Senate Agenda 10/15
Associated Students UCSB 76th Senate

Zoom Link

Minutes/Actions recorded by: Alexandra Cervantes, Liliana Dritz, and Summer Tucker
CALL TO ORDER by Evan Sussman **at 6:38PM.**
This meeting was called to order at 6:38PM in the Flying A Room by Evan Sussman

A) MEETING BUSINESS

"Before we begin, we call for students to acknowledge that the lands that the University of California locations were built upon were expropriated & founded upon exclusions and erasures of Indigenous people's human rights throughout California. UCSB is built on Chumash Land, specifically that of the non-federally recognized Barbareno tribe. As an association that pushes the student bodies' voices to the forefront, we should aim to make strides past just acknowledgment to those who continue to fight for their right to be recognized & respected as the original stewards of this land. I ask you all to dedicate time & care to personal education & to advocate for justice alongside Indigenous peoples."

A-1) Roll Call

Amna Chaudhry	✅ Present, 🌑 Late	Off-Campus Senator
Caleb Claro	✅ Present, ☀️ Early	College of Letters & Sciences Senator
Mia Gutierrez	⛔ Absent	On-Campus Senator
Neo Harter	✅ Present, ☀️ Early	Off-Campus Senator
Xander Hepburn	✅ Present, 🌑 Late	Transfer Senator
Yuchang Jiang	✅ Present, ☀️ Early	International Senator
Melanie Jones	✅ Present, ☀️ Early	College of Letters &

		Sciences Senator
Noah Luken	✅ Present, ☀️ Early	Off-Campus Senator
Victoria Ly	✅ Present, ☀️ Early	Off-Campus Senator
Qhawe Manala	✅ Present, ☀️ Early	International Senator
Vanessa Manakova	✅ Present, 🌑 Late	Off-Campus Senator
Nadine Malhis	✅ Present, ☀️ Early	On-Campus Senator
Olabisi Ola-Olaitan	✅ Present, ☀️ Early	University-Owned Off-Campus Senator
Keizo Ono	✅ Present, ☀️ Early	Off-Campus Senator
Natalia Pascher	✅ Present, ☀️ Early	Off-Campus Senator
Romi Riss	✅ Present, ☀️ Early	Off-Campus Senator
Erica Sherkin	✅ Present, ☀️ Early	Off-Campus Senator
Evan Sussman	✅ Present, ☀️ Early	Off-Campus Senator
Sohan Sunderrajan	✅ Present, ☀️ Early	College of Letters & Sciences Senator
Mira Than	✅ Present, ☀️ Early	Off-Campus Senator
CJ Toledo	✅ Present, ☀️ Early	College of Letters & Sciences Senator
Jasmine Wang	✅ Present, ☀️ Early	On-Campus Senator
Eeman Wahidullah	✅ Present, ☀️ Early	Off-Campus Senator

A-2) Excused Absences

Motion to strike "Motion to excuse Senator Hepburn for the duration of the meeting"
Jiang - Ono
Call to question - Ly
This motion passed at 8:52PM.

Motion to strike "Motion to excuse Senator Chaudhry for the duration of the meeting"
Ono - Wahidullah
Call to question - Wang

This motion passed at 6:42PM.

Motion to excuse Senator Manakove until 7:15PM
Jiang - Ono
Call to question - Luken
This motion passed at 6:42PM.

Motion to excuse Senator Chaudhry until 7:00PM
Than - Wahidullah
Call to question - Wang
This motion passed at 6:44PM.

Motion to excuse Senator Sundarrajan for the remainder of the meeting
Hepburn - Ono
Call to question - Wahidullah
This motion passed at 7:53PM.

Motion to excuse Senator Claro at 9:00PM
Jiang - Ono
Call to question - Than
This motion passed at 8:52PM.

Motion to excuse Senator Hepburn at 9:00 PM
Luken - Claro
Call to question - Jiang
This motion passed at 8:53PM.

A-3) Acceptance of Proxies

Motion to accept Wiley Carver as a proxy for Senator Manala
Harter - Pascher
Call to question - Wang
This motion passed at 6:43PM.

Motion to excuse Wiley Carver as a proxy for Senator Manala
Pascher - Harter
Call to question - Luken
This motion passed at 8:22PM.

Motion to accept Rihana Canio as a proxy for Jasmine Wang from 8:20PM - 9:40PM
Than - Ono
Call to question - Luken

This motion passed at 6:44PM.

B) External Reports

B-1) Chancellor's Representative-

B-2) UCPD Representative- (6:49PM)

Interim Chief M. Bly

- Last week, UCPD was asked to return the Senate meetings on a continuous basis and provide updates
- This document is an approved diagram by the fire marshals office. We submitted about three or four different iterations of diagrams for temporary barricading specific to the area of the ILP on campus
- The other document is from our Community Outreach team that has also been working with the City of Santa Barbara
- Last week UCPD issued over 1200 warnings and 4 citations for bicycle interactions on campus
- Those numbers to date have increased as the warnings, up to 1323 warnings today provided, while the citation number remains at four.
- We are seeing those numbers starting to trend downward. We experienced some weather on campus this week, so that might be why.
- The overall goal is compliance. It is not our goal to issue lots of citations, we are interested in exploring this temporary solution.
- We are looking for feedback from the senate, as well as from the A.S. Bike Committee.

Luken

- Thank you for coming
- From a student perspective, I would agree that a temporary solution before an engineering solution can be reached is more prudent than just going into hanging outside.
- When would this temporary solution start?

Chief M. Bly

- It needs to be approved by design and construction first, but once we are approved we are hoping soon.

Jiang

- Do the officers deliver knowledge when they give warnings before giving citations out?

Chief M. Bly

- I would have to ask those specific officers. But we have reached out to those four students who have gotten the citations
- We have not felt the need to barricade the education building yet.
- We would need some collaboration with other groups on campus

Wang

- I can see that the barricades are designed in two sections
- The example makes me think that the barricades might cause traffic when large lectures at the ILP are released.

Harter

- The temporary nature of the barricades makes me concerned about students just moving them.
- If there is no one to monitor, students will most likely just move them over or go around it.
- They might also make students bike or walk through the parking lot, so what are your thoughts on that

Chief M. Bly

- We don't want to create a jam. But they have to be moveable so that if we need emergency vehicles they are able to access that area
- Whatever we put up would have to be moveable and temporary
- We are seeing bike traffic towards the ILP and the Arbor. So we are trying to see if barricade 2 will allow people to not cross over or dismount closer to the music building
- Our community outreach team is in the process of altering the signs out on campus right now
- The signs need to catch people's attention and students need to understand

Claro

- In terms of these barricades why don't we extend them throughout
- I understand it would help officers if they were trying to stop these bikers

Chief M. Bly

- If we are able to, I am open to different ideas and patterns
- Whatever doesn't worsen the problem, we just want it to be safer

Hepburn

- What is the punishment if they move them?

