Senate Agenda 11/12
Associated Students UCSB 76th Senate

Zoom Link

Minutes/Actions recorded by: Sydney Arbolado, Summer Tucker, Lili Dritz. **CALL TO ORDER** by Evan Sussman, First President Pro-Tempore **at 6:37 PM.**
This meeting was called to order at 6:37PM.

A) MEETING BUSINESS

"Before we begin, we call for students to acknowledge that the lands that the University of California locations were built upon were expropriated & founded upon exclusions and erasures of Indigenous people's human rights throughout California. UCSB is built on Chumash Land, specifically that of the non-federally recognized Barbareno tribe. As an association that pushes the student bodies' voices to the forefront, we should aim to make strides past just acknowledgment to those who continue to fight for their right to be recognized & respected as the original stewards of this land. I ask you all to dedicate time & care to personal education & to advocate for justice alongside Indigenous peoples."

A-1) Roll Call

Amna Chaudhry	✅ Present, ☀️ Early	Off-Campus Senator
Caleb Claro	✅ Present, ☀️ Early zoom	College of Letters & Sciences Senator
Mia Gutierrez	⛔ Absent	On-Campus Senator
Neo Harter	✅ Present, ⚫ Late	Off-Campus Senator
Xander Hepburn	✅ Present, ☀️ Early	Transfer Senator
Yuchang Jiang	✅ Present, ☀️ Early	International Senator

Melanie Jones	👍 Excused	College of Letters & Sciences Senator
Noah Luken	👍 Excused	Off-Campus Senator
Victoria Ly	✅ Present, ⚫ Late	Off-Campus Senator
Qhawe Manala	✅ Present, ☀️ Early proxy	International Senator
Vanessa Manakova	✅ Present, ☀️ Early	Off-Campus Senator
Nadine Malhis	✅ Present, ☀️ Early	On-Campus Senator
Olabisi Ola-Olaitan	✅ Present, ☀️ Early	University-Owned Off-Campus Senator
Keizo Ono	✅ Present, ☀️ Early	Off-Campus Senator
Natalia Pascher	✅ Present, ☀️ Early	Off-Campus Senator
Romi Riss	✅ Present, ☀️ Early	Off-Campus Senator
Erica Sherkin	✅ Present, ☀️ Early	Off-Campus Senator
Evan Sussman	✅ Present, ☀️ Early	Off-Campus Senator
Sohan Sunderrajan	✅ Present, ☀️ Early	College of Letters & Sciences Senator
Mira Than	✅ Present, ⚫ Late zoom	Off-Campus Senator
CJ Toledo	✅ Present, ⚫ Late	College of Letters & Sciences Senator
Jasmine Wang	👍 Excused	On-Campus Senator
Eemaan Wahidullah	✅ Present, ☀️ Early	Off-Campus Senator

A-2) Excused Absences

Motion to excuse Senator Wang for the duration of the meeting.
Wahidullah - Chaudhry
Call to question - Ono
This motion passed at 6:40PM.

Motion to excuse Senator Harter until 7:30PM.
Riss - Chaudhry

Call to question - Wahidullah
This motion passed at 6:40PM.

Motion to excuse Senator Toledo until 7PM.
Wahidullah - Chaudhry
Call to question - Pascher
This motion passed at 6:41PM.

Motion to excuse Senator Luken until 8:30PM.
Hepburn - Chaudhry
Call to question - Riss
This motion passed at 6:41PM.

Motion to excuse Senator Ly until 7PM.
Pascher - Chaudhry
Call to question - Ono
This motion passed at 6:42PM.

Motion to excuse Senator Sussman from 7:40PM-9PM.
Riss - Chaudhry
Call to question - Wahidullah
This motion passed at 6:43PM.

A-3) Acceptance of Proxies

Motion to accept Phoenix Marshall as proxy for Senator Manala
Chaudhry - Ono
Call to question - Wahidullah
This motion passed at 6:44PM.

Motion to accept Andrew Le as proxy for Senator Luken until 8:30PM.
Ono - Chaudhry
Call to question - Riss
This motion passed at 8:06PM

Motion to unanimously consent to move into Item D Public Forum.
Passed via unanimous consent at 6:45PM.

Motion to unanimously consent to move into Item I-8 Administrative Reports.
Passed via unanimous consent at 8:07PM.

B) External Reports

B-1) Chancellor's Representative-
B-2) UCPD Representative-
B-3) GSA Representative-
B-4) University Center Governance Board Representative-
B-5) IVCSD Representative-

C) New Business

A Bill to Revitalize the Academic Focus of the Internal Vice President's Office
Riss - Sherkin

Riss (8:55PM)
- Baden covered it all
- Replacing an ineffective position with a position that would actually help IVP office, having a relationship with academic senate
- Working with collegiate officers, understanding student demand, creating project proposals for senate
- Giving formal reports to senate
- This bill doesn't have any fiscal impact
- Would help IVP office
- Supposed to identify areas that need quality improvement

Sherkin
- Good for our sake as senators, as of right now, purely academic focused projects we need to seek out more than ideally
- Role creates less outreach work for us
- We move as senators towards a more united focus to support success of our body
- We just fill this gap that Riss mentions
- Acts as umbrella
- Or advocacy for accessibility concerns
- Big scale of what this role can cover
- Endorsed by IVP Lala, CCO Rosales, internal compliance officer Nelson
- The people that will be legislating on

Ly
- Do the authors have a committee that they'd like this to be authored to?

Sherkin
- Ideally, outreach

Motion to refer A Bill to Revitalize the Academic Focus of the Internal Vice President's Office to the outreach committee.

Wahidullah - Harter

Discussion - Malhis
- Can I ask how authors came to that conclusion? This is very internal
- Marks more sense for liaison committee

Sherkin
- Valid point
- Specifically in bill, role of this position is to do outreach at IVP office level
- We want them to present findings and go to outreach at least once a quarter
- Ideally, would go to outreach for amendments and then we discuss how we go further

Call to question - Malhis
This motion passed at 9:00PM.

Lala
- Chair and Vice Chair of outreach, look at specifically how the requirements on this role sit in on academic senate meetings, fits with the rest of our code on Academic Affairs and what their own policies are, because I think they don't allow just anyone to come in, kind of how we a little bit more restrictive
- One thing that would be worth looking at

Fall Quarterly Omnibus Bill
Than - Wahidullah

Wahidullah (7:33PM)
- Senator Than is unable to come to the meeting today, but I will try to speak in somewhat about specification
- If you guys are unaware, as a committee regarding our code and our procedures and stuff,
- Typically on a quarterly basis, we do try to communicate to BCUs regarding any legal code changes, or communication about their legal code changes that they would like to send to us
- We holistically create a thing called omnibus bill
- For anyone that had any additional questions about things that are written onto the legislative piece
- Overall, purely an update about fixing some legal code languages of BCUs
- Nearly all the changes came directly from BCU chairs
- Made sure all their requirements and needs would be met
- Hopefully once this is referred, liaison committee will fix any additional amendments

- It might be presented on some particular things that a few BCUs were maybe temporarily removed, because of the due date to last Sunday night at the communication about this for the final version
- Only because some of the chairs, as Senator Than mentioned to me, did not respond in time before Sunday
- We wanted to have one last final check in
- Will be referred potentially to committee
- No disagreements about this, mainly formatting and legal code
- No substantive budget or policy shifts
- That also just ties into report

Sussman
- From my understanding, liaison committee works with BCUs and requests changes to legal code
- Looking at this bill, couple of BCU positions that would be added that would be duplicative
- Largest concern is BCU that's requesting 6 or 7 positions be added
- Those positions would change their 14k budget to allocate 9k of that to honoraria
- As AS we have duty to utilize funds for students, not ourselves
- Deeply concerned that this BCU won't be utilizing resources
- Mcihael said we are to provide resources to students
- 5k budget where 60% is allocated towards themselves, deeply concerning

Wahidullah
- Clarification, unfortunately in regards to committee tasks, they communicated to the best of their ability
- I completely understand the concern
- It also ties towards an event report that they tried to do this final communications about this to ensure there's any alternative things we could concur about the formatting, about these fiscal impacts.
- Unfortunately because of emailing and lack of communication, this is like the whole decision about why this and its original form
- Hopefully once they communicate or referred to other committee, we'll have better communication, they're more than welcome to come to liaison committee meeting
- Make sure that they're still under their honoraria policies and will use their funding for the best of students

Sussman
- Because this BCU hasn't been cooperative in conversation
- If you guys look at article 4, disbursement of AS funds, subsection 7 says cooperation
- How well does group cooperate with and support AS
- What is their fiscal responsibility, operating and communicating with senate
- Not trying to be very strict, but we have these policies and procedures in place

- Not utilize AS for what is perceived by student body, which is a giant bureaucracy
- Financial transparency and good practice

Pascher
- Not sure why we're not saying the name of the BCU we're talking about
- Talking about EJA, seeking to add 4-6 project chairs, 1-2 student affair chairs
- Just to clear it up
- Don't necessarily agree, problematic that 60% is going towards honoria
- Have to consider that we're sitting on a lot of money and need to spend it
- Would be curious if EJA has a specific need and project for these positions
- Don't think that was supplemented
- Wanted to fill in everyone on what was being discussed
- If we have money, we should spend it
- We could do it through a lock in fee, could do it another way

Than joins zoom at 7:43PM.
Sussman leaves at 7:44PM.

