- But still not early enough to fit into legal code
- It's supposed to be penultimate week or last week of summer session B
- We wanted to give this discretion
- We would not be in accordance with legal code

- Is it under the IVP's role to do honoraria legal code stuff?

Lala
- Yes chair

Malhis
- Then does it even need to say honoraria code?

Objection rescinded.
This motion passed at 8:50PM.

G-2) Old Business
[Debate Time Per Item- 15 Minutes]

H) Recess

Recess entered at 8:58PM to resume at 9:13PM.
Reconvened at 917 pm
Report Speaking Agreement: Pursuant to Senate Standing Rules Section F, clause 5, officers of the Association providing reports, must take questions from Senators relevant to the matter(s) or project(s) presented. Knowing that, do you still wish to give a report?

I-3) Unit Reports [Speaking time not to exceed 10 minutes] -

I-4) President's Cabinet Report-
I-5) Executive Director's Report-
Sean Lieberman 7:35Pm

- Let's see. I've just got a few things on here, hopefully questions. But I just want to start with some easier stuff. We're working with KCSB about stork communications and making that area safe. Stork tower has been better around there. Let's see BCU relations. I just wanted to emphasize something I mentioned, I think spring quarter, just if you have a thought, Hey, maybe I should association about this. Just ask, just preemptive, because when it happens after the fact, I think this is gonna affect my group, then that get some bad feelings in the mix. How could communication be over?

- Let's see financial conversations about this and the finance committee and things like that. So these are things to keep in mind when people come to you, no international travel at the moment, that requires extra steps of approval. So at the campus level, the Vice Chancellor of Student Affairs Office has to approve all of that. We do not have the authority to do that, and there isn't currently an easy workflow for that. But also as part of that, the question should be asked, how much of our mission and that group's mission is traveling internationally
- Sometimes it actually is, but ask as many questions as you can, especially about impact. And I heard some questions about that staff. There's a reorgan process in progress. We have a two day work retreat with our first since we're working on changing up how the staff organization is structured, that was my idea, and we haven't looked at that a long time.
- Update is is that LinkedIn chose to start the timer on the six months, the second the contract was signed, not the second that they provided any value for us. So there were delays in their staff. There were delays so we can log in. So essentially, we had to pay for almost so sorry that that's how what happened and what came from it. But they also offered us a paid extension to the rest of this year. if we wanted to actually pay for something, they would accept that through the remainder of one order. So that's something for this body and maybe the president's office to debate another time.
- And then I was asked for a little update on the IV landlord evaluation site. By the way, this is not just evaluating the landlords, it's the property too. So I want to, like, have that distinction, because we've bounced back and forth many times in the lead up to this. It's not just about the six landlords. It's about them and the property. Because some things are well, the landlord didn't return my security deposit, which I actually recently had to deal with.
- Or it's well, the property comes with one parking space, or it's noisy, or there's more like, those are things proper versus the length. So it's both, and that is about 70% done. Like the back end, we have a database, a spreadsheet of all properties in IV and some of their stats. So we've been working on that in our web developer for more than two years and starting in two weeks to making that a reality, because I'm only one person, and this is the last piece of my notes that any of that or something unrelated?

Lala

- Please encourage the web developer to speak to the senate when they get here

Luken

- First of all, regarding the staff reorganization, I have just two requests. One, can you please keep us updated on how that's going and what the thought processes are, and along with that, too, can you please make sure that student leaders, execs and Senate voices are NPCs For that matter, voices are heard in the as the reorganization goes along, because it would be helpful for us to be aware of how things are playing out, so that we can most effectively, you know, do our jobs and serve students.

Sean

- I got a lot of amazing ideas from staff so far
- So I'm putting together all their ideas
- Once it gets to big picture phase, and they know how things work
- Then we will talk to the exec

Luken

- Thank you. I appreciate that. And then my other question is, regarding access fees. You know, it's frankly, an urgent matter that we all get access to. I know some people do. I personally don't, I know others don't. How can we get access to Senate Room?

