UC Santa Barbara
Associated Students

Senate Agenda 11/19
Associated Students UCSB 76th Senate

Zoom Link

Minutes/Actions recorded by: Sydney Arbolado, Summer Tucker, Lili Dritz. **CALL TO ORDER** by Evan Sussman, First President Pro-Tempore **at 6:36 PM.**
This meeting was called to order at 6:36PM by First President Pro-Tempore Evan Sussman.

A) MEETING BUSINESS

"Before we begin, we call for students to acknowledge that the lands that the University of California locations were built upon were expropriated & founded upon exclusions and erasures of Indigenous people's human rights throughout California. UCSB is built on Chumash Land, specifically that of the non-federally recognized Barbareno tribe. As an association that pushes the student bodies' voices to the forefront, we should aim to make strides past just acknowledgment to those who continue to fight for their right to be recognized & respected as the original stewards of this land. I ask you all to dedicate time & care to personal education & to advocate for justice alongside Indigenous peoples."

A-1) Roll Call

Amna Chaudhry	👍 Excused	Off-Campus Senator
Caleb Claro	✅ Present, ☀️ Early	College of Letters & Sciences Senator
Mia Gutierrez	⛔ Absent	On-Campus Senator
Neo Harter	✅ Present, ☀️ Early	Off-Campus Senator
Xander Hepburn	✅ Present, ☀️ Early	Transfer Senator
Yuchang Jiang	✅ Present, ☀️ Early	International Senator

Melanie Jones	✅ Present, ☀️ Early	College of Letters & Sciences Senator
Noah Luken	✅ Present, ☀️ Early	Off-Campus Senator
Victoria Ly	✅ Present, ☀️ Early	Off-Campus Senator
Qhawe Manala	👍 Excused	International Senator
Vanessa Manakova	✅ Present, ☀️ Early	Off-Campus Senator
Nadine Malhis	✅ Present, ☀️ Early	On-Campus Senator
Olabisi Ola-Olaitan	✅ Present, ☀️ Early	University-Owned Off-Campus Senator
Keizo Ono	✅ Present, ☀️ Early	Off-Campus Senator
Natalia Pascher	✅ Present, ☀️ Early	Off-Campus Senator
Romi Riss	✅ Present, ☀️ Early zoom	Off-Campus Senator
Erica Sherkin	✅ Present, ☀️ Early	Off-Campus Senator
Evan Sussman	✅ Present, ☀️ Early	Off-Campus Senator
Sohan Sunderrajan	✅ Present, ☀️ Early zoom	College of Letters & Sciences Senator
Mira Than	👍 Excused	Off-Campus Senator
CJ Toledo	👍 Excused zoom	College of Letters & Sciences Senator
Jasmine Wang	✅ Present, ☀️ Early	On-Campus Senator
Eemaan Wahidullah	⛔ Absent	Off-Campus Senator

A-2) Excused Absences

Motion to excuse Senator Chaudhry for the duration of the meeting due to academic obligation.
Pascher - Harter
Call to question - Wang
This motion passed at 6:39PM.

Motion to excuse Senator Wang from 8:40PM-9:40PM.
Ly - Ono
Call to question - Pascher
This motion passed at 6:40PM.

Motion to excuse Senator Luken until 7:15PM.
Hepburn - Pascher
Call to question - Ono
This motion passed at 6:40PM.

Motion to excuse Senator Manala for the duration of the meeting.
Harter - Ono
Call to question - Pascher
This motion passed at 6:41PM.

Motion to excuse Senator Sherkin until 7:30PM.
Harter - Wang
Call to question - Ono
This motion passed at 6:41PM.

Motion to excuse Senator Luken for the duration of the meeting after 10PM.
Pascher - Wang
Call to question - Hepburn
This motion passed at 6:42PM.

Motion to excuse Senator Harter after 10PM.
Jiang - Pascher
Call to question - Hepburn
This motion passed at 6:42PM.

Back at 9:20PM
Motion to excused senator Ola-Olaitan for duration of meeting
Luken- Harter
Called to question- Malhis
This motion has passed at 9:21PM
Unanimous consent to move back into Public Forum

Motion to excuse Senator Toledo for the duration of the Meeting
Sussman- Pascher
Called to question- Hepburn
This motion passed at 10:23PM
A-3) Acceptance of Proxies

B) External Reports

B-1) Chancellor's Representative-
Miles Ashlock and Suzanne Perkin (6:42PM)
Miles

- Assistant Vice President for Student Affairs
- Here to answer any questions you have
- Representatives of Vice Chancellor for Student Affairs

Malhis

- How do you navigate utilizing the events of the student affairs mission statement of inclusion and compassion?

Miles

- Our mission vision values came through a cross-study of students, staff
- That's how we settled on our values
- Inclusion is most important
- We have about 25k undergrad and about 2500 graduate students
- Making sure that UCSB is a place where each of you feel welcomed
- And a robust learning experience
- First lens, everyone gets to bring their full identity at UCSB

Suzanne

- Multiple ways that that unfolds
- Policy pieces we work on
- Day to day with department staff, day to day with students

Malhis

- Is there a staff position meant to directly work with students?
- Do those students overall feel an employee is benefiting them?
- In AS, student affairs, or in general?

Suzanne

- Like if a staff member is doing a really great job and you want to share that?

Malhis

- If there is any staff position meant to directly assist and work alongside students
- What are the actions students can take to express further need, for example an advisor, how can you guys tell that students are expressing a need?

Suzanne

- In terms of needing an additional position, encourage speaking to department director, directors' in charge of the staff

- For example, if we need more CAPS counselors, we'd start with director of CAPS
- Complicated menu in front of the director usually, balancing budget, staffing, student demand
- Puzzle they have to put together
- Usually best place to start

Malhis
- It's more like it's hard to keep staff in old departments where they're facing budget cuts
- Situation, there's an advisor working alongside students, they seem like a resource for them to voice concerns, say that staff member is facing a crisis within their department because of budget cuts, they may lose their position
- What actions can students take to express further need for this employee?

Suzanne
- Think my advice would still be the same
- In terms of talking to director and expressing your thoughts
- They may not be able to share with you all parts that go into their decision making

Miles
- There are associate vice chancellors, open door policy to all students happy to have conversations about student needs
- Helps inform our plans
- Would also just say that every department and division is a unique situation
- We are in a very resource constrained environment
- Trying to balance many factors when making decisions

Claro
- Few questions
- The financial cuts impacting education, do you guys have any metrics to say about that regarding UCSB?
- Is this a concern in your priorities?
- What do your current priorities look like?
- Have there been efforts to address it, along with other UCSB staff?

Miles
- There are other people better qualified to speak on these
- My observations of impact is that they are largely indirect, research impacts, affects overall bottom line of university finance, affects research and fellowship opportunities
- That said, we haven't had direct cuts as a result of current political environment that are effecting student services directing
- They are indirect, brief pause in SNAP for example

Suzanne

- Little bit of a domino effect
- Research cuts affect academic side, if you're looking at whole university budget, they do have to pull money from other areas
- Lucky enough to say we haven't seen impacts on student services, not saying that'll never happen it just hasn't happened yet
- We have an executive team for student affairs
- They look at what is your experience and making sure future students can have the same experience you're having
- Trying to mitigate impacts behind the scenes, might not be obvious to students in the moment

Miles

- To be clear, experiencing cuts both temporary and permanent
- Result of growing costs
- Those impacts are university wide
- Cost of labor and cost of benefits is wide
- In terms of priorities, student success, well-being, and engagement are at the heart of what we want to see
- Want to preserve equitable access
- Our guiding stars, doesn't make decision making easy
- We look across our division and see 30+ departments that all have a significant meaning and function to thousands of students
- Efforts to address it
- Last years we've been encouraging decrease in spending, entertainment, travel, supplies
- In campus and university system, we've slowed down hiring
- Vacant positions, seen attrition in student affairs for last 6 months, see each one of those positions as difficult, but good in sense that our current workforce is preserved

Suzanne

- With those positions, we've been able to juggle around the work so that it's even

Ono

- Regards to an HR thing
- If a student were to act as a reporter to a workplace violation, what does the process look like for the student as a reporter?

Miles

- Depends on violation
- Title 9, gender based discrimination, reporting party would have some sort of continuing information if you're impacted party
- If you just generally make a case like those or an OSHA violation, the reporting party wouldn't get any additional information bc of privacy laws

- I have a few citations if you're interested in fine print
- Student data is really protected
- We cannot comment
- Even if we see in the news something false, we cannot comment
- Same is true for employees
- Privacy policies
- We simply just can't say anything, publicly
- You're encouraged to share any concerns you have, you probably won't receive any specific update

Jones
- Being that AS is being absorbed into student affairs, with these budget cuts, how will that affect staff hiring?

