Minutes/Actions recorded by: Alexandra Cervantes, Liliana Dritz, Summer Tucker
CALL TO ORDER by Melissa Jones, College of Letters & Sciences Senator at **6:43PM**.
This meeting was called to order at 6:43PM in the Flying A Room by Senator Jones

A) MEETING BUSINESS

"Before we begin, we call for students to acknowledge that the lands that the University of California locations were built upon were expropriated & founded upon exclusions and erasures of Indigenous people's human rights throughout California. UCSB is built on Chumash Land, specifically that of the non-federally recognized Barbareno tribe. As an association that pushes the student bodies' voices to the forefront, we should aim to make strides past just acknowledgment to those who continue to fight for their right to be recognized & respected as the original stewards of this land. I ask you all to dedicate time & care to personal education & to advocate for justice alongside Indigenous peoples."

A Bill to Establish Joint Oversight of the USSA Fund
Malhis- Jiang

Senator Malhis (7:56PM)
Malhis
- This bill is to establish the oversight of the USSA fund.
- Any person requesting money from the USSA fund would be able to go to the Finance Committee
- The process right now is unfair to our students, and it could be much easier. For USSA right now, they need to go to EVPSA first and then it gets approved by Finance Committee
- What happens with the USSA fund is that it mostly goes towards travel
- I think 90% have either been for some sort of travel, culture social, or some sort of STEM based club

Pascher
- I think this is a great idea
- Is the EVPSA on board with this?

Malhis
- We worked with the EVPSA to write this.
- For the time sake, we all agree on this

Than
- When this does get tabled to the liaison committee, maybe we can include an endorsement from the EVPSA office.

Wahidullah
- Maybe adding additional clauses to further explain or give more details.

Luken

- There's no negative connotation or no negative correlation with what this bill is doing. I want to make everyone aware of this, because I believe that it's a very critical issue
- I'd like to get this on to discussion items, even if there's not a thorough discussion on it, I would like it to be on public record

Bill to Cap Uncapped Positions

Malhis- Wahidullah

Senator Malhis (8:15PM)

Malhis
- I worked on this with our CCO

Wahidullah
- I have the intention to have conversations with the people in these committees.
- We are making sure it is all up to date

Pascher
- You mentioned that you are working with the Attorney General to put down 3 OAG workers but there are currently 7 OAG caseworkers

Malhis
- The Attorney General sent this to me

- I'm assuming that is what he wants

Luken

- The Attorney General's office has enough to pay their honoraria
- We are capable of handling this

Sussman

- I would recommend the liaison committee.

Malhis

- Answering Senator Ly's question, technically the CCO and I went over this entire legal code.

Harter

- I have no commitment to this build. I was just trying to refer to it.

HIP Proposal - Souper Kitchen

Senator Hater

Senator Harter (8:23PM)

Harter

- First of all, thank you to everyone. I'm indebted to you for choosing me to serve, like many of you, I joined A.S. because I want to make a difference in our community.
- We, the Associated Students in the Senate, are the only governing body in this city that purely serve the interest of the students of UCSB and that is an honor. The students choose us and put us in these seats so we cannot let them down.
- In short, this body is the most powerful and capable entity on earth that purely represents the needs of students in UCSB, that is an honor in and of itself is a mandate
- For me, not letting students down looks like picking up what others have failed. When this occurs, there is failed leadership, and where others fail, we can succeed. This is what the super kitchen represents
- The Super kitchen will feed thousands and thousands of students in a safe space that welcomes all students with open arms.

- This kitchen is nothing more than a safe place to eat a meal. No one benefits financially, and all parties are non-profit.

Gundecha

- So I noticed that in the old it says that it's going to be a protein, starch or grain, fresh vegetables and a homemade beef with chicken broth.
- Will there be vegan and vegetarian meals?

Harter

- Short answer, yes.

Gundecha

- Would you like to prioritize students who are on Snap Benefit or make it equally open to all?