Than
- Few notes
- On my report you can see I sent this last monday to all the chairs
- Don't want to disenfranchise people who
- Co chair, living history project chair, and coastal fund chair
- Which I had to remove just because we didn't finalize it again before the legislation date, and I have plans just to amend those onto the on this bill to whatever committee this gets tabled to
- Because of that, explicitly wrote on EJA's legal code several comments about their positions
- Did see they reviewed it but then didn't respond to any of my comments
- Often, people would forward emails
- Regardless, I apologize if fiscal impact is incorrect
- Didn't receive correspondence about fiscal impact
- Didn't see how much people got paid
- Necessary for this omnibus bill to come out, several things BCUs needed immediately
- Anticipated getting more correspondence from these BCUs and even now they haven't reached out to me
- Going to their meetings and will talk to them directly

Wahidullah
- Due to time inconvenience to other BCUs in omnibus bill, had to communicate to senate body ASAP
- We've tried our best to communicate in multiple forms to EJA
- This is what has been represented

- This was done in the best of our capabilities
- Whether communicating, again, their urgency about meeting in person, as well as regarding to this specific BCU about the fiscal impact and about particular positions, whether or not to change or not to change or fix them in the best of their ability to help make this the honoraria as efficient as possible

Ly
- To Sussman's point, if the BCU themselves hasn't confirmed their legislative change, shouldn't be adding it onto the omnibus bill
- Can still make legislative changes for other entities
- That is in legal code, they haven't been communicating with us, shouldn't be granting them 6 extra positions when they haven't communicating with us
- Yes AS has a lot of money, but the fees that are going to BCUs are being used for a specific purpose
- Don't know if 60% of that should be going just to their positions

Chaudhry
- I concur with Ly

Pascher
- Share same sentiment with senator Ly
- Would be helpful if finance committee would have a rough estimate of utilization percentage
- What is an average utilization that BCUs have?
- Is there an average utilization that BCUs have that is dedicated to having their honoraria in terms of their budget?

Malhis
- Can find something for you

Than
- I agree with Ly and Pascher
- Food bank also did not correspond with me on this, had to enumerate myself
- Have no qualms with removing position
- Lots of BCUs emphasized the urgency of their legal code
- As a senate leader, wanted to make sure it at least came to senate
- Do agree there was a lack of communication, and I did give them enough time
- Attempted to correspond, received no feedback
- Don't mind removing these

Harter
- First I want to preempt the motion
- The budgeting thing, just a percentage of what they're currently allocated
- If we dislike how much of their budget is taking, we can reconcile issue by allocating more money if necessary

- Seeing that communication hasn't been transparent, needs to be more work done with this bill, it'll be tabled to a committee anyways, want to motion it to outreach

Pascher
- Liaison makes sense for this. I think just in the future, a simple sponsoring of the chair of the committee would suffice for establishing that form of communication really, how we're writing legal code for BCUs that aren't meeting, but I would agree that this is going to liaison

Lala
- Think you may have misunderstood
- Omnibus bills are function of liaison committee
- Would make sense for it to go to another one
- Purpose is to get eyes different than those

Jaing
- Have numbers Pascher was asking about
- Don't have percentage of how much was honoraria
- Based on last year, end of year budget is 5,000 something out of 7,000 budget

Pascher
- More talking about an average utilization number around BCUs
- What's their budget being spent toward honoraria
- Don't see the rush in tabling this
- We're not all going to table this
- We absolutely have the right
- Nobody should have to ask if they're recognized, allowed to speak
- Once recognized, you're allowed to speak on whatever you like
- If you could give it to a body real quick that would be great

Lala
- Senator before I accept the motion, do you have a rationale for why the outreach committee?
- We're already established liaison committee can not, or it wouldn't be traditional
- The idea we're trying to uphold is revisions
- Not necessarily opposed to finance committee, but it hardly ever happens because it's not what they do
- Logically, it leaves outreach committee, don't have anything referred to us right now, we'd be happy to take it on

Lala
- It's within your range of choices, not illegal

Motion to refer Fall Quarter Omnibus Bill to outreach committee.

Harter - Wahidullah
Call to question - Ono

Objection - Sherkin
- This isn't on basis that I don't think outreach committee isn't capable
- We did have two pieces of legislation discharged before, we're capable of taking on more legislation
- You guys are free to make that choice however you want

Hepburn
- Say multiple people have their hands up
- Ono for call to question, she had her hand up for discussion

Lala
- You're right, but hard to know who will call to question
- On the understanding that this isn't contentious, the options are Sherkin could choose not to rescind and ono could rescind call to question or we'd go into vote to vote
- Sherkin do you rescind?

Sherkin
- Need more clarification

Lala
- If you rescind, essentially motion would pass
- If you don't rescind, we go back into discussion
- If you don't want this passed, wouldn't rescind

Ono rescinds call to question.

Back in discussion.
Malhis
- Since we're discussing this bill, will say this data
- Last year, getting this from 2026 budget deliberations spreadsheet
- EJA was approved $13,492
- Just did short calculation
- It's about 70% goes to honoraria for BCUs
- Which means 30% of 13,492 is $4,047.06
- EJA had rollover of $3,348, they spent $620 the entire year
- Just some numbers saying they spent 620, didn't know what it was spent on
- This is just info for everyone to know
- Encouraging people to use their money

Harter

- Obviously I dont care where this go
- When me and Sherkin discussed, seemed they were working on legislation
- Advocacy should take this bill, outreach doesn't want to take it, was just trying to be considerate

Chaudhry
- We can refer it to liaison, or would it be a conflict of interest?

Lala
- Highly not advisable
- You are able to amend the main motion to reflect something else and then proceed

Wahidullah rescinds second, Harter rescinds motion.

Motion to table Fall Quarter Omnibus Bill to advocacy committee.
Harter - Chaudhry
Call to question - Sherkin
This motion passed at 8:04PM.

Motion to unanimously consent to move into acceptance of proxies.
Passed via unanimous consent at 8:05PM.

A Bill to Establish Standing Policy 44: Use of Artificial Intelligence and Large Langu...
Pascher - Luken

Pascher
- As I mentioned earlier in the meeting, AI is ever changing and becoming more integrated in our everyday lives. I thought it would be prudent for Associated Students to adopt guidelines on this matter. This policy is shaped off of the policy that the university of Exeter uses. That is the same university where the IVP spent his summer. It establishes a set of guidelines for the association to reference back to make sure we are being dynamic in society and technology. What this policy does is not only outline the association's position on limited AI use but it lays the groundwork for future senators to come out and amend the standing policy, instead of having them create entirely new standing policy. As I said before we were unmuted, we use AI, otter AI, there is precedent and there is a need for guidelines regarding AI.

Luken
- This is exactly what Senator Pascher said, a guideline for the use of AI. It is a standing policy therefore it can be easily changed. I strongly suggest adopting this for our association and I would recommend it get referred to liaison.

Lala

- I actually studied at a different university but I stopped there on the train

Sussman

- Thank you guys for putting together this policy. The only thing I would recommend is we add that AI cannot interpret legal code on behalf of senators. That is just the interpretation route. If we have AI interpreting legal code instead of the Attorney General, that could be bad. That is the only thing I would add.

Ly

- I had a question about Section D, prohibited use of AI. One of them is generating legislation without proper citation disclosure or fact checking. Does that mean a senator can use AI but then clarify they used AI?

Pascher

- Within the standing policy, it will refer to the same academic integrity policy of the university, is what it refers to too. It is my understanding that AI use is useful too. Whether you guys agree or not would be reflected in your voting patterns. I personally hold the sentiment that it's okay to use AI to put together large sums of data and process large things. As long as you are citing that and screening it, that would be acceptable. I have picked up on some legislation that appears to have been generated by AI. It was not only generated by AI but not screened properly. I think that is why, perhaps, we are seeing an increase in legislation that is far too long, not concise and overburdensome. So I would hold the position it is okay to use it in the first steps of legislation creation but so long as it is screened and cited.

Motion to refer a bill to establish Standing Policy 44: Use of Artificial Intelligence and Large Language Models in ASUCSB to Liaison Committee
Luken–Hepburn
Call to question- Wahidullah
This motion passed at 9:28PM

Luken

- I would like to motion something now.

Lala

- What is it?

Luken

- Something I sent out about the president

Motion to amend the agenda and add a resolution calling on UC President James Milliken to instate recurring meetings with student leaders to the outreach committee.
Luken–Ono
Called to question- Wahidullah
This motion passed at 9:29PM

Luken

- There were some minor or grammatical formatting edits. This is what the president had given to me. If it is not already passed, it is in the process of being passed at every other campus's Associated Students. It is calling on the president to continue the long standing traditions. It is my opinion that they should continue to be followed.

Lala

- Does the author have any ideas on which committee would be most relevant?

Luken

- Advocacy or outreach

Motion to refer a resolution calling on UC President James Milliken to instate recurring meetings with student leaders to the outreach committee.
Harter–Pascher
Call to question- Wahidullah
This motion passed at 9:31PM

D) PUBLIC FORUM
[1:30]

Speaking agreements:
"You have three minutes to speak, with three minutes for Q&A. Please state your name, pronouns, and enunciate, but refrain from yelling. Speculation of a Senator's intentions is prohibited and may result in you being removed from the ability to speak on the floor. Please know this meeting is being recorded. You may speak on any issue, whether it is on the agenda or not. Please include a content warning if it will be graphic. You may only come up once, and you may choose not to answer questions."

CCO Baden Rosales (6:45PM)

- Service of chief compliance officer, he/him
- Speaking briefly in support of bill brought by Riss and Sherkin
- Bill to revitalize academic focus of president's focus
- Bill takes role that is ineffective and redundant, internal compliance officer, checking ADA compliance around campus
- Realistically doesn't have enough support to make effort meaningful
- Theres a gap missing in internal vice president's office
- Though it says office is to support students, no roles supporting that
- Nothing to help change academic policy or support double majors

- Very grateful for senators that helped bring this bill, helping shift this inactive and ineffective role to something more helpful for students
- Because we have two offices, SAG and CODE which can help support those needs

Wahidullah
- Skimming it, great achievement
- Can you provide more elaborate details on the position in particular

Rosales
- The person currently in this role, unable to speak today
- What he's been doing, focused on currently getting engineering students the ability to double major
- Currently, if you study mechanical engineering you can't double major
- He wants to be a competitive student, wants more options
- They're trying to find a way to make it happen
- Stuff like that is what he's working on
- Trying to make text broad enough, we expect to change and modify the position
- Internal support is a good point
- We referenced outreach committee and also working with the collegiate centers who would also have an interest
- We see his role both as furthering that cause and being a person of support

ASIAC Nora (she/her) Will (he/him) (6:49PM)
WIll
- Co-chairs of investment advisory committee
- BCU tasked with investing a portfolio of fixed income and equity securities on behalf of associate students
- Here to talk about our new initiative, brought by outreach committee
- Investment policy statement
- Statement that outlines committee's investing goals, what can be included/excluded in portfolio, asset class breakdown, risk management policies and risk tolerance
- Helpful for two reasons
- Increasing transparency, we receive student fees and want to make sure were being collaborative
- Secondly and more importantly, IAC is also charged in legal code of overseeing AS reserves
- To do this, we may need to enlist support of external manager
- These are required if we want an external manager like fidelity to have some level of authority over reserves in risk free assets
- Everyone contact us, can find our contact on our website
- Would really encourage you guys to reach out separately

Wahidullah

- When it comes to the process of facilitating an external manager and having that implemented, have you guys undergone the process, go into detail about implementing the manager?