Suzanne
- AS has a very different funding model from student affairs because you're funded through student fees
- SA fees are through core funds, which is through university
- AS goes through yearly budget process, you're suffering from rising costs of staff budget and prices going up
- You haven't had a fee increase in a while
- You're also having to do the same amount with less
- That's not going to be impacted by the rest of what SA does because your budget is your budget

Miles
- Wouldn't say AS is being absorbed into SA more than it already has been
- Exec director still reports to a different position but has same autonomy and status
- The exec director has more immediate peers to speak and collab with
- No change in orgs dynamic
- What are the strengths of SA staff and student led AS? And how do we collab more intentionally, we might duplicate services
- We have great communication professionals
- Who better to communicate about student services available than the student associates?
- Think there are more opportunities for collaboration, you are not absorbed

Suzanne
- Think about separating out the student government component with the department, the piece that now reports to me is the department component
- You as a student government retain all of your autonomy that you've always had
- The only thing that's really changed is rather than exec director reporting to vice chancellor, they're reporting to me so we can provide some more support

Miles

- The president still has access to the vice chancellor

Jones

- Feel like there has been big concern about absorption and AS autonomy

Harter

- Why is the “non absorption” changed up?

Miles

- Over last three years, executive team of SA have had time to reorganize whole division of SA, which used to be 4 clusters into 3 logical clusters
- Student enrollment and success, student life which includes AS now, and student well - being
- All of the departments who reported to vice chancellor now report to associate vice chancellor
- Better communication and collaboration
- Really expands capacity for vice chancellor
- Working with our past vice chancellor, we saw how it impacted her capacity to do large strategic work
- We made the strategic decision to remove director from chancellor's position

Harter

- Think you used specifically the phrase two way communication
- In that light, I was wondering how 2 - way communication, if that’s being applied, do we have a say in this?

Miles

- First, you’re not being absorbed
- Executive director now works most closely with vice chancellor for student life, advised by vice chancellor of student affairs
- It is a final decision in terms of administration and university organization
- Would say our 2 way communication is improving weekly, hope it continues to do so
- One example, president is now invited to make voluntary reports about goings on in the association
- Also reports on division of SA
- Quarterly meetings with AS and SA executives
- Number of senators who have been reaching out to our vice chancellor
- All those meetings have been accepted without exception
- Collaborating on an individual and group level
- Suzanne, Joaquin, myself are all really grateful that association lovers have been reaching out
- That’s how we want to work with you

- We're connecting and talking about issues that are making a difference to students, coming up with advanced solutions

Suzanne
- AS as a student government is still very involved, still talking to vice chancellor about stuff like library and bike lane
- My role has been much more with Sean and the staff of AS and supporting them through all of these changes, figuring out how the Division of Student Affairs can provide support for the various different pieces
- The shift is that rather than vice chancellor providing that support to staff, it's me

Senator Luken enters at 7:08PM.

Harter
- Are you guys able to speak on how the campus building committee is affected?

Miles
- It is not
- To the best of my knowledge, there's been no reorganization

Claro
- Will SA come endear AS when it comes to its financials?
- Would Student Affairs adhere to financial procedures from AS legal code?
- Will you guys have a final say in these funding requests?

Suzanne
- University policy has final say in any financials
- Our role is to make sure university policy is followed, which you guys are held to
- In terms of imposing over your budget, that's not our intention

Miles
- To be clear, there is literally no difference in your financial autonomy
- You have exactly the same autonomy in terms of your financial independence
- It's the university policies which are consonant with AS legal code that say we cannot use money collected for AS to fill gaps in other areas
- We won't do it and we can't

Than
- Is there a drive, somewhere you guys can share for these job descriptions?

Sussman
- The AS website has been out of date since 2022
- No posting of job descriptions for staff
- Is there a way staff duties can be expressed?

Miles

- Yes, job descriptions aren't confidential
- Recommendation would be that, president is identified as co supervisor of executive director and oversees HR, if there's a job description you want to see, go to president's office and see what description Le Anh wants
- Job descriptions don't have any identifying information on them
- They would never have an employee name or ID on them

Than

- If those job descriptions were to have been changed during an employee's time within their job role, would that also be shown, as opposed to the original job description versus the updated job description, not in relevance to the staff itself
- Not in relevance to this job itself, in terms of investigating HR violations, what does that look like internally?

Miles

- Don't think I can see job changes reflected
- See the most recent version of job since it's been approved
- Job duties are a management right to change
- Not uncommon for job duties to change even with an incumbent
- Doesn't mean there's no access to history, but it's not available to us at the divisional level, to the best of my knowledge
- In terms of investigation or response, all departments make abuse of conduct claims, title 9, can make unfair labor claims, usually would refer an employee with a concern to employee and labor relations
- That's directly in student resources, they're welcome to contact me or circumvent me
- The same privacy protections apply
- Might not hear outcome of that
- Investigation needs to happen in a very specific manner
- Before we take on investigations, we consult with employee and labor relations to make sure we're maintaining rights

Suzanne

- Because employment matters are legal, everyone has to be careful in that realm
- Supervisors have to be careful, everyone involved has to be careful
- It would be really easy to mess something up
- In matters where there's sensitive issues with employees, employee and labor relations is best place to start
- Little missteps you can make when you're not a lawyer in this area like them
- Understands how to advise employee and employers
- Be careful in that realm
- If you have a report to make, please report it, that's what you should do
- Would hesitate to get involved beyond making that report

- Whoever you might be wanting to advocate for, wouldn't want to mess up their case

Miles
- Individual employees should know that if they're covered by a collective bargaining unit or a union, they'd have a representative they could speak with directly through union or employee and labor relations
- We have academic and staff assistance program, confidential resources similar to CAPS and also OMBUDS
- Places to navigate that confidentiality

Luken
- Are AS pro staff part of any union?

Miles
- Yes, at least 2
- You also have several staff who aren't represented

IVP Lala comes in at 7:18PM.

Than
- Are you under the impression that the senate invited you here?

Miles
- This is not our first time in senate this quarter

Suzanne
- First time we've spoken
- Combination of staff and senators directing a lot of questions at us in different ways, thought it'd be good to come in

Holly Dunn
- Want to add I've also participated in inviting Suzanne and Miles to senate, along with senate leadership

Sussman
- How do you guys see the role of AS on campus and what our jobs are as student leaders?

Suzanne
- It's an incredible opportunity, student leader
- Especially in this time when university is facing unprecedented challenges
- A lot of my job is making sure student voices are heard
- Often on side going, let's talk to AS president or let's talk to students

- There's sometimes a tendency to forget that the reason we're here is to serve students
- In terms of you all, wouldn't hesitate to speak up and ask your questions
- Think this is a good opportunity to talk about transparency, accountability
- All of the various projects and meetings, good chance to reflect on your own association
- You're the biggest advocates for students because you are their representatives
- You're representing all students, not just those who agree with you, like us, which can be a challenge but a great leadership opportunity
- I suggest that when you say this is what students think, you have enough information, please take this seriously

Senator Sherkin enters at 7:23PM.

Miles
- Helping us suss out the priorities
- As we enter this period of resource constraint, think we agreed on why we're here, presume we're all invested in student success as a group and equitable achievement
- Want to see every student that comes here succeed
- How we do that is not as obvious as it sounds
- We'll need your advice and perspective on what we need to protect, what's supporting you through the college experience
- When resources are limited, can't save everything
- What do we do with limited resources, where can we push back on
- Share perspectives collaboratively
- If you see something that frustrates you, reach out, let's collab, let's make a difference
- The most exciting opportunity is to develop the next generation of AS
- Noah, Eemann, more are led by president for search committee on new director
- Looking forward to what you guys do there
- Thank you for your service

B-2) UCPD Representative-
B-3) GSA Representative-
B-4) University Center Governance Board Representative-
B-5) IVCSD Representative-
Spencer Brandt (7:25PM)
- This came about bc we've had this standing item on senate's agenda for my entire time here
- Here to give our update
- Spencer Brandt, president of Community Service board of directors
- Moved here to UCSB 2015
- Elected into office 2016, 19 year old student, and 2022 as a long term resident

- Want to give you taste of what's going on in Isla Vista
- Want to give you background
- When I was in Associated Students, I was in the external vice president for statewide affairs office as a legislative liaison, Lobby Corps, and just all the advocacy that you do to external entities is very close to my heart
- In serving as your representative, my single goal has been to uplift quality of life and services to match the amazing community we have
- We have such a vibrancy and culture, and beautiful nature
- Our public services and coordination of public services hasn't matched that
- We're an underserved community when it comes to resources
- 2014 was a tragic time for UCSB, Deltopia riot and mass shooting, IV residents came together to see how we could make it safer and better
- We're not a city so we can't determine destiny the same way
- Effort to create community services division and create local government and force local government to take us seriously
- Passed into law by Governor Brown in 2015, students voted in 2016, 2018 voted on utility tax that funds our operations
- Really critical to that movement was AS
- Probably around half of the people in that photo were my friends involved in AS
- On slides, some services that IVCSD provides
- All of our services are meant to augment what county and other public agencies already provide
- Written into law that public agencies can't abandon us, we had that written into law
- Important to note that sort of thing, the context
- Services we don't provide that other services provide on next slide: law enforcement, sewers, trash, housing, planning
- Lot of services are all under one tent, things in IV are much more fragmented which is a challenge for services
- Diving deeper, community center is an amazing space
- Community center we have programming, dance classes, art shows, band shows, really big farmers market with thrifting fair
- Having a space for the community to gather
- Can also rent out community space, which student groups do
- Sustainability and waste reduction, thing that I get the most complaints about, especially after periods like move out
- We've made it cleaner by repurposing items, encouraging donating at GIVE sale, pop up thrift store that happens in IV to reduce stuff that would go to landfill
- IV compost collective is a great volunteer program helps residents be a part of their environment
- We want a rental housing and mediation program that can help tenants in tricky situations
- I've spent time talking to students recently about bad conditions on some properties