Chief M. Bly

- It would depend on the circumstances, if they're damaged or just moved.
- We want a solution so we don't have to really enforce anything.
- I think that educational piece goes a long way. And again highlighting that everyone has come to the conclusion that we need this solution but it'll take time for the campus to get there
- If people are damaging them it would be a different conversation.

B-3) GSA Representative-

B-4) University Center Governance Board Representative-

B-5) IVCSD Representative- (7:10PM)

Senator Wahidullah on behalf of Miya

- She sent me a brief report to support a new legislation that is presented today
- This initiative would be a great way to have more physical initiatives that benefit the UCSB community
- A farmers market supports all of Isla Vista's goals
- Additionally it has been requested not only by students, but by local families and local residents to improve access to local guidance

C) New Business

A Bill to Update Standing Policy 4 of Legal Code

Pascher - Luken

Pascher (7:27PM)

- This advises senate leadership to add any late legislation onto the agenda in a different color so we can see that it wasn't added on time
- Standing policy 4 under main motions, you have the right to motion urgent legislation onto the agenda.

Luken

- I think this just helps with transparency

Motion to refer A Bill to Update Standing Policy 4 of Legal Code to the Liaison committee
Ly - Jiang
Call to question - Chaudhry
This motion passed at 7:28PM.

A Resolution to Establish the AS Isla Vista Farmers (AS IV FARM)

Wahidullah - Luken

Wahidullah

- This is a cool project, please feel free to ask me questions

Luken

- This is super cool
- I want to note that this is happening, this is just a formality
- It has the structure of what the farmers market will look like.
- This resolution is not allocating money

Sussman

- Do we need to enter discussion to talk further?

Iden

- After they speak, it is normally discussion

Jiang

- What does it say about the Finance Committee regarding funding, I see it is mentioned?

Wahidullah

- We did fix that on the document

Jiang

- Other than the Finance Committee, are you looking for other funding?

Wahidullah

- I think it is important to include A.S. in this, but like I said, we do have other support and funding. I just think this is a good opportunity for A.S.
- If A.S. can assist on projects on this, I think it is a step forward in helping our students
- This is funded by IVCRC but I do think this should be funded by A.S.
- This is promoting A.S. and it is important for people to see associated students are making positive change on campus.

Luken

- This houses what this program is under Associated Students
- This is 100% to get our branding on it, we need to show what A.S. is doing
- No matter where funding comes from, we are still responsible for putting it on

Pascher

- Did the people putting this on come to you guys?
- This is a perfect event for A.S. to hold.

Malhis

- So I would like to agree that this is an amazing proposal that was brought to A.S.
- This is a first resolution, meaning this is just to establish an A.S. Farmers Market, the next step would be to include BCUs

Wahidullah

- We could use Senate Unallocated to support this initiative but if that is not okay with everyone involved then it is already sustainable
- We have been working on that
- The outreach to small and local businesses has kept this initiative sustainable, we are also offering students to be involved in the market
- The legal work has been through IVCSD.

Malhis

- I did notice that the first scheduled initiative is on October 17th. It probably won't go through that fast.

Wahidullah

- I added the dates just to explain the outline of the markets throughout the academic year.
- We do have funding for the early events and we are more than fine with funding right now

Jiang

- Would lock-in BCUs be able to donate money, are you open to that?

Wahidullah

- Yeah I would be open to that

Pascher

- I think it is an honor to have A.S. on this project
- It is a shame that I have to use this bill as an example, but this piece of legislation is not finished
- It is not under the legislation format, I think it is frustrating to have this discussion and then be fixed
- Senate leadership, it is your job to go over what the authors are including on bills, and work with the authors

Motion to refer A Resolution to Establish the AS Isla Vista Farmers (AS IV FARM) resolution to Outreach Committee
Luken - Chaudhry
Call to question - Malhis

****Objected****
****Call to question rescinded****

Call to question - Malhis
Motion passed at 7:57PM

Malhis
- How would people rework this
- Would they have to come up with all these motions during the meeting

Sussman
- It is the committee's responsibility to amend the bill. It has to be done during the meeting.

Pascher
- I want to remind everyone that it should be how the chair sees fit.
- Please bring it back to the senate floor.

Jiang
- The author of the bill referred the bill to the committee that he chairs, is that okay?

Sussman
- Yes

D) PUBLIC FORUM
[1:30]

Speaking agreements:

"You have three minutes to speak, with three minutes for Q&A. Please state your name, pronouns, and enunciate, but refrain from yelling. Speculation of a Senator's intentions is prohibited and may result in you being removed from the ability to speak on the floor. Please know this meeting is being recorded. You may speak on any issue, whether it is on the agenda or not. Please include a content warning if it will be graphic. You may only come up once, and you may choose not to answer questions."

E) Acceptance of Agenda

Motion to amend the agenda and add A Bill to Reinvigorate the ASUCSB Senate Advocacy Committee reported out of the Liaison Committee under Action Items as amended
Than - Jiang
Call to question - Wahidullah
This motion passed at 8:47PM

Motion to amend the agenda and A Bill to Amend Finance Committee Membership Positions reported out of the Liaison Committee as amended under Action Items
Than - Wahidullah
Call to question - Jiang
This motion passed at 8:48PM.

Motion to amend the agenda and add the motion, "Motion to grant the Office of the Attorney General, account number 406, an additional $3600 for Honoraria from Senate Unallocated"
Malhis
**** Motion Rescinded ****

Motion to accept the agenda as amended
Ono - Harter
Call to question - Ly
This motion passed at 8:55PM

F) Consent Calendar

G) Action Items

Sussman

- We will entertain the AS request for funding next week as there are alternative routes of funding.They would receive requests for financial notions and they would be entertained a week later last year

Pascher

- Are the senators on zoom active?
- I know Senator Toledo made some sort of motion
- Are they all on?

Sussman

- Waiting on proxy for Senator Wang

Pascher

- Okay.

Malhis

- I had the opportunity to consult with some advisors and members of the operations team and they determined the best account to go through is senate undesignated or senate unallocated. They also confirmed the expenditure sheet for the Attorney General's account. The numbers were true and there is no conflict or genuine need to wait another week.

A Bill to Create Quarterly States of the Association reported out of the Liaison Committee as amended.
Jones - Sussman

Jones

- We want to give the option so that it can be changed as necessary. Instead of it being on Week 6, we changed it to say at least 2 weeks prior.