Will
- Were in initial stages right now
- It's not certain that we'll need to enlist support, would be helpful to have this in place so that in the case we do
- Still determining whether it's needed and cost effective
- High end bank account or treasuries

Wahidullah
- Are these investment initiatives specific to the outreach committee?

Will
- We've just been in contact with Neo and Noah about this
- Perhaps in the future, more effective for this reserve oversight aspect to be managed by the committee, currently in legal code it's our duty, currently no we're not in collaboration

Wahidullah
- I just met like, in the purpose of, like, you've also been communicating to, say, understanding committee for these other purposes, like, you know, advocacy committee for that just general knowledge

Will
- This is our first time reaching out to senate at large

Malhis
- Would encourage you guys to come over to finance committee and speak at our public forum or give a report on your guys' path and recommendations for this year for the department's reserves
- Having our financial ops team sit there and listen, we can come back and talk about the most feasible options
- How to get the most out of our reserves and gain interest off of it
- Every single year, we end up cutting reserves
- And statistically we cut out increasingly more reserves
- Have more conversations with financial operations team
- Work towards that

Senator Xander Hepburn (6:56PM)
- To clarify, I'm representing speech forensics right now, a team who works with debate team
- I'm presenting for them
- They went to finance committee earlier for their debate tournament this weekend

- They used their one time exception, rejected on the grounds that they weren't a SEAL entity
- Confusion on this
- They have been an entity for more than 5 weeks, all last year
- Now, as of today, they are an official SEAL entity
- I'm asking senate to confirm the money they now need
- 7,000 to be taken out of fall quarter budget
- To my understanding, this would've been approved if not for the SEAL thing
- For vote, I'll abstain
- Later in meeting, I'll have someone make a motion that we do support this

Malhis
- I know there was contention about speech forensics about not having an AS account number

Hepburn
- Emailed Vincent about it, he hasn't emailed back, it should be in ASAP

Malhis
- Some of the grounds which finance comm declined, speech forensic traveled a few weeks ago, finance committee made a mistake in granting you guys that money for the request
- Someone said you guys would have to pay out of pocket for the TPS
- We can fund you guys regardless if you're a SEAL entity under the stipulation that you guys get approve
- But if you don't have AS account number, you can't get reimbursed
- Would recommend if seeing if Vincent could get back to you guys

Hepburn
- To clarify, we are guaranteed to get this number
- Vincent has been supporting this
- We can pay the requisition out of pocket and not pay it back until we get the number
- Even if it took weeks, we could still do it

Jiang
- Just checked the status it's still not a club

Hepburn
- Yes, that is shoreline, and they're working on it right now. So I told them that all the officers have done it. That was the previous issue. It happened literally today, so either the system wasn't updated or bugging on again.

Jiang

- Yeah, because I have someone, I just want to double check make sure it's not an update issue, because I just checked there is someone today
- There is someone today that had their approval

Hepburn
- To clarify, this will be registered all things, this is admin stuff on shorelines end
- SEAL who has to complete their thing and they will do it by tomorrow

Malhis
- Wouldn't encourage doing this
- SEAL can make promises but they're so behind
- Can't guarantee
- We had that situation for TPS
- Don't wanna promise you guys money
- That's a safety and liability

Hepburn
- First, we'll take that risk, we're confident it'll take approve
- The reason it didn't get registered is because someone didn't fill out a shoreline officer agreement
- Everything has been done, it just needs to happen administratively

Chaudhry
- I believe, under the stipulation it gets approval

Jiang
- My suggestion, we'll approve it on the stipulation of first SEAL registration approval and the receipt of account number from Vincent.
- Not retroactive, would add a time before this weekend
- The situation is policy

Hepburn
- This will be a motion we'll discuss later at this meeting
- Good discussion

IVP Lala enters at 7:03PM.
Senator Ly, Senator Harter, Senator Toledo, AG Iden enter at 7:03PM.

Motion to unanimously consent to move into unit reports.
Passed via unanimous consent at 7:04PM.

E) Acceptance of Agenda

Motion to accept the agenda as amended
Luken- Chaudhry
Call to question- Ly
This motion passed at 11:05PM

F) Consent Calendar

G) Action Items
Moved here at 9:32PM

Malhis
- We met on Monday, and we approved the minutes. Would it be on the senate floor or do we have to communicate with you guys?

Lala
- Is it okay if we just do that next meeting?

Sussman
- When there is a discharge of the bill, it is emailed to senate leadership, with or without amendments. That wasn't communicated with us and it's not pressing to be motioned on.

Lala
- At some point we have to start enforcing precedent

Pascher
- If you guys feel its of time urgency, you would just have to justify why there is an urgency for it

Jiang
- USSA fund is
- Per legal code, there is this weird special place for USSA fund where for other mutually managed account
- We have the authority to go both ways
- On travel and publicity requests
- For all other accounts we have this choice for student body
- For USSA they have to go to EVPSA and then finance committee
- Finance committee is the most frequently visited route for students
- There is a timely manner for their requests
- We have to retroactively give exceptions to requests
- I wouldn't say this is timely in terms of oh yeah u have to pass this bc its finance committee
- I would appreciate that this is not just convenience for finance committee but also the student body

Lala
- I asked if its the USSA one

Jiang
- Yes

Motion to amend the agenda and refer to establish joint oversight of the USSA fund out of finance committee with amendments as it has been discharged from finance committee meeting on November 10th
Jiang- Ly

Malhis
- Point of information. It's weird for the finance committee. Lets take a Liaison Committee, in 2 days they meet so someone can go to the Liaison Committee in regards to their bill. Its on Friday so they can get referred out and back to senate
- If we refer to the finance committee, they have until Monday and then another 9 days for it to be passed. Is that not the case, or is that the case? I'm just confused, just for discharging things to senate whereas other committees don't have that

Lala
- If its not pressing it can wait, if not, we will mark it as late

Luken
- To your point Senator Malhis, to clarify that bills and resolutions from committees can be added to the deadline senate night. I think that we can easily solve that problem because I agree it is a problem for outreach as well

Pascher
- It's my understanding that the fact that the finance committee meets on Monday is because the chairs of the finance committee didn't send it at all. It's just the fact it wasn't emailed to senate leadership. It's the chairs responsibility to send it to senate leadership.

Lala
- Thats correct

Called to question- Luken
This motion passed at 9:41PM

Malhis
- Senator Jiang said it perfectly

Lala
- The changes are reflected on the document which is great

Luken
- I don't have any issues with the bill. They are taking care of things that will help students which is awesome. I think it is being horribly misused. I refer everyone to the report from the last meeting. I think something needs to be done about this. It may have to be something taken care of during election season or later on. Students are being grossly misled, and there is no transparency to what students vote on and how the fee is being used

Malhis

- So if it makes you feel better Senator Luken, I did discuss with the executive director to remove this fee. UCSB is not active, and USSA is not super active and that's the issue with it. He said it's a complicated thing but he'll look into it. He also agrees that this fee is strange and hopefully we can push our focus into finding ways to get rid of it

Luken
- I've also looked into it along with Senator Manakova and the former student advocate general. I would implore everyone to read the report to understand the urgency of this.

Lala
- Is that available to all senators?

Luken
- Yes I motioned it on last meeting

Motion to adopt a Bill to Establish Joint Oversight of the USSA Fund
Sussman- Chaudhry
Called to question- Ly
Handvote:
Yes-16
No-0
Abstain-3
This motion passed at 9:47PM

Judicial advisory request
Luken
- Judicial Council said this is not how to request an advisory opinion

Lala
- Would you advise something that the senate takes until next week to draft what they are looking for and then send it to you?

Judicial Council Member
- Yes that would be best

A Resolution to Establish the Language Revitalization Grant Program at UCSB referred out from Advocacy Committee with amendments

Wahidullah
- I believe that maybe the the committee that it was specifically amended from can speak a little bit more regarding towards the changes, but at least from my own perspective, in regards to the fiscal impact and holistically communicating about this product program still, as it stands

- I have communicated to all inter like all stakeholders, all committees and all entities are present and involved in this initiative, and there's still initiative, and they're still up to solidarity and support, and they've communicated they are capable in their capacity
- Still, despite the time of conveniences and stuff that still continue to pilot programming, and we're from the best of the Enri towards the BCU that the allocation of funding will be going to, as well as just like the communicating of our partners to this, similar to previous legislation I brought upon to the Senate body I've all approved and communicated is they are able to do continuing this product program and still up everything is good to go from my own personal standing and from legislative things, I believe the only thing I really specifically change has been formatting

Harter

- Language Learning is a vital facet of the human experience, and this, this legislation, is obviously written in that essence, and so we just ask for your support in that and supporting the human experience in that way. I wanted to thank the co author of the bill or the resolution, Senator Wahidullah, for contributing her efforts to this and to the advocacy committee for contributing their efforts to this as well. And I wanted to thank the body as well for entertaining it. I yield.

Lala

- Just to confirm, the long parts which are in purple are because of formatting issues?