- We’re trying to give you more leverage, security deposit maximization workshops, tips and tricks to know your rights and get the best return back on your deposit
- Transportation and parking is a really hot topic right now
- This is an issue that’s bad in our community, transportation and parking, no org dedicated to parking compliance
- We’re at 106% capacity of cars in isla vista
- Heard stories of residents having family emergencies and they’re blocked by unknown cars
- Parking compliance program that we’ll be getting will be one of the tools in the toolbox, in winter we’ll launch intense education campaign
- Helping people think of alternatives, goal isn't to write alternatives, what I’d rather have happen is have folks think about behavior, emergency response
- Lived here both with and without a car, know it can be done either way
- Wave on screen is new service that SB MTD launched, uber style service, you can call to a number of locations
- Free service right now
- Once they do start charging, it’ll be 3 dollars each, I’m investing in giving out free vouchers
- This service now makes that realistic, helps you go to Goleta train station, Albertson’s, airport
- A lot of our data shows up to 20% of the cars parked on the streets or are cars that are parked there very long term
- IVCSD hosts a spring festival meant to be separate from Deltopia, hasn’t had a biergarten but it is my goal to add one
- My goal to make it a real festival
- Had a lot of conversations with students
- Concepts that would activate other parts of the community, would stimulate our local IV businesses, people can enjoy themselves in a safe and legal manner
- If we were in SB city, we would’ve already figured out how to make Deltopia a permanent festival
- Sheriff is going through with ordinance
- Colleagues and me are struggling with realization that this can be moved above our heads
- How can we adjust that reality to something better?
- Last thing I want to do is send peers into harm's way, into law enforcement and more citations
- This is not the year where we want our neighbors to contact with criminal justice system
- The civic leadership initiative, 8 week course that we offer credit for
- Got to sit in on these courses, super valuable on solving community problems and how we can practically solve them
- Really cool thing if we’re looking for extra course credit
- Reach out to me for any additional info or questions

Ono

- I know you're not with MTD, was wondering if you'd know why bus service wasn't just expanded westward as opposed to the van program?

Spencer

- I'll try to speak with what I know
- Don't represent SB MTD, it was something we worked on jointly
- In past 20 years, there was a bus line that went Sabado to Camino Corto, 2009 crisis cut the route
- Don't know the rationale for why, but generally for service cuts, they choose lines that are least serviced
- Replaced with 27 line, which does a lot
- Goes diagonal, good feedback that you can share with SB MTD
- They have listening sessions that's being convened first week of December, unmet transit needs

Pascher

- My name's Natalia, good to see you here and nice to see you in person
- Was wondering if you collected any data that maybe sources why we have a parking issue
- Is it possible to characterize the 106% utilization of parking in IV because of construction, multi family homes, essentially just addressing the housing crisis here?
- Was that something that was planned for?

Spencer

- Root of problems stretches back to development of IV, where in 50s and 60s parking minimums was waived
- There was a partnership between university and county seeking to address housing needs off campus
- UCSB has been one of the first where housing needs will be met off campus, not on campus
- When all those parking minimum were waived, we still had infrastructure set up for cars
- No surprise that there's massive amounts of parking on street
- In some days, over 50% of those spaces are available
- Because street parking is free, people are parking on street, because property owners have more and more charging for parking spaces, more people have been pushed on street because they'd like to save money

Pascher

- Probably not enough concrete evidence to definitively say it's that
- Was wondering how the timeline of this works
- I know that the county put 300,000 dollars towards this problem

- You've mentioned there's laws outlining that county can't come to you and say we want this done so do it
- Curious about what the timeline of this was
- What was the first initial money spent?

Spencer
- Genesis of program is state law, which directs us to do 8 things, one of those things is parking
- We allocated, I believe, two fiscal years ago, we set aside a reserve specifically with the intention of beginning to do parking enforcement
- Prior to that, we had gotten some money through grants and general fund
- Once we got action plan results and did management side with parking consultants, we found that there was a need for startup funding
- Once program is rolling , expected by consultants that it'll be revenue neutral

Pascher
- Was it more of you guys going to the board of supervisors of the county and saying this is what we expect and what it'll cost?
- Or was it more them abiding by 8 state requirements?
- Struggling to understand connection

Spencer
- Work with county on everything
- Approached them and said we have this study and action plan
- This is the one thing out of 8 we haven't addressed, and said we'd like your partnership
- Needed technically a delegation of authority from county to do it
- Because it is county road still, so the county still maintains the liability for the roads and the responsibility of the maintenance, they delegated to us authority on compliance study

Pascher
- As an off campus, I represent majority of constituents on Isla Vista, think that the optics of this how I understand it is that there's a housing crisis, there hasn't been a plan for parking, I worry this targets the most vulnerable populations for UCSB
- I don't want to walk all the way down to Camino Rorto at night when senate ends
- Students that drive late at night or have night jobs will be impacted the most
- Concerned why there's 600,000 dollars being poured into a solution instead of enforcement
- I do understand this is a safety concern, I myself have had in the very far back burner, the idea of having all four way intersections have stop signs
- That's absolutely a cause of concern
- You have people crossing stop signs, bikes aren't stopping for stop signs
- If you cross Sueno, there's stop signs on one side and not the other
- My question is why 600,000 in one area and not the other?

Spencer

- In order for more housing in community to be viably permitted through Coastal Commission, they told us we need to figure out parking
- They're concerned about access, visitors going to beach
- Because of how congested the street is, they've taken issue in the past to housing development
- In terms of why community wanted to do this beyond that, when state law was being developed
- There was weekly meetings where state would come together and debate about problems and how to solve them
- Folks voted and said this is an issue we want to tackle
- One issue was parking, so that rose in legislation
- There's never been any county agency that's done parking reinforcement
- Services aren't happening in same way they would be if we were in SLO

Pascher

- I'm from LA, so I understand parking crises
- In your report, it mentions a pilot program to apartments for street parking
- Would that be an avenue alongside enforcement
- Enforcement isn't always well received by student body

Spencer

- We'd only truly solve the parking crisis by having a residence only permit and by residents only. That includes students
- Don't ever let people tell you you're not residents
- That will be really important because there is a large spill over that we get, we've seen this in data, from some university owned housing in isla vista
- There is potential for more of that to happen, depending on how things shake out with some of the new housing that's coming online
- University staff and employees go to campus but park in Isla Vista because they know it's free
- The residents only permit program would melt some of those parkers out
- To the advantage of residents

Luken

- You mentioned sub-governments, Goleta west, etc similar to IVCSD
- What do you envision as a solution to fractured form of governance, what can we do to fix fractured form of governance that we have in IV, and what can we as community members do to work towards a solution with all the issues that we see that seem to stem from these kind of sub jurisdictions

Spencer

- When you have one multipurpose form of government, it's better than multiple singular forms of government

- State of California has written laws about this
- Processes about how governments can consolidate or evolve according to the LATCo Process
- Consolidation would take a lot of cooperation and public support
- I get questioned why we aren't part of Goleta
- Comes down to financial viability, utility taxes, taxes that IV doesn't have that normal cities have
- Question of would there be enough revenue to support services
- If we were a city, we'd be taking on fire, law enforcement, planning, EMS

Manakova
- Wanted to ask about timeline
- Right now is enforcement time
- Do we ever do any type of parking enforcement before this type of project
- In terms of next steps, I'm looking at action plan
- How can students get involved in next steps?
- Is the money from the county only for this enforcement part?

Spencer
- This is the first time we've ever done parking compliance
- Intermittent examples where california highway patrol is taxed
- But we don't have resources, makes sense highway patrol doesn't come here often and do reinforcement
- In terms of how students can be involved, everything you guys can do to promote alternative transportation
- Other communities that have done really creative things in terms of promoting public transit
- Free transit access is awesome
- There are examples of communities that have done partnerships with Amtrak, brought down costs of a ticket
- Not just local transportation needs, for groceries and more, also long term transportation like getting back home

Motion to unanimously consent to move into Item D Public Forum.
Passed via unanimous consent at 7:58PM.

C) New Business

A Bill to add the Healthcare Initiatives Coordinator to the External Vice President's ...