Sean

- I believe Lily has given access to do the key system
- There's a docusign form
- Because then it is you got access but no one told you got access
- Your card may have access to it already and you don't know
- I can talk to Lily who is out sick right now

Lala

- How many senators have filled out the docu sign?

Sean

- Also it doesn't carry over year to year.

Wahidullah

- Do you know if the senate itself can be updated on this process?

Sean

- I've gotten 10 extremely in depth kind of this is their vision of the org chart, and some of them are dramatically different. And so I've got to distill all of that, so rather than overwhelm even myself with all of that, I was waiting for three or four versions to come, and it's still, like, flexible after that, I guess not like, all three versions probably won't share 90% so they'll be different enough. Okay, these are the kind of errors we're thinking. So yeah, and I'll bring that and present it.

Luken

- Where do we actually pick up the key?

Sean

- You request the docusign and fill out which doors you need access to and then go upstairs to admin office
- Say hey I need to pick up my key if you don't have one
- If you already have a key and need i t recharged, hit one of the hotspots just to see

Lala

- Currently. No new keys have arrived at the admin office. Maybe if you had one previously, it might be there before I forget. It might be useful to bring up some figures on the LinkedIn learning thing, because I think this is the institution best suited to make a final decision on that one power the purse second, because the last Senate was the live Senate was the one to eat the cost. So we're probably not to eat the cost again if we do decide to go through with it. So how much was paid for getting nothing? And how much exactly would we pay to get something

Sean

- I believe for getting nothing we paid 24k
- And for getting something it was around 10k

Harter

- For lack of better words are we doing anything except for eating the cost

Sean

- We've spoken to lawyers yes

Lala

- This is better for closed session

I-6) Executive Officers' Report

President Metzger (7:55PM)

- Working on AS1
- And AS kick off fair on friday
- A lot of hard work has gone into that
- Thank you for outreach for helping with publicity
- I encourage you all to come
- There's gonna be a petting zoo, live music
- Live music, photobooth
- Tabling for over 30 AS orgs
- I cleaned AS Main Other thing I did over summer
- I quite literally scrubbed down the mini fridge in there
- There's couch covers to make it a bit prettier
- I put up some christmas lights, hopefully it's more homey
- Gonna put up more coloring sheets
- I'm trying to make it more welcoming
- I've been working with senator jones for long term renovations on the space
- Longer term renovations
- Met with the new chancellor, chancellor Assanis
- We had a really good conversation about basic needs and housing
- Also the importance of student voices and student representation
- He came to speak at AS one
- The other thing, getting AS canvas page live
- Went to highlight Carlson for preparing that for us
- Please join it

- That'll be your really good resource for everyone
- AS contacts and meeting sheet
- I encourage you all to fill it out
- AS news letter
- Working with division of student affairs
- The first one went out on Sunday and the next will go out in October
- Next one will be even more fleshed out
- I'm excited about that and we'll continue to have senator updates
- Other things I've been working on is facilitating meetings with senate leadership
- Been facilitating meetings during leadership and the library
- i also spoke to news hawk about it to bring more attention to the issue
- Issue of late night study
- Stocked the newly installed narcan cabinets in university housing
- That really exciting cabinets were installed over the summer as part of the HIP
- Now they're in all university housing
- Been going in and making sure they have narcan
- Done half of it so far, waiting on a few things to finish it up
- Tell your friends and anyone you know that if they ever need Narcan it is available
- One of my staff members lily has been working with senator Wahidullah on the IV farmer's market
- Hoping to establish that as a permanent project
- That will start October 17th around
- Last thing was working on state of the association meetings, had Taylor speak about it at the previous meetings
- I'm happy to answer any questions about it
- Publicity and marketing
- We've got the UC contract with adobe creative suite starting today
- We are working with a publicity campaign with that if anyone is interested
- Hannah from my staff and advocacy community working on Pardall light tunnel
- I've been working with the EVPLA office on rate my landlord. They've been talking to lean on me to see how we can support their services more. I'm also working on codifying the student of the quarter award into legal code.
- Next week starting coffee with the president office hours at the arbor
- 0 that will be every other tuesday at 2pm
- Feel free to stop by to chat
- Other events will be happening around Halloween, studying, transfer welcome

Lala

- Report that state of the association bill is on the agenda tonight
- The water cooler on as main seems to be unhealthy, actually rusted over and dangerous
- Seems rusted over and something permanent might happen to you
- What would the approval process by staff look like?