Luken

- Yeah, I just want to give a quick personal anecdote to the story. My girlfriend was born in Thailand and moved to the United States when she was young, and she's never had an opportunity to learn Thai, her native language, because it's difficult to find courses, or they're expensive, and at UCSB, nothing like this is offered, or nothing in Thai is offered.
- And so when she first heard about this, she was super excited. I know the authors put some information out on Reddit, and she saw it on Reddit. I didn't even bring it to her originally. She just saw it on Reddit. Said, Oh my gosh, this is so cool, and she's so excited about it.
- And so I think that that speaks to the impact that this may have, that there are other students like her on this campus that would benefit from this. And so I'm expressing my or I'd like to express my support and say that I will be absolutely voting yes on the super cool, super cool revolution.

Ly

- Two questions, I know it's 750 per student. Is there a cap on that? Like, is there like a cap on how many students were accepting for this program? And then my second question is, how are you planning on doing outreach for this, okay, two

Wahiduallah

- Regarding those two particular questions, the co author can also reinstate their own additional comments towards those questions too. But when it comes to average in this particular programming, I already communicated to said bcus

Inside the entities about this for their own individual social media marketing, media communication marketing, and bring their own interconnection to other RCOs organizations, clubs from like grassroots community movements and communication as like scenario, we can mention about even just from community outlets, of just Reddits and things like that, of people just showing their interest about this.

- We communicate how it's in their capacity, with their own social media programming that they are able to do so, and just reach out to other clubs to support and when it comes to just 750 cap, we've communicated about that that once was this will be fully passed and stuff based on the cap of the particular fiscal impact. We will be evaluating this afterwards, about how many we can reinstate into the pilot program for the fall quarter, and depending on that, how much of the capacity the BCU can uphold, also depending on the time and conveniences that will also be dependent on this fiscal impact.
- And then based on that, we can see how much we could fluctuate on participants and quarterly basis, depending on how successful the model is, we could ever increase and decrease participants as well. So I hope that answers it so well, if the chair will equip that and forth.

Pascher

- So kind of following that line of questioning about the finances, this is said as finance and business code section seven. But you mentioned that the funding would come out of the BC use budget, or did I misinterpret that? Not misinterpretation. It's not from the BCUs budget.

Wahidullah

- I'm saying that once the allocation of funding is going in housing assoc, they'll housing under the BCU, they'll be able to facilitate that funding

Pascher

- This would essentially become out of the larger sum of money that AS has added to BCU budget?

Wahidullah

- Yes

Harter

- In regards to the question about outreach strategy
- We’re gonna be intentional about reaching out to other established language departments that don’t have the capacity to provide these services
- Example would be french, spanish, hebrew, and linguistics department

Motion to adopt **A Resolution to Establish the Language Revitalization Grant Program (LRGP)**

Luken- Chaurdy
Call to question- Ono
Objection-Malhis

- I believe that this should go to finance committee before adoption
- In the whereas clauses talks about having a finance officer
- This was not communicated to our office at all and we should communicate and collaborate

Lala

- We go to vote to vote
- If you vote yes, we go into vote to adopt resolution
- If you vote no, we go into discussion

Yes: 8
No: 8
Abstain:3
Vote to vote does not pass, back in discussion

Harter

- I personally don't see an issue with finance committee overlooking this and making sure we dotted all our Is and our Ts are crossed
- If there is a general antipathy, then id ont mind it going to finance committee
- We know the money is there but I don't mind doing that

Luken

- I think it's fine to go to finance committee but a little disappointed that this bill was on the agenda, went to another committee, and now this is coming up
- There was a lot of time to voice these concerns before

Lala

- I thought this was resolved because I know the Attorney general brought up this earlier
- Whereas are not enforceable, only therefore clauses are enforceable
- Dollar amounts are in the whereas clauses
- Just letting you know this functionally does not do anything

Pascher

- I would just like to say that this is clearly as a result of this being nine pages, a lot to keep up with. There's quite a lot of substance here
- I think there's two options here, and it all lies in the burden of responsibility of having this carve out for the finances. You either have it go to the Finance Committee and have them input, or be aware that this is coming to them, that they are going to eventually have to carve out some sort of account for this to happen, or some sort of financial procedure for this money to be allocated.
- Or it falls on the the burden falls on the authors to follow up with the finance committee and make sure that this happens. Otherwise it's going to get lost.

- And so I, if it were my bill, I would personally transfer that responsibility to someone else, because it's a big and hefty duty, and I know that you guys are busy, and so ultimately, this is kind of a safeguard and give me for not catching it.
- But this, I think this is a reminder to people that are drafting legislation not to make your legislation over-encumbered, because it's quite like things get lost in the legislation when it's too long and it's too difficult to dissect. And so I would welcome you all to kind of understand that that burden responsibility is going to either be on the authors or it's going to be on finance committee, either or

Jiang

- I think I have just two main points to address, the capacity of the Finance Committee is actually one of them. I just have two questions regarding the bill. First of all, I concur with Senator Pascher's point on this is very long, and I searched the keywords for finance, and I have confusion on the usage of phrases as finance a budget, as finance office and as finance a budget, again
- I personally don't know what that is. And second question is, from all of the bills, I'm confused with where the funding is going to come from, where's the you mentioned on allocated, but with no specifier of where, what are allocated.
- The second point is, I do not recommend it to the finance committee, because I don't know if you guys know our meeting already lasts four hours and a half just for dealing with requests and approval of the request.
- We seriously don't have any capacity to deliberate over legislation. However, I personally am willing to attend the meeting of the committee whoever is getting table of this bill to assist with the amendments that potentially could take place, but I seriously do not recommend it get table to finance committee.

Malhis

- I'm just confused, because I like this bill, it's not your bill, it's a resolution. So if it ends up getting passed, it's all right, because it's like a resolution. So I'm starting to, like, change my mind, it's kind of all right. But there was there, like, conversation with the financial operations team, because this kind of seems like something very similar to the rent support program, kind of pilot program that was something last year in which, when we're giving out grants, there needs to be communication for it just needs to be, like, communicated with financial operations team, as well as possibly, like, financial aid, when we're really giving students just direct kind of money in a way, if it's going to be used as a phrase, as a grant, and that's why I kind of It doesn't necessarily go to Finance Committee

Wahidullah

- Because there were multiple questions brought upon here, and I was trying to answer one by one individually. So correct me if I'm wrong. I missed some of them in particular. But when it comes to communicating about this properly to, like I already mentioned earlier, to entities regarding towards the fiscal impact of this, it will not be too much towards the rent program.

- I already communicate, like I said earlier, to the parties that will be allocated from the Senate and allocated to reinstate and like facilitate this programming. It is the best in their capacity. They are able to facilitate this properly. And when it comes to things as IVP mentioned, and specifically as when it comes to whereas clauses, you don't have to be specifically enforced. I do apologize. I am looking at this now seeing the fiscal impact about this in particular, that is in the whereas clauses. But again, the advocacy committee just medicated things is fine.
- But when it comes to things about just wording. Maybe the said people have mentioned about, or have communicated about, the air, concerned about the finance operations or finance committee members or finance entities and stuff about it. It's not I made it for the purpose that it's implicitly stated there as examples. It's not specifically enforced for them.
- But the main thing, if you look into this more closely, is that we have a temporary supervisor committee that is facilitating, overseeing this thing, establishing all the marketing communication outreach about this programming, beyond just to offer it. As those finance committee members, there will be some others about these issues or financial fiscal impacts.
- And if anyone from the finance committee, or people knowledgeable about finance wants to be involved, that they are more than obliged. But when it comes to holistically, all things are mentioned about, it has been communicated properly about. And there's a temporary supervisor committee that will be facilitating these things, including fiscal impact. If the Finance Committee is thick it's in their capacity, and that's why I think again, if it's needed, I don't mind if you have to refer to particular committees. I just don't think that it's necessary, after looking at this and communicating it further, that it can be facilitated properly
- And I have made sure all parties are successful when it comes to this product programming, and it should be fit to go as well as already mentioned about so I don't see where there would be any other issues about this. So that's all I have to say from that. So if anyone has any additional questions,

Lala

- If something has come back from committees with amendments and purple like strike through, let's say of things that were to be added on and have been striked through was the past tense.
- Please do get it once they pass in that form. Please do get rid of that, like update accordingly the committee part, so that it's reflected accurately, and when the director of accountability goes in to update it into legal code, he knows what's going on. Does that make sense?

Pascher

- Yeah, if the chair would allow some quick back and forth, yeah, you and I didn't even have a chance to catch this, you're saying that this resolution is also establishing a temporary committee, or you're planning on establishing a temporary committee because, as it is, it's not establishing a temporary committee, and that would have to be its own separate thing. I think CJ, Senator Toledo mentioned this previously. He said, we're attacking legislation, not people.

We're attacking ideas, not people. So I just want to keep that in mind. I think that's very well said. Quite frankly, this resolution is not pointed in seven different directions, and it's just not well established. It's not. I'm just confused at what it's doing, and I know that this has been on our agenda for multiple weeks, but it's been on our agenda for multiple weeks, and it hasn't been fixed. I mean that to be quite frank, it's just it's still it's still not, I don't know what this is doing, and I think this is a great idea.

- I would maybe invite you to re-write this in a new piece of legislation that's cleaner, more concise and has more direction. Because if you're saying that the finances are going to be figured out by a temporary committee that doesn't exist, then you're asking us to vote on something that doesn't, that is going to be established by something that doesn't even exist yet
- So that is a problem for me, and I hope that's understood by everyone else. You can't vote on something that doesn't already, it isn't already going into action. I mean, I guess you can, but this is like, Wait, there's too many, there's too many moving parts to this. Is what I'm trying to say.