Sussman- Jones

Sussman (8:42PM)

- This bill's very brief
- 1 or 2 grammatical errors
- This positions existed for years now, just never seen it in legal code
- Couldn't find a previous bill to enact it, but it's been on the IVP or the EVPLA's Office website. They've hired this position for multiple years.
- All it's doing is codifying the position in legal code
- Other various health initiatives seen throughout IV and campus

Jones

- Pretty simple

Manakova

- Was in EVPLA's office last year
- Confused by this
- Think chief of staff was liaison for Student Health Services committee
- Was that changed?
- It says here that the healthcare initiative coord should be here

Sussman

- It's a request from EVPLA

Pascher

- What committee are you looking to get this tabled to?

Sussman

- Advocacy

Pascher

- If and when this is tabled to advocacy, my questions are if authors could provide fiscal impact?
- And how did they previously get paid?
- Following Manakova's comment

Sussman

- No fiscal impact, just a reallocation of funds from the office
- This position's been paid for
- Which is a huge problem, that it's been appointed but not in legal code
- Shows how our honoraria is flawed

Motion to table A Bill to Add the Healthcare Initiatives Coordinator to the External Vice President for Local Affairs' Office to advocacy committee.
Pascher - Ono

Call to question - Luken
This motion passed at 8:46PM.

Motion to amend the motion and strike the word 'table' and add the word 'refer' in its place.
Luken - Pascher
Call to question - Sussman
This motion passed at 8:46PM

A Bill to Modernize Honoraria
Sussman-Jones

Sussman (8:47PM)
- Know there's contention
- Been meeting with pro staff since september
- Gone through multiple stages
- What we've come to senate with today is what we believe to be the most standardized and fair assessments but also the fastest way to receive honoraria across association
- There are a few amendments that Melanie and I will bring to the committee just off of observations from State of the Association
- And there's one thing that I forgot to add, which is just the Pearman fellowship honoraria, but it'll be brought to committee by the end of the evening
- Again, this is a very lengthy bill, and what it's doing is automating honoraria, so that way it's a standardized process
- No more wondering when honoraria will meet, or when JC will take place

Jones
- Evan has laid it out pretty well
- Working on this since summertime
- Collaborating with staff
- Particularly with timelines and how to effectively legislate this
- Being that this is a huge change, restructuring for how honoraria has been done
- In past, no standardization at all about what constitutes a deduction, can change on the spot which isn't right
- Goal is to clear it up as much as possible, so there's no buts or what ifs
- Tried to lay it out in email, know it's really hefty
- Want to work together on this

Luken
- Has Michael and the finance operations team been part of discussions you've had?

Sussman

- They've looked over this multiple times, emails and texting throughout the entire of this past week making sure this bill was right

Pascher

- I have a whole copy and paste of notes on this bill
- Main thing is that I'm hesitant to go down the line of my notes
- When it gets sent down to the committee I'd ask or invite the discussion here
- Wonder why we're outlawing retroactive honoraria and checks
- Don't know why you need a special exception to get a check
- Can be available, not sure why we're making it difficult to be available
- Think there's opportunity for a clause to be added
- Outlining that if the honorary earner feels that their honoraria has been wrongfully docked or entirely struck, the earner has the right to appeal to the Judicial Council.
- Know that that's there in legal code, section will be reviewed by a lot of people, if you could point to where that is that would be helpful
- This is my checklist for in committee
- Won't be fixed here

Jones

- We're not outlawing checks or adding a different avenue for requesting one
- For purpose of modernizing it, doesn't make sense for that to be first option
- Point is to modernize it
- Do realize some students do need checks
- Didn't want to get rid of it completely

Sussman

- I'll also add that Michael and Vincent have told us that in the future with the new system, they're looking to eventually get rid of checks
- In regards to JC, stipulated and we talked to chair under section 7, if someone feels their honoraria has been wrongfully deducted they can appeal before week 10
- Josie said they want an extension since case may take much longer
- Wants extension for JC to have it done by week 2 of the next quarter
- Deductions are largely on attendance

Pascher

- Would that not also have to be outlined in legal code, exceptions to the process?

Sussman

- Wouldn't be included in this bill
- Being that we're delegating task to JC, could be a simple bill
- They understand their duties following their bill

Pascher

- I'm hesitant to delegate duties
- Have concerns about who's checking the chair
- AS1

Sussman

- The advisor is working closely with chair
- Not only to facilitate honorarium allocation forms
- But to conduct attendance
- The advisor, Michael, Vincent, Sean have been saying
- Advisor will work on evaluation form
- And evaluate fulfillment of duties for chairs as well
- If they're not doing well, advisor will recommend deduction
- Unlikely to happen

Holly Dunn

- Just wanted to add additional context to you all, discussions me and Marissa have had
- Some patterns that we've brought to you all are overarching issues that inform this legislation
- Idea originated from other senators
- What we're hoping to see from you all resolved is just the challenges we have cycle after cycle after an honoraria comm is appointed
- Now we have a whole association not given honoraria
- Marissa and I will get 80 emails a month of people in financial need seeking their honoraria
- When there's not a committee in place, it really impacts the association when there's been inconsistent guidelines
- Last year, chair may have had X requirement and this year something different
- Different opinions amongst advisors around honoraria in general
- Some people argue that if you're appointed to the position, if you complete the work, that you should be paid, and the process of having a review can introduce bias, and really can result in a situation where somebody completes work and then they don't get paid for it
- Ethical issues that arise from that
- Some advisors recommend there be different layers of review
- If someone doesn't show up, impacts people
- Patterns that have raised over last few years, seek to resolve
- Biggest issue, impact when honoraria committee doesn't reconvene in timely fashion
- Impacts students that rely on honoraria for basic needs
- Can refer them, but that was the basis of recommendations brought to you all
- Really the foundation of it is what do we if there's no committee and you guys are generating that and students need to get paid

Pascher
- Don't wanna rush through this

Back at 9:52PM
Pascher
- I think there are some discrepancies that are my own. In my opinion, this is needed but I'd just like to go line by line and i understand here is not the place to do so

Lala
- Much appreciated Senator.

Ly
- Do the authors have a committee they would like it to be tabled to?

Sussman
- I think the finance committee. We already have amendments to this bill that are procedural and I go over that with you publicly

Lala
- Do you think finance has the ability to handle this?

Jiang
- If it's just amendments, that's fine. I do think maybe Senator Pascher has more comments on the bill.

Sussman
- Neither of the Liaison Committee chairs are here tonight

Motion to refer A Bill to Modernize Honoraria to the Finance Committee
Sussman- Hepburn
Call to question- Claro
This motion passed at 9:55PM

A Bill to Institutionalize Rate My Landlord Developers Within the Associated Studen...
Luken-Hepburn

Luken
- This was spoken about by the IVP when he was at the podium. It's super cool, everyone should read through the legal code. If there are any small amendments, that's totally welcome.

Hepburn
- I concur.

Ly
- Are there financial aspects of this? I know it's 3 numbers of the association, would the 3 career developers be getting honoraria?

Luken

- That is a good point. Yeah, I think we would need to add fiscal impact but I'd like to confirm with the EVPLA to see how he wants to adjust it

Pascher

- It has been precedent not to legislate as such into legal code, whether or not that's the opinion I hold so I'm wondering if the author code speak to why this is in the shape of a bill?

Luken

- The idea had been developed outside the association, and the EVPLA had talked to them to make them more institutionalized. This is a project the EVPLA is willing to take on and this ...
-

Sussman

- Would the authors prefer Liaison or Advocacy committee?

Motion to refer A bill to Institutionalize Rate my Landlord Developers Within the Associated Students Office of the Vice President of the External Vice President of Local Affairs to outreach committee
Luken- Claro
Called to question- Harter
Objection- Malhis

- I feel like given the content of what's going to be added to the EVPLA's legal code, I feel like advocacy fits this best. It's already been outreached enough but I feel like advocacy can show us how to support the students the best. If the chairs of advocacy are in agreement of having this be passed , just because they are the author of the bill and outreach committee

Lala

- Okay I want to get out of here promptly and not spend 1,000 minutes on it. Senator Harter, you can rescind and we go back to discussion, or you can rescind objection and we go through with it

Call to question rescinded- Harter
Back in discussion

Lala

- Please, if you object to something, you don't have to say the objection in the procedural section, but more generally in the objection section. That is what discussion is for. We can then discuss it and move on when we are ready.

Pascher

- This can be tabled to advocacy after. This can come back to the body and then referred to advocacy

Sussman

- It's encouraged that other chairs go to other committee meetings so it's not out of bounds

Luken

- The outreach committee hasn't seen it yet. We are going to have to be advertising this in committee. I'd be happy for it to go to advocacy as well or I'll rescind my motion.

Lala

- You can amend the main motion

Call to question- pascher
This motion passed at 10:01PM

D) PUBLIC FORUM
[1:30]

Speaking agreements:
"You have three minutes to speak, with three minutes for Q&A. Please state your name, pronouns, and enunciate, but refrain from yelling. Speculation of a Senator's intentions is prohibited and may result in your removal from the ability to speak on the floor. Please know this meeting is being recorded. You may speak on any issue, whether it is on the agenda or not. Please include a content warning if it will be graphic. You may only come up once, and you may choose not to answer questions."