Metzger
- Would refer to sean about that
- I've been drinking from it

Sean
- We'll take a look at it

Pacher
- You mentioned AS main being cleaned up
- There was a liaison committee meeting in AS main and
- Just studying there
- Apparently people were coming in
- Students were coming in and looking someone to ask questions to
- Looking for someone to ask questions to at the front desk
- I wanted to take your point and invite all the senators to
- Invite all the senators to study in AS main
- Make it a more welcoming palace, if people stumble in
- We can direct them and tell them what is going on
- If you guys would like to switch in between, studying there

Lala
- Do we have times where the AS main is staffed so senators can coordinate

Sean Lieberman
- I just made a note about that

Luken
- Your work is inspiring
- On that note I'd like to offer our services to you
- Anything we can do to help you in that regard
- For any other projects as well
- If we can help promote other projects
- Please let us know
- I remember at the end of AS 1 you were there cleaning up after everyone
- You said this summer you were in AS main deep cleaning the fridge
- Literally leading by example
- I want to offer services of my committee
- Literally anyone else in the association
- Please don't hesitate to reach out to anyone for help

Harter
- We are having an AS kick off
- Was hoping you could talk to me about this student of the quarter

Metzer

- It is an informal thing that has been done in the past
- Typically we have AS people nominate someone else in AS
- They get an instagram post about it
- It’s not listed anymore in legal code
- We got two nominations a quarter, it wasn't a big thing
- Wasn’t a big thing
- I’m about rewarding hard work and being able to honor people
- Being able to honor more people
- Want to codify it so it’s a more established thing
- Publicize it better so more people will nominate their friends
- Looking into some sort of monetary increase, small
- To motivate people to nominate others

Lala

- Were you on the student of the quarter ?

Metzger

- No I nominated people

Than

- If you could give us an update for the library
- When Pascher and I talked to chancellor about it
- He didn't seem so keen on having a library instead of an alternate space
- I personally don't agree with

Metzger

- My executive assistant, Cassie, is going to be in charge of the BCU award. And so your help would be very much appreciated
- The library, there is a want for admin to have a different space that is 24h
- Think we’re kinda trying to show them
- Look students really care about the library
- Trying to find ways to make that possible
- And put that forward
- There's just ongoing conversation about it

Jiang

- Do we have any updates on meeting with chancellors and the absorption?

Metzger

- Not yet

Motion to unanimously consent to move back into item C new business.
Passed via unanimous consent at 8:08PM.

I-7) Senator Representative Reports-
I-8) Administrative Reports-
J) Committee Report
J-1) Standing Committee on Finance -
J-2) Standing Committee on Outreach -
Vice Chair harter 7:47PM