Harter

- Yes, as one of the authors, I have to take full responsibility for all of the issues that are discussed today. And I do take full responsibility. I happen to agree with Senator Pascher that the goal is obviously valid. It's a worthwhile goal, but perhaps the legislation itself is, is a little it's, it's not quite up to par.
- And so in light of that, and in light of, in light of pursuing the goal, I am personally encouraging you guys, actually I encourage. I endorse the idea of not passing this bill, not passing this resolution, and then Senator Wahidullah and I going back to the drawing board and correcting this.
- This legislation was written at the very beginning of the school year. Perhaps even before it, before we had gained some more experience. And then, obviously there's multiple failures. It didn't get corrected correctly in the committee, etc, etc. I entertain all of your guys' arguments, and I think they're valid. So I'd be willing to, I wouldn't be willing to rewrite this legislation.

Sussman

- I was gonna say, I think there's kind of two routes that we can take. One the authors, and this is kind of up to the chair, a motion to withdraw the bill from the Senate, and that would effectively just bring it back to the author's hands, or we'd motion to adopt and then if the authors want to rework it within motion to fail, or we could Senate.
- And it also just comes off the Senate floor, and it can go back some of these hands. So I think those are kind of two routes. I don't know if a withdrawal is typically not seen within this legislative body, but it's seen in the California State Legislature and other legislatures.

Harter

- If we do withdraw, are we tied to any of the initial essence of the resolution?

Lala

- It is not within the senate in any capacity

- There is no precedent of withdrawing legislation in my time in the senate

Jiang
- Yes, I just want to make a comment with the resolution. But it's not like repeating what I just said. I just want to offer that, like, all the things I pointed out relating to fiscal impact and relating to finance committee, would it be helpful if I just write, like, a recommendation of things that need to clear out and details, because I don't want to just point out problems and hope that you guys just fix it, because not everybody is familiar with financial situations.
- And I just sincerely just want to say, like, I sole you prove the goal that you guys are Amy. I'm really sorry that this kind of gets confusing a little bit, but I would do my best to assist on the finance part.

Ly
- I don't think it necessarily has to be reworked, because the essence of the bill is good. We've all agreed on it. It's been on the agenda multiple times, as we've all mentioned. It's just the finance aspect, and also IVP Lala question for you, if a temporary committee is being established, which is written in the whereas clauses, does that have to be also in this therefore, be it resolved area that a committee is being established

Lala
- There's also a question of speaking, to some extent, the senator Pacher point of what one is trying to accomplish with a resolution. These are different types of resolution, right? There's directional ones saying I would like to see Executive Director Lieberman do 10 jumping jacks, I don't know. And then there's organizational ones which you know, which fall within the category of setting up temporary committees.
- And it's not exactly clear to me that you would do all of those things into one

Motion to adopt a resolution to establish the language revitalization grant program (LRGP)
Sussman–chaudhry
Called to question-

Pascher
- Do you want to withdraw it?

Harter
- I would like to rework it looking back on it. I do not want to pass something that is not up to par.

Sussman
- Adopting is a vote on the bill
- Either you withdraw and it fails

Harter
- I think it should fail

Malhis

- We have a lot more agreement now
- The resolution is 5 pages of whereas clauses and a lot of them should be resolved clauses
- This needs to be rewritten

Motion to strike adopt to withdraw
Luken-
Lala
- What is the motive behind withdrawing
- There is no precedent to withdraw legislation

Pascher
- That would be changing the nature of the motion
- You can’t amend the motion to be something different in nature

Manakova
- Why can’t we table this

Ly
- We can't just table this

Lala
- There's no reason we should be spending 25 minutes on this

Called to question- Pascher
Handvote:
Yes: 6
No: 8
Abstain: 5
This motion fails

Lala
- An abstention does not count towards the final vote

Luken
- If a motion to adopt fails then is it gone?

Lala
- It's gone. It comes before the body and it's nowhere in the body. The body thought about adopting it but didn’t

HIP GenCo Proposal referred out from Advocacy Committee with amendments

Ono

- The issue at hand is that the amended version is not what was referred onto the agenda. I have that amended version and I'd like to motion that on.

Lala

- I would welcome two things, strike the incorrect things and then you can add it on. That is the procedurally right thing to do.

Motion to strike HIP GenCo Proposal referred out from Advocacy Committee with amendments
Ono- Ly
Called to question- Sherkin
This motion passed at 10:23PM

Motion to add to the agenda [Amended Advocacy Committee] HIP GenCo Proposal referred out of advocacy committee with amendments
Ono- Ly
Called to question- Harter
This motion passed at 10:23PM

Luken

- Can the advocacy chairs or anyone from advocacy speak to what the amendments are?

Ono

- The amendment that we did is just in the budget section. The budget section is page 12. it was just a discrepancy between the unit count and unit cost. It was listed as 4. We reduced that to 2 to reflect the unit cost, $1,500 per dorm. $1,500 per dorm and 1 unit is defined as 2 low tech dispensers. That was the amendments we made to make sure it all checks out.

Motion to adopt [Amended Advocacy Committee] HIP GenCo Proposal with amendments from advocacy committee
Luken- Ono
Call to Question- Sherkin

This motion Passed at 10:27PM

Motion to allocate $3,000.00 from Senate Unallocated to Senate Advocacy Committee to expend on impactful student-facing projects in line with its mission statement

Lala

- This is the idea brought by myself to Michael to allocate a certain amount of money from unallocated. Obviously we should discuss this, but we can discuss itall in one and proceed with the motions as you guys see fit.

Ly

- Why is it 3k for each committee and why the same for each committee?

Lala

- Because it's a relatively modest fund. People request from unallocated and hashtag equity. No one committee has spent significantly more than the other. This is kind of the stage where we are proving how much committees need per budget

Malhis

- There's something in the budget cycle. Essentially every entity in Associated Students goes to the budget cycle committee formed during winter quarter and presents how much budget they will get and how much they will spend on projects. We go over line items of every person's budget. This is under the implication of you get what you get. If there is a circumstance that you exhaust your budget and really need the money, you can get it from the senate unallocated. I'm confused why we are doing this now when each committee should have their own budget.

Lala

- Committees have budgest for honoraria and like $1,000 for food. There has long been a precedent for reallocating during the year. This has support of the associate director of finance, who would not be supporting something against policy

Sussman

- The director of budget and finance said this past week that we are a nonprofit and our job is to produce and connect with the student body. It's to make sure our students' lives are easier, not to pay ourselves at the end of the day. I think allocating more to these committees, if we are able to use more money to directly benefit our students, whether it's the parallel light tunnel or the pumpkin patch, I think that's the general idea, this money is not to be used for internal funds but for direct tangible needs of the student body.

Jiang

- Not to go against the idea but being disappointed with BCU minutes on their reviewing of funding requests. For any committee that got reallocated money, be very detailed with your spending and record it in your minutes. It's the same standard we hold for ourselves.

Lala

- Just reporting from conversations with Michael, that's part of this, it incentivizes more spending. The other side is each committee needs at least 2 authorized signers. Each committee needs 2 authorized signers and you keep track of what the motions are

-

Motion to allocate $3,000.00 from Senate Unallocated to Senate Advocacy Committee to expend on impactful student-facing projects in line with its mission statement
Ly- Harter

Malhis

- Our precedence has been that you use up your whole budget even if that means reallocating from honoraria to use your whole budget. Usually 95% of the budget is honoraria. I'm just saying that is the case.

Ly

- It's good to have a base amount so that they don't have to go to each senate meeting for more funding. They use up that 3k which I would say is a minimal amount for what advocacy wants to do. If they want to do something crazy, then they go to the finance committee. I think 3k is a good base so they don't have to go, and we have to use up our money anyway

Luken

- At least the outreach and advocacy committee had a hugely successful event. We had a hugely successful event where we gave out 400 pumpkins. We want to encourage all committees to do that

Motion to allocate up to $5,000 for the Meridia Voting System from Senate Unallocated, to be used for digital vote counting for the ASUCSB Senate
Luken- Chaudhry
Call to question- Harter
Harter
Objection- Jiang
- I need an explanation

Call to question rescinded

Sussman
- This is a digital voting system. We wouldn't have to count hands every single time. This would allow you to clock in and make our lives easier. This was proposed by Marissa. It's a subscription and won't exceed 5k per year.

Marissa
- Its a one time thing and then there's a subscription after that

Lala
- Is it $5k for the purchase of, and then you could do future motions?

Marissa
- I sent it to you guys a while ago so I'm not sure. I'll pull it up

Malhis
- Why is it $5,000, I think I can make this for free

Jiang
- I don't know if finance policy and procedures apply to the allocation of money. For everything over 5k, we require multiple quotes. Maybe I'm just cheap but I think it's too expensive.

Pascher
- How much is a subscription?

Marissa
- $4,655 includes the 12 month subscription for this year

Lala
- So for this year until this time next year

Marissa
- I need to clarify

Lala
- I'm unsure if the over 5k thing applies

Jiang
- I have a suggestion sent by Senator Manakova, we can actually use iclicker

Ly
- Have we looked into cheaper alternatives and paddles? It's a little pricey

Sussman
- Seeing that we have 15 mins left in the room, we could just rescind the motion and whoever is interested in finding cheaper options could contact Marissa

Lala
- Can we have the choice made by next week though please?