1. Aryaman Singh

(7:59PM)

- Used to be finance chair last year, was also engineering senator
- I've been building Mapache, supposed to be resource for students to get proper information on how this campus works, what association provides and how UCSB works as a whole
- Last week I conducted live testing at senate outreach committee
- Got the four testers from yik yak or snapchat
- Going to quickly go over what they said
- Zach said it was great
- Nicole same thing
- Matt was focusing on things bot did not know, like what does MCC do on this random day, or how do I pay my tuition
- Things that bot does not know
- He told me this is terrible, understandable because his experience is negative
- When you look at it closely, highlights another property of the bot
- When it doesn't know something, it tells you, I don't know
- Guide you something to things that could be relevant

- Matt asked about food insecurity issues, bot said you could contact COSWB or BMHC
- Thought that was really interesting
- Andreas, similar thing
- Common weakness or thing everything said was that the training beta was not complete, it doesn't know everything

Motion to extend speaker's time up to 5 minutes.
Harter - Malhis
Call to question - Claro
This motion passed at 8:02PM.

- 2 strengths of system, had zero hallucinations and that missing info is extremely easy to fix
- Took me 10 minutes to search up, add to data, and it would then know
- Weakness, had no memory, something I've been working on for past couple of days
- Data showed exactly what we needed to see
- Data is safe, reliable, useful
- Working on institutionalizing it as a resource students can go through for any resource

Malhis
- Looking through docs
- A little bit of them are outdated in terms of finances
- We're launching Microix, a software where people can check their AS finances live
- The status to get authorized access, it's no longer submitting a physical form
- If you can find a way to adjust it to including Microix, but making that change

Singh
- For sure, if finance committee should just share that information

Luken
- Want to make everyone aware, the minutes from that meeting, the reviews are in the folder right now
- How would you go about institutionalizing this, and what would the cost be?

Singh
- I think the best way would just be that you have someone that's not only in the IVP office, but on the staff end as well, that is there to manage this
- And I'm not talking just about the system itself. I'm talking about the information it has access to as well.
- Think there needs to be testing to find out if it has more knowledge

- Maybe having a small committee of senators or students going through this again
- I'll also be here for a 30 day warranty period
- Assuming there's a lot more details we'd have to go through
- The price, Harter and I discussed, around 15-20 thousand but we can get it down

Paris (8:07PM)
- Here repping WORD magazine and IV arts as a whole
- Here requesting update on money that should have gone to IV arts

Lala
- There's a forthcoming motion this week or next week

Paris
- This has been on agenda full quarter, we rely on the money

Lala
- We went to UC office of president level, not actionable on our end until we received official documentation, and now we received official documentation and will be acting on it

2. Enri Lala – 65 Del Playa Living Conditions and In support of the Rate my Landlord Project

IVP Lala (8:08PM)
- Here addressing you guys as a fellow student tenant neighbor
- Last Thursday, an old problem revisited, the ceiling of my 65 Del Playa room began leaking
- It not only reached bed, furniture, other equipment
- Per usual, not even a response from my landlord
- Saw situation was getting dangerous, left room and spent night in my office in AS main
- Woke up next day, housemate texted that roof was done for
- The water pressure made the ceiling cave in and left behind a gaping hole
- Same ordeal from years ago
- Water damage, mold, other consequences
- My parents made it clear it wouldn't be tolerated, the landlord lied through his teeth and saying that had been dealt with, it would not be repeated
- It's the same negligence which has continuously put my life and that of dozens of other residents in a 65 DP building and throughout IV callously at risk, and it's the same negligence that when faced with the only question that came to mind, what would you do if they were your son living in these conditions?
- Had no response, because there's no way to argue around this. This negligence was shown by my landlord, Bob Lovgren, and it's time to address this issue head

on with full names as students elected by our peers, it's our duty to raise our voices
- It's our duty to seek justice
- To make it clear that it's not acceptable to make students living conditions that are dangerous
- Spent first 11 years of my life in Albania

Motion to extend speaker's time for 5 minutes.
Harter - Luken
Call to question - Ono
This motion passed at 8:11PM.

- One of the poorest countries
- Capital income is one tenth of SB county
- Parents and grandparents lived in most severe communist conditions
- This problem is not caused by lack of wealth, but lack of will
- Lack of will by landlord class to create livable and comfortable conditions
- If they're unwilling, it doesn't mean that our hands are tied
- Means action on our end is imperative
- Only so much a tenant can do
- We as an association can change landscape of housing
- For years, staff and student holding members of the association have been talking about a forthcoming have been talking about a rate my landlord website
- Talking with Sean and EJ Raad, this crucial tool is finally within reach, is a bill that would make this a permanent part of our legal code
- Allows students to make more informed decisions
- Information more important than choosing courses, the quality of the air you breathe
- Will signal to students that we're not ephemeral, long enough for exploitation and short enough for no accountability
- The landscape will be different, because there will be a permanent record of landlords in the treatment of tenants and a local community which will actively engage with and build on this tool
- Of course this is not the last word for student activism, this problem won't be solved until those who live here have real representation
- That will come in form of city government
- We must lay out the groundwork necessary to make this reality with safe, accountable Isla Vista housing beginning now, with the first steps in this front
- We would be making our strongest step yet for our second right in constitution, laying out that all students should have right to affordable housing

Luken
- Developing the rate my landlord site is going to be a big step

- You're the second person today who has mentioned the city of IV, and I want from your opinion, as someone who's been in the Association for a while, how do you see the association working with relevant members in the community, in IVCSD, for example, to move forward?

Lala

- I have only part of the picture and from ASN
- But you can show up to IVCSD meetings, you can appeal to the county
- They'll be crucial here
- You can help in the research effort
- Most crucial step is that it'll require funding
- What better sign of our commitment to our community than allocating our budget to something with extensive benefits like this
- Part of it is allocating funding to show that we're a part of this
- Will establish this buy in for future generations, who will feel the city of IV belongs to them directly

Senator Hepburn for Speech Forensics team and Debate Team (8:17PM)

- Two motions will be made later this meeting
- One for each club
- First, speech forensics, last wednesday we approved up to 7k for their tournament last weekend which was great success, 18 students
- However, finance committee, for reasons unknown to me, did not even talk about it in their most recent meeting
- Thousands of dollars we're spent out of students bank accounts with no requisition
- Contacted all 3 members on senate finance committee, didn't get adequate responses
- If we continuously wait for finance committee, thousands of dollars taken out of their hands
- Specifically texted them speech team went for cheaper hotel
- Did it out of original budget, don't have it back
- Second, debate team
- Rejected at finance committee for one reason, hotels, think it's unfair
- Obviously I prefer finance committee do this, not trying to place blame on people
- Sorry for any misunderstanding, not trying to speculate any intentions

Chairship yielded to IVP Lala around 8:20PM.

Motion to unanimously consent to move into Item I5 Executive Director's Report. Passed via unanimous consent at 8:22PM.

Back at 9:22PM
Speaker
- I am here representing COC as outreach and recruitment coordinator.
- We are asking for more money as our with our honoraria already passing that being 10,350, we are already in debt
- We also paid for the chair's meeting earlier this quarter
- If you take that to the account, we are now at 11k. We are well passed our budget
- I'm asking for more money for our quarterly meetings that will reach many students.
- Lily and I have come up with estimates for our events. We planned it all to cost 2700 with more events helping to increase diversity within AS and having people join. That includes matchmaking events, vision boards, just activities to helps students get more involved in AS overall. We also need tabling supplies. I actually had to donate from committees on committee a white table cloth. 800 for a table cloth, snacks, supplies. That includes other tabling
- All this together would rack 6700 but we are only asking for 6000 because we think we can budget correctly in our situation

Luken
- Can you clarify the exact total amount you are requesting and from where

Speaker
- Unallocated and 6k
- At the most, we plan on having 6700 but we believe with good planning we can do the job just fine with 6k

Sussman
- The doc they provided us with allocations in on the agenda

Malhis
- What have you guys spent your money on

Speaker
- There is a link on the top of the form that will lead you to that spreadsheet
- We have spent on fall and summer honoraria as well as honoraria and we plan to have all our positions filled so thats an increase in honoraria
- We also spent more in the chair's meeting which is way passed our budget this year

Manakova
- I'm confused how honoraria already exceeds the budget. CoC always runs out of money.

Speaker
- I can't talk for CoC before my time. I just joined the board

Manakova
- How many positions are there

Speaker
- There are 8 right now, but we plan to fill liaison and pearman fellow

Unanimous consent to move in Exec officers report at 9:26PM

E) Acceptance of Agenda

Motion to accept the agenda as amended
Sussman- Ono
Called to question- claro
This motion passed at 11:07PM

F) Consent Calendar

G) Action Items

76th ASUCSB Senate 11/19/2025 Judicial Council Advisory Request

Lala
- This is something that has been drafted by my office but is only adopted if the senate votes by a ⅔ majority. It does not make anything happen concretely, it is merely requesting the Judicial Council to comment on the Policy 10 question per the last senate meeting in relation to the relevant constitutional amendment and whether removal from office for non attendance or failure to perform legal duties is constitutionally allowed. We can allow for some discussion but yeah

Luken
- Until everyone's clear about why we would want this requested from Judicial Council, I don't personally see a reason to request this from Judicial Council. I would love to strike this from the agenda so more people know what's going on and until we can have discussion on it. That's my thoughts.