Motion to adopt A Bill to Create Quarterly States of the Association as amended
Harter - Jiang
Call to question - Wahidullah
Hand Vote
Yes: 16
No: 0
Abstain: 1
Motion passed by hand vote at 8:26PM

A Resolution to Establish the First-Gen and BIPOC Peer Mentor Advocacy Program (...
Tabled from 10/8 with instructions to review version history
Wahidullah - Ola-Olaitan

Sussman

- There was a lack of accessibility to amendments before. Senator Wahidullah, if you could speak to the bill before we take any action.

Wahidullah

- I have been communicating with pro-temps about these amendments. I have created a separate document if you want to share it on the agenda that includes all the details of the amendments as well as the legal form. This includes previous ones made and ones that I currently made. If you want to share for the sake of transparency, you can use that for discussion, and I can also read off right now line by line all the changes I made. The main logistical things I've changed is the title, I changed the word bill to a resolution. I changed it later in the header from bill to a resolution. In line 3, I replaced a bill brought by to a resolution brought by. The majority of it is formatted for a resolution. That is basically all the logistical things.

Sussman

- Thank you Senator Wahidullah. Just so senators have access to the list, second pro-temp Jones has a motion.

Motion to amend the agenda and add 10/15 Senate Meeting Legislation Amendments under G) Action Items
Jones-Chaudhry
Called to question- Than
This motion passed at 9:23PM

Sussman

- The second author is not here. Are there any questions for the author?

Pascher

- There's a clause, under the last whereas clause, that says “through PEMA”. What is that? What language is that?

Wahidullah

- It's an additional sentence I added to that clause to elaborate that it is a mutualistic program to help students. It’s under the section I made with the previous points. It’s not an additional clause, just more to the previous clause.

Sussman

- I think it would be fair to entertain a motion. You have two times to speak on the item if there are any changes.

Luken

- What the Attorney General just told us was that when we are in discussion, we can just discuss it. We can discuss without making a motion. I feel like you can still discuss the bill right now

Sussman

- Yes but there is a two time limit.

Harter

- I think this bill definitely has a good intention but I, personally, have a few issues with it. One of the issues I have is capability. The outreach committee is implicated in this bill. The outreach committee was never communicated with in regards to this bill. Our support for this was assumed and because of that I am wondering how much support implied in this bill is actually tangible and how much is embedded and prepared to see this bill throughout, because outreach committee support being just one of the necessary facets to carry out this bill is not necessarily tangible. Furthermore I believe Senator Pascher was working on a comprehensive project to improve student access to the alumni network, that I have personally used and is essentially a version of this that is very well developed, does this, and has support by this administration already. I contacted a marine corp lawyer and was able to establish a mentor relationship. I think our resources as an association should be put towards things that are already established, and things that already have support mechanisms. I think that this resolution is not only a little bit ambiguous, but redundant and potentially impossible of doing what it needs to do.

Wahidullah

- I am going to answer multiple questions that I have been brought up on the table. Yes, I put out some examples of alternative ways to communicate through social media, because of that it does not make it impossible, because when I talked to SCORE they have the capability and social media outreach to communicate with their own platforms. These are examples of existing social media on campus. Second, yes there are alternative peer mentor programs, but the reason why I explain that this is something that is not redundant is because it is an Associated Students program. It helps specifically the BIPOC community and is student led. A lot of admin programs are not flexible with the student voice, from my own personal perspectives. Even if there were other advocacy programs that didn't fit into my advocacy. It does not connect as impossible or redundant because our community is so diverse. AS can partake in this and mentorship programs. It's our job to help provide our resources. I communicated with SCORE so this is not impossible or out of their reach. Even if there are other programs it doesn't overlap anything particular

Pascher

- I do appreciate all the supplement that has been provided in relation to this resolution to ensure transparency and accessibility to everyone that is keeping up with legislation and the senate body in general. I'd like to share my position. The 10/15 legislation amendments are not enough for me. I don't think that was quite what I wanted. I don't know what I wanted, but not only was this given to me 2 seconds ago, it's simply not enough. There are still errors in the legislation. I am sorrowful to have to share my position in that but I would like to share my position that it is not enough for me.

Malhis

- Senator Harder, I encourage you to read the resolution before you entertain your thoughts. This resolution, not a bill, encourages working with the outreach committee. It is just a resolution to establish a BIPOC peer mentorship program,

and does not discuss amendments. Second, you mention you've been working on something similar but this resolution has been here. This has been at every senate meeting since August when she first brought this up. If you had a project, we didn't know about it.

Harter

- The project I was describing, it's not a personal project. I did mention that I have used a previous version of a peer mentor program that is extremely useful and that I still use to this day. If we want to do something of this nature, we should put our time and effort into that. I also said that other senators on this floor have introduced legislation and projects that would also tie into something of this nature. Perhaps this legislation has been on the docket for a while and I haven't voiced my opinion. That is a logical fallacy, to say that because I haven't voiced my opinion yet, doesn't mean I don't have it. And as far as it encourages the outreach committee to do things, that is the exact problem. The bill is encouraging us. They are not asking the outreach committee before the bill is written. A resolution is a positional thing 100%, and I am stating that my position is unapproving of this. I don't think we should pass a resolution on those grounds. I don't think the rest of the senate's position should be approving of this, I think we should put our time into something that is already in progress. I don't think we should endorse a project that is already done effectively. I have a couple projects I am working on with the administration and they are completely amendable. They will work with you

Ly

- This is an existing peer mentor program mentioned in the bill. It is different from Senator Wahidullah's program.If you just look up the EOP peer mentor program, they do have a lot of peer mentors for different cultural groups on campus. I know it's not the exact same, but I do want to bring it to the senate floor because they are similar. I do want to bring that to the senate floor in case you aren't aware of that. There are existing peer mentorship programs so I did want to bring that up to everyone's attention. To the chair, since this seems to be contentious, if there is a motion could there be a hand vote

Luken

- It's the chair's discretion of the type of vote, or it could be motion to be voted on via secret ballot

Sussman

- Yes that is an option as well

Manakova

- I see this as a big and little type of program, and almost every club on campus has a big and little. I was a peer mentor for a campus organization. There are a lot of peer mentor programs that have gone defunct but had funding. If we establish something like this through a resolution, we can try to maintain that all senators will be held responsible as well. I also think this is more personalized as well. With EOP, you have to schedule a meeting, and they manage almost all students

on campus. This is just one small program on campus to help students become familiar with their environment and the future. I really don't see this costing that much money, like let's just pass it.

Jiang

- I agree that EOP has similar programs. EOP is not Associated Students and I concur with Senator Manakova on that peer mentor programs never cover every single student. Even if you have 1 under EOP, one under GGC and one under Associated Students, if we pass this, you can never cover every student. There are always students that might not get the opportunity or the information that they could have. I also don't see this costing anything. Senator Wahidullah didn't ask for our help on the program, like she already handled all that. I just don't think a resolution that demands no money and no assistance can be this complicated.