Second rescinded-Chaudhry
Luken rescinds motion

Motion to grant RCOs speech forensics $7000 out of finance committee fall 25 budget under the stipulation they are officially Shoreline approved and have an AS account number by the time they submit the requisition
Ly- Chaudhry
Called to question-

Jiang
- I have a comment. The amount they submitted to the Finance Committee on flux is 400 actually, I think Senator Hepburn said there's a rise. But I really appreciate it if we can see the supply material on that.
- That's just a common criteria for all requests. It's nothing particular for this particular one

Ly
- It's 5,428.28

Lala
- Yes, this puts me in a very weird spot, but I want to remind you guys there's a thing in legal code called policy 15, which outlines conflicts of interest. And I will, I really wish I had the Attorney General here. I won't comment on anything. I will, just like, go through it, and then you can proceed as adults, as elected officials, as you see fit.
- Essentially, in any committee or board voting matter of any kind whatsoever, any and all voting members are personally charged with responsibility of bringing responsibility of bringing any personal interest said members may have in the outcomes of said votes the attention of the committee or board as a whole, where a conflict of interest is defined as personal financial gain, personal gain of associates, conflict in the interest of interest of other committees, clubs or other again, not a very enviable position, but I think we have to operate on purely clean ground

Hepburn

- Point of information, is abstaining enough

Lala

- Usually is neither commenting and abstaining

Pascher

- I think it's okay for him to speak and explain why he is abstaining to the body

Hepburn

- Okay, to clarify. I know Enri wasn't here, so maybe I made it more. I work with speech forensics. I'm not personally going to this tournament, but I do have potential gain if perhaps we don't use all this money and it's reallocated, because that has a potential. So I'm going to abstain from the vote. I do, however, want to speak on their behalf, because I told them I would. And so for this number of it being 7000 not 5400 and change.
- It's because we are going to try and use a discount from one of our members. But that time has now passed because it wasn't, wasn't approved Monday, it's being approved, hopefully in like, like 11pm you know, and so we can't do the discount as much.
- Two, we have had huge issues with hotels in the past of literal black mold. I have a video if you want the proof mice, I don't have the video. They're too fast, and like cockroaches or other things like that. Like we have been in some boo ass hotels, to put it simply, more money will get us somewhere not deranged. And so we're only asking so that would be a total just so you guys know, instead of our original request included $2,073 for hotels with the it would then be 3500 and this is for 18 people, I believe, may plus or minus a couple for three nights.

Chaudhry

- 7k or 7,400

Hepburn

- 7k

Pascher

- First of all, is this how the Finance Committee practices their motions when they include stipulations. Number two, this is for the IVP. Is this motion even able to be substantiated? Because I know the AG had an issue with one of the motions that didn't pass in the last meeting, but it was just the motion for funding, and it was incorrect.
- And so I'm wondering if this is going to tread along those same lines? Is this a legal motion with the stipulations?

Lala

- As far as I'm concerned, we've done similar things. Even the library, for example, was along the same lines, if we'll give you this under X, Y and Z conditions. I really don't want to keep hammering this point, and I'm like counting down the minutes till we get out here.
- But there is a difference between speaking on a financial motion as a representative of an entity and speaking on the table, rather at the table as a

senator like again, I don't want to keep bringing it back to that but it really isn't for the sake of transparency.
- My guidance as chair, which you can choose not to follow, but the Attorney General's wrath shall be your own if it does come down, would be that this might warrant some precaution

Malhis
- If this motion is coming out of finance of fall 25 then if they want to use their one time exception

Hepburn
- I have clarification. You say, be very aware of this. Clearly. I don't know the intrinsic keys of conflicts of interest. I've disclosed it. I've said I'm not voting. What do I have to say? Can we do a public forum so I can talk about this? Or what would you prefer? I'll ask your general opinion.

Lala
- Policy 15 is basically what I outlined to you in like two more sentences, in the event of conflict of interest is determined to exist when you report as a whole members unable to objectively discharge the responsibility, shall abstain. So we covered that, and in order to acknowledge there's a conflict of interest, the individual must complete the conflict of interest, form the Attorney General's office and turn it into the executive director within one week of being hired.
- This was kind of redone. I hope you all have done it. If not, please complete that. The Attorney General sent that out early this fall. I've done it by disclosing all the RCOs I'm part of, every elected official should be doing that, just basic good governance beside
- And I hope, I hope you understand the difference between speaking in your capacity as an elected official and capacity as a student. And we could briefly move into a public forum, but I believe that you already covered. You already covered that part in a public forum earlier in the meeting, so that seems overdone.

Hepburn
- I do not hopefully understand the difference

Lala
- . I think speaking in terms of this, these are the details if, in fact, you are not involved or profiting from and this is what the structure of the trip is like. Is fine, maybe language like, we do this kind of thing

Hepburn
- The speech forensics team already said yes, we will use our one time exception in the finance committee meeting. Naturally, they're okay with doing it. Now I've been given permission from the President to speak on their behalf. Here, they say yes to one time exception 7k is okay.
- I did clarify to the attorney general, because I know I work with this club speech forensic team. It isn't a disclosure. I am not voting on it. I'm speaking as an individual to give clarity, not to sway you politically. I suppose.

Jiang

- I hate to be the person in the room, but by the nature of my position, I functionally have to be the annoying one of saying something I do want to say I fully appreciate, or I fully empathize with the situation of the hotel. I would say we are fine with the cost, with torment fees, which are $1,015 food per diem, $1,620 and driving $720 . My only concern is the increase I will imagine is fully on Hotel. So the hotel that they submitted is $2,073.28 and if we divide like to remove the ones we're fine with, that will be $3,645 more. And that's all well, not, not almost half, that's, that's, that's almost double of the amount they submitted. I think the grace period, I think I would prefer less than just double the amount of the hotel. I accept that, if you guys need, like, 20% or 30% raise on that due to the condition that you were mentioning, but double, to my opinion, is a little bit excessive.

Harter

- Yeah, the comment is just disconnected from the reality of getting hotels. You don't know the pricing for hotels. We can't do speech and forensics. Can't control the price of the hotels, right? Like, if the worst hotels happen to be half as good as the ones that aren't terrible. That's how it works. If you want to get the next level up. That's literally just how supply and demand works.
- The speech and forensic state for what I'm aware of is getting the cheapest possible hotels that they possibly can. And if those cheapest possible hotels that aren't literally full of mice are constantly double in their price. They did their research, and they did the best they could. It's very you can't control the price of a hotel

Sussman

- Because we have three minutes left now. I'll pose a question to the body, what good does voting no on this do tonight, and what would voting yes on this do tonight? I think the cons of voting no on procedural matters outweigh the yes's. being that this conference is soon from my understanding, but that's the question that I posed, and I hope that we can vote on this in the next two to three minutes.

Ly

- My suggestion is approve the funding for the original price senator Chaudhry mentioned because that is what was presented to finance committee at their meeting

Jiang

- I also have important context, responding to Senator Harters point, they did provide a budget sheet for their allocation of funds, like requests for their itemized budget, and within they have links for hotels they're looking into.
- And there's three links they provided, and I checked all three of them, one of them is out of room already. Two of them still have rooms that they selected, and it's an increase of like $500 so I'm open to add that $500 as grace amount for their booking. And the rating for two of them is 7.4 and 7.6 so I doubt it's really bad. It's also the link they provided. So I'm just saying that increase is acceptable, but double is a bit excessive

Called to question- Luken
Objection- Malhis

- Under fiscal year policy and procedures, exceptions to any financial policies can only be approved by finance committee and only senate when they are approving in minutes and allocations
- So we can't grant this out of finance

Lala

- This can be brought back the following week with Attorney general to make sure all is in order

Called to question Rescinded- Luken
Back to discussion at 11pm

Hepburn

- Just to clarify the tournament this weekend, in a couple minutes, I'm going to text the team, yes, we're going or no, we're not, and they're going to know if these 18 people are able to spend the three days they prepare, or the many months they prepared, competing for these three days on the monetary issue.
- The original request was for $5,400, maybe with some different fees, we would get up to 600 for the hotels to get, like, roughly the same that is okay, at minimum, supply them that, and they can stay in a shit box, all right
- They can have the shitty rooms. Or, since they're using their one time exception, they told me, hey, can we get a bit of a nicer Hotel
- They're sick of mice and black mold and cockroaches. Honestly, like, I understand fiscal responsibility. I think it's the finance committee's duty to be like, hey, this is your one time exception. Do it? I think 7k is okay, but at minimum, please vote yes on 6k or even 5400 for the tournament. That is this weekend, it has to be decided to set the meeting.

Call to question -Harter
Yes- 11
No- 3
Abstain- 5
This motion passed at 11:03PM

G-2) Old Business
[Debate Time Per Item- 15 Minutes]

H) Recess

Move into recess at 9:01 to reconvene at 9:16PM.

Report Speaking Agreement: Pursuant to Senate Standing Rules Section F, clause 5, officers of the Association providing reports, must take questions from Senators relevant to the matter(s) or project(s) presented. Knowing that, do you still wish to give a report?

I-3) Unit Reports [Speaking time not to exceed 10 minutes] -

I-4) President's Cabinet Report-
I-5) Executive Director's Report-
Sean Lieberman (7:04PM)

- Our reorg is still well in progress
- Presenting full thing to staff next week
- After that, I'll have some visuals
- I'll have something handy and visual for everyone
- Brief about financials, update from Michael
- The MIP system is coming along nicely, new financial system
- The payment system is going to change, more options if you want to pay vendors, etc.
- Checks are coming back prior to Thanksgiving
- New system isn't set for that
- Zelle for emergencies
- Direct payment, like ACH
- Virtual cards, options coming in winter
- Lot of different options
- Goes into an opaque black box when it goes through campus systems, no transparency
- Which is why we have our own system
- To understand where checks went, authorized signers, etc

Malhis

- Since the staff have been reviewing MIP
- Did you hear from Michael when it'll be actually released?

Lieberman

- Really soon, I'm guessing within next two
- We'll be able to see transactions and budgets
- Everyone will be trained
- Right now, we've just watched a video

Malhis

- How'd you recommend we publicize this to orgs to get their authorized signers on the software?

Lieberman

- Let me check in with Sebastian and Brian about that to see what they have planned
- The reason we have a separate system is so you guys have access to all things
- We have so many sub accounts, talking about accounts with RCOs
- No one else really does that, we're unique in that way
- Let me check in with them

Claro
- Do we have data that reflects on the frequency of RCOs being funded by the senate?

Lieberman
- Coming directly to the finance committee?