Lala
- Fully heard Senator, but it has been on the agenda since it was released. It's the duty of every senator to know what's on the agenda

JC Member
- Its ¾ voting membership

Lala
- Right, thank you.

Luken
- I understand but the exigence for having it on the agenda, I think would be helpful for everyone to know. I would love if someone motioned to strike

Motion to strike the 76th ASUCSB Senate 11/19/2025 judicial council advisory request from agenda
Luken–Pascher

Malhis

- I looked at this earlier. Who wrote this and I feel like there wasn't conversation in the senate about writing this as a whole. I don't think there was conversation. I wanted to open this up for discussion for a little bit.

Manakova

- I thought we discussed this last meeting when we had Attorney General Iden on the screen, and I thought we were all in consensus that we wanted to hear from the Judicial Council.

Lala

- Yeah to be clear, this was discussed and the language in here is explaining the matter at hand. Just to clarify. Malhis, you have spoken twice.

Luken

- Not on the motion

Lala

- I don't think that's correct

Luken

- I think its per motion

Claro

- Point of order to the Parliamentarian, is this all procedurally correct?

Lala

- Do you understand that its two times on the item at hand or the motion?

Pascher

- This is all discretionary to the chair, this is standing rules.

Lala

- It's Robert Rules

Pascher

- No, it's standing rules discretionary to the chairs. That is what Attorney General Iden has said in the past.

Lala

- Okay, clearly the Parlementarian does not have an interpretation so let's move into a handvote. A yes is concurring with the chair's interpretation that it's two speaking twice on the item on the agenda. No, would be to sustain the senator's objection that it's on the motion of that item. An abstention would be an abstention. Are we all clear?

Handvote
Yes-
No-
Abstain-3

Lala

- I guess Robert's Rules does not exist. We can carry on now.

Luken

- I was just going to apologize because I was not here when the Attorney General spoke so if you guys vote no then that's fine. I thought no one was aware of what was going on, but I'm good now. Thank you for letting me know.

Jones

- This doesn't bind us to any past action
- I'm just curious, do you guys have opposition to asking for advice?

Malhis

- Personally I don't have any opposition to asking for advice.
- Just relaying what actually happened last week i dont think the senate actually was in entire consensus in asking for judicial opinion. We just got the Attorney General speaking and senate leadership was like we need more information, and all of the sudden this occurred on the agenda. I feel like we just went really fast on this and that's why I wanted to open discussion, just to clarify what was happening.

Sussman

- We only have 52 mins in this room and we have to go into closed session per Attorney General Iden. I would recommend we either vote to ask the Judicial Council or we don't.

Pascher

- I have read this and I think there are things missing in this advisory request that we did discuss, so that's one thing. The nature which appeared on our agenda should be discussed. There are a lot of things that need to be discussed in closed session as Senator Sussman said. I don't think we should be rushing through our agenda because we are on a time limit. I think there is a lot wrong with this and it requires discussion. times limit.

Luken

- Per Roberts Rules 437, no member can speak more than twice to the same question on the day. And per 4310, this clarifies that each separate motion is a separate question. Robert's Rules clarifies it's twice in the motion.

Pascher

- Point of order. We are in discussion on a motion

Lala

- Yeah. Our standing rules can supplement Robert's Rules. Senator Pascher was right all along.

Second rescinded- Pascher
Motion rescinded- Luken

Motion to adopt 76th ASUCSB Senate 11/19/2025 Judicial Council Advisory Request
Sussman- Manakova

Pascher

- I was under the impression we would go into a closed session to discuss this. I would really encourage us to not pass this or vote on this without discussing this in closed session. There is a lot of context that is missing here.

Rescinded second and first

JD FINAL DRAFT

Luken

- This was what the executive director search committee has been going over. This is the final draft from the president with input from everyone on the search committee. I would personally recommend that we table it to a committee so it can be more thoroughly looked at.

Pascher

- Point of information. Can you refer this to multiple committees?

Lala

- Not at once, but you can.
- I'm pretty sure the president wants this rather promptly

Motion to refer JD Final Draft to Liaison Committee
Ly- Sherkin
Called to question- claro
This motion passed at 10:13PM

Move to affirm UCOP's proposed transfer of funds based on the unique circumstances of the IV Arts situation, namely its erroneous integration as an AS Entity, and the resulting IHC/IV Arts' incompatible management system, with the sui generis nature of this situation rendering it inapplicable to any AS fees
Sussman

Lala

- This has been in discussion with the administration for a while and the associated vice chancellor of student affairs. This is on the IV Arts situation. This was word of mouth and a segment of text to motion on this and give the full fees to IV Arts.
- I did my due diligence and said the part, but I can't tell the senate to motion on something that was word of mouth. We need the actual document. I'm sorry this is not on the agenda, I couldn't access that. I think it would make sense that you ask for the document in full before voting. That's the idea, as u know, iv arts has been here several times. The latter part of the motion makes it clear that it's unique and not applicable to any AS entity because this is a one off situation.
-

Ly

- Since the document isn't attached, and you told them that it would be passed this week or next week, does it have to be done today?

Lala

- No

Sussman

- We are not meeting next week for Thanksgiving. Surprise we are not meeting next week, congratulations. It will either be this week or week 10

Lala

- If you want to have a document included with this, you would just not second and let it die

This motion dies

G-2) Old Business

A Resolution Calling on UC President James Milliken to Reinstate Recurring Meetin...

Discharged out of Outreach Committee with amendments

Lala

- We should figure out who speaks when it was discharged

Luken

- The only amendment was to add a nonbinding whereas clause. I don't know why my committee made that.

Pascher

- Its missing "and" is all I'll say. Forgive me if you spoke to this last time, did this pass at other UCs? It's not binding but I'm curious

Sussman

- This is a UCSA proposed resolution so this is across the UC system. Last I checked with President Metzger, other UCs were in the process of passing it. We will be one of the first, if not the first, but other UCs will be passing it.

Sherkin

- Just a point of clarification on whereas clause that was amended. When it says the associated student senates are an integral part and then it goes on, does it mean the senates in other UCs?

Hepburn

- This is all Harter's idea so it's a shame he's not here right now. The whole point of the amendments is that the senate wasn't mentioned at all in the resolution so the idea was to give the senate credit that they were credible and important. That's why we got it down to a whereas clause. It means that the Associated Student's Senate's of all UCs are important. It's not binding.

Luken

- Is it necessary to open it and fit the formatting?

Abstain-3
Motion passed at 10:24PM

Bill to Cap Uncapped Positions Discharged out of Liaison Committee without amendments

Ly

- I think the only two changes made were to change AS food bank to OSL Seal and specify for the Attorney General's office caseworkers. Wait sorry that was what was already made, i don't think there was any amendments made

Pascher

- I'm very confused Senator Malhis why SEAL is included in this. It doesn't seem like you are capping any positions of food bank

Lala

- OSL was the previous name of SEAL so she is updating the name

Pascher

- So why is it included in this bill?

Lala

- It's just cleaning up. It's like making finance and business into finance.

Sussman

- It's also reflected in the bill to remove legal code. It's essentially the same thing

Malhis

- I would suggest a motion to take this back into Liaison after talking with CCO and the second of the bill. They forgot to motion some suggestions that we wanted

Lala

- It also says the 75th senate which is inaccurate. It doesn't make sense and sending it to the same committee is odd

Pascher

- I'd like to see this go to the outreach committee and I'd like to ask if this is an extensive review of legal code when capping all positions of legal code. I would assume not so I also share the same sentiment that it shouldn't go back to the same committee if it came out wrong

Malhis

- CCO and I have gone over every entity inside of AS to see if there have been uncapped positions. The ones we found were the only two cases

Lala

- This can also be found on parentheses clause under CCO website

Sussman

- I sent this report to the CCO, and it's only for these BCUs and entities.
-

Motion to refer a Bill to Cap Uncapped Positions to outreach committee
Ly- Sussman
Called to question- Claro
This motion passed at 10:28PM

A Resolution to Establish Standing Policy 44: Use of Artificial Intelligence and Large ...

Discharged out of Liaison Committee with amendments

Jones

- The only amendment made was adding a footnote citing what AI model was used and for what purpose, including the prompt that was put in to illicit the response

Luken

- What does F subsection A mean? "When implementing AI footnotes in areas that use AI, must be used for their specific AI purpose"

Pascher

- I personally don't have any objection to B but i would share the same sentiment

Jones

- The intent behind that was to show exactly what parts were AI generated and which parts were original. A specific whereas clause derived out of AI is to show that it specifically was written by AI.

Lala

- So you have to cite every instance in which you used AI?