Harter

- We would like to hopefully include everyone, including those on and off Snap Benefits.
- I gave everyone a paper, when you get a second please go over it. It is the working draft of the MOU. I am hoping this gets tabled today to one of the committee

Pascher

- This is very well put together, however I don't see why this is a high impact project proposal

Harter

- I am not worried about the finances.
- I like the standard of the high impact proposal. It's a good standard for us to meet.
- It's a self imposed standard that I can either choose to go through or go to not go through. And I don't want this to fit, I want thousands of students to get fed.

Sussman

- This would use 70% of the fund.
- Could this be potentially split up?

Harter

- We have been putting together probably one of the most comprehensive outreach programs that I have ever seen
- We are working very hard to make sure every student at UCSB knows that this is a thing
- $50,000 may be 70% of our budget but we can allocate more money to it.

Gundecha

- Where do you plan on getting the money to replenish it from?

Harter

- I won’t speak on the account now, just because I know finances are very complicated.
- But the financial operations teams did let me know we have the money to do this

Wahidullah

- I want to say this is a very commendable achievement.
- After communicating with our supervisors, we do have concerns. Have you communicated with other systems that are already working on initiatives that are similar to this?

Harter

- Okay, so first of all, none of those ones are going to be open on the weekend.
- This is why we were specifically opening on Friday, Saturday, and Sunday.
- To answer your question, we are in communication with the other organizations and we are filling a gap that is currently open.
- So again, like concerns are very well heard, but we have to do what we can as an association at the moment to serve students.

Gundecha

- The fund is one that we can replenish
- This would identify it as a high impact project, which often has a very strict and enforced guideline.

Malhis

- I don't want to frustrate anyone, but I don't support this project politically.
- Halal Food Kitchen has donated money towards Israel
- While I don’t have anything against Jewish people, I don't have any support for giving an organization money, like the kitchen, that is involved with a highly political conflict that’s currently going on in the world right now.

Harter

- That is completely false Halal has never donated to Israel in any way. They are a non profit organization.
- No one is collecting money. As a matter of fact, Halal is actually taking a loss, and so is the catering company that we're doing this with

Pascher

- Attorney General Iden just said that we shouldn’t change the agenda once it has been sent out. And I just noticed that there was a title change on a resolution.
- I just wanted to point that out

Luken

- I think this program is amazing
- I would like to see a pilot for this

Wahidullah

- I want to clarify that no basic needs programs takes away from students, it was just a curiosity

Harter

- I changed the name because the name was misleading. If I get in trouble, I am sorry.
- In the MOU it stated that we will be tracking the success of this very closely, there will be sign in sheets.
- If this succeeds we, as a senate, started a program that feeds thousands of students
- Also, Halal is just donating their kitchen to use and they are different from the caterer. The only thing that we're buying is food, and it costs $5,462.50, 9x, which is roughly $50,000

D) PUBLIC FORUM
[1:30]

Speaking agreements:
"You have three minutes to speak, with three minutes for Q&A. Please state your name, pronouns, and enunciate, but refrain from yelling. Speculation of a Senator's intentions is prohibited and may result in you being removed from the ability to speak on the floor. Please know this meeting is being recorded. You may speak on any issue, whether it is on the agenda or not. Please include a content warning if it will be graphic. You may only come up once, and you may choose not to answer questions."

1. **Lily Meija (6:54PM)**

Lily Meija
- We are presenting a project that we have been working on the last few months
- We are the greenest UC and one of the most carbon friendly universities in the U.S.
- Our idea is to use LED technology, which was made here on campus.
- As for funding we are pursuing the Green Initiative Fund. It is estimated around $35,000.
- We appreciate the Senate's support and time. We anticipate a $10,000 financial ask from Senate Unallocated to reinvest in honoring our campuses and better align with our campus sustainability gails

Ly
- I know you said it currently cost $12,000 a year, is the $10,000 request a one time cost?

Lily Meija
- It is a one time cost.

Than

- How much money are your collaborators willing to give you?
- We encourage the BCUs to invest in things like this

Lily Meija

- We have to schedule all our flights and hotels really late, which adds to our high fees.
- We are interested in pursuing the BCU funding but for right now it is just signing on.

Wahidullah

- Have you communicated with them about collaborating on other projects?

Lily Meija

- We are working with the Zero Waste Commission.
- As for the Environment Affairs Board, they are waiting for their sign on.