Luken

- On principle, I want to concur with Senator Harter, specifically that if any entity is mentioned then they should be reached out to beforehand. That is not necessarily how I feel about the resolution because I think it's a really good program that can be established, but outreach was not consulted, and I think that's a principle that should happen in the future. I also want to ask a question to the author, just for the record. Does this have any fiscal impact?

Wahidullah

- No, it's a complete volunteer, advocated by SCORE. It is simply implementing existing resources and helps redirect students to the correct resources. It is very flexible and there is no fiscal impact. It is a way for students to use their voice in comparison to EOP who don't have student voices which is why this one is extremely important.

Malhis

- I agree with Senators Jiang and Manakova. Senator Wahidullah already has had a lot of communication with SCORE, EOP, and the ONDAS center. If they are all okay with it, and they feel this is a program they can house under it and can have the association's name on it, then I feel like it would be an easy thing to say. This is just a resolution, it can be changed when we push it forward into an official program.

Toledo

- I don't think there is a redundancy aspect, especially for BIPOC people. This feels like a necessary thing for us to work in even if there are other programs. Having Associated students even making resolutions, I don't think it's that big of a deal when it's for underrepresented and underserved community members.

Manakova

- In regards to Senators Luken and Harter's point, can we amend the resolution to strike out the part where they talk about the outreach committee?

Sussman
- That's a possibility but I dislike amending bills on the senate floor. It leads to the question if amending the bill on the senate floor is the same bill. The proper avenue would be to recommend it to another committee. We can either motion to vote on it, or motion to refer to another committee.

Motion to refer a Resolution to Establish the First-Gen and BIPOC Peer Mentor Advocacy Program(P-MAP) to advocacy committee
Pascher-
Motion died

Motion to refer a Resolution to Establish the First-Gen and BIPOC Peer Mentor Advocacy Program(P-MAP) to the outreach committee
Harter- Pascher

Malhis
- My proposition is that either, we sort this out now on the senate or we table it to next week's meeting. I think there can be communication to senate leadership, the authors of this bill, and anyone who wants to talk about it on how to logistically format this.

Wahidullah
- Can we vote to see if we can amend the agenda? We can use that as an opportunity, an informal vote.

Sussman
- You would like to see an informal vote to what exactly?

Wahidulla
- To amend

Sussman
- I would highly dissuade amending on the senate floor

Wahidullah
- It is the senate's decision.

Luken
- I personally think on principle, I don't think it's necessary to amend the resolution. I'm not in the view that anything needs to be amended

Ono
- I am just curious, if it's referred to the committee ,what exactly is going to be changed in the substance of this bill? It doesn't seem like there is much to be done here.

Malhis

- Since this piece of legislation is not in any committee's hands, it technically goes back to the senate and the person who wrote the bill so that senate leadership can work with the author of the bill to logistically fix it. I feel like that would be a less strenuous way to do this.

Jones
- It can only be amended in committee so even if it's tabled, we cannot work with the authors to simply tweak or change something within the resolution in any way, shape, or form. Anything that is changed has to be in committee or on the senate floor now, which is obviously not pretty.

Jiang
- I think we missed the point here. We have not reached a consensus on what to amend. I don't even know if the outreach committee is the only objection because probably not. I wanna hear what your guys' stance on this is.

Pascher
- There are still, even with the amendments out of the committee, there are still syntactic errors, periods in the middle of sentences, stuff is highlighted in different colors. It is that big of a deal honestly if we are not having standard legislation.
- It raises the concern for accessibility, transparency, and uniformity. We are not working together as a machine as a whole, if everyone's piece of legislation looks different. I can write a piece of legislation and say here lets vote on this without format. We need to really bring the question forth of whose responsibility is this. It's the responsibility of the author. Ultimately, right now, the responsibility has fallen on all of us. This is a great program and it's sad that it has to be a case study. The moral of the story is to bring legislation to the senate floor that is ready to go. The question of what needs to be amended is still incorrect. Go through the bill there are still periods in the middle of sentences. For lack of better words, it's not ready.

Call to question- Luken
Objection
Than
- There's no reason to refer it to the outreach committee
- We are amending the legislation

Objection rescinded

Objection- toledo
Toledo
- Given the fact that one of the things that specifically the outreach committee not warning to go through with this. I feel like I need to know what specifically the outreach committee doesn't like about it because if they are going to have control

over and renaming it, that seems strange since we as a Senate, don't know what they want to change.

Sussman

- We are still an objection, would you like to rescind your objection and go back into discussion.

Toledo

- I am a little confused.

Luken

- Point of order. I believe with the objection, then we have to vote to proceed. He can rescind it or not, but if not, we vote to proceed.

Sussman\

- There are two options Senator Toledo. You can keep your objection, or two, you can rescind your objection, Senator Luken rescinds his call to question, and then the outreach committee can respond and then we proceed.

Toledo

- I am shooting to go back into discussion.

Sussman

- You can maintain your objection and we will go back into a hand vote to go into discussion. Voting yes would keep us in discussion. This is one of the worst processes of Robert's Rules of Order. Holly, can you explain it?

Holly

- When you go into a vote to vote, either the senate casts a yes vote that they want to vote on the motion. A no vote says that they want to remain in discussion. An abstention is neither. 50%+1 in either direction means that the motion passes or fails.

Sussman

- Thank you Holly. Voting yes would mean we vote on the legislation, so we move on and vote on the legislation as is which is referring to outreach committed. Voting no means that we go back into discussion. Abstaining takes neither stance.

Handvote:
Yes- 3
No- 14
Abstain-0
Re-enter discussion

Harter

- When we are amending it, we are not going to change any substance of the bill and what Senator Wahidullah worked hard to construct. We're just gonna remove some of the language of the outreach committee because we don't agree with it. We will invite members of SCORE to speak to them about this so we have a guarantee so that other people have been communicated with. Because we haven't been communicating. I'm concerned the precedent is that these people have not been communicated with using evidence that we have. I would just like

to bring SCORE onto the table. Very respectfully, there are issues with the syntax and diction. It is just not written correctly. I don't have a bill on the table so we are not voting on my mistakes, but we could have been. We are not voting on my mistakes, we are voting yes on mistakes if we decide to vote on this resolution.Quite literally we are voting yes on mistakes when deciding on this resolution. We are just removing us, talking to SCORE, and fixing the syntax. I can give you my word that we are not going to change it.

Luken

- I never had an issue and never wanted to amend anything. I would respectively request please don't refer to people as they or we on the senator floor, it's just a good principle to follow.