- I'm very pleased to be able to report with the opportunity to be able to achieve I'm just going to go ahead and read our report really quickly. The Outreach Committee concluded yesterday for a highly productive meeting in which we formally associate to our board designate teams.
- Each team has begun working on its respective projects, which include scheduling speaking events to broader student engagement. This is going to be, this is going to be a different classroom which we have an entire spreadsheet of, and we know exactly which classrooms have email students on campus at any time throughout the day. So we're obviously, we're obviously trying to be strategic in what we're doing, and we're targeting those,
- to that point, if anyone has any information that they would like to convey to the student body, then of course, I would encourage you to reach out to outreach committee, because we are literally going to be speaking directly to the student body
- next we we've established a regular taping schedule to increase the outreach visibility. We're planning an additional fair to the one that's happening this Friday, to connect with students on campus and to provide them with additional resources, to give them the information that we're working on here of course, and then we're finalizing our social media campaign to amplify committee initiatives.
- All of our policy analysts have been equipped with legislative tracking tools, and we will deliver their first reports in the coming weeks, and then some collaborations that are in progress. We are partnering with the office of the internal vice president to develop and implement the Direct Democracy Project.
- We are collaborating with the Liaison Committee to coordinate outreach to boards, commissions and units, and in support of funding for the Genco hip proposal, I believe we covered. We did cover that at a previous senate meeting, happy to update everyone on what that is, if any information.
- And then we're also working with the employees office to promote and expand the rate by landlord projects, ensuring grander student access to housing, transparency resources.
- Of course, alongside these initiatives, the Outreach Committee continues to advance multiple major projects designed to strengthen student participation and institutional accountability, of course, and then, as of today, actually, what we learned is finally, under the Joint direction and leadership of Senator Wadidullah and members of the outreach committee, the we have secured a reflection room in the University Center, A major significant achievement for the student wellness and inclusivity.

- So that's been something that's been going on for quite a while, and we're definitely happy to report that today. And of course, the outreach committee will continue to update the Senate as the projects progress. And we appreciate all of you guys' ongoing support. And we would definitely encourage you guys to reach out to us and definitely work with this, because that's what we're here for. Thank you guys.

Lala
- If I can just really quickly. First, we spoke about the Direct Democracy Project yesterday at the outreach meeting, and I really liked the way you guys are envisioning it. And obviously a part of that is getting project proposals in from senators, and then essentially polling students whether they want to fund those or not. And if the majority Yes, we funded, if no, we don't, do you guys have any deadlines lined out by when senators should send in those positive proposals and when we want to get the polling out?

Harter
- Yes, I believe that we agreed as of last night. So of course, being that this is a collaboration with the Office that's tentative. Things. How does this sound?
- Of course being that this is collaboration with your office if things work on your end

Lala
- Here is by the senate meeting Wednesday, week three, and you guys obviously will have made a Google Form available by then where people submit, you know, quasi budget, some sort of a beginning of a budget and proposal. It doesn't have to be completely lined out. Just has to be a coherent and well developed idea. So Senators send in their project proposals by week three, and then we get it sent out, let's say week five.

Harter
- I believe all of you have my email, that would be your point of contact

Wahidullah
- In regards to some of your recent
- Is there any networking or internal resources you guys need?

Harter
- Yeah, so you and I were able to speak a little bit about this previously, but to elucidate a little bit further, the biggest thing that I believe your committee would be able to help us with is contacting bcus and guarding support for this general HIP proposal that we're doing.
- We were in the process of trying to do more with a variety of issues, and that would be your support in that capacity, would be the most effective thing that we can, that we can ask for, for sure. Any more questions?

Than

- Want to thank you so much for presenting
- For direct democracy is it just the senate or all AS entities?

Harter

- Language says just Senate Projects

Lala

- The language says Senate projects. That's not, you know, it's like divinely ordained. It could, it could very well be, you know, BCU came up with the idea in collaboration with the senator, and then the senator proposed it. That makes sense.
- It's not even fully lined out where the funding for the project would come from, necessarily. The idea behind this isn't like, isn't sort of technocratic and filling out every administration and it's more getting projects out to students. Hey, we're doing something and getting their direct feedback on whether they want this to happen. So does it make sense?

Unanimous consent to move back into I6 executive officers report at 7:54PM.

J-3) Standing Committee on Liaison -
J-4) Standing Committee on Advocacy -
J-5) Group Project and other Temporary Committee Reports-

K) Minutes and Allocations:
To Be Approved

Moved here at 10:10pm

Than

- Several of BCUs did email votes which is not allowed in legal code as of yet. In addition, several of them also approved money. Like, for example, the coastal fund approved $5,000 in email vote for flux. A lot of them approved finances through email votes, which I'm unsure if that's allowed. Also in general, they are not allowed to have email votes, but I understand that this was in the summer.
- Lastly SCORE on their 9/2 minutes approved 12k for a general event and there was no itemized budget so maybe the finance committee has it, they can attest to it.