Motion to extend speaking time by 5 minutes
Ono - Pascher
Call to question - Hepburn
This motion passed at 7:01PM.

Ono

- Thank you for coming in. I think this is really cool.
- I was wondering if you could talk about the cost breakdown?
- As well as, what design are you looking to implement?

Lily Meija

- It will be a hard cost of benches and beautification.
- I mean just to repair it, I think would be a good $1,000

Gundecha

- Thank you for coming
- Have you thought about coming to the Finance Committee? There are some rollover funds that we have in an MOU that would fit in with this.
- You can come to F&B on Monday, but you might need to connect with an RCO to request your funding.

Harter

- This is awesome
- I am the executive of 3 RCOs and all 3 would be willing to collaborate with this
- In the future, when asking for money, it would be nice to have a design, other than that, this is great

Hepburn

- I am imagining a beam in the sky
- What is it going to look like?

Lily Meija

- We are putting it together. We apologize for not having a set design.

Pascher

- Can I get in contact with you?

- My email is as-npascher@ucsb.edu

2. **Eddie Barajas & Josie Penix (7:06PM)**

Eddie Barajas
- We went to the Finance Committee to get this funding for an event with Andrew Yang and they funded us. We were partially funded by the Program Board but we are looking at where we can get funding for the speaker fees.

Josie Penix
- We were hoping you could change the Finance Committee minutes to fully fund this

Hepburn
- Is there any interest in having a Republican speaker?

Eddie Barajas
- Yes. We are also hoping to have non political speakers as well.
- For example, Bridget Mettler or George Lucas.
- Also, Andrew Yang has been running on an independent platform recently, and has actually been pushing forward at the creation of a new political party.

Claro
- The idea of speakers coming to UCSB is great
- Is there a requirement for speakers?

Eddie Barajas
- We have been in contact with Government Relations and they let us know that we cannot endorse a candidate

Motion to extend the speaker's time by 10 minutes
Malhis - Chaudhry
Call to question - Wahidullah
This motion passed at 7:12PM.

Wahidullah
- Why isn't this aligned with the AS Program Board?

Eddie Barajas
- I truly don't know
- They had issues with comments Yang had said in 2021, but they never sent me those comments.

Josie Penix
- Their mission is very specific and it states that events must be educationally and culturally diverse. And to us, this event absolutely fits into that category.
- They said that Yang's comments don't match the Program Board's mission. So their issue is with the speaker, not necessarily the event.
- We are confident that the event will be very controlled and we are expecting people to learn a lot from this event

Eddie Barajas
- Students will be able to submit questions that Josie and I will be asking

- UCSB students will be controlling the conversation on a national level

Malhis

- I just sent the request that Coastal Conversations came and asked for at the Finance Committee.

Eddie Barajas

- The initial proposal was $60,000 and the Program Board funded $10,000
- For future event we would be going to the Finance Committee and Program Board, they would have a say in the speaker

3. **Eddie Barajas (7:17PM)**

Eddie Barajas

- There is a brand new system for meal plans this year
- At every other UC campus allows you to use your meal plan at their version of the Arbor, or even on GrubHub. The idea would be to bring that to UCSB
- We would love to work with the Senate to know what you can do to add some pressure and get this done.

Harter

- I do have communication with Jill, so I can get you that contact
- Hopefully she will reach out

Eddie Barajas

- I have been working on this alone so getting some collaboration would great

Claro

- I think this is a great initiative, especially right now
- Is there a net cost for students?

Eddie Barajas

- One of the biggest push backs I have gotten from Jill was the cost of the meal plan for students.
- This system would allow students to use financial aid to help them pay for school and life essentials
- I think it would help students from lower income backgrounds

4. **Eddie Barajas**

Eddie Barajas

- This is a campus beautification project.
- If any of you have ever visited UCLA, there are banners on every single light.
- Adding banners to our light poles at UCSB, I think would be great and it would be good for marketing.

Than

- You should look at the Creative Media Unit and Program Board.

Malhis

- I think these projects are great
- I totally agree with this entire project. I went to visit my friend at SDSU, and they had a huge projector screen that said Associated Students
- I feel like bringing more banners and beautifying the school is great.