Malhis

- I think what the chairs of the outreach committee have spoken to is very commendable. I believe that this bill should go to the advocacy committee. If the outreach committee makes a decision on outreach being on this bill, then that's counterintuitive. I push it to advocacy and you guys can attend the advocacy committee meeting.

Pascher

- If this piece of legislation was perfectly written, we would've voted on it tonight and it would have taken 20 minutes. We have people waiting in the audience because they have to be here. We are sitting here for 45 minutes if this piece of legislation was written correctly, we would have voted on it. Nobody has an issue with the content of the resolution or piece of legislation. It is simply a matter of is the senate body going to vote on something that is incorrect. Are we as a senate body okay with voting on legislation that is incomplete? I personally am not. I think the solution is to table advocacy or outreach, and have there be time for the authors of the bill to communicate with outreach or advocacy. Also, SCORE is an entity. If this has no fiscal impact, why isn't this already happening? Why does this need to be a resolution? Just do it if there's no fiscal impact. I'm frustrated.

Harter

- Effectively, going to advocacy would do the same thing. We don't have some egotistical fixation on it, send it to advocacy, we don't care. After hearing more discussion, I am convinced we could pass this eventually.

Manikova

- I really don't think the inclusion of an outreach committee is super wrong because that is the purpose of the outreach committee.
- Anything Associated Students is hosting that they ask us to share, the outreach committee has a responsibility to do that. Also I feel like we could have fixed all these other grammatical issues instead of just debating this here.
- I want to hear what Senator Wahidullah has to say because she put this on the table a while ago and nobody read about it so I don't think that's fair.

Wahidullah

- I do apologize for this taking so much time. I'm trying my best individually to make this the best and to correct an error and to communicate. I have communicated with multiple entities to try and make sure it was in the correct legal code. They communicated to me that what I did today was sufficient enough. I do apologize again if it was not. I made this additional thing to make it transparent. If there were issues, I wish people could've communicated that to me. Also for the sake of time I suggest going forward for any of my own individual legislation, you guys could communicate about it beforehand.

Luken
- If we call a question on this, we can vote no and then table it to advocacy. I don't have a personal opinion, but we should vote.

Malhis
- Or you can rescind the second, and rescind the motion.

Pasher
- I think that this falls on the responsibility of the authors. This is none of our responsibility. This is not my piece of legislation, it's the authors so please, let this be a lesson to have complete legislation. Let's refer this to advocacy or outreach.

Call to question-Ono
This motion passed at 10:01PM

A Resolution to Establish the Language Revitalization Grant Program at UCSB
Tabled from 10/8 with instructions to review version history
Wahidullah - Harter

Wahidullah
- I'll just touch on the things where you mentioned
- I try to educate myself as supportively as I should have been. So taking additional things, I do it again. But whatever things you want to do about this board, to the needs additional evidence or the comments about that, I mean, I already added all that. I worked hard on, and I communicated with on a separate document, and I communicated to others. So if there's any other comments, then that's fine

Sussman
- Is the second senator on zoom

Wahidullah
- Actually the second is senator Harter

Harter

- Ironically, Senator Wahidullah and I happen to agree on this very much, and I think this is a beautiful program, and I think that because the university doesn't already have a program existing like this, that fits very well into this gap. And there's lots of students on this campus that have been separated from their communities through a variety of systems, and that and that, in order to provide them with some sort of equity, equitable equality, or equity, both of them, as a matter of fact ,and the fiscal impact is, the fiscal impact is legitimate in a sense, in my opinion, Senator

Pascher

- Just to refresh everyone, this was tabled from the last meeting for the same exact reason as the former Bill was or the resolution was tabled again. I don't know what was amended. There is no supplement for this bill. So now I really don't know what's amended. Even if it was here, it would 've been provided to me two seconds ago, so I please be able to maybe and have it come back in simple form.

Sussman

- That's up to the body. We either table this to another committee or pass it

Motion to refer a resolution to to establish the language revitalization grant program to advocate
Malhis- Luken
Call to question: Chaudry
This motion passed at 10:05PMg

A Bill to Reinvigorate the ASUCSB Senate Advocacy Committee
Sherkin - Sunderrajan

Sherkin

- You guys can see the updates in purple. I don't know if you guys have it open right now, but I would highly suggest you open it just so everyone's on this new page. But there were some gaps in the positions in the advocacy committee that I and the Vice Chair saw that we could add. For gravity's sake, I'm not going to go into full detail. If you guys want to have any questions, you can reach out to me, but basically, we added a diversity and equity coordinator and campus project liaison, as well as two staffers for both those positions, seeing as they're very happy completions.
- If you have any questions please feel free.

Luken

- I really appreciate Senator Sherkin making a bill that's going to allow her to do her job as chair more effectively and trying to give me a greater committee and do great work for the students at UCSB. I really support this bill, and I'll be voting yes

Jones

- Yeah, I can agree with Senator Luken that the actual bill itself is right and its motion, but the precedent that we've set past two bills, I think that it should be tabled again because there are grammatical errors in the Senate considering all of the whereas clauses
- It would only be fair

Luken

- The point I was going to make awhile ago, anything in the whereas clauses, has no impact, the senate is not passing that. On the bills we just passed, if the issue the issues are within the whereas clauses that's completely irrelevant to the legislation
- If there are issues in enacted, then it needs to be discussed

Than

- Senator Pascher requested a reasoning as for why this was just recently amended just and for Senate and through public forum because the liaison committee made an error on our Friday meeting, we had an emergency meeting on Tuesday, , 1014 to in order to format, this meeting
- The reason why they weren't there when the agenda came out is because they weren't ready yet, because of the clerical error on our part. So that's the reason why they were amended late.The two legislations so they could be amended

Sussman

- Options are motion to adopt or to refer to another committee or table

Ly

- Since we are tabling a lot of bills for grammatical reasons, maybe having some people like senator Pascher look over them before finalizing them on our agenda
- That is taking up a lot of time. We are not having issues with the bill, but with the grammar

Jones

- I agree that it should not be dealt with on the senate flor
- It was not our duty to comb through all the grammatical errors
- It is your legislation so you need to make sure all the grammar is correct
- I personally do not have time and sit there and comb through every single piece of legislation
- That’s not my job, that’s all of your guy’s job
- Out of respect for each other, we should be doing that ourselves

Sussman

- We are also happy to assist with any legislation. We can do a legislation writing workshop

Malhis

- I concur with senator ly
- Everyone here is a new senator except for senator Wahidullah
- Even so, writing legislation is very difficult with the exception of the leadership has not had formal training

- Our job over the summer with the exception of the retreat senate
- We haven't had a lot of legislation workshop and if there was maybe a document we had to refer about actual grammar structure, that would be of the benefit for us
- A lot of senators are referring to past bills but those past bills haven't even been perfect at all