Lala

- I can speak to the SCORE point really quickly. The problem with SCORE was not just the itemized question part but that the vast majority of the board wasn't appointed yet. Senator Sussman and I met with the co-chair and they were just appointed and it was communicated they would need to have the vote again and approve it that way. Holly, is it okay with you if I share this information with everyone?

Holly

- Yes absolutely. I can also elaborate too. For everyone to be aware, BCUs have been doing email votes for a long time, since at least I joined the association, so 8-9 years. We have proposed an amendment to the section of email votes that has generally been for senate only and expanded that to BCUs. I think in the past, the interpretation has been that, because there's not a restriction on them, and because email votes have been passed by the Senate forever, that they've allowed it to happen. You may consider including some additional criteria in the policy that we've proposed. I say we because I talked to the authors about it. We have been having BCUs do email votes for a very long time.

Lala

- By we I believe you mean Senator Sussman for the bill to clean up legal code.

Holly

- Yes, that is what we talked about. And then for us, in terms of having students do email votes, I mean that to be advisors. So not just myself, but other advisors that work with entities like coastal funds for example.

Lala

- In your opinion, would it be in order for the senate to grant a retroactive and running approval for email votes for BCUs, potentially excluding financial considerations until the end of the calendar year?

Holly

- I'm not sure they would be retroactive since the meetings occurred, and that is kind of the typical order of operations process. You wouldn't approve their minutes before they meet for example. Also generally when we advise students on email votes, we tell them to include things that are urgent, kind of the same advice we give you. If there's something that needs to be on the public record or it's usually better off to have discussion on it, then it would not be wise to do an email vote. But generally it ends up being financial matters that wind up being passed because they have had a discussion at board meetings and they have got a final quote and want to get it passed before the final deadline, for example. If you all want to set a precedent to allow it to happen until the policy is in place, you know that's y'alls decision, if that's what you want to do, but you all have approved email votes within your term, and last term did also. Precedent doesn't always mean it's the best practice, but I think it would cause some challenges at this point due to the fact that other email votes have been approved, and that if we stop in the middle, that can create an additional challenge.

Lala

- I understand that in de facto and I think a lot of it depends on how strong the language is in legal code. Are you familiar with the exact language?

Than

- I talked to Senator Sussman about that because I was talking to the GGC Chair. Basically, there is no language about BCU's utilization, which is why in his new bill to clean up the legal code, he's adding a clause. Currently, the language for email votes is under the legislative branch which is technically BCUs but the section right after the title is Senate, and it is clearly only referring to the Senate.
-

Lala

- Okay, but it's not forbidden.

Than

- No, I wouldn't know.

Lala

- I looked up every possible version of it and it doesn't seem like it is. It seems like what you're saying is the case, in which case, we are not the Supreme Court to judge on enumerated rights, so maybe we move on and address it later.

Pascher

- I have no desire to go in depth into this. I just wanted to report my findings to the Senate because I did go through some of the minutes, like one by one, and I will read it to you. I didn't go through all of them, so just laying that out there. There's far too many. I have 8/25 GGC email vote, no motion to excuse absences, 9/25 GGC, email vote, no motion excuse absences, 9/15 GGC email vote, no motion to excuse absences, 9/26 GGC general meeting, no motion to excuse absences, 9/25 VICOM, motion language does not excuse absences. I just wanted to bring attention to that and maybe senators understand that the minutes are to be paid attention to and to see if the Liaison Committee could help BCUs take their minutes correctly.
-

Lala

- I might have just missed it but I'm assuming the problem is that they didn't motion to excuse any absences, and there are excused absences in the roll call.

Pasher

- Correct, yes this is true. Holly said the precedent has been to level approval minutes. I don't think we should not do that. I think we should just pay attention to this and maybe deal with this another time.

Lala

- There is probably some financial motion in there.