Pascher

- Will you have a meeting with me, I would love to work with you
- My email is as-npascher@ucsb.edu

Wang
- I was president when you spoke about this last year
- I was wondering if you were able to solve the storage problem from before.

Eddie Barajas
- Yes, we were

A Bill to Update Article VI, Section 13. Outreach Committee
Referred out of the Liaison Committee with Amendments
Luken-Harter

Luken
- The only changes are in purple, one at the very top. There is actually a fiscal impact so $900 a year, not including summer for honoraria because it's another position. The clause was resolved, but the Attorney General told us it should be inactive so that was fixed. There was one random grammatical error other than that

Harter
- I want to extend a warm thank you Liaison Committee for getting this done.I believe this wasn't able to get done in one meeting because of timing issues, but they got it done sooner than expected and I just wanted to say thank you for that.

Pascher
- Just curious about the highlighted passage that you are currently on, Luken, is that supposed to be lost like that?

Luken
- I don't understand the question, sorry, can you rephrase it?

Than
- It's not.This was supposed to be number 6 but someone in our committee accidentally deleted it.

Point of Information- Harter
What are we talking about?

Sussman

- We are on the top of page 3. The format is incorrect

Luken
- If there wasn't a formal motion made and it was just a mistake, we don't need to do anything then, we can just add it back in

Pascher
- I would agree with that. Using PDFs in the future will show what is intended, what it looked like out of committee, and what it looks like on the floor.

Than
- If you look at the meeting minutes, there are no motions where this should be a Section B

Sussman
- I think the proper course of action would be to open the bill and, with consent of the body, fix the formatting errors

Luken
- We can do that or because it wasn't changed, we can admit it right now, and then they can bring it to the Attorney General

Sussman
- As the chair of this, I am interpreting this as what was sent to the senate, was on the senate floor, and cannot be amended until we open it. If we pass as is, then we are passing with the formatting error. If we open it, we can correct the errors.

Harter
- We can table it and have them fix it or open it now and fix it

Sussman
- Correct

Harter
- How do people feel about just amending it here? I feel fine with it seeing as this is a unique circumstance. If not, let's table it.

Luken
- It's fine to just open now. Can we clarify for the next meeting what the correct procedure would be? If someone is in the committee and does something to it and there's no motions then we need to know how to reconcile with that in the future. We need to clarify that and this is easily a mistake that could happen again with more dire consequences.

Pascher

- Just look at the meeting minutes of the committee who discharged it. If this is not reflected in the minutes, then this is not accurate

A Resolution to Affirm Membership Rights in the Association Reported out of Advocacy Committee with Amendments
Claro-Luken

Claro

- I think this resolution is due because of the past action of the Santa Barbara sheriff office, where they were called during council meetings and they declined to comment on an ice activity in Santa Barbara County. That is a concern when it comes to our constituents that are undocumented. This resolution stands with our constituents in these really scary times of threats of persecution for just being here. In passing this resolution, I hope the anxiety tends to reduce on our campus. This will be along with another bill from Senator Luken, that would solidify an announcement to UCSB to speak for undocumented students.

Luken

- This is an issue that came up a few weeks ago. Regardless of what is presently happening around campus, this is something that is important and should be resolved by the 76th Senate. I believe it should be resolved and would encourage everyone to vote yes.

Ono

- On the amendments side from advocacy, it was just minor clerical stuff, nothing major was changed in the form of this resolution.

Sussman

Luken
- When we approved the appointment, was it clear to everyone in the body that they were appointed to transfer student alliance?

Sussman
- I cannot speak for other senators. There is no position for that so I would hope senators would catch that

Luken

Sussman
- Under discussion items

Pascher
- Essentially this resolution was introduced in the beginning of summer, tabled to committee, never made it out of committee and here it is. Nothing has changed, it's the exact same as it was presented the first time. I am looking to move forward with the project

Malhis- Harter

Luken

- Do coastal conversations exist as an RCO?

Malhis

- Yes

Hepburn

- Are we doing the second step now so that the finance committee approves?