Sussman

- These are valuable conversations but let’s keep to the agenda

Sherkin

- I know that this is being referred to the committee again because of grammatical issues, but I consulted with multiple senators, including Senator Pascher, to check over it, because I am a new senator, and the bill looked to them. They looked fine. So I'm just a little confused on the grammatical error
- I apologize for asking this in committee and taking everyone's time, but this has been these are positions, and these are people in these positions, and they need to be recognized for their worth. I'm getting a little bit frustrated because I have a meeting tomorrow and these people are not on my agenda, and they're going to show up for an hour meeting they don't have, they're not on the agenda, and it's not a criticism to you guys at all. I'm just trying to figure out what to do here

Sussman

- There are multiple options
- One is pass them as senator Luken said the whereas clause seems to be the issue
- Second option is to refer, that is up to the senate body
- Third option is to table

A Bill to Amend Finance Committee Membership Positions reported out of the Liaison Committee as amended
Malhis - Jiang

Malhis

- We wanted to amend the Finance Committee memberships, because we're gonna have, like, more requests coming in this year. On top of that, we're launching a new software program, which is integrated with MIP, which is going to be like a whole new program where we can check their budgets and accounts online. And

with all of these new changes to how we're going to be conducting the finance committee and our changes to financial policy as well, for this upcoming year, we're expecting a lot more requests. There's a great amount of organizations this year, a larger amount of bcus. We're having a lot more authorized signer workshops this year

- Is going to be more advertised this year, meaning we're getting a lot of requests. Thus we have decided we wanted to expand our committee, which has actually been amazing, and all of our officers have been really on it with their training and stuff like that. So we're expecting a lot of impacts on this. So all the amendments have been listed below, and Senator Jones has some thoughts.

Chairship yielded to senator jones at 10:18PM

Jiang

- Another big issue is we are short two members for two positions. If you agree, there is an equation of how many officers would be needed. In my equation there are 4 positions. So out of 4 special positions. Because there are more RCOs than BCUs. I think we are all clear on all things. My personal experience as a finance chair and hope I can get pity votes.
- First of all, I never know how many requests per week there's going to be until I really get into the system every single week I was making an agenda. Tried to pre review everything because I was trying to fulfill my duty as a chair to preview everything. I cannot finish them for at least one day of my whole weekend, which is already not a lot
- Second, I need to do authorized workshops for students to be unauthorized signers. And I cannot tell you how many hours I've spent for the past two weeks repeating stuff for 30 minutes like and four hours in the afternoon for Fridays.
- And I mind you, they always fill up and they like, it's impossible to like to do everything, and there's keep emails coming in for more. So I know I don't do this position, and everything we do here is not for payment.
- It's mostly to serve the student body, and I'm really glad to do that, but I cannot keep doing this. Like, I was sick for the past week and things are going really bad with a lot of other responsibilities I have. But like, these are in a row. I'm just saying, like, I really need help, and I can't do this without officers. And besides, even if we appoint them today. I still have to train them out of my personal time as well. So I just really need that to catch the past. And this thing is, like, there for like, as long as, like it was during summer time, we're already, like, writing about this. So please, please, please, just save my soul on this one.

Chairship yielded back to senator sussman at 10:21PM

Pascher

- I'm gonna hold you to the same standard that I hold everyone else and try to be uniform. I don't understand why this was added on to the agenda late. Why wasn't it submitted before the deadline? Before the deadline?

Than

- Okay, so on our 10/10 meeting, we had these on the agenda to be referred to. We went through them, and then after the meeting ended, we recognized that there were several clerical formatting errors that we did not get through.
- We didn't look through correctly. So we had to have an emergency meeting 10/14, yesterday to format these correctly, to change these. And in regards to any change that we made, it will be in our minutes, in order to be approved. If you want, I can go through a thorough thing about the changes, but it had to be amended because of the changes and made after the agenda was sent out.

- The attorney general requested funding
- I think we should discuss it next week. I think we should wait for more senators

Unanimous consent to move into item K

G-2) Old Business
[Debate Time Per Item- 15 Minutes]

H) Recess

Entering Recess at 8:56PM to come back at 9:11PM
Back at 9:17PM

Report Speaking Agreement: Pursuant to Senate Standing Rules Section F, clause 5, officers of the Association providing reports, must take questions from Senators relevant to the matter(s) or project(s) presented. Knowing that, do you still wish to give a report?

I-3) Unit Reports [Speaking time not to exceed 10 minutes] -

I-4) President's Cabinet Report-

I-5) Executive Director's Report-
Marissa Valdez Reynoso on behalf of Sean
- Your name plates are in and when we get a break I will hand them out to everyone

- There are some workflow issues, there was a keycard problem but the process should be a lot smoother now
- We are in the process of reorganizing our staff. There will be a town hall student meeting so that additional A.S. students can give input
- There is nothing set yet, but we were hoping to coordinate with all of you
- Holly has been working with Student Affairs so that you can all have a conversation

Holly

- We invited the relevant parties to the senate meeting next week
- I can give you all information so if you want to understand, like just the roles and responsibilities of a senator in general
- So between the two of us, we can have that together
- But the people from the division will be at the meeting next week

I-6) Executive Officers' Report -

1. External Vice President of Statewide Affairs Leiya Kadah (7:59PM)

EVPSA Leiya Kadah

- Tomorrow myself and other EVPs across all the other UC campuses will be meeting with new UC President Milligan to discuss what the needs to be different on campuses
- We will also be focusing on all the funding and budget cuts that have been imposed on different students. Students who are working in labs and doing extreme research have had their programs cut.
- The whole reported ICE incident wasn't discussed last week by UCPD
- Just to give an update, it was not ICE but it was a certain with immigration service that does check in with international students regarding their visa status.
- I still think it is really weird that they showed up to a resident hall
- If anyone wants to inquire further on that, I am happy to elaborate further on that.
- But yeah, we would love as many testimonials as we can gather. All these responses can be anonymous, and you only have to answer what you're comfortable with.
- We also attended the UCSA board in Irvine. Each campus hosts these boards every month. These boards target first-generation students who want to get into this work. If there is anyone you feel would really benefit from this program please refer them to me. It will close in about 2 weeks.
- This is a fellowship that has been newly developed, and actually was developed by UCSB alum
- It's really just targeting our first generation students who want to get into this work. You don't need any prior lobbying or policy experience. Typically, you should get a stipend of about $600 from UCSA. As I mentioned no previous lobbying and policy work is required to participate or be interested in this
- Additionally, I am not able to disclose what days the staff members of UC campuses will be striking but, there is a 98% approval rate