Than

- There is a financial one where CAB approved $6,200 for a grant, and then I looked at the amount of the grant money that would be given, and in their report it was only $3,700. Unfortunately, I forgot to reach out to them prior to this so that they

could explain it. I wish they were here to explain it but obviously we didn't call on them. But for me, I was like what are they doing with the rest of the money? But Nadine, I'm sure, has some answers.

Malhis

- I have a few things to say. One, my perspective as former finance chair is that fiscal decisions could be made on a general vote as long as the invoice in the budget, like itemized funding request, is on the agenda for everyone to see, or on the email vote as a picture, then it is fine. The second thing is, in regards to CAB, I suggest you double check the exact details of that funding request because it could be that they're budgeted $16,000 but they got a certain amount from another group, and that remaining was what CAB needed to borrow. Something like that is very common.

Luken

- Slightly a point of information. Do absences need to be motioned and excused or does the chair have the authority to excuse absences? Does that have to be reflected somewhere in the minutes?

Lala

- As far as I know, it has to be.

Luken

- So what if the chair said this person is excused for XYZ but its not motioned

Lala

- The chair can sort of indicate to the body, but the body has to motion it on and approve it.

Luken

- If they approve the agenda, wouldn't they still have to approve it?

Lala

- The initial thing would still be wrong. You would have to add it on and then you would still be accepting the agenda in a way that's wrong.

Luken

- I don't get how it's wrong though.

Lala

- I don't think getting into specifics would be of use in our limited time.
- I think the choice to make here is whether you pick a few of those agendas that are problematic that do not include financial motions, which has its own drawbacks, or the other option is to set a very clear set of guidelines with the Liaison committee. I know there is the thing that they have been wrong forever, but we can still try to change it.

Pascher

- I think the latter suggestion is preferable. I didn't mean to suggest that we should go one by one. I think my rhetoric was just more geared towards persuading and making it aware that this is something that you guys should be looking at.

Lala

- That is a very important point. I think that all senators should be looking at minutes and that is something we did not do in the last senate and I think it is reflected in a bunch of literature. Secondly, chairs and vice chairs of standing committees also have to add these on to the to be approved folder. It is the simplest thing in the world. It's at the very top. You hit the organized thing, to be approved. It gets sent there because we are also approving Senate committee meetings and not just BCUs. Is there consensus that maybe we should bundle and approve?

2025 Summer Honoraria

-

Lala

- And that is the precedent that they can apply for full?

Holly

- Yes. It's not many BCUs so I would say precedents for the few that have applied. I could pull together specifics. There have been maybe 2-3 each summer that apply for it and get full. The committee in the past has only awarded it to committees that met and held events. EVPSA generally gets approved because they travel over the summer.

Lala

- That makes our jobs easier. There seems to have been more chairs submitting evaluation forms and making them a lot more detailed which really matters. I

want to thank them. I think that covers it for honoraria for the summer. The process will be revamped led by Senator Sussman, the staff end, and Senator Jones at a later date.

Pascher

- In the scenario someone requests more than what they're allotted, is that what the committee takes care of?

Lala

- That's what we did in spring and summer. It's like when people erroneously apply for $450 when they are regular officers so they are eligible for $300. That's why we have to meet and discuss things because you catch stuff like that.

Than

- Please let me know if this is allowed in our discussion as it's about honoraria in general. I've had students come to me about past honoraria, what should we do about that? Some people have and some people didn't and I don't know if we have a log of who got it or not, plus the double honoraria for the BCU award, a lot of people have been saying they didn't get it.

Lala

- I have not had the bandwidth to deal with that issue because it's an actual nightmare.
- There were cases in which the committee did not send in the appointments for the senate approval, for let's say in fall 25. There were cases which they did but the senate did not appoint them. Then, there's people asking for multiple years back for this kind of thing. It was announced very clearly in the summer that the deadline to apply for honoraria for the past fiscal year was August 1 2025.
- If you didn't apply for it, I am sorry, it can't happen. The edge cases which are meaningfully different, where we had an appointment issue, are the ones we have to consider. I would really appreciate the Liaison Committee's help on that because I can't.