Malhis

- This is what Eddie was explaining. Finance committee approved this request with the program board MOU, but the program board denied it and gave him the information that they partially funded them for all line items but the speaker fees. I just copy and pasted the itemized budget list to you guys. They thought that portion of the fund didn't fall under their mission statement. Technically this will not fall under case by case because the finance committee made the agreement. If we agree to use finance committee fund, it doesn't need approval

Pascher

- That is all great, but we do bear the burden to flush out their proposal. We still have holes in the proposal. Seeing as this is not time sensitive, from what I remember from his presentation, he didn't express a time concern. If it is time

concerning, you have to come express that to us. I was under the impression that this was just something up in the air

Sussman

- I have not been keeping track of the two speaking limits so I apologize

Malhis

- Eddie has been to my office hours for the last 3 weeks, literally every single one of my office hours. This is their last resort. They've been trying to get this funded since summer. Last week on Monday, they went to the finance committee and they voted to put this on the program board MOU. The Finance Committee is for this whole proposal. It's a student initiative wide event. The date of the event is November 15, it's a Campbell Hall resolution. They made a negotiation with Andrew Yang to sign within 2 days. If we put this next week, the event cannot happen. If it doesn't get pushed today, the event doesn't happen at all

Hepburn

- Can we just push him back one week? Eddie had no urgency in this. I think it's speculation during office hours. For us to grant this now, at the end of the night, I think the senate should be fully aware of big purchases such as the library. The senate should talk about these things because I have things to say about that.

Harter

- The presenter may have not communicated the timely nature of it. The facts are the facts, this is a timely manner. It has been discussed with Senator Malhis and it's a fact of the matter. We can say that it's not a fact of the matter just because it wasn't discussed but it is a fact of the matter

Call to question- Luken

Luken

- If there's no objection to the call to question then you ask if there is consent and then if there is an objection to consent. If you object to the consent then you move into a vote as well.

Objection- Luken

Luken

Sussman

- I have a midterm tomorrow, so please I'm asking as students to keep this quick

G-2) Old Business
[Debate Time Per Item- 15 Minutes]

H) Recess

Report Speaking Agreement: Pursuant to Senate Standing Rules Section F, clause 5, officers of the Association providing reports, must take questions from Senators relevant to the matter(s) or project(s) presented. Knowing that, do you still wish to give a report?

I-3) Unit Reports [Speaking time not to exceed 10 minutes] -
President Metzger

- I spoke last week about some security initiatives, and I have a bit more clarity and some proposals for you all. So I think I communicated with some of you over the weekend. I met with Rebecca segundo from basic needs, and she was essentially telling me about their grocery voucher program where students are certain, students may be eligible to receive up to $100 in grocery vouchers per quarter, but they do have limited amounts of funding for it.
- And so I know that she was intending to go to assoc for an emergency grant for that. But I was hoping that Associated Students could also contribute $15,000 to basically provide $100 of grocery gift cards for 150 more students, because of how there's 5400 UCSB students who are on EBT who are not receiving their benefits this month. So you might have seen I sent out, like a wide request to entities requesting contributions so that we can kind of all pull together some of our resources.
- And because people, they have to bring this to their committees and whatnot. So far, I've gotten commitments of $5,000 from TQcom, $4,000 from CFF, and then interesting contributions from TSA, ivcrc, HRB, cab and GGC, my request from you all would be to essentially suspend your standing policy on tabling like financial requests for the week and basically make or make a motion to approve $15,000 to UCSB basic needs for their grocery voucher program.
- And then I will be working with the contributing BCUs to journal entry their contributions back into the Senate unallocated.

- Essentially, this would just allow like, one transaction to basic needs, very speedy, so they've already started, so that they can start purchasing and distributing more gift cards.
- So the motion I would request would be 15k but it's looking to actually be more like around 5000 depending on BCU contributions and trying to echo some of the conversations earlier. These are really time sensitive requests, because we're five days into November and people don't have their food benefits. So I'm hoping the exception can be made, and that you guys can really prioritize getting students there who need, who need their funding for food.
- And also, just to clarify some questions, people can access these grocery vouchers if they go speak with a food security and basic needs advisor at the UCEN, and from there, they will assess their need and offer potential solutions, including the grocery gift cards.
- So that is one project plan that I'm asking you pass, and I will take questions about that before I move into some other things I'd like to talk about,