- They're expecting about 5 days of unpaid work and labor that these workers will be deeply impacted by.
- We created this form in support of these workers, they need every single day of pay they deserve so we just want as much support.
- There are many opportunities available to UCSB students that they are just not aware of. I hope A.S. and my office can inform students and spread awareness.
- Another thing is that this upcoming November meeting, we are hoping to get testimonials from a lot of our native community members. At this meeting, we are discussing topics that we hope to get some testimonial around. UCSB does hold many many indigenous artifacts on campus, and there have been lawsuits in the past ensuring UCSB return those artifacts.
- This year, UCSB will be hosting, if not for the first time in 20 years, the first time ever, it is the oldest and one of the most important conferences that UCSA holds each year, workshops and opportunities for students of color to get involved in these spaces and programs.
- We want to gather 20 students from each campus to attend our meeting. I believe my office will be hosting travel for that Wednesday. Potentially Wednesday and Thursday
- SEED coordinator is also potentially being filled, if not I would appreciate your help with outreach in filling this position.
- UCSA would like a student housing liaison, especially on this campus.
- I have reached out to IVTU and have expressed interest in fulfilling that role, but if any of you who are already involved would like to help.
- For full transparency, I wanted to know what I could share but BC of student affairs did give us the information that they did believe it was someone impersonating. I do want to explore the consequences for that because that is not okay.
- UCPD did say they believed it was someone involved with immigration services but not ICE. They did disclose to me that it is somewhat common practice for these services to come onto campus and inquire about students' visas. But I think it is strange so I want to look more into it.

Wahidullah

- You mentioned you're working with the indigenous community, I was involved with that before. However, can you explain the current situation with that?

EVPSA Kadah

- I have a document going right now discussing the lawsuits UCSB faces regarding possession of indigenous artifacts
- Repatriation is one of our bigger goals, and just advocating for overlooked students on campus

Sussman

- Thank you
- Reach out to Kadah if you need further information.

2. **President Le Anh Metzgar 🟨 Senate Introduction 10/15 (8:29PM)**

President Le Anh Metzgar

- I will be presenting on some of my proposed next steps for the recruitment and selection of the associate student executive director.
- So our previous executive director, Marisa, retired at the end of June, and Sean is now serving as the interim executive director
- And there's a shared responsibility between the as president and the as Senate for the recruitment, selection, oversight of the executive director
- Legal code either says that the AS president is responsible for the functioning of the AS executive director, the director also reports directly to the AS President
- We need to decide on the use of a search term or not, confirm the approximate timeline of the search and contribute to interview questions. And as always, I will be checking with the Senate throughout the whole process, in both open and closed sessions,
- The Associated Vice Chancellor is on the zoom right now. But his role would help communicate between us and HR, providing the committee training, and facilitating interviews
- The search advisory committee membership proposal is that I serve on the committee as a voting co-chair. There would be 1-2 senators, 1-2 staff members, etc.
- In this role, I would work with the Senate to decide search committee membership, communicate search committee updates to the Senate, and facilitate open forums with as leadership as staff to collect feedback on both the job description and candidates and recruitment
- I would like to host an application, if approved, we would release the application tomorrow morning. And bring members to the senate maybe during week 5.
- Another thing is we will need to propose job descriptions or requirement changes. The slide has the job description, and you are able to add recommendations. I also intend to send out a comment form
- A candidate without senate approval won't be hired.
- I am seeking approval to proceed with developing the job description and requirements, appointing the search committee and launching your recruitment of the association director

Wahidullah

- Is there an alternative for this? I believe I've been communicating and I was told I was appointed so I just wanted an update.

President Le Anh Metzgar

- The AS executive director hire is not for that. Of hiring career staff, HR normally works on that

Luken

- First, how should we give you approval to proceed

Pres

- A motion to empower the AS president to initiative the recruitment process, or something similar to that.

Luken

- Can you send us what you have for the motion?

Harter

- I just want to say, in regards to the confusion. I think the appointing process makes sense, but we should have a collaborative approach.

Sussman

- Do you want this in the form of a senate resolution? We can have deliberative discussions about who from the senate can work on this committee.

Iden

- Policies are a little weird right now
- To be compliant, I would recommend doing a resolution

Sussman

- I think some senators can work on this over the weekend and we can continue to work on it during the week

Ly

- Does this still have to be referred to a committee

Sussman

- I think so

I-7) Senator Representative Reports-

I-8) Administrative Reports- (7:18PM)

Attorney General Iden

- If you all haven't filled out the form, I would appreciate if you did, we have been getting some pretty good responses
- I wanted to request $3,500 - $4,500 of honoraria to be in the Attorney General's account.
- The current honoraria only allows me to have 3 staff members. The idea would be to do extra hirings so we can have a full bench
- It would also allow us to get some outreach, and we can inform association members on violations, insurance compliance, and things like that

Luken

- If we, as a senate, or an individual student wants a legal question answered by a legal council, how do they do that?
- Like if they want clarification on legal code

Iden

- I think some individuals have been kind of approaching Judicial Council with like, legal questions recently, which isn't necessarily the correct route
- The process is to come to me first.
- Everything should kind of come to me first. They can't necessarily comment on anything legally unless it's brought through an advisory committee or, through a trial

Wahidullah

- Can you elaborate how you are going about the process?

- Is there not a conflict of interest having Attorney General case workers work on the defense side of the case?
- I think this is a good idea, I just want clarification

Iden

- Conflict of Interest is like, strictly Legally speaking, when there's a financial interest. They're not really influenced, not necessarily, the ones representing the individual.
- The idea is we send a case worker into each BCU and teach them how to do an inquiry and make sure they are reading legal code and policies.

Malhis

- Because you are requesting an honoraria increase, is it because you're adding new positions?

Iden

- There is no explicit number of caseworkers listed under my office.
- This is just an additional request to accommodate additional case workers.
- I can give you all the account number

Jiang

- Where do you allocate your honoraria?