Claro
- Yes, with senate approval

Lieberman
- I can inquire about that, would have to look through minutes
- Can look through data

I-6) Executive Officers' Reports
a. Internal Vice President Enri Lala – IVP and Senate Websites are back! Indebted to the work of IVP Web Development Director Eshaan Kuchhal

IVP Lala (7:10PM)
- Updates from deltopia town hall
- Community services district, outreach committee was instrumental in promoting it
- Line wrapped up from IV theater to IV foot patrol building
- Successful
- Huge first step laid by hundreds of students who spoke
- My two planned items, letting you know IVP and Senate websites are back up and operational, symbolic victory on institution, very concrete service
- Contacts and communication
- Student fee advisory commissioner, everyone has a specific function
- Our senate website is now fully updated
- You can see minutes and agenda
- Our development director did this from Sweden, impressive
- Leadership of senate is listed out, pictures are listed out
- Would appreciate all of your help advertising this together
- The second is more for internal housekeeping, something that I want to begin with apology on
- Trait of mine to assume people are on same page, sincerely apologize

- This spring general election, constitutional amendment passed which changes my title from presiding officer of senate to president to senate
- What was voted on was that IVP does not have to be present at all meetings
- And essentially adopts a structure similar based on the federal model in which vice president Vance is not at the Senate every meeting, virtually never is, actually there if he's tie breaking a vote or another.
- Same thing with speaker johnson
- I campaigned on being at senate every other week, got some concerns
- Tried to be present more than that
- Should've communicated with you all on that
- But there is a meaningful difference between the events I am in, via every time constitutionally, and the events the senators are supposed to be at constitutionally
- Will keep splitting being here sometimes
- Will do a much better job of letting you know
- There have been real conflicts between IVP and senate past years, don't want it to happen

Wahidullah
- The websites are a great initiative
- Want to hear maybe if you guys have had some implementation
- Some details about spreading it out to student population

Lala
- We did a reel on IVP and senate pages, 1000 followers, small population
- Sean we spoke over summer, when you search up ASUCSB senate the old website still shows up
- I've tried dozens of times
- Don't know how that can be implemented, hope it can be promptly
- We have now a pro development by name of Alexander, tasked with going through our websites
- Think we gotta utilize the ASUCSB page, if UCSB life would like to collab

b. "Presiding Officer" and Attendance

I-7) Senator Representative Reports-

I-8) Administrative Reports-

AG Iden (7:17PM)
- Just what I noticed next week with respect to Harter's HIP proposal
- Contention that AS was unable to fund certain political groups
- Inherently false
- One of the decisions with the regents was in 1980
- In 1980, student wanted his money back, didn't want to fund a certain group, the court said too bad, this is also reiterated on UC's policy on boycotts
- The existence of lobby corps is enough said

- Don't necessarily even believe the group in question is funding our putting out statements on current events of the day
- Fine to fund groups of certain political ideologies
- This is all done in good faith, but with respect to policy 10, basically the attendance policy within senate
- The question is, if senators are missing or have unexcused absences, can they be removed?
- Policy 10 is completely and wholly unenforceable
- Only way for senator to be removed is a recall election
- Only one instance where an elected official was removed via recall election, IVP bee shaker? In 2022-2023
- Senate took presiding more seriously than they do now
- IVP was strictly the IVP, no authority delegation transfer
- IVP stopped picking on senate, funding wasn't getting passed, nothing was getting passed, last resort decision
- Executive order to restore legislative function, signed by Marisela as well, to remove IVP
- The notion that senators may motion to remove other senators I don't find legal
- No basis in legal code
- Under good faith, you want these decisions to give back to your constituents
- If there's no senate, no possibility for recall
- Unique situation with IVP Bee
- Senators are elected representatives of their constituents, no matter if you get honoraria docked
- Think this will be contested
- You guys can request JC for opinion

Chairship given to IVP Lala 7:22PM.

Lala

- Your intuition is correct
- You're completely within your right to advise the senate on legal code and its implications, your role has done so historically
- I concur with you
- This would make sense to be a JC opinion
- Would welcome any such discussion
- It's worth bringing some context to this
- I'll walk you guys through policy 10
- What it implicates is both a Senator who requires two unexcused absences or three unexcused tardies in an academic quarter, shall be subject to removal by the Senate pending review by the Senate of mitigating circumstances, which may take place in a closed session if requested by the senator up for removal and pass with majority vote, 50% plus one

- The Senate Majority votes 50% plus one will be required by the current membership of the Senate in order to remove the respective senator from office. If a senator comes before the Senate and the senator chooses not to remove the two thirds vote, I don't know what that discrepancy is, then the Senator will be given one additional unexcused absence or one unexcused tardy
- If that one unexcused absence or one excused tardy is then acquired by the Senator, that Senator will immediately be placed under the action items of the Senate's agenda for removal.
- AG is pointing to Article 11 of our constitution, which lays out recall elections
- I reviewed everything
- At no point does it state recall election is the only way an elected official can be removed
- You're right, difference between IVP's absence in those circumstances
- But that act has to be universalizable, generalizable
- If all senators accrued unexcused absences, give it one week or one academic term, the legislative body cannot get together
- Want to contextualize this in broader precedent
- In state of CA, as was done successfully with legislators in 1990s, happened more than once
- However, CA legislators can also impeach officers, starting with state assembly and ending with state senate
- This is exactly analogous, you have the option of direct electoral popular recalls, and also the ability of the legislative body to make that decision for breach of duty. And it has happened before
- At federal level, even further in opposite direction of AG's guidance, the legislature itself can remove a member, no procedure for proper recall
- Of course, federal legislation supersedes the state level, so you can't do it in the federal legislature. So in both the state and the federal levels, legislatures are empowered to remove their members for breaching duties, and in only one of those cases is there the analogous case of the electorate being able to do so as well.
- I'm laying this out bc this is the info i've gathered and for the senate to act on
- AG, do you think it's advisable to lay these facts out in front of JC?

AG Iden

- Sure, I do have some issues with substance of what you're saying
- Very reasonable to request advisory opinion form JC
- In some instances, though were modeled after federal government, doesn't mean we have to follow all models
- Don't think it'd be appropriate for senators to remove one another from motion vote
- This is a scenario where we agree to disagree
- JC advisory opinions are just that, advisory
- If this scenario comes forth in the future, I will be prosecuting

Pascher

- If under this logic, impartial here, in this scenario, are you also implying that senate can motion to remove an executive officer, like president, executive director
- How is that a different thing, I'd assume no?
- If we're all elected officials, don't know how you'd substantiate the difference between removing a fellow senator versus an executive

Lala

- Clear difference here, there is no policy that says this for executives
- If this were case for executives, it should absolutely be enforced, unless it does contravene
- Valid opinion to say it's improper to follow this procedure
- Which is obviously a valid opinion to have, but does not mean the legal code does not state that that is the procedure to be followed which is not enforceable plainly
- Potential that this does contravene the constitution, which does make it unenforceable
- Don't think there's an analogous policy for executives
- If there is, should be enforced the exact same way

Iden

- By that logic, the policy might exist, but there's zero history of this happening in our association

Harter

- Wondering, AG Biden, you'd say you'd prosecute
- If you could speak to how you'd prosecute, what would be your argument

Iden

- Think I made it clear
- Senate does not have authority to remove its own members
- Recall procedures, zero precedent
- I don't know if we'll cross this bridge
- Just going to continue to advise that you don't cross this bridge
- Have a feeling JC will agree with me
- This is different scenario from before

Motion to unanimously consent to move into new business.
Passed via unanimous consent at 7:32PM.

J) Committee Report
J-1) Standing Committee on Finance -
J-2) Standing Committee on Outreach -

Harter (8:08PM)

- Able to launch our pumpkin patch very successfully
- Closed the whole thing down way earlier than intended
- We have our sub-committee responsible for events
- Now prioritizing a band show, exploring other methods
- Every single one of our members was very successful in handing out 1500 flyers throughout the course of couple of days
- Less than a week
- Handing it out to freshman about town hall
- Significant amount of people came, we were successful in that mission
- Less tangible stuff, more operational, working on SMS mass messaging platform used to communicate directly with students
- This is one of those things we're doing as well
- Members of committee are working on super kitchen we discussed
- Mobile food pantry we've worked on, collab with advocacy comm
- The outreach committee has been working hard
- Even going above and beyond
- Reaching into those other spheres
- Want to do as much as we can with what we have

J-3) Standing Committee on Liaison - Report on Omnibus Bill

Wahidullah

- Want to add report about liaison committee onto agenda
- Omnibus bill provides more visual and transparency about current situations regarding us bringing this to a committee
- We already handled this motion, but if you guys want more clarification on it you can look
- Last meeting, we had chairs come for workshop and further communication ideas
- When it comes to communication improvements, will be reiterating to our committee, in watching two pilot programs
- Either potentially in the end of fall quarter as well
- Winter quarter, creating a potential internal newsletter
- More visual and graphic communication beyond emails
- Creating and reorganizing an in person liaison model
- About said senators coming
- Didn't have question about that in particular
- Wanted to know a little bit in particular about legal code, before amended, BCU liaisonship was holistically all senators that were liaisons
- For sake, if senators were inactive, if we made it open to senate body as liaisons, maybe it'd be effective
- Reintegrating liaisonship models
- Formal coffee hours with chairs in Pardall Center or AS main

- Having a more informal or peaceful chat
- Having a survey roll out, staff and senator anonymous
- Ideas about how to improve communication
- If BCUs have alternative ideas on how to communicate, can implement in winter quarter
- Than and I are working on updating our legal code
- Overall, strengthening BCU engagement, better check in, doing it to full capacity
- Our task this upcoming week is we're going to begin working on the outline for internal newsletter outlines at the as media center, communicating with them, finalizing just for the winter quarter leads, and BCU rostership for all the connections towards that, and emailing
- Communicating with other BCUs that haven't told us their meeting times

Lala

- Meant to convey this from Than
- The senate liaison model in which each senator was individually a liaison to several BCUs, found unsuccessful by many BCUs
- Originally passed in committee rework act
- Than seems to propose a cultural structure with liaison committee, in which senators identify the BCUs in which they're passionate, and we go to their meetings, have more passion and connection with BCU