Sussman

- There is no standing policy on tabling financial motions
- It's just a formality and expectation
- It is just good practice
- President Metzger has come to senate and formed formal group chats so she has done her due diligence

Malhis

- I think this is a wonderful idea, and I don't want to speak on behalf of the Senate, but speak on behalf of myself, and I would be doing this financial notion today on the floor. I just want to ask about basic needs.
- How can you speak on behalf of how efficient they will be with helping students and even like giving them specifically like, how like how, like the students will receive, like these benefits from basic needs
- . Because I feel like basic needs this year has been maybe a bit slow, with some processing help for students and stuff like that, you can speak on behalf

Metzger

- Yeah, absolutely. So the reason why I'm choosing to go through basic needs, as opposed to, you know, just purchasing the gift cards myself and distributing them is that they already have, like the processes for buying gift cards in bulk and also like assessing students needs, because, again, we're not being able to buy gift cards to every single student who receives EBT, but they are able to their advisors are able to speak with students and need and give them the resources that they see fit. Because, you know, some students might be at even higher risk and would be referred to like the financial crisis response team as opposed to these methods.
- So they had to have more expertise in that. And also, we felt like students in need are more likely to like to know about basic needs and their services, as opposed to like a specific AS program.
- And it's also my belief that a student who likes comes there and is in need and they like, assess that this is the right program for them is that they would have the

gift cards on hand and just be able to give it to them right away. I received, like, one of my friends told me today that she got gift cards today, like right away.

Claro

- I can answer that more directly. I actually worked at the basic needs as an advisor. But how it usually goes with these pre screenings for these gift cards is that if they show enough financial need and if they satisfy some of the requirements, they immediately get these for free gift cards.
- One of the p[roblems we have is that we usually don't give it out easily because there are strict requirements

President Metzger

- Okay, awesome. Just to sum up. So if this motion, if you do guys, if you guys do approve this tonight, I'd be looking to transfer the funds, like immediately to basic needs, and then over that next week, I'll be working with BCU. I kind of get their funds into the Senate, unallocated.
- So it would be a $15,000 request, but that number will go down pretty significantly.. And then another project proposal that I have for food security is to provide students with up to two free burritos from Super Cucas per week for the month of November. Kind of just a note about preps meals like food bank coordinator, she noted that a lot of students rely on purchasing pre-made meals from grocery stores or things like that because a lot of times students don't have time to cook.
- This is also another good opportunity for maybe a student who isn't receiving their EBT, maybe isn't in as much need to be eligible for a grocery voucher, but still could use some support. These free meal programs are really helpful for that.
- So my proposal is that for the remainder of November, so about three weeks, students could come to Super cucas, show their UCSB ID, their EBT card, and fill out a Google form and receive one free burrito. They can do this twice per week.
- So I'm proposing that we fund 900 burritos total for the duration for the remainder of November. We've talked super cucas because of this, and they're super down, and they'd be giving us a discount for burritos to be $11 a burrito when they're and these are large burritos.
- These like two meals low key and their burritos are usually like $13 to $14 so it's a decent um discount.
- my request would be to fund 900 free burritos for students, which would be $9,900 so my request again would be, would be $10,000 and also you're just thinking through the logistics, if we were to, like, reach that 900 amount close to the end of November, I would want to keep the program open and then fund the remainder out of the assoc budget, which in case anyone's wondering, it's like, pretty limited, which is why I'm making this request.
- And if it doesn't hit 900 by the end of November, we would have them you know, make the remainder of the burrito, and we would pass them out like during dead week. So this is my second food security plan.
- Are there any questions about that?