Iden

- When you go through the budget cycle, you budget it there

J) Committee Report

J-1) Standing Committee on Finance -

J-2) Standing Committee on Outreach -

Luken

- We are going to try to do the pumpkin patch on the 25th. Please reach out if you are still interested in Senator Hepburn and Manala.
- We need things like maybe getting vans there, maybe having some activities happen during the pumpkin patch event. So we need to figure out the logistics. And we would love for you guys to like
- I'd like to request a Liaison Committee. I'll send, I'll talk to you guys separately, but if you could invite us to table at our event, it would help boost or boost turnout, and a good way for them to connect with students, etc, etc.
- Okay, we just introduced our committee. This is nothing formal, so don't worry about the procedural issues with this. But we update outreaches,
- similar to what Senator Sherkin did with advocacy similar to what's happening with the finance committee. We have a bill updating some aspects of outreach legal code that will be coming. I just wanted to make you all aware that it should be on the project or on the legislation tracker already. I
- We are going to be tabling as a committee starting tomorrow and doing classroom visits. Thank you. Senator Manakova, she's done a fantastic job of literally finding the most populated classes like that are whatever at our school got the emails of

all the professors. It has a perfect, beautiful spreadsheet for members of our committee to sign up and go speak to those classes.
- So most tabling sessions will focus on a particular issue or project, etc. But if you guys have something that you would like to be discussed at table,
- We are starting to do work on social media outreach with particularly chair Sussman. He is the head of our social media team, and we're going to start trying to get weekly Senate recap videos. So if you have suggestions for that, please let us know. Additionally, Senator Harter and I and the rest of our committee are working on just getting content out, interacting with students via social media. And we started on that and to make everyone aware. GENCO, which is generation conscious, if you all remember Leo, who came at the end of spring quarter to talk about getting sustainable laundry detergent dispensers in the dorms. We may hopefully next meet otherwise, very soon, you can expect a high impact project proposal coming related to that initiative. So if anyone is interested again, please reach out to us.

J-3) Standing Committee on Liaison -
Than
- We just have a quick update in the OSA. I'm not sure if she says this email, I can forward it to everyone who has requested specific leads on the committee, to send out a form regarding resources that each like BCU or as an entity has. I'm sending it forward to the rest of the Senate, if you guys have any connections with any other AS entities. If you can send that form that way, I will. I'll forward it soon, because the Student Advocate General is trying to collect all these resources, since they're so decentralized.
- Additionally, we're doing it. We're making our omnibus legal code bill. We're also doing something within the Liaison Committee on that, given the fact that it has been tabled to us, and I'm trying to get the members to read it. So if you guys would like to join in on that one

J-4) Standing Committee on Advocacy -
Sherkin
- I think it's more effective if I have a fully fleshed out report biweekly. I am working on extra food and hygiene items distributed more at the pandal center. The pardall light tunnel project, more blue lights on campus, protecting undocumented students
- If you have any interest, come to our meeting in AS main at 4pm tomorrow

a

J-5) Group Project and other Temporary Committee Reports-

K) Minutes and Allocations:
📷 To Be Approved

Motion to approve all minutes and allocations
Chaudhry - Jiang

Pascher
- I think we should be doing that separate since there are large financial implications

Than
- I would also agree with that just looking at the finance community, there's just one thing where it says that they deny the psychedelic club. But then it is contingent. It's like the language afterwards says that it's approved. The money is approved in contingency with relevant documentation. So I just wanted further clarification on that. But I do agree that the Finance Committee minute should be

Malhis
- I feel like all the finance committee meeting minutes presenting
- I believe that it is the same of any minutes then you should attend the meeting
- If you are so interested in the finance committee then you should attend our meetings

Luken
- I have a question for the finance committee chairs
- Why did GGC request money for you guys when they already have a budget?

Jiang
- They are just asking for an exception not for money

Motion to approve all minutes and allocations
Chaudhry - Jiang
Called to question- Pascher
This motion passed at 10:27PM

Jiang
- Quick remark, i partially agree with Malhis
- I don't see the difference between finance committee minutes and other committees
- If there is not problem with it, then i don't see the point in procedurally picking it out

L) Discussion Items

A Bill To Clean Up Legal Code Open Forum
Pascher

Pasher

- Just put this on the agenda on the off chance that someone had something to say on it
- I think that the authors are operating under the assumption that we are all reviewing it independently and going to vote on it eventually
- If there are any questions considering it is a big bill, i thought it would be best to create open forum checklist to answer
- Seeing there are none, I yield

Luken

- Are we going to move back into unit reports?

Sussman

- Yes

Direct Democracy Project (Original Proposal, as it will appear to students)
Luken

Luken

- So this is a project outreach committee has been working on with the ivps office. We've discussed it before. We are at the point in the project where we are looking for the. We are looking for suggestions from senators, execs, or AS entities about projects they want to put on direct democracy. So first of all, most importantly, if any of you guys have project suggestions, please fill out the form that is linked, not the original proposal, obviously, but what is highlighted under the direct democracy project. Any ideas for projects will be considered, so please do that.
- Secondly, if everyone can send this out to entities or people you know with ideas for projects, or even students with ideas, please send this out to them. And then third, I would like to make a request to the liaison and advocacy committee. If you guys could send this like, help us in advertising it and send it to like your relevant contacts within the association to get as many project suggestions as possible, we would really appreciate it.

Sussman

- I know I think the IVP Lala would quite frankly, murder me if I did not say how important this project is. It will help students directly. So if you don't have anything immediately and other things this week, just focus out. In a couple of minutes, we'll send this out to the association as well. It's really important.

Sherkin

- Thank you Luken for this. I think this is very important.
- How does this say and how do I advertise this to my entities

Luken

- It's for new projects. They can be maybe in the early stages, but projects that are not already actively underway, definitely not legislation happening for them. It shouldn't be something like, for example, an event that BCUs already do every year. It should be something new, something fresh, hopefully, and then outreach committee will, as a committee, vote on the ideas that we've seen

Than

- What is this in relation to or is there a pipeline that connects this to the AS project tracker?

Luken

- I don't know exactly what you mean but sure yes

Harter

- The project tracker is designed to list the projects people are undertaking
- This would essentially be a filter before it gets on the tracker

Luken

- It is important that submissions are made by the end of week 4
- Outreach committee will be discussing it at week 5 meeting

Pascher

- When you are voting on it, let's say someone just filled out the google form
- Are u taking people being at the meeting and talking about what they submitted or are you just directly voting on it

Luken

- Yes

Ly

- Just a question about the intent of this
- Is this for all projects should go through this or specific ones and what nature of the project, or is it for just specific ones?

Luken

- As we mentioned at the last couple senate meetings, this should be any and all projects. The Outreach committee is gonna decide which 4 projects will be on the form that goes out to students. We are going to try and get this out to as many students as possible on the outreach committee. We are collecting project ideas and then disperse them to the student body to have them vote on it. Then disperse to the student body to directly vote on

Malhis

- I realize we forgot to add to the action items the Attorney General stuff.

Sussman

- There are not enough senators pertinent to what is going on.

M) Appointments and Resignations

Sussman

- In the updated version of legal code it says 18 appointments. If you look at a bill to clean up legal codes, it's in there. These appointments are completely valid
- There are two motions that need to be added on one for finance committee and one for EVPLA office

Motion to amend the agenda, and add Brianna Chen as Finance Officer of SEAL Liaisonship, and Boone LaBounty as Finance Officer of External Funding, under item M appointments and Resignations for Finance Committee