Malhis

- I know the Finance Committee has had an issue with this because apparently a majority of the officers last year never had an AS email so they never got the honoraria application. That is a question that doesn't need to be answered on the senate floor
- The second thing is in regards to honoraria, I suggest you contact former CCO, David Sim, he's been a great help. He can help answer a lot of questions and figure out a new system that is more efficient.

Lala

- I appreciate that. The idea is that moving on in the new system we are proposing is that you don't have to apply.
- There is no such need as a retroactive. We wouldn't have to check if someone was appointed on a random Wednesday last October. Hopefully this is the last time we go through that. We can talk about the finance committee officer thing at a separate time. Any questions on this? Cool, thanks guys.

Executive Committee Discussion

Pascher

- I realize there was an email sent out at 2pm detailing what they executive committee discussed in their meeting yesterday
- With all due respect, the agenda and task force that has been outlined in that email is purely dependent on being enforced of the respect of the understanding of the senate
- It would be much appreciated and i do sympathize that today was the first meeting of the quarter
- I would like to detail how awesome and productive this meeting has been
- Seeing the document is contingent on understanding,
- It would be much appreciated if senate leadership could also reflect that respect back onto senators
- I know today was an exception but if its enumerating that we should start at 6:30,
- We should expect that of u as well
- Thanks for convening yesterday

Lala

- Sorry
- More of a tech issue

Pascher

- In the future, if we do start after 6:30, then we are doing our best
- I understand today was an exception but if that could be enumerated

Lala

- Yes we apologize for the delay

M) Appointments and Resignations

Luken

- Im concerned about this
- A name is capitalized
- I don't want it to mess something up on her documents or honoraria

Malhis

- Are we motioning all senator members

Lala

- Yes we would

This motion passed at 9:50PM

Hepburn
- Point of information
- We need to add a resignation of one of the members of outreach committee
- How do we proceed

Lala
- Can it be next meeting

Luken
- Do we need to reappoint members that are already appointed or just senators

Hepburn
- Point of information
- If we were to hire someone else to fill the position this person is resigning from would that be an issue

Lala
- You are asking whether you begin the interview process before the resignation is approved by the senate

Hepburn
- Correct

Lala
- Generally that is unadvisable

- Are we approving chairs again?

Lala

- That is why this is happening

Pascher
- Im confused

Vy
- We already approved them but they need to be approved again

Motion to bundle and approve all appointments and resignations
Harder- Ono
Call to question- Claro

Wang
- Point of information
- Is there a conflict of interest because so many people are getting appointed

Enri
- I don't know. If you are being appointed to a position that increases honoraria,
- It involved some of the chairs so I was just wondering why we were doing it again
- There is a standing policy which states anything you vote on that has financial implications for you or a family or friend you should abstain on

Ono
- The people who would abstain know right?

Lala
- There are only 2 people who are being appointed to a chairship position when they were not before
- The rest of you are not

Malhis
- What if your honoraria is changing then?

Lala
- If your honoraria amounts are changing, maybe consider abstaining

Sean Lieberman
- Instead of abstaining from voting, you can disclose what your interest is

Handvote:
Yes- 10
No- 0
Abstain- 10
Motion passed at 10:04PM

Lala
- The issue here is there were 10 yes, and if the standard is abstentions don't count and that constitutes the present voting membership, it clearly passes
- But does it have to be entire senate body

Holly
- I would argue yes unless you have set a different opinion at the beginning of the term im unaware of
- Typically abstentions don't count towards the vote total

- Take 50%+1 of who cast a yes or no vote then the motion passes

Lala
- Ok motion passes

Lala
- Appreciate Sussman for getting motion straight

Harder
- Point of information
- Does the person being added to executive committee have to be approved by president

Luken
- Since appointment of chairs involve compensation of honoaraia, iI think it would be prudent to do them separately