Luken

- Who will be eligible to get these burritos

- Is there a way we can negotiate a better price, or work with a different vendor that would give us more food, for a better price

Metzger
- Yeah, good question. It would be any UCSB Student who shows their EBT card. So they'll be showing their EBT and then also their UCSB ID, so we can verify that it's every UCSB Student and that that EBT card is their EBT card. And then they'd also fill out a Google form so that we can track, like, how often they're coming, and then super cucas is the only place we have reached out to just because of the time crunch. I have worked with them in the past, so that's kind of why I we reached out to them, but I haven't, I haven't done specifically testing on prices other places

Sussman
- Is you office taking this on, or do you expect us to provide funding for your office
- I'm not certain of the policy of funding private business as an association

President Metzger
- If it's easiest, the payment can come from my office and senate unallocated can journal entry my office
- Or I can make the payment directly from senate unallocated

Malhis
- In regards to this one, I feel like, since you're not really asking, trying to think for, like, the Senate support, and it just can really come from anywhere, I recommend you go to the Finance Committee. They will want to see a fully itemized budget list, and then we also have a policy if there's any like request over 1k they used to bet multiple quotes.
- That way we can see if super cucas are really the best option or there's alternatives that could be better. And we just have an itemized budget for this so it can be more clearly seen. And that's what the ISP specializes in.

Metzger
- The timing is a thing

Malhis
- By any chance do you have the time to send us an itemized budget and maybe send us other options
- Or look at other options while you are here during the senate meeting

Metzger
- I don't have a written budget but it is just $11 per burritos
- I could look at other restaurants but I can't contact them to see what discounts they would give us

Harter
- I understand the desire for fiscal accountability, but we're literally in a food crisis. We need to fund this as soon as we possibly can. There's a lot of students that literally will be there's 900 students that could benefit from this.
- Now, it's gonna wonder, what is the next time we pass this next week, potentially in a couple of days, when we do a vote for this after senate president Metzger has

done a little bit more research and gotten us maybe one or $2 cheaper on a bunch of burritos others, whatever like, we're gonna save maybe like two or $3,000 max
- if we, if we find a cheaper alternative, two or $3,000 versus getting it funded as soon as we possibly can Right. Like I get the fiscal I get the fiscal austerity. But let's also, let's also have the bigger picture in mind.

Pascher
- I'm just wondering how you arrived at 900
- In this scenario that this doesn't pass reach the students in the way you propose it is
- Let's say that 200 students get burritos and then super cucas make 700 burritos on dead week, and we have to pass out that many which is not super feasible.
- How did you get to 900?

Metzger
- My goal once funding is more finalized, to send out AS student wide newsletter
- I can send it through student affairs
- The publicity is the main thing
- I worked backwards of what budget I think is reasonable for this
- There is 3 weeks of november what is a reasonable for students
- 2 burritos per student, 150 students a week, 300 burritos a week

Luken
- For officers isn't there an unlimited time limit

Motion to extend speaker time by 4 m minutes
Hepburn- Wang
Call to question- Harter
This motion passed at 10:03PM

Harter
- I think we should fund this, see how it goes, and then fund more until food security has been stabilized

Malhis
- Are you picking up the burritos everyday

Metzger
- Students would go to super cucas, show their EBT and UCSB ID and they give you a standard burrito

Pascher
- A quick remedy in the interest in time, can we just do it until the 900 runs out, not just november
- This solves my issue with having leftover
- We fund 900 burritos until it runs out

Sussman
- Because we don't have confirmation from super cucas on if they are agreeing to this

- I think the best route, is your office funds it once you have confirmation of this and then senate can refund you next week

Metzger

- They didn't agree to do this till november, we didn’t set a date, that is just what i proposed to you all

Malhis

- I've gotten all the information, I think I know the easiest route to go about this. How about let's just direct money directly to their budget for this program, like we can direct money from AS Unallocated, and that can be 10k and then when they submit the requisition form, in order to actually, like, submit the requisition, you would have to have all the contract stuff sorted out.
- So that way it doesn't really need to go on us. It just goes to admin and financial operations just to check it off. If it's a good requisition, and that way just saves us the whole time. And you can get this done and work

Ly

- Why 2 burritos a week and not just 1
- We have 5k students losing benefits, with the 9k, would we not maximize that money more if we do one burrito a week so hit more students

Metzger

- That's just what my office decided to do
- My concern with one burrito is if it doesn’t get the reach
- 2 meals per week vs 1 free meal

Hepburn

- Why are we not doing a flyer system that pardall does
- They go to get flyer from you
- How are super cucas keeping track?