Jones

- That is what Liaison wanted

Sussman

- With the authors would you both be ok with the policy numbers being changed? I still share the same concern two weeks ago saying that the senate does not use AI to interpret legal code in substitute of the attorney general

Hepburn

- I agree with Sussman and that A needs to be reworded. I also have an issue with B saying the prompt utilized should be listed, but so often multiple prompts are used and it's a conversation with chat. Also there is no way to trust the information from chat and not gemini. We know all models hallucinate.

Luken

- For the numbers that's just our decision. If this gets referred to add that or if its passed in a separate bill, that works because I think that would be a good clause to add

Motion to refer a resolution to establish standing policy 44, use of artificial intelligence to the outreach committee
Sussman- Luken
Called to question- Ly
This motion passed at 10:32PM

[Debate Time Per Item- 15 Minutes]

H) Recess

Entering recess at 8:59 to return at 9:14PM.
Back at 9:19PM
Unanimous consent to move into excused absences

Report Speaking Agreement: Pursuant to Senate Standing Rules Section F, clause 5, officers of the Association providing reports, must take questions from Senators relevant to the matter(s) or project(s) presented. Knowing that, do you still wish to give a report?

I-3) Unit Reports [Speaking time not to exceed 10 minutes] -

I-4) President's Cabinet Report-
I-5) Executive Director's Report-
Sean (8:22PM)

- MIP has entered onboarding stage
- Progress is being made
- Senators in charge of accounts will be getting emails soon
- Things are moving along thankfully
- Very random one about sustainability and bills
- Think about with committees or new appointments, or new standing policies
- Think about distribution of power and choke points
- Came to mind because of the previous system of honoraria, we had an issue with honoraria committee many years ago when an IVP didn't appoint anyone, and things ground to a halt
- Because there was no secondary situation, no backup

- Just a recommendation, if you can, when building new parts of legal code, to add those failsafes
- If this person doesn't do xyz, this doesn't happen
- This is not in particular on anything, just something that comes to mind
- Something to what division of SA has been speaking about, department of arts and student life division has increased connection and having meetings
- Our finances are our own, talking about our own financial system there
- On their website, you can see the other departments that are apart of this reformed cluster
- Office of Black student development, engagement, early childhood care and education, non traditional students
- Office of Student Conduct, the Multicultural Center, orientation program and parent services, RCSGD, SEAL, Stark student publications and women, gender and sexual equity

Pascher
- Is there any way an honoraria committee can exist with modern mechanisms or does it have to be the stipulated bill like on tonight's agenda?
- I understand this is a collaboration between multiple people and Finance Committee
- Is there any way the honoraria committee exists and maintains autonomy and student fees without delegating that?

Sean Lieberman
- The delegation to other people like a staff group is a little bit different but it makes things easier in some regards
- Complicated, Holly and Marissa are more involved in that
- There are proper ways it can work both ways
- Which one is faster, more equitable, who's submitting honoraria request
- Don't have clear answer, sorry, see your point

Luken
- Said students and staff here have been absorbed in this cluster
- If that's the case, if the Associated Students is the department on campus that is run by students, but staff are being clustered within student life,
- Who are the staff really beholding to?
- You would hope that across campus, administrators are beheld to students, but if you go to campus dining that's not the case?

Sean
- When I started as interim, we weren't a cluster, we still reported to Margaret
- The only difference I've noticed is more collaboration
- My interactions with senate and executive have remained the same, the student leaders have all met with mike miller the entire time as well
- Not like there's an extra step of well I got to talk to Suzanne

- That level of extra exposure does not exist
- Collab with rest of division has been ideal, no additional constraints or pressures
- I definitely hear your concern about this
- It's just been more collaborative with staff and other parts of division of the campus
- Which has been good, we're not siloed in my perspective as much as past years

Claro
- You guys mentioned that no financial procedure would be interfered upon by new staff rework
- Don't staff, pro staff, have now a veto power on AS's financial decisions
- For example, if we do pass a new student fee, and pro staff sees it violates a financial code, why can't that determination be done by students?

Sean
- That determination would be done by students
- UCOP would be like what are you doing
- For everything that goes into our ballot, we send to UCOP long before it's on our ballot
- Happened years ago with the grammarly, that was rejected by UCOP
- UCOP has to check everything to make sure it goes with our policy
- It happens ahead of time
- Wouldn't happen after the fact
- If you have an example, open to hearing it

Malhis
- How many AS staff are flex card holders?

Sean
- Think we've got maybe 5, maybe 6, not that many

Malhis
- How many flex cards exist in AS staff?
- Is it one according to each

Sean
- You can't have more than 1 flex card
- A flex card is a credit card staff can have that you can purchase something in a moment that's more timely
- Still need requisition and minutes, can't use on travel, food
- Can get a last minute item like if I need an IPAD

Motion to unanimously consent to move into Item I8 administrative reports.
Passed via unanimous consent at 8:34PM.

I-6) Executive Officers' Reports

Tyler

- Just here to give an update on the campus election meeting that took place today the main point of discussion was sustaining services fee. That would be the 18 fees that have not been adjusted for inflation. Proposed increases come out to 40 a quarter for undergrads and 17 for grads. That is an increase of 10% for undergrads. They are proposing one big inflationary increase in their fees. That is a huge financial burden on students who are already struggling during these times.
- All 18 proposals are cost of living adjustments. These inflationary rates were calculated using CPI
- The committee was told not to judge the validity of the proposals, but that the proposals are reasonable to put before students. My personal input was that is seems very passive to not judge validity and just judge things as fair and neutral
- Are our fees being used effectively right now. When we are passing one blanket fee that is a 10% increase on students I feel like there should be a more thorough process when looking at these fees. Since when we voted, it went 6-1 opposed
- Did not go through each fee individually and analyze them and how necessary or how those fees agree with benefit. That is a key detail for me
- I believe if were just putting the fees in front of the students a lot of them
- A lot of students don't have the time to research and see if they are being spent effectively. It should be our job to do so
- The fee passed 6 in favor 1 opposed. The proposal can now send for signatures to be on the ballot
- I am the student fee advisory commissioner

Luken

- Thank you for coming, this is very important information
- I think as a student, it's definitely your place to have an opinion
- Please bring ur opinion to us because we find it relevant
- Does the senate or associated students get a say on this or if it gets the petitions, it's automatically put on the ballot?

Tyler

- Now that its passed these organizations are allowed to go out and provide a QR code
- Students can sign or scan QR code and from there, they vote on it

Luken

- Do you have a vote on the campus election committee?

Tyler

- Yes

Ono

- Are the fee increases were proposing going to be annual or will they still the same

Tyler

- Currently its every 5 years, its adjusted for inflation
- This would be one increase for all the years that it hasn't been
- For the years going forward it would be adjusted every year
- It is also changing from every 5 years to every year after

Lala

- This is now at the stage where campus fee collection is receiving signature

Tyler

- Now that’s its passed, the organization can go out and get votes

Lala

- What is the signature threshold to be put on the ballot ?

Tyler

- I don't have the number

Lala

- 100s?

Tyler

- Not sure

Pascher

- I had the same question and when is the deadline for the allotted signature count

Tyler

- I believe sometime in winter quarter

Pascher

- A simple email to senate would be really great

Lala

- You said there were 6 for and 1 against and you were the 1 against right
- Quick point of pride there

Tyler

- yes

Claro

- Thank you for coming. I have a couple questions in terms of requirements in a fees success in utilization?

Tyler

- I had that question and they provided a brief description of how each fee would be used for each organization. When it came to voting it just was not used at all

Claro

- That is assuming these fee increases are valid because they are being utilized correctly

Tyler

- Yeah

Lala

- Do you have another guidance from the meeting from what the associated students or members
- Are there any relevant regulations there or can members of the association make their voices heard

Tyler
- Not that i'm aware of

Malhis
- For clarification, these fees are those that are designated to organizations such as CLAS, arts and lectures, office of student life that fall under the 240 that students pay every year

Tyler
- Its like 480 and 600 including return to aid

PR director
- Hello, I am PR director for all of you
- I am going to talk about our role, what we've done this year, and the account, and something else
- Basically what we've done since the summer is revive the senate and ivp instagram account. Received 200 followers in two months. Increased the senates account visibility on campus. Introduce ourselves into the media sphere within UCSB.
- Using the hashtag ucsb matters apparently. Increases our nonfollower use
- The content that does increase engagement is announcements, deltopia, ILP, deltopia, meal reform
- You senator introductions should be going out after thanksgiving
- If you read my email thanks everyone who did, 14 ppl filled it out
- 8 of you, please get that in, or you won't be posted or publicized
- Let me know if you're not going to because it took all year to get 16 people to do the form
- We are going to prepare our winter quarter content calendar
- One month of awareness, advocacy, and action
- We will fit your senate spotlight into each category. Also we are looking for ideas for each of these campaigns. I was thinking of sharing our content calendar with you guys.
- Senate spotlight, that you all read, includes your form for the vision of the senate spotlight. Get that done before christmas. This is your only chance to get ur initiative out
- PR overview, the senate instagram is a unified quorum and unbiased message to students. We highlight your work and individual accomplishments but it's mainly a resource to let students know what's happening on campus. And to build your trust because it's been years of distrust and unreliability
- We also need to present the body as organized, consistent, and credible so that's why we've been creating this brand for the past year