Ly

- Had some BCU chairs come to our last liaison meeting, had concerns
- Reason why the changes made in legal code that there wasn't a designated senator was that senators were overworked, which is fair
- 5-7 senators on liaison committee, so now each senator has 5-6 BCUs, which is a lot
- Lack of communication, BCUs and senate both feel like the other isn't communicating
- My informal proposal, ties into what Lala was saying, if there's a BCU that you're passionate about, maybe attend one BCU a quarter, so that's 15 BCUs out of the way
- Send it to us
- System isn't super sustainable
- Ono is already part of Pardall Center, certain senators are apart of different RCOs and BCUs
- Can be more discussion later

Wahidullah

- This was an idea form the committee itself, not Than, we've seen lack of communication or overcommunication
- There's already liaisons for particular BCUs, feel like it could be working more smoothly

- This was brought on senate body, we are communicating with them on our own in legal code, code be alternative models
- We were also discussing about increasing the board positions in particular
- Again, having overexhaustion about particular members
- Need more BCU representatives
- Either way, want a reintegration about our legal code
- If anyone had questions, had a timeline to discharge it in winter
- By this week, I'd assign our committee members within the bill to clean up legal code
- Section by section, not skimming it, making sure it's thorough
- Letting you guys know for sake of transparency

Jiang
- Why wouldn't it be possible to do this on demand?
- Depends on how we define liaison and their BCU
- If it's supervision, then why not?
- I'm liaison for JC, I go to their meetings, most of the time the chair will communicate their need for me to be there, normally they don't need a senator to be there
- On demand as in they'd need a communication

Ly
- There is a senator that they'd be connected to, not just assigned
- That's what I was trying to communicate
- What you're doing with JC right now is hopefully what all senators do

Sherkin
- Think there's both good points to this
- Does show for BCU or RCO if you come on your own accord if you go as your own representative
- Maybe we can start off, since we're in hypotheticals, maybe we can start off like we go on our own volition as senators that were passionate about
- To some BCUs or RCOs, seen as scary to be the first one to approach, once we get a good response from that, we can go to a more on demand model

J-4) Standing Committee on Advocacy -
a. Chair Erica Sherkin: (8:24PM)
    i. Lagoon Safety Walk
- Wondering if we could open up the presentation
- For context, last week I was at lagoon safety walk
- Chief Bly came in and talked about safety of this event, very important
- Very good presentation on how we could work on safety as senators
- As well as our relationship with UCPD
- Short presentation of my findings on lagoon walk

- On October 22nd, students in general community were asked to help identify places of safety concern, walk went through campus lagoon
- Sexual assault incident
- Chief Bly and Ariel were both on this route
- The CSO and UCPD reps were both present
- Stresses importance of why we need measures on lagoon path
- Per UCPD, this is the most dangerous source of crime
- Untrimmed plants, broken lights, low visibility, no lights at all
- Pure darkness
- Tripping hazards, uneven pavement
- Took some video, lagoon path here is completely dark
- Put on the map, this path is directly parallel to Manzi village
- This is the little bowl by Santa Cruz dorm, near campus point where people surf
- No lights, can't see anything, untrimmed vegetation
- Right near campus point on cliffs, insane mount of tripping hazards
- Got metal sticking out, cracks in concrete, wooden barriers
- Lighting was main concern
- Adequate lighting is huge crime prevention measure
- Range of how well lights are maintained or even there

Senator Luken enters at 8:29PM.

- Picture here is example of good lighting
- No tripping hazards, can see well
- Next slide, this is what we don't like, broken lights, outside of where we are
- Broken light near Santa Cruz dorm
- Creates spots of darkness
- Examples of dangerous vegetation
- Also doubles as tripping hazard if you're running
- Not just an infrastructure concern for lighting but also vegetation
- Probably most important slide
- What can we do as senators?
- Encourage facilitates and UCPT to put more blue lights on campus
- Walk was perfect example of community action, we'd all stop and CSO would write down exact coordinates of exact tripping hazard, happened at least 20 times, took like 3 hours which is okay
- We need the blue lights
- Be on lookout, take note of unsafe infrastructure
- Chances are most people are just accepting it, but we have power to change it
- This is kind of personal, I was with my friend on this walk, we didn't want to leave early to walk back because it felt unsafe, this shows the problem
- Some action items
- Either Bly or Ariel will come in one to two weeks, will give more logistical report
- From there, we'll have a better action plan
- As far as I know, they're not asking less for funding for these things

- Would just keep this in the back of your mind, this is an issue and UCPD will come in, might create fiscal impact might not

Senator Manala enters at 8:32PM.

ii. Advocacy Committee Report - All Partners Meeting

Sherkin (8:33PM)

- There's an all partners meeting report that happens every quarter
- Every entity on campus that has to do with basic needs
- Food bank, student health, mini basic needs convention
- Little report, brief
- Mostly on Calfresh and food security
- If someone's worried about food benefits, please direct them to our food bank and the miramar food pantry
- Food bank also receives donations from students on meal swipes, so does MCC
- Most adequate way for students to get meal swipes is food bank
- People should still apply for calfresh, about a month long process
- Senator Claro was also at that meeting, he also works at basic needs office
- Been a dip in students coming to get Calfresh, they think it's not wroth it with shutdown
- Not the case
- Would continue to encourage people to go to food bank
- Monthly food donations at Estero Park, want to set up a bin at Pardall Center
- If you've been at food bank, lot of ingredients, want to implement more ready to go meals
- Someone from financial ops office was there, if students in dire need of food or housing, this is where they go
- They get helped only if they're referred to them by basic needs office
- Need to tap into veteran affairs more
- Might be a good avenue
- Students were contacted by BARC scam, their info got compromised
- That's all good now, pell grants got paid back, financial operations on BARC are looking to improve cybersecurity messaging
- Meetings are good, one on February 17th, good if you're into basic needs related advocacy

Luken

- Really appreciate you mentioning veteran services, work for them as a mobility driver
- Curious as to what you envisioned when working with them

Sherkin

- Working with you guys on outreach
- Know that mobility transport program is very successful

- Some bodies on campus that we don’t have good word from
- Maybe outreach could send out a survey
- See if they’re sending out adequate support
- Something metrics wise would be helpful in that
- Advocacy front, see what measures we can do

J-5) Group Project and other Temporary Committee Reports-

Ly
- Do we have updates for the president's executive director search committee

Luken
- Once last friday, job description
- Meeting again to finalize job description
- Any input or anything you can come to me, Lala, Wahidullah for that

Pascher
- The department of legacy gauchos search committee was established
- Apologize for not having any appointments on this weeks agenda
- Process of getting people appointed and hired for that
- Coming next week
- While I have some people in mind, would like to make it as far as possible
- More than happy to receive names in my inbox

Lala
- If anybody wants to make a quick word on this, I'd welcome that the ad hoc committee on appointments is meeting this Friday to take in the applications
- Which have been relatively substantial, and we've got applications for each position
- The task now is essentially to arrange interviews and have, hopefully, appointments ready to be brought to the Senate by the end of the quarter. Needless to say, these are crucial.
- These are collegiate spots, academic affairs part of our institution, these are on campus spots

K) Minutes and Allocations:

To Be Approved

Luken (8:42PM)
- Critical we figure out a new system for minutes and allocations
- Anyone who needs their minutes approved could drop it in right now and we could approve it a minute later, with no one actually looking at them
- Think it’s a process that we could facilitate a new system with

- Would require us creating a new system with it

Jiang
- I concur
- Want to refer to what AG was talking about, reinforcing Robert's rules
- I actually went against it, but finance committee has run into problems about undetailed minutes that include fiscal impact
- Now understand its importance

Lala
- Prominent in my thoughts as well
- Coordinating it with my internal affairs coordinators
- Already BCUs are divided amongst my internal affairs coordinators
- Going back and forth about how motions are being approved
- Jaing is right, if funding is being approved and there's no motion to reflect it, that's a problem
- If any of you would want to be apart of that process, I'd be open

Pascher
- There is an AI minute taker, which could lead into more of a future perspective

Luken
- Prominent idea about the AI thing
- Submitting your minutes to a website, standardizing the minutes so we could get a line item of all financial motions made from BCUs

Harter
- We are actively working with people who are going to assist us in this endeavor, contributing their time to approving association with AI
- Because we're at the crucial stage of development at this moment, your guys' opinion is the most valuable at this moment
- Your ideas would be extremely valuable at this time, come to us with ideas

Motion to bundle and approve all minutes and allocations.
Luken - Chaudhry
Call to question - Wahidullah

Objection - Pascher
- Would like to request a hand vote

Objection rescinded.

Hand Vote

Yes - 13
No - 0
Abstain - 5
This motion passed at 8:50PM.

L) Discussion Items

M) Appointments and Resignations

<u>Black Women's Health Collaborative</u>

Keylaan Edwards as Marketing and Social Media Director
Kaitlin Lewis as Sex Positive Health Director
Paris Mccree as BCU Liaison
Wongiel Gebeyehu as Finance Director

<u>Trans & Queer Commission</u>

Resignation of Finnick Gonzalez as Vice Co-Chair
Appointment of Finnick Gonzalez as Co-Chair
Nayali Broadway as Vice Co-Chair
Alana Dutton as Disabilities Advocacy Coordinator
Myren Shao as Media & Marketing Commissioner
Matthew Rosas as Emerging Leader Commissioner
Navya Vijay as Emerging Leader Commissioner
Halee Scott as Pride Commissioner

Motion to amend the agenda and add the appointment of Jaden Yamamoto as Finance Officer of Special Projects and Eden Kipnis as Finance Officer of SEAL Leadership.
Jiang - Chaudhry
Call to question - Ono
This motion passed at 8:53PM.

<u>Senate Finance Committee</u>
Jaden Yamamoto as Finance Officer of Special Projects
Eden Kipnis as Finance Officer of SEAL Leadership

Motion to bundle and approve all appointments and resignations.
Chaudhry - Wahidullah
Call to question - Manala

This motion passed at 8:55PM.

Motion to unanimously consent to move into new business.
Passed via unanimous consent at 8:55PM.

N) Remarks

O) Adjournment