Metzger

- There would be a google form to fill out, so we can track how often you are coming
- The form will be able to track how often ur coming
- You have to write perm number and UCSB email

- The last thing I've been doing is that the food bank prepared some graphics for monetary and in kind donations, and I've been sending them to the alumni networks that I'm a part of and also the Chair of the Academic Senate requested them to send them to faculty and staff interested in donating
- So I can email you all those flyers right now, if you guys are in any alumni networks, or know people who like UCSB or have slash have money to give

- And then really last thing, my office as a collaboration with the Student Advocate General Office and the Evpsa office will be hosting an event on Monday, November 17, 5- 8pm at Campbell Hall. It'll be host. It'll be a rapid response, and know your rights training conducted by 805 on docufide. So mark your calendars. I highly encourage you all to be there.

I-4) President's Cabinet Report-

I-5) Executive Director's Report- (7:29PM)

Sean Lieberman
- Groups of staff and students work together to give feedback, work together, and give solutions.
- I have 6 different staff for marketing presentations but we all need to collaborate. There are many areas that just aren't talking to each other.
- I think this could go along way to streamline the improvements of the university
- Also, I've heard some confusion between RCOs and BCUs
- BCUs have missions and RCOs have common themes. You join an RCO because you like a certain activity and sometimes you volunteer. When you join a BCU you have a mission you want to fulfil, you want to improve campus life.

Malhis
- What are the grounds if an RCO wants to become a BCU

Sean Lieberman
- They need to come and ask the Senate
- When you create a new BCU there is a lot that goes into that. Like who gets honoraria, who is the advisor, etc.

Harter
- I was wondering when the next staff meeting is

Sean Lieberman
- Tomorrow at 1PM in this room.

I-7) Senator Representative Reports- X

I-8) Administrative Reports- (7:36PM)

1. **Caleb Hanson**

Caleb Hanson
- I am chair of the Elections Board, most of you probably know me from the long speech I gave when you all were sworn in. Elections Boards meet at 6PM on Wednesdays.
- As many of you know we passed the Representatives Parties Act in the last elections, which allows for political parties to be present on campus and a part of the association.
- We have had a continual turnout problem since covid.

- We are not trying to have 30 parties but if you are truly passionate and have a vision, we will be sending out an email
- We will also have an information night

Claro
- Can it apply to the Senate

Caleb Hanson
- You can if you want to. You would be elected under that platform
- BCUs cannot participate in elections and if they have something on the ballot they can't use A.S. resources.

Gundecha
- When you say endorsement, do you mean verbally or financially?

Caleb Hanson
- Both

Harter
- Should we be aware of anything

Caleb Hanson
- You can only run one person per position, there are financial regulations, running as a party does run an increased risk, and if the party gets 5 infractions the entire party can be disqualified.

Harter
- Are you going to be able to let us know what we should know in terms of legal code

Caleb Hanson
- It is section 18 in the bylaws, and section 11 in the constitution. As well as, article 18, section 5 or 6 in legal code.

2. **Taylor Iden - Attorney General (7:43PM)**

Taylor Iden
- If you have any feedback on my participation in the meetings please let me know.
- This is not an urgent matter, it is an interesting one. I want to go back to the basics of legislation, there have been numerous errors.
- In the senate there are two types of legislations, bills and resolutions
- Bills are semi-permanent changes in legal code. They will stay after a year but they can be changed. There have been many bills from agendas that have been resolving clauses.
- You don't want legislation in the future that you might have intended to be a bill in an act cause.
- I also wanted to discuss the amending of agendas. It has been understood that the agenda after it is sent out, is the Senate's property. The agenda cannot be amended by anyone following its distribution.
- Additionally, there is not really any procedure on what to do with peer to peer confidential information in our association of university wide
- We are looking to create those official protocols and all the practices for how we handle hard copy digital files that contain confidential information.
- I know I talked a lot, any questions?

Than
- The documents in the storage unit, are they paper?
- If they are paper, are they being digitally transcribed?

Iden
- I am not entirely sure what is in our storage unit
- I am assuming they are paper

Claro
- I would love to work with you on this
- Do you think legislating this would be a good idea?

Taylor Iden
- Yes.

Luken
- Who has access to these documents you are talking about?

Taylor Iden
- The executive director has been trusted with that
- Some of the information is granted to the president but I don't know to what extent.