- In my experience, everyone criticizes you guys. Staff and students, and they really care. Please decorum behavior in messages. They hear you as a whole and they will critic you
- Attend all the events you guys can, consistency is crucial. Instagram is your brand, not your account. Senate as a whole is the account
- Let's talk about consistency
- You guys did the state of the association. I was there taking pictures, 12 senators went, thank you for representing AS. If you failed to come its disappointing
- Everyone critiques everything. This really affects how AS members see you guys
- Your credibility the way you guys go to the event you passed is very important
- Go to an event you guys passed type of thing, take pictures and send it over
- Legal code, why do I exist
- The account is for the PR media people, we work under IVP, we work along side senate pro-temp about what bills get posted
- We have a structure now for ur bills and resolutions that are being passed
- I have to watch how you present yourselves and how the audience perceives you because it's important sometimes
- Professionalism, this account reflects the legitimacy of your branch
- It's really important to stay consistent on what your issues are
- If you have updates on your projects, you can bring it over to me
- It's a communication risk, we like to have everyone on the account
- We evaluate all the content that goes out
- We have to know the information that can be shared, context, and what gives damage to the senate
- Anything can create a liability
- Pascher you did the release for the library and you goes voted on that so that's why we posted it

Pascher

- Yes

Oseinu

- We posted that.
- This isn't an individual account.
- We have to stay accurate and transparent because fortunately public affairs are a big thing
- They really don't want to post AS stuff, they want to see the value of being an AS member
- That is why we shifted the tone. We are gonna do that in winter quarter
- The problem with public affairs so far is that
- I understand they have a content calendar but they have to understand that you guys do important things
- Your senate spotlights are very important on what you look like as a senate
- They do evaluate that and rate it difficulty in meetings
- I will be meeting with them before the end of the quarter to try to get one post on their 90k ucsb account

- In terms of collaborating on the account with all of you, we are thinking of a content form that we can give you in an email and that email can be safeguarded

Jones

- I want to walk it back to the state of association comment
- It was incredibly embarrassing last night to be sitting in an event that we passed, and only 12 senators showed up an hour and a half late
- We legislated to require the rest of the association to be there and wrote that if they didn't show up, their honoraria gets deducted. And Yet we didn't show up.

Luken

- Point of order, is that a question

Jones

- No it's not a question.
- But it's something that needs to be said. This is mandatory.

Claro

- Thank you for growing our senates image to the student population
- Do you think you could use your position to let students know about the fee increases?
- You created an audience for AS and do you think your could notify students

Speaker

- These campaigns in winter aren't set in stone
- You can bring up issues to us that we can include
- But we do have specific things on our to do list

Luken

- Thank you for your work in social media
- 200 followers in the last couple months. That was super awesome. I think it was part of the outreach committee handing our flyers to the dorms that Harter and I passed out
- In regards to access, I don't think it makes much sense for the account of be ran by people who are not elected
- I would appreciate your help with getting outreach committee the account

Os

- No
- We will be having access to the account for the remainder of the quarter. That is under legal code. That is a liability and issue regarding public transparency.
- I am third party bipartisan person
- I'm not just saying that, they would have access to all of you are your brand
- Regarding outreach, you can use your own account
- Committees will be getting a campaign because you are all important

Jones

- If a senator or groups of senators wanted to upload something onto the senate instagram, how can they go about that without having access to the password of the account?

Speaker

- We care going to do a google form with content or a drive
- In the winter break, I will have the links with everything we do

Ly

- Point of order, it says speaking time should not exceed 10 mins

Unanimous consent to move into new business

Sherkin

- I wanted to say this when committee of committee spokesperson
- He was struggling with verbiage and there was laughter, it was a little upsetting because we open ourselves up as representatives and it's intimidating on the podium and he mentioned he had a disability so I hope we can consider that and please treat people with kindness, respect and compassion.

I-7) Senator Representative Reports-

I-8) Administrative Reports-

Attorney General Iden (8:34PM)

- I've talked to senate leadership, believe there will be a closed session tonight
- Two brief things
- See your guys' honoraria rework is on the agenda
- Kinda have one main contention, what is a standard of evaluation and who do you want to be evaluating your payment as an association member
- I know chairs will be the ones doing the evaluations
- But the issue with that is you're changing the standard per BCU
- Depending on what chair you have, some might be more relaxed and just pass everyone through
- You want the same standard for everyone to be approving funding
- Oftentimes very hard to evaluate certain criteria
- That's kind of my take on it, but just like a group of people who are more disconnected, which I think is most fair

Sussman

- Can I correct you?
- In bill we have standard deduction section
- Deductions are unexcused absences, 2.75% deduction for each absence, assuming it'll be 9 regular meetings per quarter, haven't adjusted legal code to that
- Incompletion of legal code duties is 10% deduction
- 15% for chairs themselves if they don't attend state of the association
- Not just chairs are submitting these forms, these are being run through Michael and Vincent
- Before sending off the financial operations team
- No leeway which you would've seen in honoraria committee prior

AG Iden

- That might be a pretty black and white interpretation
- Completion of legal duties, there's no way for someone to evaluate that
- It's going to be pretty arbitrary
- No one's going to want to be a chair
- You're probably more inclined to not deduct anything

- A standard category like absences, no one's going to be able to check that, going to be different per BCU per chair
- Most of you guys take legal code slowly, which I appreciate
- But honoraria's a big thing, not concrete yet
- Want to show campus that we're capable to administering funds in a just way
- This opens us up for criticism
- Other thing I wanted to elaborate on, don't believe senate talked about this
- Last meeting, there was a misunderstanding that there was an amendment passed in spring that changed president to presiding officer
- The IVP is still presiding officer of Senate
- Very specific role in Robert's Rules and legal code
- In past, delegating chairship what's used is extenuating and rare circumstances
- Extremely important for IVP to be chairing meetings
- Removing IVP from chairing opens us up to legal criticisms
- Presiding officer is a very concrete dividing term
- Chairship shouldn't be passed around a ton
- You want someone who's going to be there consistently
- When the chairs getting delegated to pro temps, you're just taking out a voting member, someone that's going to be represented by their constituents
- If this is something you guys want to change and do another amendment in the spring, go for it
- But right now, the current standard needs to be that the IVP, who is the presenting officer, needs to be sharing these meetings that's kind of all on that
- Any questions, let me know

Lala
- That was an honest misunderstanding, winter ballot, which got 4% of the vote
- Genuine mistake
- I knew there was something that was not on spring ballot
- Apparently this was that

Motion to unanimously consent to move into Item C New Business.
Passed via unanimous consent at 8:42PM.

J) Committee Report
J-1) Standing Committee on Finance
Jiang
- We have a free model wit the same model developed by previous CCO David

J-2) Standing Committee on Outreach -
J-3) Standing Committee on Liaison -
Ly
- Standing policy to enact res 34 has been indefinitely tabled

- The bill to clean up legal code will be back to the floor week 10

J-4) Standing Committee on Advocacy -
Sherkin

- Today I spoke with representative from undocumented students office including know your rights campaigns
- Emergency text system and including having the
- Having the association help out with making more public spaces into private spaces so federal agents have to have a judicial warrant
- I also applied to be on student advocate general standing policy committee and made the diversity and equity staffers on my committee to be on there as well
- We are gonna be focusing on our undocumented students

J-5) Group Project and other Temporary Committee Reports-
Sussman

- Ad hoc committee to fill senate employee positions
- We need to fill those appointments week 1 of winter quarter
- All the interviews are being conducted in person or virtually

Pascher

- Department of legacy gaucho temporary committee is appointing people slowly but surely
- Senate leadership can you put all the active committees on this for people to see

K) Minutes and Allocations:

To Be Approved

Motion to bundle and approve all minutes and allocations
Sussman- Manakova
Call to question- Ly
This motion passed 10:36PM

L) Discussion Items
Lala

- There has been a situation with the Linkedin Learning program introduced last year. It went unused and it's into December I will coordinate with the associate director of budget because that's just net loss that we inherited.

Sherkin
- It was not used?

Lala
- It was not available to students even though we paid 30k. We would have paid 30k more to december

Jiang
- I thought it was on if we paid 10k or not? Are we going to decide on the options?

M) Appointments and Resignations

<u>Senate Finance Committee</u>

Resignation of Romi Riss as Senator Voting Member

<u>Senate Outreach Committee</u>

Resignation of Vanessa Manakova as Senator Voting Member
Appointment of Romi Riss as Senator Voting Member

<u>Senate Advocacy Committee</u>

Appointment of Vanessa Manakova as Senator Voting Member

<u>El Centro Building Committee</u>

Neo Harter as AS Representative

<u>The Bottom Line</u>
